Accountant's Compilation Report

MAYOR AND BOARD OF ALDERMEN VILLAGE OF KILBOURNE Kilbourne, Louisiana

I have compiled the accompanying basic financial statements and supplemental information schedules, as listed in the foregoing table of contents, of the Village of Kilbourne as of June 30, 2009, and for the year then ended, in accordance with standards established by *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements and schedules, information that is the representation of management. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any form of assurance on them.

Management has elected to omit Management's Discussion and Analysis which is supplemental information required by GASB. If the omitted information were included in the financial statements, they might influence the user's conclusions about the village's financial position, results of operations, and cash flows. Accordingly, these financial statements are not designed for those who are not informed about such matters.

I am not independent with respect to the Village of Kilbourne for the year ended June 30, 2009.

/s Carleen Dumas Calhoun, Louisiana October 6, 2009

> Member of the American Institute of Certified Public Accountants Member of the Society of Louisiana Certified Public Accountants

Notes to the Financial Statements As of and for the Year Ended June 30, 2009

INTRODUCTION

The Village of Kilbourne was incorporated under the provisions of the Lawrason Act. The village is governed by the mayor-board of aldermen form of government. The village provides public safety and general government services to its residents. The village has an elected Chief of Police and one other part-time employee.

GASB Statement No. 14, *The Reporting Entity*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of this Statement, the Village of Kilbourne is considered a primary government, since it is a special purpose government that has a separately elected governing body, is legally separate, and is fiscally independent of other state and local governments. As used in GASB Statement No. 14, fiscally independent means that the municipality may, without the approval or consent of another governmental entity, determine or modify its own budget, levy its own taxes or set rates or charges, and issue bonded debt. The village has no component units.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the activities of the Village of Kilbourne. Governmental activities, which normally are supported by franchise taxes and other general revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

VILLAGE OF KILBOURNE

Notes to the Financial Statements

Separate financial statements are provided for governmental funds and business-type activities funds. All individual governmental funds and individual enterprise funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the business-type fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, revenues are considered to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgements, are recorded only when payment is due.

Franchise taxes, licenses and permits, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the village.

The Village of Kilbourne reports the following governmental fund:

General Fund

The General fund is the general operating fund of the village and accounts for all financial resources of the general government.

The Village of Kilbourne reports the following business-type activity fund:

VILLAGE OF KILBOURNE Notes to the Financial Statements

Sewer Enterprise Fund

The Sewer Enterprise fund accounts for the operations of the village's sewer system.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in the government-wide and business-type activities fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to the same limitation. The village has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity is eliminated from the governmentwide financial statements.

Amounts reported as program revenues include charges to customers for goods, services, or privileges provided. General revenues include all taxes.

Business-type activities funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the fund's ongoing operations. The Sewer Enterprise Fund's operating revenues consist of sewer fees. Operating expenses for enterprise funds include the cost of services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting these definitions are reported as nonoperating revenues and expenses.

C. Deposits and Investments

Cash includes amounts in demand deposits. State law allows the village to invest in collateralized certificates of deposits, government-backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government-backed securities. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. At June 30, 2009, the village's investments consist of a nonnegotiable certificate of deposit with an original maturity that exceeds 90 days that is reported in the accompanying financial statements at cost.

VILLAGE OF KILBOURNE

Notes to the Financial Statements

D. Receivables

All receivables are generally shown net of an allowance for uncollectible amounts. These statements contain no provision for uncollectible accounts. The village is of the opinion that such an allowance would be immaterial in relation to the financial statements taken as a whole.

E. Capital Assets

Capital assets, which include the sewer system and improvements, buildings, and equipment are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost. Approximately 96 percent of the village's capital assets have been capitalized at cost and the remaining 4 percent have been capitalized at estimated cost based on the historical cost of similar assets. The Village of Kilbourne maintains a threshold level of \$500 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not capitalized.

All capital assets are depreciated using the straight-line method over the following useful lives:

	Estimated
	Lives
Infrastructure - sewer system and improvements	25 years
Buildings	40 years
Equipment	5-10 years

F. Fund Equity

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change. At June 30, 2009, the village's governmental fund balances were unreserved and undesignated.

G. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures, and

See accountant's compilation report.

VILLAGE OF KILBOURNE

Notes to the Financial Statements

revenues, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

2. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budget Information

The Village of Kilbourne uses the following budget practices:

A General Fund budget prepared on the modified accrual basis of accounting was adopted by the village for the year ended June 30, 2009. Encumbrance accounting is not utilized by the village. There was one budget amendment during the year ended June 30, 2009.

3. DEPOSITS IN FINANCIAL INSTITUTIONS

At June 30, 2009, the village has cash and investments (book balances) as follows:

Checking accounts	\$44,598
Investments - certificates of deposit	11,231
·	
Total	<u>\$55,829</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. At June 30, 2009, the Village of Kilbourne has \$56,179 in deposits (collected bank balances). These deposits are secured from risk by federal deposit insurance.

4. RECEIVABLES

The following is a summary of receivables at June 30, 2009:

	General Fund	Enterprise Fund
Franchise taxes	\$514	
Accounts		\$2,460
Allowance for doubtful accounts	<u>NONE</u>	<u>NONE</u>
Total	<u>\$514</u>	\$2,460

Sewer

Notes to the Financial Statements

5. CAPITAL ASSETS

Capital assets and depreciation activity as of and for the year ended June 30, 2009, is as follows:

	Balance at July 1, 2008	Increases	Decreases	Balance at June 30, 2009
Governmental activities:				
Capital assets being

Total assets being depreciated,				
net	\$228,571	(\$53,553)	<u>NONE</u>	\$175,018

Depreciation expense of \$3,614 for the year ended June 30, 2009 was charged to the general government function and \$53,553 was charged to the sewer service business activities function.

VILLAGE OF KILBOURNE Notes to the Financial Statements

6. RISK MANAGEMENT

The village purchases commercial insurance to reduce the risk of loss resulting from property damage or liability claims. There have been no significant reductions in insurance coverage from coverage in the prior year. Settlements have not exceeded insurance coverage in any of the past three fiscal years.
