INDEPENDENT AUDITOR'S REPORT

Members of the Board of Commissioners Fire Protection District No. 1 of Tensas Parish, Louisiana St. Joseph, Louisiana

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Fire Protection District No. 1 of Tensas Parish, Louisiana, a component unit of the Tensas Parish Police Jury, as of and for the year ended December 31, 2014, which collectively comprise the District's basic financial statements, as listed in the table of contents, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Fire Protection District No. 1 of Tensas Parish, Louisiana as of December 31, 2014, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Other Matters Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 6 and 22 through 23 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Fire Protection District No. 1 of Tensas Parish, Louisiana's basic financial statements. The Schedule of Insurance Coverage and the Schedule of Compensation of the Governing Board described in the accompanying table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Schedule of Insurance Coverage and the Schedule of Compensation of the Governing Board are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Insurance Coverage and the Schedule of Compensation of the Governing Board are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Insurance Coverage and the Schedule of Compensation of the Governing Board have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

las Sinemars), LLP

In accordance with *Government Auditing Standards*, we have also issued our report dated March 31, 2015, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

This report is intended for the information of the Members of the District, the Tensas Parish Police Jury, and the Legislative Auditor of the State of Louisiana and is not intended to be, and should not be, used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

SECTION I REQUIRED SUPPLEMENTAL INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of Fire Protection District No. 1 of Tensas Parish, Louisiana's (hereafter referred to as the District) financial performance provides an overview of the District's financial activities for the fiscal year ended December 31, 2014.

The District's main fire station is located on Plank Road in St. Joseph, Louisiana. The District provides fire protection for all of Tensas Parish, Louisiana with fire stations located in ten locations. The District operates primarily with volunteers and three full-time employees.

FINANCIAL HIGHLIGHTS

- General revenues were \$512,938 in 2014, compared to \$525,515 in 2013.
- General expenditures were \$514,986 in 2014, compared to \$478,313 in 2013.

OVERVIEW OF FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the District's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statement of activities presents information showing how the District's net position changed during the most recent fiscal year.

The government-wide financial statements outline functions of the District that are principally supported by property taxes and sales taxes. Fixed assets and related debt are also supported by taxes and intergovernmental revenues.

The government-wide financial statements can be found on pages 7 – 8 of this report.

Fund financial statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives.

The basic governmental fund financial statements can be found on pages 9 - 12 of this report.

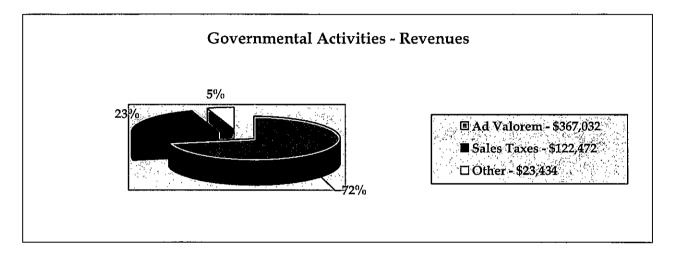

Notes to financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 13 – 21 of this report.

NOTES TO FINANCIAL STATEMENTS

INTRODUCTION

- 1. The Tensas Parish Police Jury created the Fire Protection District No. 1 of Tensas Parish, Louisiana May 25, 1999, by resolution. The District operates in compliance with Part I Chapter 7, Title 40 of the Louisiana Revised Statutes of 1950.
- 2. The purpose of the District is to provide fire protection for Tensas Parish.
- 3. The District's boundaries are all of Tensas Parish, Louisiana. Tensas Parish is located in Northeast Louisiana and has a population of 5,200.
- 4. A Board of Commissioners of five members appointed by the Tensas Parish Police Jury governs the District. The Board members are presently serving without compensation.
- 5. The District had three paid full-time employees during 2014.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Basis of Presentation

The accompanying basic financial statements of the Fire Protection District No. 1 of Tensas Parish, Louisiana have been prepared in conformity with governmental accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, Basic Financial Statement – and Management's Discussion and Analysis – for State and Local Governments, issued in June 1999.

B. Reporting Entity

The District does not possess all the corporate powers necessary to make it a legally separate entity from the Tensas Parish Police Jury, which holds the District's corporate powers. For this reason, the District is a component unit of the Tensas Parish Police Jury, the financial reporting entity.

The accompanying financial statements present information only on the funds maintained by the District and do not present information on the Police Jury, the general government services provided by that governmental unit, or the other governmental units that comprise the financial reporting entity.

C. Fund Accounting

The District uses funds to maintain its financial records during the year. Fund accounting is designed to demonstrate legal compliance and to aid management by segregating transactions related to certain District functions and activities. A fund is defined as a separate fiscal and accounting entity with a self-balancing set of accounts.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

C. Fund Accounting (continued)

Governmental Funds

Governmental funds account for all or most of the District's general activities. These funds focus on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may be used. Current liabilities are assigned to the fund from which they will be paid. The difference between a governmental fund's assets and liabilities is reported as fund balance. In general, fund balance represents the accumulated expendable resources which may be used to finance future period programs or operations of the District. The following is a description of the District's funds:

- General Fund the primary operating fund of the District and it accounts for all financial resources, except those required to be accounted for in other funds. The General Fund is available for any purpose provided it is expended or transferred in accordance with state and federal laws and according to District policy.
- 2. Debt Service Fund accounts for transactions relating to resources retained and used for the payment of principal and interest on those long-term obligations recorded in the general long-term obligations account group.

D. Measurement Focus/Basis of Accounting

Fund Financial Statements

The amounts reflected in the governmental funds of Statements C and D are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach is then reconciled, through adjustment, to a government-wide view of the District's operations.

The amounts reflected in the governmental funds of Statements C and D use the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers all revenues available if they are collected within 60 days after the year end.

Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

D. Measurement Focus/Basis of Accounting (continued)

Government-Wide Financial Statements

The page labeled Statement of Net Position (Statement A) and the page labeled Statement of Activities (Statement B) display information about the District as a whole. These statements include all of the financial activities of the District. Information contained in these statements reflect the economic resources measurement focus and the accrual basis of accounting.

E. Budgets

The District uses the following budget practices:

- 1. The Fire Chief prepares a proposed budget and submits same to the District Board of Commissioners no later than fifteen days prior to the beginning of each year.
- 2. A summary of the proposed budget is published and the public notified that the proposed budget is available for public inspection. At the same time, a public hearing is called.
- 3. A public hearing is held on the proposed budget at least ten days after publication of the call for the hearing.
- 4. After the holding of the public hearing and completion of all action necessary to finalize and implement the budget, the budget is adopted through passage of an ordinance prior to the commencement of the year for which the budget is being adopted.
- 5. Budgetary amendments involving the transfer of funds from one department, program, or function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated require the approval of the District Board.
- 6. All budgetary appropriations lapse at the end of each year.
- 7. Budgets are adopted on a budgetary basis. Budget amounts are as originally adopted or as amended from time to time by the District Board of Commissioners.

F. Cash and Cash Equivalents

Cash includes amounts in demand deposits and time deposits. Under state law, the District may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States, or under the laws of the United States.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

G. Capital Assets

Capital assets are capitalized at historical cost. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The District maintains a threshold level of \$1,000 or more for capitalizing capital assets.

Capital assets are recorded in the Statement of Net Position and Statement of Activities. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

Description	Estimated <u>Lives</u>
Buildings and improvements	30 years
Furniture and fixtures	5 years
Vehicles	5 years
Equipment	15 years

H. Compensated Absences

The District has implemented GASB Statement Number 16 "Accounting for Compensated Absences." Under GASB Statement Number 16, a liability for unpaid vacation that is attributable to services already rendered and that is not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to benefits.

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources.

Each full-time employee is credited with one day of sick leave for each month worked. The employee's sick leave will begin to accumulate after working one month.

I. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue, expenditures, and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

J. Fund Equity

Beginning with fiscal year 2013, the District implemented GASB Statement 54 "Fund Balance Reporting and Governmental Fund Type Definitions." This statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government's fund balance more transparent. The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in a spendable form (such as inventory) or are required to be maintained intact;
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation;
- Committed fund balance amounts constrained to specific purposes by a government itself, using
 its highest level of decision-making authority; to be reported as committed, amounts cannot be
 used for any other purpose unless the government takes the same highest level action to remove or
 change the constraint;
- Assigned fund balance amounts a government intends to use for a specific purpose; intent can be
 expressed by the governing body or by an official or body to which the governing body delegates
 the authority;
- Unassigned fund balance amounts that are available for any purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

The Board establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

In the general fund, the District strives to maintain an unassigned fund balance to be used for unanticipated emergencies.

NOTE 8 - PENSION PLANS

Plan Description: The District contributes to the Firefighters' Retirement System. The Plan is a cost-sharing, multiple-employer, defined-benefit pension plan. The Plan is administered by a board of trustees. The Plan provides retirement benefits, disability benefits, annual cost-of-living adjustments, and death benefits to Plan members and beneficiaries. Louisiana Revised Statutes 11:2551 et seq. grants the board of trustees the authority to establish and amend benefit provisions of the Plan.

The retirement system issues publicly available financial reports that include financial statements and required supplementary information for the Plan. The financial reports may be obtained from:

Firefighters' Retirement System Post Office Box 94095, Capital Station Baton Rouge, Louisiana 70804-9095

Funding Policy: Plan members are required to contribute 10% of their annual covered salary and the District is required to contribute at an actuarially determined rate. The District's rate is 24.00% of annual covered payroll as of December 31, 2014. The District's contribution to the Plan for the year ending December 31, 2014, was \$38,454.

NOTE 9 - RISK MANAGEMENT

The District is exposed to certain risks of losses such as property damage, liability issues, and other potential losses that may occur. The District minimizes its losses by purchase of commercial insurance. The District's exposure over the amount of insurance is considered to be immaterial.

FIRE PROTECTION DISTRICT NO. 1 OF TENSAS PARISH, LOUISIANA (A COMPONENT UNIT OF THE TENSAS PARISH POLICE JURY) ST. JOSEPH, LOUISIANA NOTES TO THE REQUIRED SUPPLEMENTAL INFORMATION

Budgetary Comparison Schedule

1. Basis of Presentation

The Budgetary Comparison Schedule presents the original legally adopted budget, the actual data on the cash basis, and variances between the final budget and the actual data.

2. Budget/GAAP Reconciliation

The major differences between the budgetary basis and the GAAP basis are:

- a. Revenues are recorded when received in cash (budgetary) as opposed to when susceptible to accrual (GAAP).
- b. Expenditures are recorded when paid in cash (budgetary) as opposed to when susceptible to accrual (GAAP).

The following schedule reconciles net change in fund balances on the budgetary basis schedules to the GAAP basis financial statements for the General Fund.

	· ·	General Fund
Net change in fund balance - budget basis (Decrease)	\$	33,909
Net adjustments for revenue accruals		(47,302)
Net adjustments for expenditure accruals		(1,198)

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN

AUDIT OF THE FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Members of the Board of Commissioners Fire Protection District No. 1 of Tensas Parish, Louisiana St. Joseph, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Fire Protection District No. 1 of Tensas Parish, Louisiana, as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise Fire Protection District No. 1 of Tensas Parish, Louisiana's basic financial statements, and have issued our report thereon dated March 31, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Fire Protection District No. 1 of Tensas Parish, Louisiana's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Fire Protection District No. 1 of Tensas Parish, Louisiana's internal control. Accordingly, we do not express an opinion on the effectiveness of Fire Protection District No. 1 of Tensas Parish, Louisiana's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as described in the accompanying schedule of findings and questioned costs, we identified a deficiency in internal control that we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in in the accompanying schedule of findings and questioned costs to be a material weakness. The deficiency is described as finding 2014-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Fire Protection District No. 1 of Tensas Parish, Louisiana's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Fire Protection District No. 1 of Tensas Parish response to finding

Fire Protection District No. 1's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. Fire Protection District No. 1's response was not subject to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended for the information and use of management of the Fire Protection District No. 1 of Tensas Parish, Louisiana, the Tensas Parish Police Jury, and the Legislative Auditor of the State of Louisiana. However, this report is a matter of public record and its distribution is not limited.
