MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish provides an overview of the Bureau's activities for the year ended December 31, 2005. Please read it in conjunction with the Bureau's financial statements.

USING THIS ANNUAL REPORT:

This annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities provide information about the activities of the Bureau as a whole. The Statement of Cash Flows provides detail changes in cash during the year presented.

THE STATEMENT OF NET ASSETS AND THE STATEMENT OF ACTIVITIES:

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the Bureau's net assets and changes in them. The Bureau's net assets - the difference between assets and liabilities - measures the Bureau's financial position. The increases or decreases in the Bureau's net assets are an indicator of whether its financial position is improving or deteriorating.

THE BUREAU AS A WHOLE:

For the year ended December 31, 2005 net assets changed as follows:

Beginning Net Assets	1,612,571
Increase in Net Assets	<u>182,607</u>
Ending Net Assets	<u>1,795,178</u>

INDEPENDENT AUDITORS' REPORT

Board of Directors
Monroe-West Monroe Convention
and Visitors Bureau of Ouachita Parish
West Monroe, Louisiana

We have audited the accompanying financial statements of the governmental activities and fund information of the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish (the Bureau), as of and for the year ended December 31, 2005, as listed in the table of contents. These financial statements are the responsibility of the Bureau's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and fund information for the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish as of December 31, 2005, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated June 8, 2006, on our consideration of the internal control over the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish's financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grants. That report is an integral part of an audit performed in accordance with *Governmental Auditing Standards* and should be read in conjunction with this report in considering the results of our audit.

Management's discussion and analysis and budgetary comparison information on pages 1 through 3 and on pages 28 through 29, respectively, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was made for the purpose of forming an opinion on the financial statements of the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish taken as a whole. The accompanying other supplemental information on pages 28 through 31 is presented for purposes of additional analysis and is not a required part of the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and, in our opinion, is fairly stated in all material respects, in relation to the financial statements taken as a whole.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Directors
Monroe-West Monroe Convention
and Visitors Bureau of Ouachita Parish
West Monroe, Louisiana

We have audited the financial statements of the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish as of and for the year ended December 31, 2005, and have issued our report thereon dated June 8, 2006. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish's internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing our opinions on the financial statements and not to provide assurance on the internal control over financial reporting. Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

We noted no matters involving the internal control over financial reporting and its operation that we consider to be material weaknesses.

Compliance

As part of obtaining reasonable assurance about whether the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance that are required to be reported under *Government Auditing Standards*, which are described in the accompanying schedule of findings and questioned costs as items 05-1 and 05-2.

This report is intended solely for the information and use of the audit committee, management, others within the organization, as well as the state of Louisiana, and is not intended to be and should not be used by anyone other than these specified parties. However, under Louisiana R.S. 24:513, this report is distributed by the Legislative Auditor as a public document.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity Information:

The Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish (the Bureau) was formed and created as a tourist commission for the purpose of the promotion of tourism within the Parish of Ouachita by an ordinance of the Police Jury of the Parish of Ouachita in 1976. There are eleven board members appointed by the Ouachita Parish Police Jury. The board members are not compensated or paid a per diem. On June 8, 1995 pursuant to Article VI, Section 19 and 30 of the Constitution of Louisiana, the Bureau was specifically created as a special district and shall from that point on be a political subdivision of the State of Louisiana.

The Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish was a component unit of the Ouachita Parish Police Jury, the governing body of the Parish until June 8, 1995 as noted above. The accompanying financial statements present information only on the funds maintained by the Bureau and do not present information on the police jury, or any other governmental unit.

The major sources of revenue for the Bureau are from hotel - motel sales taxes collected in Ouachita Parish.

The Bureau complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Government Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standard Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent sections of this note. The Bureau has adopted the financial reporting requirements of GASB Statements No. 33 and 34.

Reporting Entity Information: (Continued)

The Bureau is an entity administered by a Board of Directors (Board) that acts as the authoritative and legislative body of the entity. The Board is comprised of eleven board members. Officers are elected by the Board. Each officer serves a term of one year; there are no term limits for reappointment. No board members receive compensation for serving on the Board, except for the Executive Director.

The Board of Directors annually appoints the Chairperson of the Board from existing board members. The Chair responsibilities are to preside at all meetings of the Board, be the chief officer of the Bureau, perform all duties commonly incident to the position of presiding officer of a board or business organization and exercise supervision over the business of the Bureau, its officers and employees.

Basis of Presentation

In June 1999, the GASB unanimously approved statement No. 34, *Basic Financial Statements-and Management's Discussion and Analysis-for State and Local Governments*. Certain of the significant changes in the presentation of its funds financial information include a Management Discussion and Analysis (MD&A) section providing an analysis of the Bureau's overall financial position and results of operations and financial statements prepared using full accrual accounting for all fund activities. These and other changes are reflected in the accompanying financial statements including the notes to the financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

Government-Wide Financial Statements - The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when they are both measurable and available and expenses are recorded when a liability is incurred, regardless of the timing of related

cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Revenues are considered to be available when they are collectible within the current period, the Bureau considers revenues to be available if they are collected within sixty days of the end of the current fiscal year end.

Governmental Fund Financial Statements - The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, the Bureau considers revenues to be available if they are collected within 60 days of the end of the current fiscal year end.

Principal revenue sources considered susceptible to accrual are interest on investments and sales taxes. Some revenue items that are considered measurable and available to finance operations during the year from an accounting perspective are not available for expenditure due to the Bureau's present appropriation system. These revenues have been accrued in accordance with accounting principles generally accepted in the United States of America since they have been earned and are expected to be collected within sixty days of the end of the period. Other revenues are considered to be measurable and available only when cash is received by the Bureau. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Modifications to the accrual basis of accounting include:

- Interest on general long-term obligations is recognized when paid.
- Debt service expenditures are recorded only when payment is due.

Fund Accounting

The financial activities of the Bureau are recorded in individual funds, each of which is deemed to be a separate accounting entity. The Bureau uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental Funds

General Fund - This fund accounts for all activities of the Bureau not specifically required to be accounted for in other funds. Included are transactions to promote tourism in Ouachita Parish. The Bureau has no other funds.

Fund Equity

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net assets - Consists of net assets with constraints placed on the use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation. There were no restricted net assets at December 31, 2005.
- c. Unrestricted net assets - All other net assets that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fixed Assets

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in governmental funds. General Fixed Assets purchased are recorded at time of purchase. Such assets are capitalized at cost. Gifts or contributions are recorded at fair market value at the time received. Depreciation has been provided on general fixed assets using the straight-line method of depreciation over their estimated useful lives, ranging from five to eight years for furniture and equipment and ten to thirty-nine years for leasehold improvements and buildings.

All capital assets are capitalized at cost and updated for additions and retirements during the year. The Bureau maintains a capitalization threshold of \$1,000. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend the asset's life are not.

Cash and Cash Equivalents

Cash received by the Bureau is mainly deposited in local financial institutions with excess cash invested in short-term investments.

For presentation in the financial statements, investments with an original maturity of three months or less at the time they are purchased are considered to be cash equivalents. Investments with an original maturity of more than three months are reported as investments.

Compensated Absences

Only permanent full-time employees are entitled to vacation and sick leave. Vacation not taken during a calendar year cannot be carried forward to the following year. Sick leave not taken can be carried forward for one year.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

<u>TOTAL</u>	<u>2,504,997</u>

2. Category 2 - Collateralized, with securities held by the pledging financial institution's trust department or agent in the entity's name.

LAMP is an investment pool established as a cooperative endeavor to enable public entities of the State of Louisiana (such as parishes, school boards, police juries and sheriffs, among others) to aggregate funds for investment. This pooling is intended to improve administrative efficiency and increase investment yield.

NOTE 5 - PENSION PLAN

Substantially all employees of the Monroe-West Monroe Convention and Visitors Bureau of Ouachita Parish are members of the Parochial Employees Retirement System of Louisiana (System), a multiple-employer (cost-sharing), public employee retirement system (PERS), controlled and administered by a separate board of trustees. The System is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the Bureau are members of Plan A.

All permanent employees working at least 28 hours per week who are paid wholly or in part from parish funds and all elected parish officials are eligible to participate in the system. Under Plan A, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3 per cent of their final-average salary for each year of creditable service. However, for those employees who were members of the supplemental plan only prior to January 1, 1980, the benefit is equal to one percent of final average salary plus \$24 for each year of supplemental-plan-only service earned before January 1, 1980, plus 3 percent

of final-average salary for each year of service credited after the revision date. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Parochial Employee's Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, or by calling (504)928-1361.

Under Plan A, members are required by state statute to contribute 9.5 percent of their annual covered salary and the Bureau is required to contribute at an actuarially determined rate. The current rate is 12.75 percent of annual covered payroll. Contributions to the System also include one-fourth of one percent (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the Bureau are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year. The Bureau's contributions to the System under Plan A for the year ending December 31, 2005 was \$40,443, equal to the required contributions for the year.

NOTE 6 - CAPITAL LEASE

During 1997, the Bureau entered into a capital lease with the city of West Monroe, Louisiana to build and lease office space. The lease is for a fifteen-year period commencing September 1, 1997. The initial monthly rental is \$450 per month beginning September 1, 1997. The monthly rental is subject to increase on November 1, 1997; February 1, 1998; June 1, 1998; September 1, 1998 and as of the date of final completion of construction and final acceptance based upon expenditures of lessor. The Bureau paid \$323,172 and \$300,000 during 2002 and 2001, respectively, on the capital lease. The lease payment was increased in order to amortize the additional cost of construction over the remaining lease period subject to a maximum monthly payment of \$2,000 per month by the lessee. If the amounts exceed \$2,000 per month, the Bureau can pay down the principal balance sufficient enough to maintain a \$2,000 maximum rental payment or pay \$2,000 for three years and adjust the payments subsequently to pay the balance over the remaining life of the lease. In 2002, the Bureau paid \$323,172 to the City of West Monroe to completely pay-off the capital lease amount. Construction on the building was completed in November 2000, and the Bureau moved in December 2000. The capital lease had a stated interest rate of 7.5%.

The Bureau will be responsible for maintenance, repairs, insurance, utilities, and taxes. The Bureau had the option to purchase the leased premises at a price equal to the amortized principal balance owed on the date of transfer of ownership. Ownership transferred to the Bureau in 2003.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2005

NOTE 1 - BUDGETARY PROCESS

The Executive Director submits an annual budget to the Board of Directors in accordance with Louisiana law and regulation. The Board of Directors then reviews the budget and may make changes to revenues and/or expenditures as they deem needed. The Board of Directors approves the budget. Budget modification may be made throughout the year with approval of the Board of Directors.

1. Estimated Resources

As part of the Bureau's budgetary process, the Board approves the official estimated resources. The official estimated resources states the projected revenue of the organization. Prior to December 31, the Bureau must revise its budget so that the total contemplated expenditures during the ensuing fiscal year will not exceed the amount available as stated in the official estimated resources. Estimated resources may be further amended during the year if the Board determines that an estimate needs to be either increased or decreased. The amounts reported on the budgetary statements reflect the amounts in the final amended official certificate of estimated resources issued during 2005.

2. Appropriations/Expenditures

An annual appropriation resolution must be adopted by the Board of Directors. The appropriation resolution fixes spending authority at the fund and object level. The appropriation resolution may be amended during the year as new information becomes available, provided that total fund appropriations do not exceed current estimated resources. Also, the allocation of appropriations among objects within a fund may be modified during the year by a resolution of the Board. The amounts reported as the original budgeted amounts in the budgetary statements reflect the appropriations in the first complete appropriated budget. The amounts reported as final budgeted amounts in the schedules of budgetary comparison represent the final appropriation amounts, including all supplemental appropriations.

3. Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the fund from which it was appropriated and becomes subject to future appropriations. The encumbered appropriation balance is carried forward to the subsequent fiscal year and need not be reappropriated.

4. Budgetary Basis of Accounting

The Bureau's budgetary process accounts for transactions on a GAAP basis by fund.
