Independent Accountant's Review Report

BOARD OF COMMISSIONERS
LAKE BRUIN WATERWORKS DISTRICT NO. 1
St. Joseph, Louisiana

I have reviewed the accompanying financial statements of Lake Bruin Waterworks District No. 1 (the "District"), a component unit of Tensas Parish Police Jury, as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents. A review includes primarily applying analytical procedures to management's financial data and making inquiries of management. A review is substantially less in scope than an audit, the objective of which is the expression of an opinion regarding the financial statements as a whole. Accordingly, I do not express such an opinion.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement whether due to fraud or error.

Accountant's Responsibility

My responsibility is to conduct the review engagement in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the American Institute of Certified Public Accountants, and the standards applicable to review engagements contained in *Government Auditing Standards*, issued by the United States Comptroller General. Those standards require me to perform procedures to obtain limited assurance as a basis for reporting whether I am aware of any material modifications that should be made to the financial statements for them to be in accordance with accounting principles generally accepted in the United States of America. I believe that the results of my procedures provide a reasonable basis for my conclusion.

I am required to be independent of Lake Bruin Waterworks District No. 1 and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements related to my review.

BOARD OF COMMISSIONERS
LAKE BRUIN WATERWORKS DISTRICT NO. 1
St. Joseph, Louisiana

Accountant's Conclusion

Based on my review, I am not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Supplementary Information

The accompanying schedule of compensation, benefits, and other payments to agency head and board of commissioners and the schedule of prior year findings are presented for the purpose of additional analysis and are not a required part of the basic financial statements. The information is the representation of management. I have reviewed the information and, based on my review, I am not aware of any material modifications that should be made to the information in order for it to be in accordance with accounting principles generally accepted in the United States of America. I have not audited the supplementary information and, accordingly, do not express an opinion on such information.

Required Supplementary Information

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context.

Report on Other Legal and Regulatory Requirements

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, I have issued a report dated May 24, 2023, on the results of my agreed-upon procedures performed in accordance with attestation standards established by the American Institute of Certified Public Accountants, and the standards applicable to attestation engagements contained in *Government Auditing Standards*. The purpose of that report is solely to describe the scope of testing performed on the District's compliance with certain laws and regulations contained in the accompanying Louisiana Attestation Questionnaire, as required by Louisiana Revised Statute 24:513 and the *Louisiana Governmental Audit Guide*, and the result of that testing, and not to provide an opinion on control or compliance.

Notes to the Financial Statements
As of and for the Year Ended December 31, 2022

INTRODUCTION

Lake Bruin Waterworks District No. 1 (the “District”) was created by the Tensas Parish Police Jury as authorized by Louisiana Revised Statute 33:3811 for the purpose of supplying safe drinking water to the population of the District. The District is governed by a five member board appointed by the police jury who serve without benefit of compensation. The District has no employees.

GASB Statement No. 14, *The Reporting Entity*, No. 39, *Determining Whether Certain Organizations Are Component Units - an amendment of GASB Statement No. 14*, established criteria for determining the governmental reporting entity and component units that should be included within the reporting entity. Under provisions of these Statements, the District is considered a component unit of the Tensas Parish Police Jury. As a component unit, the accompanying financial statements maybe included within the reporting of the primary government, either blended into those financial statements or separately reported as a discrete component unit.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Financial Statements

Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements - and Management’s Discussion and Analysis - for State and Local Governments*, provides that special-purpose governments engaged only in business-type activities should present only the financial statements required for enterprise funds. For these governments, basic financial statements and required supplemental information (RSI) consist of :

- (1) Management’s discussion and analysis (MD&A)
- (2) Statement of net position
- (3) Statement of revenues, expenses, and changes in net position
- (4) Statement of cash flows
- (5) Notes to the financial statements
- (6) RSI other than MD&A, if applicable

The District is a special-purpose government engaged only in business-type activities.

See independent accountant’s review report.

LAKE BRUIN WATERWORKS DISTRICT NO. 1
Notes to the Financial Statements

**B. Measurement Focus, Basis of Accounting, and
Financial Statement Presentation**

Enterprise fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Enterprise funds distinguish operating revenue and expenses from nonoperating items. Operating revenue and expenses generally result from providing services in connection with the fund's principal ongoing operation. The operating revenue of Lake the District is water sales and other miscellaneous fees and charges. Operating expenses for enterprise funds include the costs of the services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

C. Deposits and Investments

Cash includes amounts in interest-bearing and non-interest bearing demand deposits. State law limits the District's credit risk by restricting the District's investments to collateralized certificates of deposits, government-backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government-backed securities. If the original maturities of investments exceed 90 days, they are classified as investments; however, if the original maturities are 90 days or less, they are classified as cash equivalents. At December 31, 2022, the District's investments consist of a nonnegotiable certificate of deposit with an original maturity that exceeds 90 days that is reported in the accompanying financial statements at cost. The District's interest rate risk is limited by the investment of funds for periods not to exceed one year.

D. Receivables

Receivables for water sales are generally shown net of an allowance for uncollectible accounts. These statements contain no provision for uncollectible accounts. The District is of the opinion that such an allowance would be immaterial in relation to the financial statements taken as a whole. Past due amounts are written off when they are considered uncollectible by management.

See independent accountant's review report.

LAKE BRUIN WATERWORKS DISTRICT NO. 1
Notes to the Financial Statements

E. Restricted Assets

Certain resources required to be set aside by the loan agreement for debt service are classified as restricted assets on the balance sheet because their use is limited. It is the District’s policy to use unrestricted assets first when both unrestricted and restricted assets are available for a specific purpose.

F. Property, Plant, and Equipment

Property, plant, and equipment, which includes land and the water system and improvements are reported in the enterprise fund financial statements. All of the District’s capital assets are capitalized at historical cost. The District maintains a threshold level of \$250 or more for capitalizing capital assets. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset’s life are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. In accordance with GASB Statement 89, *Accounting for Interest Cost Incurred before the End of a Construction Period*, interest cost incurred before the end of the construction period is recognized as an expense in the period in which the cost is incurred and not capitalized as part of the historical cost of the capital asset.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

	<u>Estimated Lives</u>
Infrastructure - Water system and improvements	25 years

G. Long-term Debt

Long-term debt such as loan payable is reported as a liability in the statement of net position.

H. Interest Costs and Administrative Loan Fees

The following provides disclosure on interest costs and administrative loan fees for the year ended December 31, 2022:

Total interest cost expensed	\$15,673
Administrative loan fees	4,019
Total interest cost capitalized	<u>NONE</u>

See independent accountant’s review report.

LAKE BRUIN WATERWORKS DISTRICT NO. 1
Notes to the Financial Statements

Total interest costs and administrative loan fees \$19,692

I. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, disclosures, and revenue and expenses during the reporting period. Actual results could differ from those estimates.

2. DEPOSITS IN FINANCIAL INSTITUTIONS

At December 31, 2022, the District has cash and investments (book balances) as follows:

Non-interest bearing checking accounts	\$110,401
Interest bearing savings accounts	188,143
Investments - certificates of deposit	<u>23,252</u>
Total	<u>\$321,796</u>

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. At December 31, 2022, the District has \$328,181 in deposits (collected bank balances) which are fully secured from risk by federal deposit insurance.

3. ACCOUNTS RECEIVABLE

At December 31, 2022, the District has net receivables of \$12,851 as follows:

Water sales	\$12,851
Allowance for uncollectible accounts	<u>NONE</u>
Net receivables	<u>\$12,851</u>

For the year ended December 31, 2022, the total amount billed for water services was \$209,814. The District had 432 active customers at December 31, 2022. Residential and commercial customers are billed \$29 for the first 2,000 gallons of water used plus \$6.50 per thousand gallons for all gallons thereafter. New customers are charged a \$500 meter installation fee. Homeowners must pay a \$35 non-refundable membership fee and renters must pay a \$60 non-refundable membership fee. Customers are also charged a \$35 transfer fee and a \$100 reconnect fee when service is disconnected for nonpayment.

5. LONG-TERM DEBT

On December 1, 2017, the District entered into a loan agreement with the Louisiana Department of Health (LDH) Drinking Water Revolving Loan Fund (DWRLF) by issuing \$1,200,000 in water revenue bonds to make improvements to its water system. LDH gave a 20% principal forgiveness on each principal drawdown (up to a maximum of \$500,000 forgiveness) so the maximum amount of principal repayment would be \$960,000. The total amount of principal drawdowns at December 31, 2022 was \$1,182,924. The bonds bear interest at 1.95%, payable semi-annually on March 1 and September 1 of each year, which began in 2018. The District, also pays a .50% administrative fee to LDH on the outstanding principal amount of the bond, payable on each interest payment date. The principal is being repaid in twenty annual installments which began September 1, 2018. The bonds are secured and payable from a pledge and dedication of water revenue after the payment of the reasonable and necessary operating and maintenance expenses. A default event under the agreement is defined as the failure to pay the principle, interest, or administrative fee on the bonds as they become or the failure to perform any

obligation under the loan agreement. When a default event occurs, LDH has the right to take any action permitted in the loan agreement that is necessary to collect the amounts due including the appointment of a receiver of the water system.

CURRENT YEAR FINDINGS AND
CORRECTIVE ACTION PLAN
For the Year Ended December 31, 2022

2022-001. Inadequate Segregation of Accounting Duties

Criteria: Proper internal controls require that accounting duties be performed by separate individuals so that one individual could not perpetrate and conceal errors or irregularities without them being detected by another individual who was performing his or her assigned duties.

Condition: The accounting duties of billing, collecting, and posting customer payments to customers accounts are performed by one management company employee.

Cause: Small size of the District.

Effect: Errors or irregularities may not be detected within a timely period.

Recommendation: None.

Management's Response

and Corrective Action Plan: It is not economically feasible to correct this deficiency based on the size of the District.

2022-002. Failure to Maintain Accurate Customer Meter Deposit Records

Criteria: Proper internal controls, as well as the Louisiana Legislative Auditor's best practices guidance for local governments, require that subsidiary records be maintained for the customer meter deposit liability recorded in the general ledger and that the customer meter deposit liability recorded in the general ledger be reconciled on a monthly basis with the listing of customers' meter deposits maintained in the subsidiary records, i.e. the billing software.

Condition: The listing of customers' meter deposits maintained in the billing software at December 31, 2022, included approximately 14 customers that had incorrect amounts recorded as their deposit amount maintained in the billing software. The listing of customers' meter deposits maintained in the billing software incorrectly included non-refundable membership fees in the amount of \$735. The listing of customers' meter deposits maintained in the billing software was not reconciled to

St. Joseph, Louisiana

the customer meter deposit liability recorded in the general ledger on a monthly basis.

Cause: Undetermined.

Effect: Errors in customer meter deposit records and the customer meter deposit liability recorded in the general ledger were not be detected and corrected within a timely period.

Recommendation: The customer accounts in the billing software should be reviewed and meter deposit amounts should be corrected for all active customers. A listing of customers' meter deposits maintained in the billing software should be printed each month and reconciled to the customer meter deposit liability reported in the general ledger and any differences should be investigated and resolved.

**Management's Response
and Corrective Action Plan:**

The listing of customers' meter deposits maintained in the billing software will be reviewed and corrected for all active customers.
