INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Lincoln Parish Fire Protection District No. 1
Ruston, Louisiana

I have audited the accompanying financial statements of the governmental activities and the fund information of the Lincoln Parish Fire Protection District No. 1 (the District), as of and for the year ended December 31, 2006, which collectively comprise the basic financial statements of the Lincoln Parish Fire Protection District No. 1 as listed in the table of contents. These financial statements are the responsibility of the Lincoln Parish Fire Protection District No. 1's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

In my opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and fund information for the Lincoln Parish Fire Protection District No. 1 as of December 31, 2006, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated May 14, 2007, on my consideration of the Lincoln Parish Fire Protection District No. 1's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Management's discussion and analysis and budgetary comparison information on pages 2 through 4 and 18 through 22, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, I did not audit the information and express no opinion on it.

My audit was conducted for the purpose of forming an opinion on the financial statements of the Lincoln Parish Fire Protection District No. 1 taken as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in my opinion, is fairly stated, in all material respects, in relation to the financial statements taken as a whole.

REQUIRED SUPPLEMENTAL INFORMATION (PART A)
MANAGEMENT'S DISCUSSION AND ANALYSIS

**LINCOLN PARISH FIRE PROTECTION DISTRICT NO.1
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**

Our discussion and analysis of the Lincoln Parish Fire Protection District provides an overview of the District's activities for the year ended December 31, 2006 as compared to 2005. Please read it in conjunction with the District's financial statements.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Fire District as a whole.

**Reporting the District as a Whole
The Statement of Net Assets and the Statement of Activities**

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector entities. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report to the District's net assets and changes in them. The District's net assets (the differences between assets and liabilities) measure the District's financial position. The increases or decreases in the District's net assets are an indicator of whether its financial position is improving or not.

THE FIRE DISTRICT AS A WHOLE

For the year ended December 31, 2006 and 2005, net assets changed as follows:

	<u>2006</u>	<u>2005</u>
Beginning Net Assets	\$3,620,596	\$ 3,192,859
Restatement of Beginning Net Assets	-	107,238
Increase(Decrease) in Net Assets	<u>(53,141)</u>	<u>320,499</u>
Ending Net Assets	<u>\$3,567,455</u>	<u>\$ 3,620,596</u>

THE FIRE DISTRICT'S FUNDS

BUDGETARY HIGHLIGHTS

The Fire District's total revenues in 2006 were \$8,903 above the final budgeted amount. During the year, the District was able to pay its debt service obligation in full.

CAPITAL ASSETS AND DEBT ADMINISTRATION

At December 31, 2006, the Fire District had \$4,820,507 invested in capital assets including buildings, vehicles, and machinery and equipment as shown below:

	December 31 2005	Additions	Disposals	December 31 2006
Vehicles	\$1,531,506	\$22,097	-	\$1,553,603
Building	150,581	-	-	150,581
Machinery & Equipment	2,754,375	361,948	-	3,116,323
Totals at Historical Cost	\$4,436,462	384,045	-	4,820,507
Less Accumulated Depreciation	(3,577,995)	(198,474)	-	(3,776,469)
Totals, net	\$858,467	\$185,571	\$ -	\$1,044,038

Significant additions during 2006 to machinery and equipment included major upgrades in equipment and a command unit.

DEBT

During the year, the Fire District paid off \$360,000 outstanding in general obligation refunding bonds, Series 2001. These bonds had an interest rate of 4.35% and they matured in April, 2006. Additionally, the District had a total liability for compensated absences of \$1,725 at year end.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Fire District does not anticipate any major increases or decreases in revenue sources for the coming year other than the fact that no Ad Valorem taxes will be collected since bonds are paid in full.

LINCOLN PARISH FIRE PROTECTION DISTRICT NO. 1
RUSTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Lincoln Parish Fire Protection District No. 1 (the District) of Ruston, Louisiana was created by resolution and adopted by the Police Jury on April 23, 1991. The governing body of the District consists of a seven member Board of Commissioners. Four of these commissioners are appointed by the municipalities of Downsville, Dubach, Simsboro, and the Town of Vienna. Three additional members are appointed by the Policy Jury.

The District complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Government Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent sections of this note.

Basis of Presentation

In June, 1999, the GASB unanimously approved statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the presentation of its funds financial information include, for the first time a Management Discussion and Analysis (MD&A) section providing an analysis of the District's overall financial position and results of operations and financial statements prepared using full accrual accounting for all fund activities. These and other changes are reflected in the accompanying financial statements including the notes to the financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements – The governmental-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental Fund Financial Statements – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year end.

Principal revenue sources considered susceptible to accrual include ad valorem taxes, structure fees, and interest on investments. Some revenue items that are considered measurable and available to finance operations during the year from an accounting perspective are not available for expenditure due to the District's present appropriation system.

FOR THE YEAR ENDED DECEMBER 31, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

These revenues have been accrued in accordance with accounting principles generally accepted in the United States of America since they have been earned and are expected to be collected within sixty days of the end of the period. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Modifications to the accrual basis of accounting include:

- Employees' vested annual leave is recorded as an expenditure when utilized. The amount of accumulated annual leave unpaid at December 31, 2006 has been reported only in the government-wide financial statements.
- Interest on general long-term obligations is recognized when paid.
- Debt service expenditures are recorded only when payment is due.

Fund Accounting

The financial activities of the District are recorded in individual funds, each of which is deemed to be a separate accounting entity. The District uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental Funds

General Fund – This fund is established to account for resources devoted to financing the general services that the District performs. Fees and other revenues used to finance the fundamental operation of the District are included in this fund. The fund is charged with all costs of operating the District for which a separate fund has not been established.

Debt Service – This fund is established for the purpose of accumulating resources for the payment of interest and principal on long-term general obligation debt other than those payable from Enterprise Funds and Special Assessment Funds.

Equipment Reserve Fund – This fund is established to reserve funds for the replacement of equipment when necessary.

Fire Training Center Fund - This fund is established for the purpose of constructing and maintaining a building for training of firefighters.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgeting Procedures

The budgets for the funds are proposed by the Director and formally adopted by the Commissioners. The budget is prepared on a basis consistent with generally accepted accounting principles. Budgetary amendments involving the transfer of funds from one function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated, require approval of the Commissioners. At year end, all appropriations lapse.

Cash and Cash Equivalents

Cash includes demand deposits and money market accounts. Under state law, the Lincoln Parish Fire Protection District No. 1 may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union or the laws of the United States. Further, the Lincoln Parish Fire Protection District No. 1 may invest in the time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

The District's policy is to include short-term interest bearing deposits having a maturity of three months or less as cash equivalents in the financial statements.

Valuation of Carrying Amounts and Deposits

Cash is reported at net book value – the year-end bank balance plus any deposits in transit and less any outstanding checks that have not cleared the bank as of that date.

Fund Equity

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. There were no restricted net assets at December 31, 2006.
- c. Unrestricted net assets – All other net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Receivables

All receivables are recorded at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

RUSTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2006

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. In the process of aggregating data for the statements of net assets and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified.

Quasi-external transactions are accounted for as revenue and expenditures. Transactions that constitute reimbursements to a fund are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the fund that is reimbursed. All other interfund transactions that are not to be repaid are recorded as transfers.

Fixed Assets

Fixed assets of the District are stated at cost and are reported in the government-wide financial statements. Depreciation of all exhaustible fixed assets are charged as an expense against operations. Depreciation is computed using the straight-line method over the estimated useful lives of 5 years.

Compensated Absences

Employees accrue from 5 to 15 days of annual and sick leave each year depending on years of service with the District. Annual leave must be used in the year it is earned. Sick leave up to a maximum of 15 days may be carried forward to the next year for major illnesses only. Upon separation, all unused sick leave lapses.

Due to the restrictions on use of accrued sick leave, a provision of \$1,725 has been made for the compensated absences and vacation in these financial statements.

NOTE 2 - CASH AND CASH EQUIVALENTS

Custodial Credit Risk - Deposits. The custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy to ensure there is no exposure to this risk is to require each financial institution to pledge its' own securities to cover any amount in excess of Federal Depository Insurance Coverage. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent bank has failed to pay deposited funds upon demand. Accordingly, the District had no custodial credit risk related to its deposits at December 31, 2006. The District had cash and cash equivalents in demand deposits, totaling \$653,513 at December 31, 2006.

NOTE 4 – INVESTMENTS

Custodial Credit Risk – Investments. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investments in United States government securities are held by the District's agent in the District's name. Therefore, the District had no custodial credit risk related to its investments at December 31, 2006.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2006

NOTE 4 – INVESTMENTS (Continued)

Under state law, the District may invest funds in obligations of the United States, in federally-insured investments, or in time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. At December 31, 2006, the District had the following investments stated at cost, which approximates market:

United States Government Securities \$ 1,614,186

Interest Rate Risk. In accordance with its investments policy, the District manages its exposure to declines in fair market values by limiting investment portfolio to “money market investments,” which are defined as creditworthy, highly liquid investments with maturities of one year or less. Although there may be certain circumstances in which longer-term securities are utilized, the general use of long-term securities shall be avoided.

Credit Risk. The District’s investment policy limits investments to fully insured and/or fully-collateralized certificates of deposits and direct and indirect obligations of U.S. governments agencies.

Concentration of Credit Risk. The District’s investment policy limits the District’s investment instruments to: 1) certificates of deposit; 2) certain direct obligations of the U.S. Government; 3) bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by federal agencies and provided such obligations are backed by the full faith and credit of the United States of America; and 4) the Louisiana Asset Management Pool.

NOTE 5 – ACCOUNTS RECEIVABLE

NOTE 6 - PENSION PLAN

Plan Description

The Firefighters’ Retirement System is a defined benefit pension plan covering firefighters employed by any municipality, parish, or fire protection district of the State of Louisiana under the provisions of Louisiana Revised Statutes 11:2251 through 2269.

LINCOLN PARISH FIRE PROTECTION DISTRICT NO. 1
RUSTON, LOUISIANA
NOTES TO FINANCIAL STATEMENTS (CONTINUED)
FOR THE YEAR ENDED DECEMBER 31, 2006

NOTE 6 - PENSION PLAN (Continued)

Under the Firefighters' Retirement System, a member is eligible for normal retirement if he has:

- 20 or more years of service and has attained age 50 or
- 12 years of service and has attained age 55 or
- 25 years of service at any age

Those employees meeting one of these requirements are entitled to annual pension benefits equal to 3 1/3% of their average final compensation based on the 36 consecutive months of highest pay multiplied by their total years of service, not to exceed 100%. Benefits vest upon rendering 12 years of service to the District. Employees may elect to receive their pension benefits in the form of joint and survivor annuity. The District has six employees covered under this retirement system.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Firefighters Retirement System, 3100 Brentwood Drive, Baton Rouge, Louisiana 70809-1752, or by calling (225) 925-4060.

Funding Policy

Under the plan, members are required by state statute to contribute 8% of their annual covered salary and the Fire Protection District #1 is required to contribute at an actuarially determined rate. The current rate is 15.5% of annual covered payroll. The District's contributions to the System under for the years ending December 31, 2006, 2005, and 2004 were \$37,637, \$48,050, and \$40,264, respectively, equal to the required contributions for each year.

NOTE 7 - LEASE OBLIGATIONS

The Lincoln Parish Fire Protection District No. 1 has entered into twenty leases for real property on which to locate fire stations. The leases have various commencing dates beginning in April 1993, and running through April 1994. All leases run for twenty-five years following the commencing date with an option for the district to renew the lease for an additional twenty-five years thereafter. All leases are for \$1 per year. Leases shall expire on their own terms if a fire station, fire protection facility or similar structure is not constructed on the leased premises within twenty-four months from the date the agreement is executed by the lessor. Additionally, leases shall expire if the fire station, fire protection facility or other similar structure is not equipped with appropriate fire protection equipment or ceases to be used as a fire protection facility for the period of twenty-four consecutive months.

NOTE 9 - DEFERRED COMPENSATION PLAN

Employees of the Lincoln Parish Fire Protection District No. 1 may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

The deferred compensation plan is available to all employees of the Lincoln Parish Fire Protection District No. 1. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency. In accordance with the provisions of GASB Statement No. 32 and No.34, plan balances and activities are not reflected in the financial statements of the Lincoln Parish Fire Protection District No. 1.

NOTE 10 - LITIGATION AND CLAIMS

According to the Parish District Attorney, the Lincoln Parish Fire Protection District No. 1 had no pending or threatened litigation as of December 31, 2006.

NOTE 11 - COMPENSATION FOR THE BOARD OF COMMISSIONERS

The members of the Board for the Fire Protection District No. 1 receive no compensation.

NOTE 12 - PRIOR PERIOD ADJUSTMENT

During the course of the audit for December 31, 2006, it became apparent that payments of \$107,238 made in 2005 for the construction of a water pump booster were expensed rather than recorded as construction in progress on the government-wide financial statements. The project was completed in 2006 with a final payment of \$11,915. A restatement of \$107,238 to beginning net assets has been recorded on the government-wide financial statements.

NOTE 13 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budget/Actual Variances

When comparing budget to actual amounts for the year ended December 31, 2006, there was no governmental fund types that had unfavorable variances greater than 5%.

NOTES TO BUDGETARY COMPARISON SCHEDULES
FOR THE YEAR ENDED DECEMBER 31, 2006

The budgets for the funds are proposed by the Director and formally adopted by the Commissioners. The budget is prepared on a basis consistent with generally accepted accounting principles. Budgetary amendments involving the transfer of funds from one function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated, require approval of the Commissioners. At year end, all appropriations lapse.

State law requires the District to amend its budgets when revenues plus projected revenues within a fund are expected to fall short from budgeted revenues by five percent or more and when expenditures and other uses of a fund are expected to exceed budgeted amounts by five percent or more.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON
COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING
STANDARDS**

Board of Commissioners
Lincoln Parish Fire Protection District No. 1
Ruston, Louisiana

I have audited the financial statements of the Lincoln Parish Fire Protection District No. 1 as of and for the year ended December 31, 2006, and have issued my report thereon dated May 14, 2007. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, I considered Lincoln Parish Fire Protection District No. 1's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over financial reporting. My consideration of internal control included procedures to evaluate the design of controls relevant to an audit of financial statements and to determine whether they have been implemented, but it did not include procedures to test the operating effectiveness of controls, and accordingly, was not directed to discovering significant deficiencies in internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

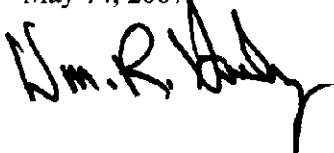

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lincoln Parish Fire Protection District No. 1's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the committee, Legislative Auditor, the Lincoln Parish Police Jury and federal awarding agencies and is not intended to be or should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
