Independent Auditor's Report

VILLAGE OF FOREST Forest, Louisiana

I have audited the accompanying financial statements of the governmental activities and major fund of the Village of Forest, as of December 31, 2011, and for the year then ended, which collectively comprise the Village's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Village of Forest's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position and major fund of the Village of Forest as of December 31, 2011, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 6 through 10, and the budgetary comparison information on pages 30 through 31, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical contest. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with managements's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

VILLAGE OF FOREST Forest, Louisiana Independent Auditor's Report, December 31, 2011

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Village of Forest's basic financial statements as a whole. The supplemental information schedules listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the financial statements of the Village of Forest. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

In accordance with *Government Auditing Standards*, I have also issued a report dated March 22, 2012, on the Village of Forest's compliance with laws and regulations, and my consideration of the agency's internal control over financial reporting. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

West Monroe. Louisiana March 22, 2012

REQUIRED SUPPLEMENTARY INFORMATION PART I

.

Management's Discussion and Analysis December 31. 2011

As management of the Village of Forest, we offer readers of the Village of Forest's financial statements this narrative overview and analysis of the financial activities of the Village of Forest for the year ended December 31, 2011. Please read it in conjunction with the basic financial statements and the accompanying notes to the financial statements.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the Village's basic financial statements. The annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (Government-wide Financial Statements) provide information about the financial activities as a whole and illustrate a longer-term view of the Village's finances. The Balance Sheet and Statements) tell how these services were financed in the short term as well as what remains for future spending Fund Financial Statements also report the operations in more detail than the Government-Wide Financial Statements by providing information about the most significant funds. This report also contains other supplementary information in addition to the basic financial statements themselves.

Our auditor has provided assurance in her independent auditor's report that the Basic Financial Statements are fairly stated. The auditor, regarding the Required Supplemental Information and the Supplemental Information is providing varying degrees of assurance. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts in the Financial Section.

Government-wide financial statements. The government-wide financial statements are designed to provide readers with a broad overview of the Village of Forest's finances, in a manner similar to a private-sector business.

The *statement of net assets* presents information on all of the Village of Forest's assets and liabilities, with the difference between the two reported as *net assets*. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Village of Forest is improving or deteriorating

The statement of activities presents information showing how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of timing of related cash flows Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (for example, earned, but unused, sick leave).

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Village of Forest, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements All of the funds of the Village of Forest can be divided into two categories: governmental funds and proprietary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the governmentwide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Village of Forest adopts an annual appropriated budget for the general fund. A budgetary comparison statement is provided for the major fund to demonstrate compliance with this budget.

Proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The Village uses its enterprise fund to account for its water utility operations.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary funds financial statements provide separate information for the enterprise fund, which is considered to be a major fund of the Village.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the Village of Forest's performance.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, assets of the Village of Forest exceeded liabilities by \$830,558. Approximately 51% of the Village of Forest's net assets reflects its investment in capital assets (e.g., equipment), less any related debt used to acquire those assets that is still outstanding. These assets are not available for future spending. The balance in unrestricted net assets is affected by two factors: 1) resources expended, over time, by the Village of Forest to acquire capital assets from sources other than internally generated funds (i e., debt), and 2) required depreciation on assets being included in the statement of net assets

Financial Analysis of the Government's Funds

As noted earlier, the Village of Forest uses fund accounting to ensure and demonstrate compliance with *finance*-related legal requirements. The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year

As of December 31, 2011, the General Fund unreserved, unassigned fund balance of \$12,208 showed a decrease of \$4,041 over December 31, 2010.

General Fund Budgetary Highlights

Differences between the bottom line of the original budgets and the final budgets were relatively small.

Capital Asset and Debt Administration

Capital assets. The Village of Forest's investment in capital assets for its governmental activities as of December 31, 2011, amounts to \$194,775 (net of accumulated depreciation) This investment includes land, furniture and equipment and construction in progress. There were no increases or decreases in capital outlay for the year ended December 31, 2011.

Long-term debt. At the end of the fiscal year, the Village of Forest had business type activity debt outstanding, in the form of revenue bonds, of \$920,627. During the year ended December 31, 2011, \$15,981 of debt was paid in accordance with the debt agreement.

Requests for Information

This financial report is designed to provide a general overview of the Village of Forest's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Village of Forest, P.O. Box 338, Forest, LA 71242.

March 22, 2012

Notes to the Financial Statements As of and For the Year Ended December 31, 2011

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Village of Forest was incorporated under the provisions of the Lawrason Act in 1966. The village operates under a Mayor-Board of Aldermen form of government. The mayor and aldermen serve four-year terms which expire on December 31, 2012.

The accompanying financial statements of the Village of Forest have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The accompanying basic financial statements have been prepared in conformity with GASB Statement 34, *Basic Financial Statements-and Management's Discussion and Analysis -for State and Local Governments*, issued in June 1999.

A. REPORTING ENTITY

i

As the governing authority of the village, for reporting purposes, the Village of Forest is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government (the village), (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the Village of Forest for financial reporting purposes The basic criterion for including a potential component unit within the reporting entity is financial accountability. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the village to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the village
- 2 Organizations for which the village does not appoint a voting majority but are fiscally dependent on the village.

3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship

Based on the previous criteria, the village has determined that there are no component units that are part of the reporting entity

B. BASIC FINANCIAL STATEMENTS -GOVERNMENT-WIDE STATEMENTS

The village's basic financial statements include both government-wide (reporting the village as a whole) and fund financial statements (reporting the village's major funds). Both government-wide and fund financial statements categorize primary activities as either governmental or business type.

The Statement of Net Assets (Statement A) and the Statement of Activities (Statement B) display information about the reporting government as a whole. These statements include all the financial activities of the village.

In the Statement of Net Assets, governmental activities are presented on a consolidated basis and are presented on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term obligations. Net assets are reported in three parts; invested in capital assets, net of any related debt; restricted net assets; and unrestricted net assets. The village first uses restricted resources to finance qualifying activities.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

Program Revenues - Program revenues included in the Statement of Activities (Statement B) are derived directly from parties outside the village's taxpayers or citizenry. Program revenues reduce the cost of the function to be financed from the village's general revenues.

Allocation of Indirect Expenses - The village reports all direct expenses by function in the Statement of Activities (Statement B) Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but

are reported separately in the Statement of Activities. Depreciation expense, which can be specifically identified by function, is included in the direct expenses of each function. Depreciation on buildings is assigned to the "general administration" function due to the fact that buildings serve multiple purposes Interest on general long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

C. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The financial transactions of the village are reported in individual funds in the fund financial statements. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities

Fund financial statements report detailed information about the village. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column

A fund is a separate accounting entity with a self-balancing set of accounts that comprise its assets. liabilities, fund equity, revenues, and expenditures. Funds are classified into three categories; governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types". Governmental funds are used to account for a government's general activities, where the focus of attention is on the providing of services to the public as opposed to proprietary funds where the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. Fiduciary funds are used to account for assets held for others. The village's current operations require the use of only governmental and proprietary funds. The governmental and proprietary fund types used by the village are described as follows:

Governmental Fund Type

General Fund - The General Fund, as provided by Louisiana Revised Statute 13:781, is the principal fund of the village and is used to account for the operations of the village's office. The various fees and charges due to the village's office are accounted for in this fund General operating expenditures are paid from this fund.

Proprietary Fund Type - Water Enterprise Fund

The Water Enterprise Fund is used to account for the operations of the village's water system. The operations are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the cost (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges.

D. BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

1. Accrual:

Both governmental and business type activities in the government-wide financial statements are presented on the acciual basis of accounting Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual:

The governmental funds financial statements are presented on the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Governmental funds and the proprietary type agency funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The village considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be inquidated with expendable available financial resources The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Franchise taxes and intergovernmental revenues are recorded when the village is entitled to the funds.

VILLAGE OF FOREST

Forest. Louisiana

Notes to the Financial Statements (Continued)

Interest income on bank deposits is recorded when the interest has been earned and the amount is determinable

Substantially all other revenues are recorded when they are received by the village

Based on the above criteria, franchise taxes have been treated as susceptible to accrual

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

Proprietary Fund Type - Water Enterprise Fund

The Water Enterprise Fund is accounted for using the accrual basis of accounting. Revenues are recognized when they are earned, and expenses are recognized when they are incurred.

E. CASH AND CASH EQUIVALENTS

Under state law, the village may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under Louisiana law and national banks having principal offices in Louisiana. At December 31, 2011, the village has cash and cash equivalents (book balances) totaling \$239,068.

Demand deposits	\$145,761
Time deposits	93,307
Total	\$239,068

These deposits of \$241,336 are stated at cost, which approximates market Under state law, these deposits, of the resulting bank balances, must be secured by federal deposit insurance.

F. CAPITAL ASSETS

Capital assets are capitalized at historical cost or estimated cost if historical cost is not available. Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The village maintains a threshold level of \$500 or more for capitalizing capital assets.

Capital assets are reported in the government-wide financial statements but not in the fund financial statements. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes by the village, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives.

Description	Estimated Lives
Buildings and building improvements	20 - 40 years
Furniture and fixtures	5 - 10 years
Vehicles	5 - 15 years
Equipment	5 - 20 years

G. ANNUAL AND SICK LEAVE

The Village of Forest has not adopted vacation and sick leave policies; therefore, there is no liability for compensated absences.

H. RISK MANAGEMENT

The village is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; and injuries to employees. To handle such risk of loss, the fire district maintains a commercial insurance policy covering property, employee liability, and public officials liability. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the year ended December 31, 2011.

2. RECEIVABLES

The following is a summary of receivables at December 31, 2011

	Water General Enterprise <u>Fund Fund Total</u>
Taxes. Franchise Accounts	\$1,158 \$1,158
Total	<u>\$1.158 \$13,806 \$14,964</u>

3. CHANGES IN CAPITAL ASSETS

The following presents changes in capital assets for the year ended December 31, 2011:

	Beginning Balance	Additions	Deletions	Ending Balance
Capital assets not being depreciated -				
Land	\$27,500			\$27,500
Construction in progress	NONE			NONE
Capital assets being depreciated.				
Buildings	169.768			169,768
Improvements other than buildings	13.001			13,001
Equipment	49,927			49,927
Total assets	260,196	NONE	NONE	260,196
Less accumulated depreciation	54,320	\$11,102		65,422
Net capital assets	\$205,876	(\$11,102)	NONE	\$194,774

A summary of proprietary fund type property, plant, and equipment at December 31. 2011, follows:

	Basis	Accumulated Depreciation	Net Book Value
1	······································		
Water system	\$1,840,796	• • •	\$1,340,619
Equipment	3,372	(3,372)	<u>NONE</u>
Total	<u>\$1.844,168</u>	<u>(\$503.549)</u>	<u>\$1.340,619</u>

4. PENSION PLAN

The employees of the village are members of the Social Security System In addition to the employee contributions withheld at 7.65 per cent of gross salary, the village contributes an equal amount to the Social Security System For the year ended December 31, 2011, total salaries paid for 2011 were \$69,714. The village does not guarantee the benefits granted by the Social Security System

5. REVENUE BONDS PAYABLE

At December 31, 2011, the village has two outstanding issues of long-term revenue bonds. In 1990 the village sold a revenue bond to the United States Department of Agriculture, Farmers Home Administration. The issue dated November 14, 1990 was for \$130,200. The issue bears interest at 6.125 per cent per annum Principal and interest are to be repaid in annual payments of \$8,846 through November 14, 2030 All long-term debt is to be repaid solely from the income and revenues derived from

VILLAGE OF FOREST Forest. Louisiana Notes to the Financial Statements (Continued)

the operation of the water system. In 2008 the village had a preliminary bond issue for \$912,000. The village has received \$755.000 of this issue at December 31, 2008 and the remaining \$157,000 at December. 31, 2011 The issue bears interest at 4.5 per cent per annum. Principal and interest are to be repaid in monthly payments of \$4,141 through July 10, 2048 All long-term debt is to be repaid solely from the income and revenues derived from the operation of the water system

The following is a summary of revenue bonds payable transactions for the year ended December 31, 2011:

Revenue bonds payable at January 1, 2011	\$936,608
Additions	NONE
Reductions	<u>(15.981)</u>
Long-term debt at December 31, 2011	<u>\$920,627</u>

The annual requirements to amortize the revenue bonds outstanding at December 31, 2011 are as follows.

Yeai	Principal	Interest	Total
20 12	\$16,806	\$41,732	\$58,538
2013	17,688	40,850	58,538
2014	18,618	39,920	58,538
2015	19,635	38,941	58,576
2016	11,783	37,909	49,692
2017-2021	67,550	180,910	248,460
2022-2026	84,559	163,901	248,460
2027-2031	105,851	1 42,609	248,460
2032-2036	132,504	115,956	248,460
2037-2041	165,868	82,592	248,460
2042-2046	207,632	40,828	248,460
2047-2048	72,133	2.596	<u> </u>
Total	<u>\$920.627</u>	<u>\$928.744</u>	<u>\$1.849.371</u>

6. CONTRIBUTED CAPITAL

In 1990, the village received a grant totaling \$219,800 from the United States Department of Agriculture, Farmers Home Administration to finance the construction of its water system The grant amount, shown as contributed capital on the balance sheet, is reduced each year by the amount of depreciation expense recognized on fixed assets constructed or acquired with the grant funds At December 31, 2011, accumulated depreciation on these assets is \$104,405

7. RESERVED RETAINED EARNINGS

The bond covenant with the Farmers Home Administration for the 1990 revenue bond discussed in note 4 above, requires the village to establish the following reserve accounts:

Forest, Louisiana

ł

Notes to the Financial Statements (Continued)

- A A "Water Revenue Bond and Interest Sinking Fund". The village must transfer into this fund, each month, one-twelfth of the principal and interest due on the next principal and interest payment date. This fund is used to pay bond principal and interest as they become due.
- B A "Water Reserve Fund" The village must transfer into this fund, each month, an amount equal to 5 per cent of the amount to be paid into the Water Revenue Bond and Interest Sinking Fund. Such amounts may be used only for the payment of matured bonds and interest when sufficient funds are not available in the Water Revenue Bond and Interest Sinking Fund.
- C. A "Water Depreciation and Contingency Fund". The village must transfer into this fund, each month, an amount equal to 5 per cent of the amount to be paid into the Water Revenue Bond and Interest Sinking Fund. The deposits in this fund may be used for unusual or extraordinary maintenance, repairs, replacements, and extensions and for the cost of improvements to the system. Money in this fund may also be used to pay principal and interest on bonds falling due at any time there is not sufficient funds in the other reserve funds.

At December 31. 2011 the village has \$41,105 in restricted accounts to meet reserve requirements. The following is a summary of transactions in the bond reserve accounts for the year ended December 31, 2011:

Reserve for revenue bonds payable at January 1, 2011	\$40,274
Deposits	9,846
Interest earnings	18
Bank charges	(187)
Debt service	(8,846)
Reserve for bonds payable at December 31, 2011	\$41,105

8. LITIGATION AND CLAIMS

The Village of Forest is not involved in any litigation at December 31, 2011, nor is it aware of any unasserted claims

NOTE TO BUDGETARY COMPARISON SCHEDULE For the Year Ended December 31, 2011

A preliminary budget for the ensuing year is prepared for the General Fund by the mayor prior to December 31 of each year and is made available for public inspection at least fifteen days prior to the beginning of each fiscal year. The budget is established and controlled by the board of aldermen at the functional level of expenditure. Encumbrance accounting is not used by the village. Appropriations lapse at year end and must be reappropriated for the following year to be expended. All changes in the budget must be approved by the board of aldermen.

Formal budgetary integration is employed as a management control device during the year. Budgeted amounts included in the accompanying budgetary comparison schedule include the original adopted budget amounts and all subsequent amendments

REPORTS REQUIRED BY GOVERNMENT AUDITING STANDARDS PART IV

1

Independent Auditor's Report Required by *Government Auditing Standards*

1

The following independent auditor's report on compliance and internal control over financial reporting is presented in compliance with the requirements of *Government Auduting Standards* issued by the Comptroller General of the United States and the *Louisiana Governmental Audit Guide*, issued by the Society of Louisiana Certified Public Accountants and the Louisiana Legislative Auditor.

Member American Institute of Certified Public Accountants MARY JO FINLEY, CPA, INC.

A PROFESSIONAL CORPORATION 116 Professional Drive - West Monroe, LA 71291 Phone (318) 329-8880 - Fax (818) 329-8888 Member Society of Louisiana Certified Public Accountants

Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance *Government Auditing Standards*

VILLAGE OF FOREST Forest, Louisiana

I have audited the basic financial statements of the Village of Forest, as of and for the year ended December 31, 2011 and have issued my report thereon dated March 22, 2012. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered Village of Forest's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinion on the basic financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Village of Forest's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Village of Forest's internal control over financial reporting.

A *deficiency in internal control* exist when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

-40-

VILLAGE OF FOREST Forest, Louisiana Independent Auditor's Report on Compliance And Internal Control Over Financial Reporting, etc. December 31, 2011

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Village of Forest's basic financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations. contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed one instance of noncompliance or other matters that is required to be reported under *Government Auditing Standards* and is included as finding 11-01 in the accompanying schedule of audit findings.

This report is intended solely for the information and use of the Village of Forest, management, and the Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of these reports may be limited, under Louisiana Revised Statute 24.513(G), this report is distributed by the Legislative Auditor as a public document.

West Monroe, Louisiana March 22, 2012

Schedule of Findings and Questioned Costs For the Year Ended December 31, 2011

A. SUMMARY OF AUDIT RESULTS

- 1 The auditor's report expresses an unqualified opinion on the general purpose financial statements of the Village of Forest
- 2. No instances of noncompliance material to the financial statements of the Village of Forest was disclosed during the audit
- 3 No significant deficiency relating to the audit of the financial statements were reported in the Independent Auditor's Report on Internal Control.

B. FINDINGS - FINANCIAL STATEMENTS AUDIT

11-1 Need to Comply with Local Government Budget Act

Finding: The village did not comply with the Local Government Budget Act. LSA-R S 39:1310-1311 requires, among other things, that the village amend an individual fund's budget when actual revenues and other sources to date plus projected amounts to yearend are failing to meet budgeted amounts by five percent or more and/or when actual expenditures and other uses to date plus projected amounts to year-end are exceeding budgeted amounts by five percent or more. The general fund budgeted revenues and other sources exceeded actual revenues by approximately 25%.

Recommendation: The village should familiarize itself with and comply with all the requirements of the Local Government Budget Act

Summary Schedule of Prior Audit Findings For the Year Ended December 31, 2011

There were no findings reported in the audit report for the year ended December 31, 2010.

Village of Forest

PO BOX 338 Forest, La 71242 * Phone & Fax 318 428 9058
