Chief Financial Officer

April 24, 2020

Mayor-President Joshua S. Guillory  
Members of the City and Parish Councils  
Citizens of Lafayette Parish, Louisiana

Dear Mayor-President, Members of the City and Parish Councils, and Citizens of Lafayette Parish:

Pursuant to Louisiana State Statutes and the Home Rule Charter, I am pleased to submit the Comprehensive Annual Financial Report (CAFR) for Lafayette City-Parish Consolidated Government for the fiscal year ended October 31, 2019. The Home Rule Charter requires that the City-Parish Council provide an annual independent post fiscal year audit and such additional audits, as it deems necessary, of the accounts and other evidence of financial transactions of the Consolidated Government including those of all Consolidated Government departments, offices, or agencies. The City-Parish Council shall designate an independent auditor to make such audits.

The Accounting Division of the Office of Finance and Management prepared this report in accordance with generally accepted accounting principles (GAAP). We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to set forth fairly the financial position and results of operations of the City-Parish as measured by the financial activities of its various funds and the entity-wide presentation; and that all disclosures necessary to enable readers to gain an understanding of City-Parish financial affairs have been included. Responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the local government.

Lafayette City-Parish Consolidated Government's financial statements have been audited by Kolder, Slaven & Company, LLC, a firm of licensed, independent, certified public accountants designated by the City-Parish Council. The goal of the independent audit was to provide reasonable assurance that the financial statements are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and the disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditors concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that Lafayette City-Parish Consolidated Government's financial statements for the fiscal year ended October 31, 2019 are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first document of the Financial Section of this report.

Lafayette City-Parish Consolidated Government (LCG) is required to undergo an annual single audit in conformance with the audit requirements of the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and the Audit Requirements for Federal Awards* (Uniform Guidance). Information related to this single audit including the Schedule of Expenditures of Federal Awards, findings and recommendations, and the independent auditor's reports on the internal control structure and compliance with applicable laws and regulations is presented immediately following the Statistical Section of this report.

Management’s Discussion and Analysis (MD&A) immediately follows the independent auditor’s report and provides a narrative introduction, overview, and analysis of the basic financial statements. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

### ***Profile of the Government***

The City of Lafayette, Louisiana is the parish seat of the Parish of Lafayette. The 2019 estimated population of the City is 133,942 and the Parish is 244,056. The region was settled in 1763 by exiled Acadians from Nova Scotia (commonly called Cajuns). The Parish was created on January 17, 1823 and covers a total of 277 square miles. The City of Lafayette was originally founded as Vermilionville in 1821 and later renamed Lafayette in 1884. The City was incorporated in 1914. The Parish is located in the heart of Acadiana, an eight parish area in the center of southern Louisiana between New Orleans and Houston. French, Creole, and Acadian culture, handwork and traditions are very much in evidence in and around the region and both French and English languages are still spoken. An estimated 14.37% of the Parish population speaks both French and English.

The governing authority of LCG for Fiscal Year 2019 is the Lafayette City-Parish Council, consisting of nine members elected from nine single member districts. The LCG chief executive is the Mayor-President. Beginning in Fiscal Year 2020, the nine members of Lafayette City-Parish Council will be replaced by the new “Lafayette City Council” consisting of five members who shall serve as the governing authority for the City and the new “Lafayette Parish Council” consisting of five members who shall serve as the governing authority for the Parish. The City Council and Parish Council, jointly, shall serve as the governing authority for LCG. The LCG chief executive remains the Mayor-President. LCG’s governance structure is by home rule charter which, in its current form, was voted on by the citizenry in 1992. Although the governments were consolidated in 1996, the Home Rule Charter states that “The City of Lafayette shall continue to exist as a legal entity... and shall exercise all powers granted by general state law and the state constitution for municipalities of the same population class.” The Charter also states that all fees, charges, and taxes levied by Lafayette Parish and the City of Lafayette shall continue to be levied by the City-Parish Government for purposes and services as prior to consolidation until changed by the Council by ordinance or by a vote of the people when a vote is required for tax purposes; therefore, after consolidating administration and operations of the two governments, LCG continues to maintain separate accounts for the City of Lafayette and Parish funds.

Lafayette City-Parish Consolidated Government provides a wide range of services including public safety, highways and streets, sanitation, airports, transportation, recreational activities, general administration functions, and other general governmental services. It also provides fiber optic networking services through LUSFiber. Lafayette Utilities System (LUS), a department of LCG, provides electric, water, and wastewater services that are amongst the lowest priced in the state.

### ***Mission Statement***

The mission of Lafayette City-Parish Consolidated Government is to enhance the quality of life of our community by providing high-quality; cost-effective services that meet the needs and expectations of the public.

### ***Accomplishments***

- The Office of Finance and Management earned LCG’s sixth Government Finance Officers Association Distinguished Budget Presentation Award for the FY 2019 budget document.
- The Lafayette Public Library System opened a new 17,500 square foot library, the West Regional Library located in Scott, Louisiana.

- Lafayette Utilities System (LUS) issued approximately \$70 million in utilities revenue bonds for the purpose of funding capital projects such as sewer plant expansions, water system upgrades, electric transmission and distribution construction, LED street light upgrades, and other utilities projects.
- The Lafayette Police Department established the rank of Senior Corporal.
- The Lafayette Fire Department implemented Fire Safety Solutions Campaign installing 158 Deaf or Hard of Hearing smoke alarms with strobe lights and bedside fire alarm and clock with bed shaker.
- The Lafayette Animal Shelter and Care Center had a record-breaking year in 2019 with a total of 1,481 adoptions. Annual adoptions increased from 1,059 in 2018 to 1,481 in 2019.
- As part of the Drainage Initiative, 23 miles of coulees were cleaned by the Public Works Department, positively affecting over 30,600 residents within the drainage basins of those 23 miles.
- The IS&T Department completed phases I & II of 311 Lafayette Implementation. Through 311 Lafayette, citizens can submit non-emergency service requests and find related information in one, easy-to-access location.

### ***Budgetary Control***

The fiscal year for Lafayette City-Parish Consolidated Government is November 1 through October 31. The Home Rule Charter requires that at least ninety days prior to the beginning of each fiscal year, an operating budget and a capital improvement budget be submitted to the City-Parish Council. The City-Parish Council then publishes a public hearing notice at least ten days prior to the date the budget is presented to the public for a formal public hearing. The notice is required to include a general summary of the proposed budget, the times and places where copies of the budget are available for public inspection, and the location, date, and time of the public hearing.

The annual budget serves as a policy document, a financial plan, an operations guide, and a communications device for Lafayette City-Parish Consolidated Government. It is the foundation for LCG's allocation of resources toward service delivery plans for the coming fiscal year. The budget is reported using the current financial resources measurement focus and is consistent with generally accepted accounting principles as applied to governmental units. Appropriations define the cash limits that cannot be exceeded. No reference is given to when revenues are earned or expenses are incurred. For budgetary purposes, these items are only recognized when received or paid. Non-cash items such as depreciation and amortization are not budgeted.

Conversely, the government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the modified accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions in which the government gives (or receives) value without directly receiving (or giving) equal value in exchange include property taxes, grants, and entitlements. On an accrual basis, property taxes are recognized in the year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

### ***Local Economy***

The business base of the Parish includes energy services, manufacturing, health care, transportation and distribution, education, information technology, finance, tourism, and other service-related industries. The population in Lafayette's trade market is over 600,000 people with over one million tourists visiting the area each year. More than twenty percent of the retail dollars spent in the Parish come from visitors outside the Parish's borders.

Sales taxes make up one of the largest parts of local revenues and are usually restricted (dedicated) to specific uses by the voters. Currently, residents are charged a total of eight point forty-five percent (8.45%) sales tax, with the exception of TIF districts. Lafayette City-Parish Consolidated Government has a two

percent (2%) general sales and use tax for the City of Lafayette and a one percent (1%) general sales and use tax for the Parish of Lafayette. In 2019, total retail sales reached \$6.34 billion, the second highest year on record.

Proceeds of the 1961 one percent (1%) general sales and use tax levied by the City of Lafayette are dedicated to capital improvements such as street improvements, building construction, drainage, and any other work of permanent public improvement. Proceeds of the 1985 one percent (1%) general sales and use tax levied by the City of Lafayette are dedicated to capital improvements for streets and drainage. Both the 1961 and 1985 general sales and use taxes are dedicated to supplementing the revenues of the City’s General Fund after providing the debt service on outstanding bonds, provided that such an amount cannot exceed 35% of the annual sales tax revenues.

Lafayette Parish is authorized by the voters of the Parish to levy and collect one percent (1%) general sales and use tax on a parish-wide basis except for territory located within the boundaries of any incorporated municipality situated within the Parish. The net proceeds of the sales tax are deposited in the Parish General Fund for general expenditures.

Between fiscal year 2018 and 2019, total sales tax revenues increased by \$2,589,365. The five year trend for sales tax at the fund level has been as follows:

<b>Fiscal Year</b>	<b>City-1961</b>	<b>City-1985</b>	<b>Parish</b>	<b>TIF MM103</b>	<b>Total</b>
2015	\$44,694,734	\$37,804,976	\$5,812,450	\$1,258,320	\$89,570,480
2016	\$43,337,302	\$36,122,279	\$4,664,950	\$1,524,519	\$85,649,050
2017	\$43,441,278	\$36,575,353	\$4,573,349	\$1,247,517	\$85,837,497
2018	\$43,181,294	\$36,221,327	\$4,576,267	\$1,269,596	\$85,248,484
2019	\$44,592,889	\$37,221,378	\$4,885,224	\$1,138,358	\$87,837,849

For further information regarding sales taxes, please refer to the Statistical Section that immediately follows the Financial Section of this report.

In October of 2019, the unemployment rate for Lafayette Parish was 4.3%, above the national average of 3.3% and below the state’s rate of 4.7%. The per capita income is \$50,273 with an average single family home price of \$202,019.

The Lafayette Parish School System includes 42 schools, 22 elementary schools, 12 middle schools, and 8 high schools. Included in the system are 5 schools of choice, 8 high school academies, foreign language immersion curriculums, and gifted and talented programs. Lafayette is also home to the University of Louisiana at Lafayette (UL Lafayette) which is part of the University of Louisiana System. The University is the second largest university in Louisiana with over 19,000 students. UL Lafayette offers bachelors, masters, and doctoral degrees in curriculums ranging from the humanities to hard sciences. It is one of the top-ranked universities in the south.

***Major Initiatives***

***PlanLafayette*** is the 20-year master plan, adopted in 2014, to manage Lafayette’s growth and development in order to achieve the community’s long-term vision. LCG departments and external agencies have started or completed 282 of the plan’s 465 action items. *PlanLafayette* also influences and supports priorities of the administration – making Lafayette a place that residents are proud to call home and visitors and businesses want to be. Efforts of the Mayor-President focus on managing storm water, revitalizing University Avenue, creating efficiencies across government, strengthening the cultural economy, transforming animal control to a no kill shelter and enhancing the quality of life.

**Drainage** – A recurring theme of *PlanLafayette* is refining government by leveraging existing assets and making more efficient use of resources. During his term, Mayor-President Robideaux has done just that,

identifying more than \$98 million of existing tax revenue to address drainage. With rededicated funding, the administration has prioritized 60+ miles of crucial drainage needs throughout the parish and tackled dozens of deferred maintenance projects in flood-prone areas. As drainage projects are completed, development standards are also being addressed with new requirements for capacity-related modifications such as increased pond storage.

Revitalizing University Avenue – *PlanLafayette* identified University Avenue as a crucial gateway to the community. With renewed focus, the corridor can return to its former cultural, social and economic prosperity. More than 150 corridor stakeholders, residents and business owners have shared their vision for recreation, entertainment, dining, design alternatives, housing, and identified landmarks to be preserved and highlighted. The final plan aims to improve pedestrian safety, transportation efficiency and enhance economic revitalization potential. In support of the redevelopment, the corridor is now included in an Opportunity Zone and a Cultural District, and a rezoning and overlay are underway to realize the vision of the plan.

Innovative Approaches – Since the adoption of *PlanLafayette*, technology continues to play a greater role in creating efficiencies across government, economic development opportunities and quality of life enhancements. Championing the greater potential of Lafayette’s homegrown LUSFiber as an asset for constituents, 311 Lafayette was developed as the one-stop for constituent engagement, better servicing citizens by increasing transparency and creating efficiencies across LCG. The digital portal leverages LUSFiber’s 10-Gig infrastructure to report citizens’ most common issues such as drainage concerns, waste collection problems, and non-emergency police matters. Integrating new and emerging technologies, 311 Lafayette works to create transparency through innovative ideas to address critical issues.

Cultural Economy – Lafayette’s rich heritage, creative scene and “joie de vivre” create a unique and attractive place for residents, visitors and businesses looking to relocate and plays a significant role in retaining and attracting future generations to the region. Voters approved \$500,000 in annual funding to establish the CREATE initiative (Cultural, Recreation, Entertainment, Arts, Tourism and Economy), which markets our culture to expand commerce associated with artistic, cultural and recreational opportunities, focusing on job creation and greater economic growth throughout the parish. *PlanLafayette* envisioned culture planning through a collaborative process with stakeholders and civic leadership, and includes dozens of action items strengthened by the initiative.

No Kill 2020 – *PlanLafayette*’s vision to make Lafayette’s animal shelter a no kill shelter continues by ensuring more animals are adopted or fostered, and reserving euthanasia only in instances of health and behavioral issues. The parish-wide no kill initiative is supported by administrative policy changes such as feline trap, neuter and return program, lower adoption fees and free adoptions for military veterans and senior citizens. The crowning achievement of the no kill initiative is a new state-of-the-art animal shelter with construction starting by January of 2020.

Adjudicated Properties – *PlanLafayette* addresses issues around blighted, vacant and adjudicated properties and stresses a more streamlined approach to dealing with adjudicated properties. In 2015, the Council adopted a property disposition ordinance and since then, 30+ properties have moved through the disposition process. The goal is to revitalize neighborhoods and get these properties back into commerce. LCG is reviewing other property processes, like code enforcement, to take a more targeted approach to addressing neighborhoods in distress.

**LUSFiber** is the area’s only 100% community owned fiber optic network offering telephone, cable, and internet. LUSFiber provides some of the fastest internet in the world to customers in the City of Lafayette with speeds up to 10 Gbps for both business and residential customers. In 2019, LUSFiber continued expanding community partnerships with local events like Festival International and cultural and economic epicenters such as the Cajundome and University of Louisiana at Lafayette. LUSFiber also launched a new full-streaming service, **ConnetTV** to meet the demands of the changing market. Additionally, LUSFiber’s bond rating from Moody’s Investors Service was upgraded to a rating of A2 from A3 due to sustained expansion and industry growth.

## ***Relevant Financial Policies***

### ***Fund/Department Structure***

The fund structure for LCG is especially complex. City and Parish funds are accounted for separately due to the source of revenue and authority granted by the voters of both the City and the Parish. There are two general funds; one for the City and one for the Parish that are reported as one combined general fund to comply with generally accepted accounting principles. Combined, there are over fifty general governmental funds (special revenue, debt service, and capital projects), four internal service funds, and five business type funds.

### ***Investment Management***

The Cash Management Rules and Guidelines of LCG address the following areas:

- Scope, Prudence, and Objectives
- Delegation of Authority
- Authorized Financial Dealers and Institutions and Diversification in Authorized and Suitable Investments
- Collateralization
- Safekeeping and Custody

It is the policy of LCG to invest public funds in a manner which conforms to existing Louisiana State Statutes governing the investment of public funds and LCG's Home Rule Charter while receiving a maximum rate of return. LCG's Investment Policy has the following objectives: safety, liquidity, yield, and public trust. Authorized security purchases include:

- U.S. Treasury Bills, Notes, and Bonds with maturities not to exceed two years.
- Federal agency and instrumentality coupon debentures and discount notes with maturities not to exceed two years – limited to Federal Home Loan Bank, Federal National Mortgage Association, Federal Farm Credit Bank, and Federal Home Loan Mortgage Corporation.
- Repurchase agreements with a maturity not to exceed six months on the above securities collateralized at a minimum of 102 percent of the purchase price of the repurchase agreement.
- The purchase of any securities listed in the first two bullets in excess of two years must be pre-approved in writing by the Chief Financial Officer.

### ***Fund Balance Policy***

Governmental funds report the difference between their assets and liabilities as fund balance. Under generally accepted accounting principles, fund balance is divided into two major components; Nonspendable and Spendable. Nonspendable is that portion of fund balance that is not available for appropriation because the assets it represents are not in a spendable form, such as inventory. Spendable Fund Balance is further broken down into four categories; restricted, committed, assigned, and unassigned. It is the unassigned portion of fund balance that can be appropriated without external or internal restrictions. It is the intent of LCG administration to maintain at a minimum its unassigned fund balance for the City General Fund at 20% of the total fund's operating expenses. Under this policy, LCG administration, in its budgeting process, submits a proposed budget to the City-Parish Council that adheres strictly to the fund balance requirements. This policy has not yet been ratified by the City-Parish Council and during the budget adoption process the City-Parish Council may, at their discretion, amend the budget in such a way that this policy is violated. In such cases, policy violations will be discussed in the administration's transmittal letter in the final budget document. Additionally, the City-Parish Council may be asked to provide a discussion of these decisions and, if provided, will be included in the final budget document as well.

### ***Debt Policy***

LCG's debt is issued primarily as a financing tool for infrastructure (such as streets, drainage, and utilities) and infrastructure improvements. A careful balance between debt financed projects and pay-as-you-go capital projects is maintained. Capital projects that may be funded by debt are evaluated within the context of LCG's long range capital plan and debt is only issued after careful consideration of current debt levels, economic conditions, the availability of alternative funding sources, and key debt and liquidity ratios. Bond covenants require that the average annual revenues for the City of Lafayette sales tax collections for the two most recent fiscal years must equal or exceed 1.5 times the highest combined principal and interest requirements for any succeeding fiscal year on all City sales tax bonds outstanding. It is the administration's policy to maintain a higher City sales tax ratio of 2.0.

Louisiana Revised Statutes limit the Parish's general obligation bonded debt for other purposes to 10% of the assessed valuation of the taxable property for a single purpose with no limit on the number of purposes. The City may issue general obligation bonded debt in excess of 10% of the assessed valuation of the taxable property for any single purpose provided that the aggregate for all such purposes (determined at the time of issuance of the bonds) does not exceed 35% of the assessed valuation of the taxable property of the City.

Compliance with all bond covenants, bond ordinances, contracts, etc. are monitored. Additionally, required financial data and event information are uploaded to the Electronic Municipal Market Access (EMMA) which is the official repository for information on virtually all municipal bonds.

#### *Revenue Policy*

LCG endeavors to have a diversified and stable revenue system to protect against unforeseeable short-term fluctuations in any one revenue source. Revenue forecasts are based on the best information available and take into consideration historical trends, current economic factors (such as property assessments and retail sales trends), and projected activity. Revenues are budgeted conservatively but if economic downturns develop, which could result in revenue shortfalls, adjustments in budgeted expenditures are made to compensate. LCG establishes and monitors user fees and charges based on the cost of services and community benefit. Services may be subsidized as the City-Parish Council deems necessary. The use of one-time revenues or those of an unpredictable nature to fund on-going expenditures is discouraged. LCG pursues alternate methods of financing such as federal and state grants and intergovernmental agreements.

#### *Expenditure Policy*

All department directors share in the responsibility of looking at and understanding LCG's long-term financial viability, the general spending trends of their respective departments, the projected departmental revenues, and educating themselves and their staff on the necessary short and long-term balance between revenues and expenses. Departmental budgets are submitted to the administration with these responsibilities in mind and budgets are typically zero-based or status quo with little or no increases to expenditures contemplated. As the administration evaluates budgetary requests, higher priority is given to expenditures which provide direct public services and public health and safety. The highest priority is given to the payment of bonds, notes, contracts, accounts payable, and other monetary liabilities. An appropriate balance between these priorities and the dollars provided towards the assurance of good management and legal compliance is strived for.

#### *Capital Improvements*

LCG maintains a Five-Year Capital Improvement Program (including anticipated funding sources) which is updated annually and is approved by the City-Parish Council during the budget process. Capital improvement projects are defined as infrastructure, equipment purchases, or construction that results in a capitalized asset and having a useful life of more than one year.

In addition to a Five-Year Capital Improvement Program, Section 5-05 of the Home Rule Charter requires that a Capital Improvement budget must include the estimated annual cost of operating and maintaining the capital improvement to be constructed or acquired.

Proposed capital projects are reviewed by departmental directors, staff, and administration. Priority of projects is based on financial sources available and/or debt considered and overall consistency with LCG's goals and objectives.

### *Internal Controls and Fiscal Monitoring*

City-Parish management is responsible for establishing, implementing, and maintaining a framework of internal controls designed to ensure that City-Parish assets are protected from loss, theft, or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles.

The system of internal control is designed to provide reasonable but not absolute assurance regarding: 1) the safeguarding of assets against loss from unauthorized use or disposition, 2) the reliability of financial records for preparing financial statements, and 3) accountability for assets. The concept of reasonable assurance recognizes that the cost of control should not exceed the benefits likely to be derived and the valuation of costs and benefits requires estimates and judgments by management.

Financial systems will maintain internal controls to monitor revenues, expenditures, and program performance on an ongoing basis. As required by the Home Rule Charter and/or internal written policy, monthly financial reports are prepared as well as departmental meetings held to review the status of revenues and expenditures and compliance to the adopted budget.

### *Long-term Financial Planning*

The City of Lafayette, through the Lafayette Public Power Authority (LPPA), acquired a 50 percent ownership interest in a fossil fuel steam electric generating unit known as Rodemacher Unit 2 ("Unit 2"). The output of Unit 2 is sold by LPPA to the City in accordance with a long-term power sales contract whereby LPPA agreed to sell and the City agreed to purchase LPPA's share of the power and energy produced by Unit 2. The contract expires August 31, 2047. Payments under the contract are specified to be sufficient to pay all costs of LPPA in connection with Unit 2 including LPPA's share of operation and maintenance of Unit 2, debt service requirements, and all other financial obligations of LPPA's share of Unit 2. These obligations are payable as an operating expense of the Utilities System Fund and payable solely from the revenues of the Utility System. Expenses related to fuel, purchased power, and associated costs are recovered through a fuel charge established by the director of the Utilities System. The payments to LPPA are required to be made whether or not Unit 2 is operating or inoperable.

### *Awards and Acknowledgements*

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Lafayette City-Parish Consolidated Government for its comprehensive annual financial report (CAFR) for the fiscal year ended October 31, 2018. This was the fourth consecutive year that the government has achieved this prestigious award. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one (1) year only; however, LCG believes that the current comprehensive annual financial report continues to meet the Certificate of Achievement for Excellence in Financial Reporting Program's requirements and LCG is submitting it to GFOA to determine its eligibility for another certificate.

In addition, Lafayette City-Parish Consolidated Government also received GFOA's Distinguished Budget Presentation Award for its annual operating budget prepared for the fiscal year covered by this Comprehensive Annual Financial Report. This was the sixth consecutive year that the government has received this award. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, an operations guide, a financial plan, and a communications device.

The preparation of this report on a timely basis could not have been accomplished without the dedicated services of a highly trained and qualified staff. I also would like to acknowledge the thorough, professional, and timely manner in which the audit was conducted by our independent auditors Kolder, Slaven, & Company, LLC.

In addition, we express our appreciation to Mayor-President, Mr. Joshua S. Guillory and the members of the City and Parish Councils for their interest and support in planning and conducting the financial affairs of the City-Parish in a responsible and progressive manner during their terms in office.

Respectfully submitted,

## INDEPENDENT AUDITOR'S REPORT

To the Lafayette City-Parish  
Council of Lafayette, Louisiana

### Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lafayette City-Parish Consolidated Government (the Government), as of and for the year ended October 31, 2019, and the related notes to the financial statements, which collectively comprise the Government's basic financial statements, as listed in the table of contents.

### *Management's Responsibility for the Financial Statements*

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditor's Responsibility*

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of Cajundome Commission, City Court of Lafayette, Lafayette Regional Airport, Lafayette Parish Waterworks District North, Lafayette Parish Waterworks District South, Lafayette Parish Bayou Vermilion District, and Lafayette Parish Communication District, component units, which represent 89.70% and 95.90%, respectively, of the assets and program and general revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for Cajundome Commission, City Court of Lafayette, Lafayette Regional Airport, Lafayette Parish Waterworks District North, Lafayette Parish Waterworks South, Lafayette Parish Bayou Vermilion District, and Lafayette Parish Communication District is based solely on the reports of other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained and the audit evidence obtained by other auditors is sufficient and appropriate to provide a basis for our audit opinions.

### ***Opinions***

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Government, as of October 31, 2019, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### ***Other Matters***

#### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, budgetary comparison schedule, schedule of changes in total OPEB liability and related ratios, schedule of employer's share of net pension liability, and schedule of employer contributions on pages 4 through 15 and 99 through 102, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### ***Other Supplementary Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Government's basic financial statements. The introductory, other supplementary information, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements.

The governmental funds, nonmajor enterprise funds, internal service funds, fiduciary funds, nonmajor component unit combining statements, Utility System Fund statement, and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied by us and other auditors in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion and the opinion of other auditors, the governmental funds, nonmajor enterprise funds, internal service funds, fiduciary funds, nonmajor component unit combining statements, Utility System Fund statement, and the schedule of expenditures of federal awards are fairly stated in all material respects in relation to the basic financial statements as a whole. The prior year comparative information on the governmental funds and nonmajor enterprise funds combining statements has been derived from the Government's 2018 financial statements, which was subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, was fairly presented in all material respects in relation to the financial statements as a whole.

The introductory section, budgetary comparison schedules, governmental fund schedules of revenues, expenditures, and changes in fund balances – budget to actual, schedules of expenditures compared to capital budget, and statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated April 24, 2020, on our consideration of the Government's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Government's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Government's internal control over financial reporting and compliance.

## Management's Discussion and Analysis

October 31, 2019

Lafayette City-Parish Consolidated Government (LCG) presents the following discussion and analysis of the financial performance during the fiscal year ending October 31, 2019. This discussion and analysis is intended to assist readers in focusing on significant financial issues and changes in financial position and identifying any significant variances from the adopted budget. We encourage readers to consider the information presented here in conjunction with additional information presented in the financial statements provided in this report. All amounts, unless otherwise indicated, are expressed in millions of dollars.

### Financial Highlights

- The assets and deferred outflows of LCG exceeded its liabilities and deferred inflows by \$1,085.3 (net position).
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$37.4, or 34.6% of total General Fund expenditures and other financing uses. Ending Fund Balance for the General Fund notes an increase of \$4.9 or 9.5% over 2018.
- At the end of the current fiscal year, LCG's governmental funds reported combined ending fund balance of \$293.8, an increase of \$28.9 compared to the fiscal year 2018. Of this amount \$369 thousand is non-spendable and \$293.4 is spendable. Of the total spendable fund balance, \$37.4 is unassigned and is available for spending at the Government's discretion.
- LCG issued City Public Improvement Sales Tax Refunding Bonds during the fiscal year which resulted in a debt service reduction of \$4.6 and an economic gain of \$3.1.
- The bond ratings for the Lafayette Utilities System Bonds were upgraded by Moody's Investors, while Standard & Poor's confirmed the bonds' current ratings.

### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to LCG's basic financial statements which have three components: 1) government-wide financial statements, 2) fund financial statements and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview similar to private-sector business financial presentations.

The *statement of net position* presents information on all of LCG's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of LCG is improving or deteriorating.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Management's Discussion and Analysis (Continued)  
October 31, 2019

The *statement of activities* presents information showing how the Government's net position changed during the fiscal year. Changes in net position are recorded when the underlying event giving rise to the change occurs regardless of the timing of the cash flows. Therefore, revenues and expenses reported in this statement for some items will not result in cash flows until future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave). Both of the government-wide financial statements distinguish functions of LCG that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees or charges (business-type activities).

Governmental activities include general government, public safety, public works, urban redevelopment and housing, culture and recreation, health and welfare, economic opportunity, and economic development and assistance.

The business-type activities reflect private sector type operations where the fee for service typically covers all or most of the cost of operations including depreciation. The City's electric, water, wastewater, fiber optics utilities funds, along with LCG's solid waste collection, environmental services, and CNG service station funds are reported here.

### Fund Financial Statements

The accounts of LCG are organized on the basis of funds, each of which is considered a separate accounting entity. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements are used to present financial information detailing resources that have been identified for specific activities. The focus of the fund financial statements is on LCG's major funds although non-major funds are also presented in aggregate and further detailed in the supplementary statements.

LCG uses fund accounting to ensure and demonstrate compliance with requirements placed on resources. Funds are divided into three categories: governmental, proprietary and fiduciary. Fund financial statements allow LCG to present information regarding fiduciary funds since they are not reported in the government-wide financial statements.

**Governmental Funds** are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. Unlike the government-wide financial statements, governmental fund financial statements focus on near-term outflows of spendable resources as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's current financing requirements.

LCG has presented the General Fund and the Sales Tax Capital Improvement Fund as major funds. All non-major governmental funds are presented in one column, titled "Other Governmental Funds". Combining financial statements of the non-major funds can be found in the other supplementary information section that follows the basic financial statements.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Management's Discussion and Analysis (Continued)  
October 31, 2019

**Proprietary Funds** encompass both enterprise and internal service funds on the fund financial statements. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. Internal service funds are an accounting device used to accumulate and allocate costs internally among LCG's various functions. LCG uses internal service funds to account for its central vehicle maintenance, central printing, self-insured insurance and group hospitalization activities. Because all of these services predominantly benefit governmental rather than business-type functions, they have been included within the governmental activities section in the government-wide financial statements. Combining statements of the non-major individual enterprise and internal service funds can be found in the other supplementary information section following the basic financial statements.

**Fiduciary Funds** are used to account for resources held for the benefit of parties outside the primary government. Fiduciary funds are not reflected in the government-wide financial statements as the resources of those funds are not available to support LCG's programs and operations. With the exception of agency funds, the accounting for fiduciary funds is much like that used for the proprietary funds.

**Notes to the Basic Financial Statements** provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements and are a required part of the basic financial statements.

**Other Supplementary Information** – In addition to the basic financial statements and accompanying notes, this report also presents the required supplementary information of LCG's General Fund budgetary comparison schedules that demonstrate compliance with its budget.

Also included in the report are the Uniform Guidance, Auditor's reports, findings and schedules and the statistical section.

For the year-ended October 31, 2019, total assets and deferred outflows exceeded liabilities and deferred inflows by \$1,085.3. The largest portion of LCG's net position, \$772.2 (71.2%) represents its investment in capital assets less any related debt used to acquire those assets that are still outstanding and includes assets such as land, infrastructure, improvements, buildings, machinery and equipment and intangibles.

Capital assets are used to provide services to the citizens of LCG and are not available for further spending. Although LCG's investment in capital assets is reported net of related debt, the resources needed to repay the debt must be provided from other sources as capital assets cannot be used to liquidate liabilities. Of the total net position, \$374.2 represents resources that are subject to external restrictions on how they may be used.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Management's Discussion and Analysis (Continued)  
October 31, 2019

The deficit of \$110.9 in unrestricted net position in governmental activities is primarily the result of long-term liabilities such as the net pension liability required under GASB 68, the accounting for non-pension related benefits under GASB 75, and the liability for unused employee vacation and sick days not previously funded, which together exceed current assets that are not externally dedicated for specific purposes. The business-type activities unrestricted assets are \$49.8 at year end.

October 31, 2019

LCG's total revenues were \$585.5 and the total cost of all programs and services was \$534.9 resulting in an increase in net position of \$50.6. General revenues represented 35.6% of LCG's total revenue while program revenues provided 64.4% of total revenues. Business-type activity expenses totaled \$285.4 or 53.4% of the governments total expenses.

*Governmental Activities* net position increased \$18.6 in 2019 compared to \$24.2 in the prior year. The cost of all governmental activities this year was \$249.5 and represented an 8.9% increase over 2018 expenses. LCG's largest program in governmental activities is public safety, with \$80 of resources applied thereto. Following that is general government, public works, and culture and recreation.

Some factors affecting the change in net position for *Governmental Activities* were:

- An increase of \$6.2 in other revenues due predominately to increased earnings on investments
- An increase in Sales Taxes of \$2.4
- An increase of \$1.0 in Property Taxes
- An increase of 2.8 in Operating and Capital grants
- An increase of \$10.1 in general government due predominately to increased pension costs and jail expenses
- An increase of \$7.8 in public works due to increases for Storm Water diversion and pension costs.
- An increase of \$3.5 in urban and economic development
- A decrease of \$2.2 in other expenses such as Public Safety, and interest on long-term debt

*Business-Type Activities* net position increased by \$32 in the current fiscal year compared to \$26.7 in the prior year. Charges for services make up 97.6% of the revenues in the business-type activities. The largest funds in this group are the Utilities System (LUS), Lafayette Public Power Authority (LPPA) and the Communications System. Charges for services decreased \$3.6 in the current fiscal year due predominately fluctuations in the fuel adjustment charge for electric services. Communications System (LUSFiber) operating revenues increased by \$2.6 due to the additional customers served during 2019.

### Financial Analysis of Governmental Funds

Activities of the Primary Government's General Fund, Special Revenue Funds, Debt Service Funds and Capital Projects Funds are considered general government functions. The General Fund is LCG's primary operating fund. Special Revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than debt service or capital projects. Debt Service funds are used to account for financial activity related to the government's general bonded indebtedness as well as other long-term obligations. Capital Projects funds are used to account for financial activity related to the government's indebtedness for capital projects, other agency contributions and the operating activities of those projects.

Total revenues increased \$13.0 or 5.2% when compared to the prior fiscal year revenues. Sales and use taxes and Property Tax revenues noted increases of 3% and 1.2%, respectively from 2018 to 2019. Federal Grant revenue increased \$3.4 (45.5%). Investment Earnings increased \$3.6 over the prior year attributable to an increase in both short and long-term investment interest rates from an average rate of return (fair value basis) of 1.84% in 2018 to an average of 2.52% in 2019.

As of the end of the fiscal year, LCG's governmental funds reported combined ending fund balances of \$293.8, an increase of \$28.9 in comparison with the prior year. This increase is the result of increases in restricted fund balance for expected and planned capital outlay and fund balance assigned for subsequent year's expenses. Less than 1% of governmental funds' fund balance is not spendable. The remaining 99.9% or \$293.4 is spendable. This represents \$215.2 restricted in use, \$40.8 assigned and \$37.4 unassigned.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Management's Discussion and Analysis (Continued)  
October 31, 2019

The unassigned fund balance represents amounts available for additional appropriations at the end of the fiscal year.

The total fund balance of the General Fund at year-end was \$56.2, an increase of \$4.9 from the previous year. The total spendable General Fund balance for fiscal year 2019 is \$56.2 which represents \$18.8 in assigned and \$37.4 in unassigned fund balances. The unassigned fund balance represents amounts available for additional appropriations at the end of the fiscal year.

Fund balance in the Sales Tax Capital Improvement Fund had an increase of \$11.4 in 2019 primarily due to an increase in amounts assigned for subsequent year's expenses.

**General Fund Budgetary Highlights**

Changes in original budget appropriations to the final amended budget appropriations resulted in a net \$2.6 increase in appropriations. This increase can be summarized by the following:

- General Government increased \$291 thousand which is attributable to an increase in appropriations due to unanticipated minimal increases in normal operating expenses.
- Public Safety appropriations increased \$2.3 which is attributable increases in appropriations for an increase in uninsured losses.

Final budgeted appropriations for the General Fund were \$100.5 while actual expenditures were \$95.4, creating a positive variance of \$5.1. Significant variances are as follows:

- General government had a positive variance of \$2.4 primarily due to reductions in operating expenses such as personnel salaries and related costs, contractual and professional services, and incomplete projects.
- Public Works had a positive variance of \$583 thousand due to reductions in general operating costs and incomplete projects.
- Public Safety had a positive variance of \$2.1 due to the reduction of personnel salaries, transportation costs, reductions in telephone and utilities charges as well as other operating expenses.
- Culture and Recreation had a positive variance of \$18.9 thousand due to the reduction of operating expenses such as personnel salaries and related costs, and equipment purchases not finalized.
- Miscellaneous departmental operations make up the remainder of the unexpended appropriations.

**Financial Analysis of Proprietary Funds**

*Proprietary Funds:* Activities of the Primary Government's Utilities System Fund, Communications System Fund, Lafayette Public Power Authority Fund, Environmental Services Disposal Fund, and the CNG Service Station Fund are considered proprietary funds. Financial analysis of these activities is on the same basis as the business-type activities. As of the end of the current fiscal year, the primary government's proprietary funds reported ending net position of \$603.5, an increase of \$32.8 or 5.7% in comparison with the prior year. The majority of the increase in ending net position is a reduction of \$9.1 in operating expense and an increase of \$3 in overall investment earnings from 2018 to 2019. Other changes that attributed to the increase in net position relate to normal revenue and expense fluctuations seen from year to year.

Details of the proprietary funds are covered under the section titled "Government-Wide Financial Statement Analysis" on page 7.

**Capital Asset and Debt Administration**

**Capital Assets:** LCG's investment in capital assets for its governmental and business-type activities as of October 31, 2019 amounts to \$1,373.3 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, parking facilities, electric, water, wastewater, fiber optic utility facilities, roads, highways, bridges, and drainage systems. The net increase in LCG's investment in capital assets for the current fiscal year was negligible.

- Continued network equipment upgrade to FTTx network with the availability to provide 10Gb/s to residents.

Additional information on LCG's capital assets can be found in Note 8 of this report.

**Long-Term Debt:** At the end of the current fiscal year, LCG had total bonded debt outstanding of \$736.2. Of this amount, \$47 is comprised of debt backed by the full faith and credit of the Lafayette Parish government. The remainder of the debt represents bonds secured solely by specified revenue sources such as the Utilities System revenues, Communications System revenues and the 2% City sales tax revenues. There are no general obligation bonds outstanding for the City of Lafayette at the end of the fiscal year.

Management's Discussion and Analysis (Continued)  
October 31, 2019

Computation of the legal debt margin (in whole dollars) for general obligation bonds is as follows:

**Governing Authority: City of Lafayette, Louisiana**

Ad valorem Taxes:

Assessed Valuation, 2018 tax roll (FY 2019)	<u>\$1,572,295,611</u>
Debt Limit: 10% of Assessed Valuation (for any one purpose)	\$ 157,229,561
Debt Limit: 35% of Assessed Valuation (aggregate, all purposes)	\$ 550,303,464

There are no outstanding bonds secured by ad valorem taxes of the City of Lafayette at this time.

**Governing Authority: Parish of Lafayette, Louisiana**

Ad valorem Taxes:

Assessed Valuation, 2018 tax roll (FY 2019)	<u>\$2,286,166,528</u>
Debt Limit: 10% of Assessed Valuation (for any one purpose)	\$ 228,616,653
Debt outstanding	\$ 49,960,000

The Louisiana Revised Statutes limit the City's bonded debt for any one purpose to 10% of the assessed valuation including homestead exemption property and 35% for all purposes. The Parish bonded debt is limited to 10% of the assessed valuation of the taxable property for any one purpose.

**Economic Factors and Next Year's Budget**

Many factors were considered when preparing the fiscal year 2020 budget. The status of the Lafayette economy was assessed as well as historical revenue and expenditure trends. The Lafayette MSA unemployment rate at fiscal year-end 2019 was 4.6%. This compares to a rate of 4.7% for the State of Louisiana and 3.3% for the United States. Per capita income has remained steady the past three years and notes per capita income of \$50,273 at the end of 2019.

The City's 2% general sales and use tax and the Parish's 1% general sales and use tax are major revenue sources to the General Fund, making up 29.7% of revenues. Over the last three fiscal years (2015-2018) a slowing and flattening of sales tax revenue has been seen in both the City and Parish sales tax. In FY 2018, the change in sales tax revenue was less than 1%. In FY 2019, the City and Parish sales tax revenues combined noted a slight increase of \$1.1. The FY 2019 budget was prepared very conservatively based on historical trends and annualized actual collections in sales tax.

In the FY 2020 budget, appropriations in the City General Fund totaled \$112.7 which represents an increase of 6.1% from FY 2019. Amounts appropriated in the FY 2020 Parish General Fund budget totaled \$12.9 and represents a 4.2% decrease over FY 2019. In order to maintain a working fund balance for the Parish General Fund, wholesale reductions were made. LCG diligently monitors revenue trends and is researching potential new revenue sources and solutions to continue to provide both for state mandated expenses and services to the citizens of the Parish.

Another major revenue source to the General Fund is the Utilities System's payment in-lieu-of-tax (ILOT) which makes up 22.9% of the General Fund's revenues. The ILOT for fiscal year 2019 was \$25.9.

In order to maintain financial flexibility, conserve a sufficient fund balance, and allow for the controlled use of excess fund balance, the LCG administration adopted as part of its budgetary strategy a City fund balance policy whereby a minimum maintenance level was set at 20% of annual expenditures. For FY 2020, LCG adopted a City

General Fund budget with a budgeted fund balance of \$34.2, which exceeds the administration's policy. The 2020 budgeted ending fund balance for the Parish General Fund is \$115 thousand.

At the time of this report, the State of Louisiana was under a declared Public Health emergency and general stay-at home order due to the COVID-19 pandemic. Lafayette Consolidated Government is closely monitoring its operations and any adverse economic impact the Government may experience due to the emergency. The full extent of the effect that the pandemic may have on local government is not yet known. As LCG enters its fiscal year 2021 budget preparation process (slated to begin May 2020), continued review of the budget will be done and further budgetary cuts and savings initiatives will be applied as appropriate.

**Reconciliation of the Statement of Revenues, Expenditures, and  
Changes in Fund Balances of Governmental Funds  
to the Statement of Activities  
For the Year Ended October 31, 2019**

Total net changes in fund balances at October 31, 2019 per statement of revenues, expenditures and changes in fund balances		\$ 28,855,535
The change in net position reported for governmental activities in the statement of activities is different because:		
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay and equipment purchases which are considered expenditures on the statement of revenues, expenditures and changes in fund balances	\$ 38,187,928	
Capital assets assigned from the Cajundome Commission	117,361	
Depreciation expense for the year ended October 31, 2019	(31,043,781)	
Loss on sale/disposal of capital assets	<u>(1,280,579)</u>	5,980,929
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds		
Sales taxes	228,848	
Non-employer pension contributions	<u>2,938,914</u>	3,167,762
Repayment of principal of long-term debt is recorded as expenditures in the governmental funds but reduces the liability in the statement of net position. Also governmental funds report the effect of premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities over multiple periods.		
Issuance of debt	(64,825,000)	
Payment to escrow agent	43,692,114	
Principal payments	21,140,000	
Original issue premium on debt issued during the fiscal year	(7,384,537)	
Net bond premium, discount amortized	1,846,216	
Loss on refunding amortized	<u>(1,107,340)</u>	(6,638,547)
Expenses reported in the statement of activities are recognized when liabilities are incurred; while expenditures are recognized at the fund level when cash payments are made. The amounts below represent the difference between the expenses incurred at the government-wide level and the current financial resources expended at the fund level.		
Compensated absences	(77,315)	
Interest expense	176,985	
Other postemployment benefits	441,888	
Pension expense	<u>(13,204,174)</u>	(12,662,616)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of the internal service funds is reported with governmental activities		<u>(44,012)</u>
Total changes in net position at October 31, 2019 per statement of activities		<u>\$ 18,659,051</u>

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements

(1) Summary of Significant Accounting Policies

The financial statements of Lafayette City-Parish Consolidated Government (the "Government") are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations). The accounting and reporting framework and the more significant accounting policies are described below.

A. Reporting Entity

The financial reporting entity consists of (a) the primary government, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the primary government is not accountable, but for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Primary Government -

The Government operates under a home rule charter. The plan of government provided by the home rule charter is a President-Council form of government. The elected Mayor-President is the head of the executive branch and the elected Council (nine members) will constitute the legislative branch. The Government's operations include police and fire protection, public transportation (a Government-owned bus system), streets and drainage, parks and recreation, certain social services (including urban redevelopment and housing) and general administration services. The Government owns and operates four enterprise activities: (1) a utilities system which generates and distributes electricity and provides water and sewer services; (2) a fiber optic network which provides telephone, cable TV and internet services; (3) an environmental quality division which provides compost and solid waste disposal and other environmental services; and (4) a compressed natural gas service station which provides an alternative fuel source for both public and private vehicles.

Component Units -

Section 2100 of the 2011 Governmental Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, "Defining the Financial Reporting Entity" establishes criteria for determining which entities should be considered a component unit and, as such, part of the reporting entity for financial reporting purposes. The basic criteria are as follows:

1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
2. Whether the primary government's governing authority (City-Parish Council or Mayor-President) appoints a majority of board members of the potential component unit and is able to impose its will on the potential component unit or the potential component unit is fiscally dependent on the primary government.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

3. Financial benefit/burden relationship between the primary government and the potential component unit.
4. The nature and significance of the relationship between the potential component unit with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading.

Based on these criteria, the Government includes the component units detailed below in the financial reporting entity.

Blended Component Unit -

Lafayette Public Power Authority (LPPA) - LPPA was created by the Louisiana Legislature for the purpose of acquiring electric generating facilities in conjunction with other governmental entities or private enterprises. LPPA owns 50% of a coal-fired generating plant in Boyce, Louisiana (other owners: Cleco - 30%; Louisiana Energy and Power Authority - 20%). All energy produced from LPPA's share of the facility is sold to the Government. Lafayette Public Utilities Authority (LPUA) is LPPA's governing authority and is comprised of City-Parish Council members whose council district includes sixty percent (60%) or more of persons residing in the City of Lafayette and the Government's Director of Utilities is its Managing Director. Although it is legally separate from the Government, LPPA is reported as if it were part of the primary government because its governing body is composed of much of the governing body of the Government and all of the energy generated is sold to the Government's Utilities System.

Discretely Presented Component Units -

Downtown Development Authority - Downtown Development Authority was created by the Louisiana Legislature to implement various plans to aid and encourage both private and public development of the Lafayette Centre Development District. The Council appoints the seven members of the Authority, and the Council must also approve any development plans of the Authority. Funding is provided by an ad valorem tax. The tax began in 1993 and renewed for a period of 15 years in 2008. The Authority's fiscal year end is December 31.

Firemen's Pension and Relief Fund and Police Pension and Relief Fund - These entities were created by the Louisiana Legislature to provide retirement and disability benefits to the firemen and policemen of the City of Lafayette. During a prior fiscal year, each merged with its respective statewide system. The funds will continue to exist until all assets have been liquidated. The entities' fiscal year end is October 31.

Cajundome Commission - Cajundome Commission was created in 1987 by an intergovernmental agreement between the City of Lafayette and the University of Louisiana - Lafayette, and is responsible for overseeing the operations of the Cajundome, a multi-purpose civic center. Three of the five members of the Commission are appointed by the Government, and the Government makes an annual contribution toward the operating and capital costs of the Cajundome. The Commission's fiscal year end is October 31.

Notes to the Basic Financial Statements (Continued)

City Court of Lafayette - City Court of Lafayette was created by the special legislative act. City Court has jurisdiction to hear cases that deal with the City of Lafayette municipal ordinances, traffic violations, parking violations, and cases where the amount disputed or value of the property involved does not exceed \$15,000. The City judges are elected and cannot be removed by the City-Parish officials. City Court of Lafayette is fiscally dependent on the City. The Council has the ability to modify or approve its budget, which comes from the General Fund. There are certain funds collected by City Court, pursuant to state statute, which are under the control of City Court. Financial data reported for the City Court component unit is from its separately audited financial statements for the fiscal year ended October 31.

Lafayette Regional Airport - Lafayette Regional Airport is a municipally owned, non-hub airport located on U.S. Highway 90 East in the City of Lafayette. The Airport provides passenger service through three regional carriers. The major source of revenue for the Airport is rentals on buildings, hangars, land and terminal space. The Airport is governed by a seven member, non-elected commission. Five members are appointed by the Government, one member is appointed by the Mayor-President, and one member is appointed by the mayors of the various municipalities surrounding Lafayette. The City-Parish Council has the ability to approve and/or deny each annual budget for the commission. The Airport's fiscal year end is December 31.

Lafayette Parish Waterworks District North - Lafayette Parish Waterworks District North was created under the provisions of Louisiana Revised Statutes 33:3811, for the purpose of providing potable drinking water to the rural areas of Lafayette Parish. The District is governed by a board of commissioners composed of nine members appointed by the Government. Each board of commissioners serves a four year term and cannot serve more than 12 years. The Council has the ability to impose its will by setting rates and approving the District's debt. The District's fiscal year end is December 31.

Lafayette Parish Waterworks District South - Lafayette Parish Waterworks District South was issued a charter by the State of Louisiana and a franchise from the Parish of Lafayette on October 10, 1974. The District's purpose is to provide a water system for the southern district of Lafayette Parish. The Government's Council appoints the governing body of the District. The Council has the ability to impose its will by setting rates and approving the District's debt. The District's fiscal year end is August 31.

Lafayette Public Trust Financing Authority (LPTFA) - LPTFA was formed as a public trust on January 16, 1979 pursuant to Chapter 2-A of Title 9 of the Louisiana revised statutes. The Government's Council approves the by-laws and debt issues of LPTFA. The beneficiary of the trust is the City of Lafayette. LPTFA was created to provide financing to low and moderate income families within the Parish of Lafayette. The governing body is comprised of a board of seven trustees appointed by the Government's Council. LPTFA's fiscal year end is March 31.

Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

Lafayette Parish Bayou Vermilion District - Lafayette Parish Bayou Vermilion District is a corporate body created under Chapter 32 of Title 33 of the Louisiana Revised Statutes of 1950, comprised of R.S. 33:9201 through 33:9210. The District is governed by a Board of Commissioners composed of nine members. Two members are appointed by the chief executive officers of the incorporated municipalities of Lafayette Parish other than the City of Lafayette; one member is appointed by the chief executive officer of Lafayette Consolidated Government; three members, one of whom shall be a black citizen, shall be appointed by the governing authority of the City of Lafayette; one member shall be appointed by the chief executive officer of Lafayette Parish; and two members shall be appointed by the governing authority of Lafayette Consolidated Government.

The District's purpose is that of improving the water quality and the aesthetics of the Bayou Vermilion within the Parish of Lafayette in an effort to promote the bayou as a recreational and cultural asset to create and control a new type of viable economic development adjacent to Bayou Vermilion so as to provide a diversified economic base for the City and Parish of Lafayette and to do any and all other act which would enhance the general condition of Bayou Vermilion. The Council has the ability to impose its will on the District by approving the levying of taxes and the issuance of debt. The District's fiscal year end is December 31.

Lafayette Parish Communication District - Lafayette Parish Communication District consists of the "911" Fund, the Office of Homeland Security and Emergency Preparedness Fund, and the Communication System Management Fund. The "911" Fund was created by House Bill No. 480, Act No. 788 and signed into law July 18, 1979 for the purpose of establishing local emergency telephone response service for Lafayette Parish. The Lafayette City-Parish Council acting as the governing authority for Lafayette Parish shall determine the methods and sources of funding for the District. The Office of Homeland Security and Emergency Preparedness Fund (OHSEP) was consolidated with Lafayette Parish Communication District on November 1, 1984. Funding for OHSEP is provided by State of Louisiana Office of Homeland and Emergency Preparedness and the Government. Any revenues in excess of expenditures are refunded proportionately to the City and Parish of Lafayette at the end of each fiscal year. The Communication System Management Fund (CSMF) was established on November 1, 1986 to administer the City of Lafayette's 800 Megahertz Radio System. CSMF charges Lafayette Utilities System and surrounding communities a rental fee for radio tower usage. The City of Lafayette reimburses CSMF for excess expenditures over revenues received from tower rentals. The economic resources held by the District are a direct benefit for the citizens of Lafayette Parish. The relationship between the Government and the District is such that exclusion would cause the Government's financial statements to be incomplete. The District's fiscal year end is October 31.

Complete financial statements of the above component units that issue separate financial statements can be obtained at the office of the Legislative Auditor of the State of Louisiana, 1600 North 3rd, Baton Rouge, Louisiana 70802.

Related Organizations

The Government is responsible for appointing members of the boards of other organizations, but the Government's accountability for these organizations do not extend beyond making the appointments.

Jointly Governed Organization

The Government is responsible for appointing one member of the Teche-Vermilion Fresh Water District. This appointment represents less than a voting majority of this respective board. There is no ongoing financial interest or ongoing financial responsibility for this organization.

**B.** Basis of Presentation

The Government's basic financial statements consist of the government-wide statements on all of the non-fiduciary activities of the primary government and its component units and the fund financial statements (individual major fund and combined nonmajor fund). The statements are prepared in accordance with accounting principles generally accepted in the United States of America as applied to governmental units.

Government-Wide Financial Statements - (GWFS)

The government-wide financial statements include the statement of net position and the statement of activities for all non-fiduciary activities of the primary government and the total for its component units. As a general rule, the effect of interfund activity has been removed from these statements. Exceptions to the general rule are payments between the enterprise funds and other various functions of government for charges such as electric fees and contributions between the primary government and its component units which are reported as external transactions. These statements distinguish between the governmental and business-type activities of the Government. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. The primary government is reported separately from the legally separate component units as detailed in the previous section.

In the government-wide statement of net position, both the governmental and business-type activities columns (a) are presented on a consolidated basis by column, (b) and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Government's net position is reported in three parts – net investment in capital assets, restricted net position; and unrestricted net position. The Government's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

The government-wide statement of activities reports both the gross and net cost of each of the Government's functions and business-type activities. The functions are also supported by general government revenues (property taxes, sales and use taxes, certain intergovernmental revenues, etc.). The statement of activities reduces gross expenses (including depreciation) by related program revenues, operating and capital grants. Program revenues include (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and for various services provided and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. The net cost (by function or business-type activity) is normally covered by general revenue (property taxes, sales taxes, intergovernmental revenues, interest income, etc.).

Notes to the Basic Financial Statements (Continued)

Indirect costs are based on a study conducted by MGT of America Consulting, LLC. A Full Cost Allocation Plan is generated which allocates support services (purchasing, accounting, personnel, building maintenance, etc.) provided by the General Fund to the various City-Parish departments/funds. These costs are recorded as expenditures in the other funds and as revenue in the General Fund. Support services allocated for 2019 amounted to \$200,770 for grant programs and \$7,505,233 for other funds.

**Fund Financial Statements - (FFS)**

The fund financial statements provide information about the Government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category - governmental, proprietary, and fiduciary - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The Government reports the following major governmental funds:

**General Fund -**

This is the Government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The Government is required to maintain two separate general funds as follows: 1) City General Fund which accounts for resources used to finance the legally defined services of the City government; and 2) Parish General Fund which accounts for resources used to finance the legally defined services of the Parish government.

**Sales Tax Capital Improvements Fund -**

This fund accounts for the portion of proceeds derived from the City's sales and use tax that is dedicated for capital improvements.

The Government reports the following major enterprise funds:

**Utilities System Fund -**

This fund accounts for the provision of electric, water and sewer services to the residents of the City and some residents of the Parish. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collections.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
**Lafayette, Louisiana**

**Notes to the Basic Financial Statements (Continued)**

**Communications System Fund -**

This fund accounts for the provision of wholesale fiber bandwidth to retail companies for resale and the provision of telephone, cable TV and internet services to residents of the City. All activities necessary to provide such services are accounted for in this fund, including, but not limited to, administration, operations, maintenance, financing and related debt service, and billing and collections.

**Lafayette Public Power Authority (LPPA) -**

This fund accounts for the operations of a coal-fired electric generation plant in Boyce, Louisiana, and the sale of energy produced to the Government. LPPA owns 50% of the total plant and accounts for 50% of total costs. The City has agreed to purchase all electric power from LPPA under the terms of a power sales contract. All activities necessary to provide such services are accounted for in LPPA, which is a blended component unit of the Government.

In addition, the Government reports the following:

**Internal Service Funds -**

These funds account for vehicle and transportation services, printing services, and self-insurance including medical insurance coverage provided to other departments on a cost reimbursement basis.

**Metrocode Retirement Fund -**

This fund accounts for monies accumulated to provide supplemental retirement benefits to two employees so that benefits to all former Metrocode employees are equitable upon retirement.

**Agency Funds -**

These funds account for assets held by the Government to cover estimated court costs in connection with criminal and civil suits and on behalf of other funds within the Government.

The emphasis in fund financial statements is on the major funds in either the governmental or business-type activities categories. Nonmajor funds by category are summarized into a single column. GASB No. 34 sets forth minimum criteria (percentage of assets, liabilities, revenues or expenditures/expenses of either fund category or the governmental and enterprise combined) for the determination of major funds.

The Government's internal service funds are presented in the proprietary funds financial statements. Because the principal users of the internal services are the Government's governmental activities, the financial statements of the internal services funds are consolidated into the governmental column when presented in the government-wide financial statements. To the extent possible, the cost of these services is reported in the appropriate functional activity.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

The Government's fiduciary funds are presented in the fiduciary fund financial statements by type. Since by definition these assets are being held for the benefit of a third party and cannot be used to address activities or obligations of the Government, these funds are not incorporated into the government-wide statements.

C. Basis of Accounting

Government-wide, proprietary and fiduciary fund financial statements -

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary and fiduciary fund financial statements, except for agency funds, which have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Nonexchange transactions, in which the Government gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, property taxes are recognized in the year for which the taxes are levied. Revenue from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental fund financial statements -

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Sales taxes are considered "measurable" when in the hands of the Sales Tax Collector and are recognized as revenue at that time. Ad valorem taxes are recognized as revenue in the year for which budgeted, that is, in the year in which such taxes are billed and collected. Revenue from grants, entitlements and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied. All other receivables collected within 60 days after year-end are considered available and recognized as revenue of the current year.

Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments and compensated absences, which are recognized to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources. Except for miscellaneous supplies warehoused at central locations and issued to operating departments as needed, purchases of various operating supplies are regarded as expenditures at the time purchased.

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources and Equity

Cash and Cash Equivalents

Cash includes amounts in demand deposits and on hand. For purposes of statements of cash flows, highly liquid investments (including restricted assets) with an original maturity of three months or less are considered to be cash equivalents.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
Lafayette, Louisiana

**Notes to the Basic Financial Statements (Continued)**

The cash balances of substantially all funds and of other legally separate entities are pooled and invested by the Government for the purpose of increasing earnings through investment activities. The purpose of this consolidated account is to reduce administrative costs and provide a single cash balance available for the maximization of investment earnings. Each participating fund shares in the investment earnings according to its average cash and investment balance. The individual funds' portion of the pool's assets are presented as "Cash, Investments and Accrued Interest," as applicable based on its percentage of the total of each item. In addition, separate bank accounts have been established for certain restricted funds as required by bond indentures for related bond issues.

**Investments**

Under state law the Government may deposit funds with a fiscal agent organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The Government may invest in United States bonds, treasury notes and bills, government backed agency securities, or certificates and time deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana. In addition, local governments in Louisiana are authorized to invest in Louisiana Asset Management Pool (LAMP), a nonprofit corporation formed by the State Treasurer and organized under the laws of the State of Louisiana, which operates a local government investment pool.

In accordance with professional standards, investments meeting the criteria specified in the standards are stated at fair value, which is either a quoted market price or the best estimate available. Investments which do not meet the requirements are stated at cost. These investments include overnight repurchase agreements and amounts invested in LAMP.

**Receivables**

In the government-wide statements, receivables consist of all revenues earned at year end and not yet received. Major receivable balances for the governmental funds include sales and use taxes, federal and state grants.

Accounts receivable for the Utilities System Fund, Communications System Fund, and the Environmental Services Disposal Fund are reported net of an allowance. The allowance amount at October 31, 2019 was \$941,529, \$605,788, and \$228,179 respectively.

Loans receivable in governmental funds consist of rehabilitation, first-time homebuyers loans, etc., that are generally not expected or scheduled to be collected in the subsequent year. These are reported net of allowances. The allowance amounts are reflected on the face of the financial statement, as applicable.

**Interfund Receivables and Payables**

Short-term cash borrowings between funds are considered temporary in nature. These amounts are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

**Inventories and Prepaid Items**

Miscellaneous supplies warehoused at central locations are stated at cost (moving average). Building materials stockpiled for the Government's housing rehabilitation program, which supplies are eligible for grant reimbursement only when actually used in a project, are stated at average cost.

Inventories, other than fuel oil, held by the Utilities System Fund and the Internal Service Funds are stated at average cost. Fuel oil inventory in the Utilities System Fund is stated at the lower of cost or market. Coal inventory held by LPPA is stated at the lower of cost or market as determined by the average cost method.

Governmental fund type inventories are recorded under the consumption method in the fund financial statements. Appropriate allowances have been recorded for obsolete items. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

**Bond Premiums, Discounts, and Start-up Costs**

In governmental funds, bond premiums, discounts, and issuance costs are recognized in the current period. In proprietary funds (and for governmental funds, in the government-wide statements), bond premiums and discounts are deferred and amortized over the terms of the bonds to which they apply. Also included in assets of the proprietary funds are start-up costs of the Communications System (as defined by applicable professional standards). These costs will be recovered by future rates of the Communications System and will be amortized over their cost recovery period.

**Restricted Assets**

Certain resources of the Utilities System Fund, Communications System Fund and LPPA are classified as restricted assets on the statement of net position because their use is limited by bond ordinances or for self-insurance purposes, or because they represent customers' deposits being held.

**Capital Assets**

The accounting treatment over property, plant, and equipment (capital assets) depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements. The Government maintains a threshold level of \$1,000 or more for capitalizing fixed assets.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

Government-Wide Financial Statements -

In the government-wide financial statements, all governmental capital assets of City of Lafayette, Lafayette Parish Government subsequent to 1979, and Lafayette City-Parish Consolidated Government are valued at cost where historical records are available and at estimated historical cost where historical records cannot be located. All capital assets are recorded at historical cost, or estimated historical cost if actual is unavailable, except for donated assets, which are recorded at their acquisition value at the date of donation. All capital assets of Lafayette Parish Government which were purchased prior to 1980 are valued at estimate historical cost with the exception of buildings. Buildings have been recorded at insured values in effect in 1980. This basis is not in accordance with generally accepted accounting principles which require that such assets be recorded at cost or estimated historical cost. The potential differences resulting from the use of insured values as opposed to cost have been determined to be insignificant to the Government. Prior to November 1, 2001, governmental funds' infrastructure assets were not capitalized.

Capital assets in the Utilities System Fund were initially recorded on November 1, 1949 at values assigned by a survey and analysis conducted by the City's consulting engineers. Capital assets acquired since the original capitalization and all other proprietary fund capital assets are valued at historical cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

	Years
Buildings and improvements	8 - 40
Equipment (vehicles and movables)	3 - 20
Infrastructure	25 - 40
Utility plant and equipment	5 - 100
Acquisition adjustments	8 - 9

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Fund Financial Statements -

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

The Government capitalizes interest cost during the construction phase of major capital projects of proprietary funds. The amount of interest cost capitalized on major capital projects acquired or constructed with proceeds of restricted tax-exempt debt includes all interest cost of the borrowing less any interest earned on related interest-bearing investments purchased with proceeds of the related borrowings from the date of the borrowing until the assets are placed in service. Total interest incurred for the year ended October 31, 2019 for the proprietary funds and business-type activities was \$16,327,352. The total amount for business-type activities was expensed.

Total interest incurred for the year ended October 31, 2019 for the governmental funds was \$11,489,632 and for governmental activities was \$11,627,889. The total amount for both the governmental funds and the governmental activities was expensed.

Deferred Outflows of Resources and Deferred Inflows of Resources

In some instances, GASB requires an entity to delay recognition of decreases in net position as expenditures until a future period. In other instances, entities are required to delay recognition of increases in net position as revenues until a future period. In these circumstances, deferred outflows of resources and deferred inflows of resources result from the delayed recognition of expenditures or revenues, respectively. At October 31, 2019, the Government's deferred outflows of resources and deferred inflows of resources are attributable to unamortized losses on bond refundings, OPEB, and pension plans.

Compensated Absences

Employees earn vacation pay in varying amounts ranging from eight hours per month to 16 hours per month, depending upon length of service. At the end of each year, annual leave may be carried forward provided the amount carried forward does not exceed an employee's annual earning rate at the time. Unused annual leave (in excess of what can be carried forward) is credited to the employee's sick leave balance. Subject to the above limitation, unused vacation is paid to an employee upon retirement or resignation at hourly rates being earned at separation.

Sick leave is accumulated at the rate of 12 days per year, and any unused sick leave may be carried forward without limitation. No sick leave is paid upon resignation. Employees separated due to retirement or deaths are paid for all accumulated sick leave at the hourly rates being earned by that employee at separation.

In the government-wide and proprietary fund financial statements, the Government accrues accumulated unpaid vacation and sick leave and associated related costs when earned (or estimated to be earned) by the employee. The current portion is the amount estimated to be used/paid in the following year. The remainder is reported as non-current. Compensated absences typically have been liquidated by the General Fund and a few other governmental funds. Claims liabilities typically have been liquidated by the internal service funds.

Long-term Obligations

The accounting treatment of long-term obligations depends on whether the obligation relates to governmental or proprietary fund obligations and whether they are reported in the government-wide or fund financial statements.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
Lafayette, Louisiana

**Notes to the Basic Financial Statements (Continued)**

All long-term obligations to be repaid from governmental and business-type resources are reported as liabilities in the government-wide financial statements. The long-term obligations consists primarily of bonds payable, accrued compensated absences, and claims payable.

Long-term obligations for governmental funds are not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary funds is the same in the fund financial statements as it is in the government-wide financial statements.

**Equity Classifications**

**Government-Wide Financial Statements –**

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The Government reports three components as follows:

- (1) Net investment in capital assets - This component consists of net capital assets reduced by the outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows of resources related to those assets.
- (2) Restricted net position - This component is considered restricted if its use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws or buyers of the Government's bonds. Restricted net position is restricted assets reduced by liabilities and deferred inflows of resources related to the restricted assets.
- (3) Unrestricted net position - This component consists of all other net position that does not meet the definition of the above two components and is available for general use by the Government.

The government-wide statement of net position reports \$374,291,967 of restricted net position of which \$108,692,590 is restricted by enabling legislation.

**Fund Financial Statements –**

In the fund financial statements, governmental fund equity is classified as fund balance. Fund balance is further classified as follows:

- (1) Nonspendable – amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

- (2) **Restricted** – amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- (3) **Committed** – amounts that can be used only for specific purposes determined by a formal action of the council members. The City-Parish Council is the highest level of decision-making authority for the Government. Commitments may be established, modified, or rescinded only through ordinances approved by council members.
- (4) **Assigned** – amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the Government’s adopted policy, only the City-Parish Council may assign amounts for specific purposes.
- (5) **Unassigned** – the residual classification for the General Fund and includes amounts that are available for any purpose. Positive amounts are reported only in the General Fund.

At October 31, 2019, the governmental funds’ balance sheet reports restricted fund balance for capital expenditures in the amount of \$121,751,240, of which the following amounts are for encumbrances:

	Sales Tax Capital Improvements	Other Governmental Funds	Total Governmental Funds
Encumbrances	<u>\$ 9,707,029</u>	<u>\$ 30,156,868</u>	<u>\$ 39,863,897</u>

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the Government considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the Government considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the City-Parish Council provided otherwise in its commitment or assignment actions.

Proprietary fund equity is classified the same as in the government-wide statements.

**Interfund Transfers**

Permanent reallocations of resources between funds of the primary government are classified as interfund transfers. For the purposes of the statement of activities, all interfund transfers between governmental funds and proprietary funds have been eliminated.

Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(2) Cash and Interest-Bearing Deposits

Under state law the Government may deposit funds with a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the union, or the laws of the United States. The Government may invest in direct obligations of the United States government, bonds, debentures, notes or other evidence of indebtedness issued or guaranteed by federal agencies and/or the United States government, and time certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

At October 31, 2019, the Government had demand deposits (book balances) totaling \$89,933,864 as follows:

	Primary Government	Fiduciary Funds	Total
Interest-bearing deposits	\$ 88,212,944	\$ 1,720,920	\$ 89,933,864

Custodial credit risk is the risk that in the event of a bank failure of a depository financial institution, the Government's deposits may not be recovered or the collateral securities that are in the possession of the outside party will not be recovered. These deposits are stated at cost, which approximates fair value. Under state law, deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The fair value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the Government or the pledging fiscal agent bank by a holding or custodial bank that is mutually acceptable to both parties.

Deposit balances (bank balances) at October 31, 2019, are secured as follows:

Bank balances	\$ 93,605,155
Federal deposit insurance	\$ 250,000
Pledged securities	93,355,155
Total federal deposit insurance and pledged securities	\$ 93,605,155

Deposits in the amount of \$93,355,155 were exposed to custodial credit risk. These deposits are uninsured and collateralized with securities held by the pledging institution's trust department or agent, but not in the Government's name. The Government does not have a policy for custodial credit risk.

(3) Investments

As of October 31, 2019, the Government's investments were as follows:

Investment Type	
<b>Primary Government:</b>	
Repurchase agreements	\$ 83,208,008
U.S. Treasuries	252,140,789
U.S. Instrumentalities	166,591,908
LAMP	3,562,303
Total primary government	505,503,008
<b>Fiduciary Funds:</b>	
Repurchase agreements	1,597
U.S. Treasuries	29,623
U.S. Instrumentalities	8,779
LAMP	605
Total fiduciary funds	40,604
Total investments	\$ 505,543,612

The Government participates in Louisiana Asset Management Pool (LAMP). LAMP is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP is to provide safe environment for the placement of public funds in short-term, high quality investments. The financial statements for LAMP may be accessed on their website (<https://www.lamppool.com>). The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA – R.S. 33:2955. The following provides information that is relevant to LAMP:

**Credit risk:** LAMP is rated AAAM by Standard & Poor's.

**Custodial credit risk:** LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.

**Concentration of credit risk:** Pooled investments are excluded from the 5 percent disclosure requirement.

**Interest rate risk:** LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosures using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 or 762 days for U.S. Government variable rate investments. The WAM for LAMP's total investments is 45 days as of October 31, 2019.

The investments of LAMP are stated at fair value which is determined on a weekly basis by LAMP and the value of the position in the external investment pool is the same as the net asset value of the pooled shares. LAMP is subject to the regulatory oversight of the state treasurer and the board of directors. LAMP is not registered with the SEC as an investment company.

**Notes to the Basic Financial Statements (Continued)**

The following provides information about interest rate risk associated with the Government's investments:

**Primary Government:**

<u>Investment Type</u>	<u>% of Portfolio</u>	<u>Investment Maturities</u>		
		<u>Fair Value</u>	<u>Less Than One Year</u>	<u>One - Five Years</u>
Repurchase agreements	16%	\$ 83,208,008	\$ 83,208,008	\$ -
U.S. Treasuries	50%	252,140,789	252,140,789	-
U.S. Instrumentalities	33%	166,591,908	151,725,698	14,866,210

Total	<u>100%</u>	<u>\$ 40,604</u>	<u>\$ 40,604</u>	<u>\$ -</u>

**Credit rate risk:** The risks are managed by restricting investments to those authorized by R.S. 33:5162. The Government's Investment Policy limits investments to fully insured and/or fully-collateralized certificates of deposits and direct and indirect obligations of U.S. government agencies. The Government's investments in U.S. Treasuries and U.S. Instrumentalities were rated AA+ by Standard and Poor's and repurchase agreements were not rated.

**Concentration of credit risk:** R.S. 33:2955 provides that all fixed income investments be appropriately diversified by maturity, security, sector, and credit quality. At October 31, 2019, no more than 5 percent of the Government's total investments were invested in any single issue.

**Custodial Credit Risk -** In the event of the failure of the counterparty, the Government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Government's investment policy requires all investments to be in the Government's name and all ownership securities to be evidenced by an acceptable safekeeping receipt issued by a third-party financial institution which is acceptable to the Government. Accordingly, the Government had no custodial credit risk related to its investments.

In accordance with GASB Statement No. 31, the Government recognized a net increase in the fair value of investments in the amount of \$1,545,470 and \$0 for the primary government and fiduciary funds, respectively. This amount takes into account all changes in fair value that occurred during the year. The unrealized gain on investments held at October 31, 2019 was \$798,202 and \$0 for the primary government and fiduciary funds, respectively.

(5) Ad Valorem Taxes

Fund financial statements -

City of Lafayette:

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. Taxes are levied by the City in April or May and are billed to taxpayers in November. The taxes are levied for the period of November 1 through October 31. Billed taxes become delinquent on January 1 of the year following the year they attach as an enforceable lien. Revenues from ad valorem taxes are budgeted and recognized as revenue in the year billed. The City bills and collects its own property taxes using the assessed values determined by the Tax Assessor of Lafayette Parish.

For the year ended October 31, 2019, taxes of 17.80 mills were levied on property with net assessed valuations totaling \$1,572,295,611 and were dedicated as follows:

General corporate purposes	5.42 mills
Maintenance of public streets	1.29 mills
Maintenance of public buildings	1.13 mills
Recreation and parks	1.78 mills
Maintenance and operation of fire and police departments	8.18 mills

Total taxes levied were \$27,986,862. Taxes receivable at October 31, 2019 totaled \$1,099,671, all of which is considered uncollectible. Therefore, an allowance for uncollectible taxes was established for the entire balance, resulting in net taxes receivable of \$0.

**Lafayette Parish:**

Ad valorem taxes attach as an enforceable lien on property as of January 1 of each year. During the current fiscal year, taxes were levied by Lafayette Parish in August of 2018 and were billed to the taxpayers by the Assessor in November of 2018 for the period November 1, 2018 through October 31, 2019. Billed taxes are due by December 31, becoming delinquent on January 1 of the following year. Taxes are budgeted and the revenue recognized in the year following the assessment, which is the year for which the taxes are levied.

The taxes are based on assessed values determined by the Tax Assessor of Lafayette Parish and are collected by the Sheriff. The taxes are remitted net of deductions for Pension Fund contributions. For the year ended October 31, 2019, taxes of 29.80 mills were levied on property with net assessed valuations totaling \$2,286,166,528 and were dedicated as follows:

General corporate purposes, in city	1.52 mills
General corporate purposes	3.05 mills
Maintenance of buildings, drainage, roads, and bridges	18.92 mills
Debt service contingency	2.75 mills
Combined public health	2.21 mills
Storm water management	1.10 mills
Cultural Economy	0.25 mills

Total taxes levied during 2018 for 2019, exclusive of homestead exemptions, were \$61,755,322. Taxes receivable at October 31, 2019 totaled \$802,434, all of which is considered uncollectible. Therefore, an allowance for uncollectible taxes was established for the entire balance, resulting in net taxes receivable of \$0.

**Government-wide financial statements -**

Property taxes are recognized in the year for which they are levied, net of uncollectible amounts, as applicable.

(15) Long-Term Liabilities

Primary Government

City of Lafayette:

Revenue Bonds/Certificates of Indebtedness - The City issues bonds/certificates which are repaid from specific revenue sources, either sales taxes or income derived from proprietary funds. Proceeds are used for the acquisition and construction of major capital facilities of both governmental and business-type activities. The bonds expected to be paid from business-type revenues are reported in the proprietary funds. Revenue bonds have also been issued to refund other revenue bonds.

Taxable Refunding Bonds - The City issued taxable refunding bonds to refund the outstanding notes with the Firefighters and Municipal Police Employees Retirement Systems. The Bonds are secured by and payable solely from a pledge and dedication of the excess of annual revenue above statutory, necessary and usual charges in each of the fiscal years during which the Bonds are outstanding.

Lafayette Parish Government:

General Obligation Bonds/Certificates of Indebtedness - The Parish issues general obligation bonds/certificates to provide funds for the acquisition and construction of major capital facilities. These bonds are direct obligations and pledge the full faith and credit of the Parish.

**Bond Refundings**

On December 6, 2018, the Government issued \$20,175,000 Public Improvement Sales Tax Refunding Bonds Series 2018A, maturing March 1, 2033 with an average interest rate of 4.41% to advance refund \$22,240,000 of \$25,880,000 outstanding Taxable Public Improvement Sales Tax Build America Bonds, Series 2009A, maturing March 1, 2033 with an average interest rate of 7.05%. The refunding bonds were issued at a premium of \$1,739,377 and, after paying issuance costs of \$327,481, the net proceeds of \$21,586,896 plus existing funds of \$1,294,291 were used to purchase government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded Series 2009A bonds. The advance refunding met the requirements of an in-substance defeasance and the refunded bonds were removed from the Government's government-wide financial statements. As a result of the advance refunding, the Government reduced its total debt service requirements by \$2,097,109, which resulted in an economic gain of \$1,588,686.

On December 6, 2018, the Government issued \$18,580,000 Public Improvement Sales Tax Refunding Bonds Series 2018B, maturing May 1, 2034 with an average interest rate of 4.32% to refund \$20,310,000 of Taxable Public Improvement Sales Tax Build America Bonds, Series 2009B, maturing May 1, 2034 with an average interest rate of 7.13%. The refunding bonds were issued at a premium of \$1,460,944 and, after paying issuance costs of \$311,023, the net proceeds of \$19,729,921 plus existing funds of \$1,081,007 were used to purchase government securities. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the refunded Series 2009B bonds. The advance refunding met the requirements of an in-substance defeasance and the refunded bonds were removed from the Government's government-wide financial statements. As a result of the advance refunding, the Government reduced its total debt service requirements by \$2,470,766, which resulted in an economic gain of \$1,482,524.

**Debt Defeasance**

The Government has defeased certain bonds by placing the proceeds of new bonds in irrevocable trusts to provide for all future debt service payments on old bonds. Accordingly, the trust accounts' assets and the liabilities for the defeased bonds are not included in the Government's financial statements. At October 31, 2019, the primary government had defeased bonds in the amount of \$96,105,000.

Notes to the Basic Financial Statements (Continued)

(16) Risk Management

The Government is exposed to various risks of loss, which are handled through internal service funds as described below:

Self-Insurance Fund

On November 1, 1979, the Government became self-insured with regard to workers' compensation, general liability, law enforcement, errors and omissions, automobile liability, automobile physical damage and property. The Self-Insurance Fund was established to account for claims, expenses, and administrative costs related to these self-insured and retained risks. The fund uses a third party administrator to service and estimate claim losses and uses both in-house legal staff and outside counsel for defense of self-insured claims. Excess risk or stop-loss coverage is used to limit retained risk where feasible and the cost of such coverage is also paid through the Risk Management Fund. The following is a summary of the Government's self-insured retentions.

Workers' compensation	\$ 2,000,000
General liability	Unlimited
Errors and omissions	Unlimited
Automobile liability	Unlimited
Fleet collision	Unlimited
Property:	
Power plant	\$ 500,000
Other	\$ 100,000

As an internal service activity, the Self Insurance Fund is a proprietary fund in which both current and long-term liabilities for claims and losses are recognized and reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claim liabilities are based upon the estimated ultimate cost of settling the claims including specific, incremental claim adjustment expenses, salvage, and subrogation and considering the effects of inflation and recent claim settlement trends including frequency and amount of payouts and other economic and social factors. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The Government currently does not discount its claims liabilities.

The following is a summary of changes in claims liability for the years ended October 31, 2019 and 2018:

	2019	2018
Unpaid claims liability, beginning	\$ 10,889,555	\$ 8,150,268
Current year claims and changes in estimates	5,397,181	6,154,763
Claims paid	(4,944,285)	(3,415,476)
Unpaid claims liability, ending	<u>\$ 11,342,451</u>	<u>\$ 10,889,555</u>
Claims due within one year	\$ 4,718,123	\$ 4,522,137
Claims payable after one year	6,624,328	6,367,418
	<u>\$ 11,342,451</u>	<u>\$ 10,889,555</u>

Although the Government's Self-Insurance Fund is operated on a unitary basis, contributions for premiums, reserves and losses for coverage is divided between those applicable to the Government's Utilities and Communications Systems and those applicable to non-utility funds (funded primarily from General Fund revenues). These contributions are also reported as external transactions. The net position at October 31, 2019 is applicable to utility and non-utility activity as follows:

Net position:	
Utilities	\$ 920,924
Communications	(122,233)
Other	<u>(8,918,756)</u>
Total	<u>\$ (8,120,065)</u>

Each year, the Utilities and Communications Systems and those non-utility funds reimburse the Self-Insurance Fund based on the prior year actual losses.

Group Hospitalization Fund

During the fiscal year ending October 31, 1988, the City became self-insured for group hospitalization, at which time a Group Hospitalization Fund was established to account for claims, expenses, and administrative costs related to these self-insured and retained risks. Upon consolidation in September of 1996, the Parish employees were included in the program. The employer's and employees' portions of premiums are paid into the Group Hospitalization Fund and are available to pay claims and administrative costs. Excess risk or stop-loss coverage is used to limit retained risk where feasible and the cost of such coverage is also paid through the Group Hospitalization Fund. The stop-loss retention is limited to \$150,000 per person. The insurance policy provides an unlimited maximum benefit per person in excess of specific deductible per year.

As an internal service activity, the Group Hospitalization Fund is a proprietary fund that reports liabilities when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Claim liabilities are based upon the estimated ultimate cost of settling the claims including specific, incremental claim adjustment expenses, salvage, and subrogation and considering the effects of inflation and recent claim settlement trends including frequency and amount of payouts and other economic and social factors. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The Government currently does not discount its claims liabilities.

Changes in the balances of claims liabilities (all due in one year) during the fiscal years ended October 31, 2019 and 2018 are as follows:

	<u>2019</u>	<u>2018</u>
Claims liability, beginning	\$ 1,661,408	\$ 2,083,175
Current year claims and changes in estimates	18,764,988	16,244,012
Claims paid	<u>(18,128,078)</u>	<u>(16,665,779)</u>
Claims liability, ending	<u>\$ 2,298,318</u>	<u>\$ 1,661,408</u>

Notes to the Basic Financial Statements (Continued)

Claims payable for group hospitalization at October 31, 2019 was determined as follows:

1. Claims incurred prior to October 31, 2019 and paid subsequently:

Paid as of	Amount	
November 2019	\$1,843,998	
December 2019	398,123	\$2,242,121
2. Provision for claims incurred but not reported		56,197
Total claims payable		\$2,298,318

The provision for claims incurred but not reported of \$56,197 was calculated utilizing historical information adjusted for current trends.

(17) Commitments and Contingencies

A. Coal Purchase Commitments

On March 31, 2019, LPPA entered into a seven-month contract with Peabody Coal Sales, LLC to purchase 450,000 tons at \$10.40 per ton which expires on November 30, 2019. As of October 31, 2019, the Authority purchased 422,487 tons of the 450,000-ton contract requirement at \$10.40 per ton for a total cost of \$4,393,862.

B. Construction Commitments

At October 31, 2019, the Government had several uncompleted construction contracts. The remaining commitment on these contracts was \$50,565,632, of which \$48,684,736 was attributable to governmental activities and \$1,880,896 was attributable to business-type activities.

C. Arbitrage Rebate

Section 148 of the Internal Revenue Code of 1986, as amended, requires that issuers of tax-exempt debt make arbitrage calculations annually on bonds issued after August 31, 1986 to determine whether an arbitrage rebate liability exists between the issuer and the U.S. Department of the Treasury. Arbitrage is the difference (or profit) earned from borrowing funds at tax-exempt rates and investing the proceeds in higher yielding taxable securities. Based upon arbitrage rebate calculations made as of October 31, 2019, it was determined that no liability existed at October 31, 2019.

Notes to the Basic Financial Statements (Continued)

D. Grant Audits

The Government receives grants for specific purposes that are subject to review and audit by the agencies providing the funding. Such audits and reviews could result in expenses being disallowed under the terms and conditions of the grants. In the opinion of management, such disallowances, if any, would be immaterial.

E. Contingent Liabilities

The Government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the Consolidated Government's attorneys, any judgments rendered in favor of the plaintiff or payments resulting from compromise settlements, if any, will be within the limits of the various insurance coverages carried by the Government or funded through its self-insurance program.

(18) Contract for Purchase of Power

On May 1, 1977, the City of Lafayette entered into a power sales contract with LPPA to purchase all of the electric power and energy that is capable of generation from LPPA's 50% ownership interest in a fossil fuel steam electric generating plant near Boyce, Louisiana. The generating unit has a net generating capability of approximately 530 MW. Under the terms of the power sales contract, which will terminate on August 31, 2047, the City makes monthly payments sufficient to cover: all debt service of LPPA (including debt service reserve requirements); the amount LPPA is required under its bond resolution(s) to pay or set aside during such month into any other fund or account established by the bond resolutions including working capital funds; any payments LPPA is required to make for the cost of renewals, replacements or preventive maintenance of the facility; and the costs of producing or delivering power and energy during such month (including general and administrative expenses, but excluding depreciation). Such payments will continue throughout the term of the contract whether or not the unit is operable or whether power or energy is being delivered to the City under the terms of the contract.

(19) Postemployment Health Care and Life Insurance Benefits

*Plan Description:* The Lafayette Consolidated Government (the Government) provides certain continuing health care and life insurance benefits for its retired employees. The Lafayette Consolidated Government's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the Government. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the Government. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 *Postemployment Benefits Other Than Pensions—Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria—Defined Benefit*.

*Benefits Provided* – Medical benefits are provided through insured programs. Employees are covered by four different Retirement Systems: Municipal Employees Retirement System (MERS), whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 25 years of service at any age; or, age 60 and 10 years of service; Parochial Employees Retirement System (PERS), whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; age 60 and 10 years of service; or, age 65 and 7 years of service; Firefighters' Retirement System (FRS), whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 25 years of service at any age; or, age 50 and 20 years of service; and, the Municipal Police Employees' Retirement System (MPERS), whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 25 years of service at any age; age 50 and 20 years of service; or, age 55 and 12 years of service.

*Employees covered by benefit terms* – At October 31, 2019, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	392
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	<u>1,978</u>
	<u>2,370</u>

**Total OPEB Liability**

The Government's total OPEB liability was measured as of October 31, 2019 and was determined by an actuarial valuation as of that date.

*Actuarial Assumptions and other inputs* – The total OPEB liability in the October 31, 2019 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary increases	4.0%, including inflation
Discount rate	4.30%, annually (beginning of year)
	2.79%, annually (end of year)
Healthcare cost trend rates	Flat 5.5% annually

The discount rate was based on the average of the Bond Buyers' 20 Year General Obligation municipal bond index as of October 31, 2019, the end of the applicable measurement period.

Mortality rates were based on the RP-2000 Table without projection with 50%/50% unisex blend.

Notes to the Basic Financial Statements (Continued)

The actuarial assumptions used in the October 31, 2019 valuation were based on the results of ongoing evaluations of the assumptions from November 1, 2009 to October 31, 2019.

Balance at October 31, 2018	<u>\$ 31,793,398</u>
Changes for the year:	
Service cost	545,870
Interest on Net OPEB Obligation	1,302,790
Difference between expected and actual experience	<u>1,000,884</u>
Changes in assumptions	5,448,515
Benefit payments and net transfers	<u>(2,991,901)</u>
Net change in OPEB liability	<u>5,306,158</u>
Balance at October 31, 2019	<u>\$ 37,099,556</u>

*Sensitivity of the total OPEB liability to changes in the discount rate* – The following presents the total OPEB liability of the Government, as well as what the Government’s total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.3%) or 1-percentage-point higher (5.3%) than the current discount rate:

	1.0% Decrease	Current Discount	1.0% Increase
Total OPEB liability	\$ 41,479,468	\$ 37,099,556	\$ 33,354,645

*Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates* – The following presents the total OPEB liability of the Government, as well as what the Government’s total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (4.5%) or 1-percentage-point higher (6.5%) than the current healthcare trend rates:

	1.0% Decrease	Current Trend	1.0% Increase
Total OPEB liability	\$ 33,146,167	\$ 37,099,556	\$ 41,725,470

**OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB**

For the year ended October 31, 2019, the Government recognized OPEB expense of \$934,290. At October 31, 2019, the Government reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 929,392	\$ 861,463
Changes in assumptions	<u>5,059,334</u>	<u>1,919,798</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Years ending October 31:	
2020	\$ 262,011
2021	262,011
2022	262,011
2023	262,011
2024	262,011
Thereafter	1,897,410
	<u>\$ 3,207,465</u>

**Payable to the OPEB Plan**

At October 31, 2019, the Government did not have any amounts owed to the OPEB plan.

(20) Employee Retirement Systems

The Government participates in six cost-sharing defined benefit plans, each administered by separate public employee retirement systems. Article X, Section 29(F) of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions of all plans administered by these public employee retirement systems to the State Legislature. These plans are not closed to new entrants. Substantially all Government employees participate in one of the following retirement systems:

**Plan Descriptions:**

Municipal Employees' Retirement System (MERS) provides retirement, disability, and survivor benefits to eligible employees and their beneficiaries as defined in LRS 11:1731 and 11:1781. The Government participates in Plan A.

State of Louisiana - Municipal Police Employees' Retirement System (MPERS) provides retirement, disability, and survivor benefits to eligible employees and their beneficiaries as defined in LRS 11:2211 and 11:2220.

State of Louisiana - Firefighters' Retirement System (FRS) provides retirement, disability, and survivor benefits to eligible employees and their beneficiaries as defined in LRS 11:2251-2254 and 11:2256.

Parochial Employees' Retirement System (PERS) provides retirement, disability, and survivor benefits to eligible employees and their beneficiaries as defined in LRS 11:1901 and 11:1941. The Government participates in Plan A.

Louisiana State Employees' Retirement System (LASERS) provides retirement, disability, and survivor benefits to eligible state employees and their beneficiaries as defined in the Louisiana Revised Statutes. The age and years of creditable service required for a member to receive benefits are established by LRS 11:441 and vary depending on the member's hire date, employer and job classification.

Registrar of Voters Employees' Retirement System (ROVERS) provides retirement, disability, and survivor benefits to eligible registrars of voters in each parish, their deputies, their permanent employees, and their beneficiaries as defined in the Louisiana Revised Statutes. Eligibility for retirement benefits and the computation of retirement benefits are defined in LRS 11:2071-2072.

**Notes to the Basic Financial Statements (Continued)**

The systems' financial statements are prepared using the accrual basis of accounting. Employer and employee contributions are recognized in the period in which the employee is compensated for services performed. Benefits and refunds are recognized when due and payable in accordance with the terms of each plan. Interest income is recognized when earned. Ad valorem taxes and revenue sharing monies are recognized in the year collected by the tax collector. A brief summary of eligibility and benefits of the plans are provided in the following table:

**Contributions**

Article X, Section 29(E)(2)(a) of the Louisiana Constitution of 1974 assigns the Legislature the authority to determine employee contributions. Employer contributions are actuarially determined using statutorily established methods on an annual basis and are constitutionally required to cover the employer's portion of the normal cost and provide for the amortization of the unfunded accrued liability. Employer contributions are adopted by the Legislature annually upon recommendation of the Public Retirement Systems' Actuarial Committee. In addition, MERS, PERS, And ROVERS receive a percentage of ad valorem taxes collected by parishes. These entities are not participating employers in the pension systems and are considered to be nonemployer contributing entities. Contributions of employees, employers, and non-employer contributing entities effective for the year ended October 31, 2019 for the defined benefit pension plans in which the primary government is a participating employer were as follows:

<u>Plan</u>	<u>Active Member Contribution Percentage</u>	<u>Employer Contribution Percentage</u>	<u>Amount from Nonemployer Contributing Entities</u>	<u>Amount of Government Contributions</u>
MERS	9.50%	27.75%	\$ 1,127,495	\$ 8,796,690
MPERS	10.00%	32.25%	1,011,110	5,045,142
FRS	10.00%	27.75%	1,516,662	3,694,756
PERS	9.50%	11.50%	394,682	3,634,303
LASERS	11.50%	40.10%	-	84,783
ROVERS	7.00%	18.00%	25,584	20,462
TOTAL			<u>\$ 4,075,533</u>	<u>\$ 21,276,136</u>

**Net Pension Liability**

The Government's net pension liability at October 31, 2019 is comprised of its proportionate share of the net pension liability relating to each of the cost-sharing plans in which the Government is a participating employer. The Government's net pension liability for each plan was measured as of the plan's measurement date (June 30, 2019 for all plans except PERS and December 31, 2018 for PERS) and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Government's proportionate share of the net pension liability for each of the plans in which it participates was based on the Government's required contributions in proportion to total required contributions for all employers.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
Lafayette, Louisiana

**Notes to the Basic Financial Statements (Continued)**

As of the most recent measurement date, the Government's proportion for each plan and the change in proportion from the prior measurement date were as follows:

<u>Plan</u>	<u>Proportionate Share of Net Pension Liability</u>	<u>Proportionate Share (%) of Net Pension Liability</u>	<u>Increase/(Decrease) from Prior Measurement Date</u>
MERS	\$ 73,419,759	17.570162%	0.014662%
MPERS	44,603,374	4.911360%	-0.168361%
FRS	35,427,232	5.657576%	-0.221118%
PERS	22,923,942	5.164959%	-0.200962%
LASERS	786,653	0.010860%	-0.000470%
ROVERS	159,882	0.854974%	0.021147%
Total	<u>\$ 177,320,842</u>		

Since the measurement date of the net pension liability was June 30, 2019 (December 31, 2018 for PERS), the net pension liability is based upon fiduciary net position for each of the plans as of those dates. Detailed information about each pension plan's assets, deferred outflows, deferred inflows, and fiduciary net position that was used in the measurement of the Government's net pension liability is available in the separately issued plan financial reports for those fiscal years. The financial report for each plan may be accessed on their website as follows:

**Cost of Living Adjustments**

The pension plans in which the Government participates have the authority to grant cost-of-living adjustments (COLAs) on an ad hoc basis. COLAs may be granted to the state system (LASERS) if approved with a two-thirds vote of both houses of the Legislature, provided the plan meets certain statutory criteria related to the funded status and interest earnings.

**LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT**  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

Pursuant to LRS 11:242(B), the power of the Board of Trustees of the statewide systems (MERS, MPERS, FRS, PERS, and ROVERS) to grant a COLA is effective in calendar years that the legislature fails to grant a COLA, unless in the legislation granting a COLA, the legislature authorizes the Board of Trustees to provide an additional COLA. The authority to grant a COLA by the Board is subject to the funded status and interest earnings. The effects of the benefit changes made as a result of the COLAs is included in the measurement of the total pension liability as of the measurement date at which the ad hoc COLA was granted and the amount is known and reasonably estimable.

**Discount Rate**

The discount rates used to measure the Government's total pension liability for each plan and the significant assumptions used in the determination of the discount rate for each plan are as follows:

**Plan Cash Flow Assumptions:**

- 1) Plan member contributions will be made at the current contributions rates and sponsor contributions will be made at the actuarially determined rates.

The discount rates used to measure the Government's total pension liability for each plan is equal to the long-term expected rate of return on pension plan investments that are expected to be used to finance the payment of benefits. For MERS, MPERS, FRS, LASERS, and ROVERS, the long-term expected rate of return for each plan was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. For PERS the rate was determined using a triangulation method which integrated the Capital Asset Pricing Model (CAPM), a treasury yield curve approach and an equity building block model. Risk return and correlation are projected on a forward-looking basis in equilibrium, in which best-estimates of expected future real rates of return are developed for each major asset class. These rates are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification.

**Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:**

Changes in the net pension liability may either be reported in pension expense in the year the change occurred or recognized as a deferred outflow of resources or a deferred inflow of resources in the year the change occurred and amortized into pension expense over a number of years. For the year ended October 31, 2019, the Government recognized \$37,646,543 in pension expense related to all defined benefit plans in which it participates. MERS, PERS, and ROVERS recognized revenues in the amount of \$495,221 in ad valorem taxes collected from non-employer contributing entities. The pension expense and revenues are summarized by plan in the following table:

<u>Plan</u>	<u>Pension Expense</u>	<u>Revenues</u>
MERS	\$ 14,525,026	\$ 220,098
MPERS	6,754,499	-

(22) On-Behalf Payments for Salaries and Benefits

GASB Statement No. 24, *Accounting and Financial Reporting For Certain Grants and Other Financial Assistance* requires the Government to report and disclose in the financial statements on-behalf salary and fringe benefit payments made by the State of Louisiana to certain groups of Government employees. Supplementary salary payments are made by the state directly to certain groups of employees. The Government is not legally responsible for these salaries. Therefore, the basis for recognizing the revenue and expenditure payments is the actual contribution made by the state. For the fiscal year ended October 31, 2019, the state paid supplemental salaries in the amount of \$3,136,186 to city marshal, fire, and law enforcement employees. The payments are recorded as intergovernmental revenue and public safety expenses/expenditures in the GAAP basis government-wide and General Fund financial statements.

(23) Environmental Liabilities and Regulations

LPPA

The Authority is subject to certain federal, state and local laws and regulations governing the protection of the environment. Violations of these laws and regulations may result in substantial fines and penalties. The Authority has obtained the environmental permits necessary for the operation of its electric power generation facilities, and management believes the Authority is in compliance in all material respects with these permits, as well as all applicable environmental laws and regulations. Environmental requirements affecting electric power generation facilities are complex, change frequently, and have become more stringent over time as a result of new legislation, administrative actions, and judicial interpretations. Therefore, the capital costs and other expenditures necessary to comply with existing and new environmental requirements are difficult to determine.

The Environmental Protection Agency (EPA) has proposed and adopted rules under the authority of the Clean Air Act (CAA) relevant to the emissions of sulfur dioxide (SO<sub>2</sub>) and nitrogen oxide (NO<sub>x</sub>) from the Authority's generating units. The CAA established the Acid Rain Program to address the effects of acid rain and imposed restrictions on SO<sub>2</sub> emissions from certain generating units. The CAA requires these generating units to possess a regulatory "allowance" for each ton of SO<sub>2</sub> emitted beginning in the year 2000. The EPA allocates a set number of allowances to each affected unit based on its historic emissions. The Authority has sufficient allowances for operations and expects to have sufficient allowances operations in the foreseeable future under the Acid Rain Program.

On July 6, 2011, the EPA finalized a rule titled "Federal Implementation Plans to Reduce Interstate Transport of Fine Particulate Matter and Ozone" that later became known as Cross-State Air Pollution Rule (CSAPR) to address air pollution from upwind states that crosses state lines and affects air quality in downwind states. CSAPR imposes significant reductions in SO<sub>2</sub> and NO<sub>x</sub> emissions from electric generating units (EGUs) that cross state lines. Under CSAPR, the EPA sets total emissions limits for each state, allowing limited interstate (and unlimited intrastate trading) of emission allowances among power plants to comply with these limits beginning January 1, 2012. Specifically for Louisiana, CSAPR limits NO<sub>x</sub> emissions for the ozone season, consisting of the months of May through September.

On December 30, 2011, the D. C. Circuit Court of Appeals issued an order staying implementation of CSAPR. The Court further ordered that the Clean Air Interstate Rule (CAIR), a predecessor rule to CSAPR, remain in place while CSAPR was stayed. On April 29, 2014, the U.S. Supreme Court issued an opinion reversing the August 21, 2012 D. C. Court decision that vacated CSAPR and remanded the case back to the D. C. Circuit, where outstanding issues in the case were to be resolved. The stay remained in place until those issues were settled. On October 23, 2014, the D. C. Circuit granted EPA's request to lift the CSAPR stay. EPA issued a rule that tolled the CSAPR compliance deadlines by three years. CSAPR Phase I implementation became effective January 1, 2015, with Phase 2 beginning in 2017. EPA proposed a CSAPR Update Rule on November 20, 2015 to address interstate transport of air pollution under the 2008 ozone National Ambient Air Quality Standard (NAAQS) and to help downwind states and communities meet and maintain the 2008 ozone NAAQS. The proposal is set to reduce the NO<sub>x</sub> emissions for Phase 2 effective in 2017.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

On December 3, 2015, EPA published the proposed update to CSAPR for the 2008 ozone NAAQS. The Authority filed comments to EPA by the deadline of February 2, 2016. EPA finalized the CSAPR Update Rule on October 26, 2016, and the rule became effective on December 27, 2016. Starting in May 2017, this rule will reduce summertime (May - September) nitrogen oxides (NOX) emissions from power plants in 22 states in the eastern U.S., including Louisiana.

The EPA also has adopted rules under Section 112 of the CAA governing the emissions of mercury and other hazardous air pollutants from certain electric generating units (EGUs). The EPA established maximum achievable control technology (MACT) standards for coal-fired EGUs in late 2011, and signed a final rule setting forth national emissions standards for hazardous air pollutants from coal- and oil-fired electric utility steam generating units on December 21, 2011.

The final rule is now known as Mercury & Air Toxic Standards (MATS). The MATS rule requires affected EGUs to meet specific numeric emission standards and to establish work practice standards to address hazardous air pollutants. As a result of litigation due to the cost of the regulation, on December 15, 2015, the U.S. Court of Appeals for the D.C. Circuit issued an order remanding the MATS rule without vacatur. The court expected EPA to provide a response to the issue raised by the Supreme Court on the relevance of costs that affected facilities will incur because of MATS, on or before April 15, 2016, with a possible one year extension on the implementation period for industry. On April 15, 2016, the EPA issued a final finding that it is appropriate and necessary to set standards for emissions of air toxics from coal- and oil-fired power plants. The EPA found that the cost of compliance with MATS is reasonable and that the electric power industry can comply with MATS and maintain its ability to provide reliable electric power to consumers at a reasonable cost.

In order to comply with these regulations, the Authority's 50% share of costs is approximately \$74,600,000. Compliance with CSAPR was completed during the 2012-2013 fiscal year at a cost of \$5,500,000. Environmental upgrades for compliance with MATS were completed at the beginning of 2015 at a cost of \$67,400,000. Funding for these projects was obtained through existing funds and the issuance of \$74,600,000 Series 2012 Electric Revenue Bonds.

On June 2, 2014, EPA released the rule under Section 111(d) of the Clean Air Act, known as the Clean Power Plan (CPP), which proposed guidelines for Carbon Dioxide (CO<sub>2</sub>) emissions from existing fossil fuel-fired power plants. The rule would "set state-specific goals" for CO<sub>2</sub> emissions from the power sector, in addition to developing plans to achieve the state-specific goals. EPA finalized the CPP on August 3, 2015. The U.S. Supreme Court issued a stay of the implementation on February 9, 2016.

(24) Flow of Funds: Restrictions on Use - Utility Revenues

Under the terms of various bond indentures on outstanding Utilities Revenue Bonds for acquiring and constructing extensions and improvements to the Utilities System, all income and revenues (2019 collections \$233,345,184) of the Utilities System are pledged and dedicated to the retirement of the bonds with outstanding principal and interest balances in the amount of \$229,805,000 and \$99,923,700, respectively. All revenues are to be deposited in funds as indicated below.

All revenue, except income received from the sale of capital assets and charges between divisions of the Utilities System, shall be deposited daily into a Receipts Fund. Out of the Receipts Fund, there shall be transferred to an Operating Fund from time to time as needed during each sinking fund year amounts sufficient to provide for the payment of costs of operation and maintenance.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Notes to the Basic Financial Statements (Continued)

After meeting the requirements of the Operating Fund, the monies in the Receipts Fund shall be transferred to the Sinking Fund in amounts sufficient to pay promptly and fully the principal of, premium, if any, and the interest on the outstanding revenue bonds as they become due and payable whether by maturity or mandatory call. Appropriate amounts shall also be placed in the Sinking Fund to allow for the payment of the charges of the paying agent. On or before the day before the interest payment date, sufficient funds to make the payment of the principal and/or interest owed on the obligations, as of that interest payment date, shall be deposited with the paying agent.

After meeting the requirements of the Operating and Sinking Funds, monies in the Receipts Fund are transferred to the Reserve Fund to satisfy the reserve requirements for reserve secured bonds. Amounts in the Reserve Fund are used solely for the purposes of curing deficiencies in the Sinking Fund for the payment when due of the principal of, premium, if any, and interest on the reserve secured bonds.

After meeting the requirements of the Reserve Fund, the monies in the Receipts Fund shall be deposited in the Capital Additions Fund. The monies in the Capital Additions Fund shall be used for the payment of principal and redemption price of and interest on obligations when due at any time monies are not available. It shall also be used to make the in lieu of tax payment to the City General Fund. The remaining money in the Capital Additions Fund may be used for (1) paying capital costs, (2) creation of a rate stabilization account to provide for temporary loss of revenue, (3) payment of subordinated indebtedness and subordinated contract obligations, (4) purchase of outstanding obligations, or (5) making any payment or investment for any lawful purpose.

(25) Flow of Funds: Restrictions on Use – Communications Revenues

Under the terms of the ordinance authorizing and providing for the issuance of Communications System Revenue Bonds to construct a fiber optic infrastructure, all income and revenues (2019 collections \$41,011,835) of the Communications System are pledged and dedicated to the retirement of the bonds with outstanding principal and interest balances in the amount of \$92,140,000 and \$32,684,975, respectively. All revenues are to be deposited in accounts as indicated below.

All revenue, except income received from the sale of capital assets and proceeds from the issuance of bonds shall be deposited daily into a Receipts Account. Out of the Receipts Account, after the application of bond proceeds deposited for working capital have been exhausted, there shall be transferred to an Operating Account from time to time as needed during each debt service account year amounts sufficient to provide for the payment of costs of operation and maintenance.

After meeting the requirements of the Operating Account and after the capitalized interest deposited into the Debt Service Account has been exhausted, the monies in the Receipts Account shall be transferred to the Debt Service Account in amounts equal to 1/6 of the next semiannual interest payment due and 1/12 of the next principal payment due on or before the 20<sup>th</sup> day of each month. On or before the 21<sup>st</sup> day of the month preceding each interest payment date, sufficient funds to make the payment of the principal and/or interest owed on the obligations, as of that interest payment date, shall be deposited with the paying agent.

After meeting the requirements of the Reserve Account, the monies in the Receipts Account shall be deposited in the Capital Additions Account. The monies in the Capital Additions Account shall be used for the payment of principal and redemption price of and interest on obligations when due at any time monies are not available. The remaining money in the Capital Addition Account may be used for: (1) paying capital costs, (2) payment of subordinated indebtedness and subordinated contract obligations, (3) purchase of outstanding obligations, or (4) making any payment or investment for any lawful purpose.

(26) Flow of Funds: Restrictions on Use - LPPA

Under the terms of the ordinance authorizing and providing for the issuance of electric revenue bonds to finance the acquisition of an ownership interest in a fossil fuel steam electric generating plant and for other purposes relating thereto, the bonds are special obligations payable solely from and secured by the revenues and other funds including bond proceeds. All income and revenues (2019 collections \$47,202,751) of LPPA are pledged and dedicated to the retirement of the bonds with outstanding principal and interest balances in the amount of \$74,940,000 and \$27,564,157, respectively. Such revenues consist of all income, fees, charges, receipts, profits, and other monies derived from its ownership and operation of the fossil fuel steam electric generating plant, other than certain money derived during the period of construction. Monies in the revenue fund shall first be applied to the payment of operating expenses of the plant.

Monies in the revenue fund shall then be deposited into the bond fund to pay principal and premium, if any, and interest on all bonds as they become due and payable; and then applied to maintain in the bond fund reserve account an amount equal to the maximum annual debt service requirements on all bonds. After making the required payments into the operating account and bond fund, there shall be paid out of the revenue fund into the reserve and contingency fund an amount equal to \$1,500,000 or such greater amount as may be determined by the consulting engineer, provided that there shall not be required to be paid therein during any month an amount in excess of 25% of the amounts required to be paid during such month to the bond fund. If on any October 31st following the date of commercial operation, the monies credited (or to be credited as of such date) to the revenue fund shall exceed the required amount of working capital for the operation of the plant, the amount of such excess shall be applied (1) to reduce monthly power costs to the Government under the power sales contract, (2) to pay the cost of making repairs, renewals and replacements, additions, betterments and improvements to and extensions of the plant operations, (3) to the purchase or redemption of bonds, (4) to any other purpose in connection with the plant operation, or (5) to any other lawful purpose, including the payment of subordinated indebtedness.

The Fuel Cost Stability Fund was established to allow level billings to the retail customer when the generating plant is out of service for a period of seven days or more. In those instances, a credit may be applied to the monthly power bill to the Government. When the unit has been returned to operation, the funds which were applied as a credit are recovered by application of a surcharge to restore the fund balance over a reasonable period of time.

(27) Dedication of Proceeds and Flow of Funds - Sales and Use Taxes

City of Lafayette

A. Proceeds of the 1961 1% sales and use tax levied by the City of Lafayette (2019 collections \$44,730,257) are dedicated to the following purposes:

1. Capital improvements (as more fully described in the tax proposition) for streets, sidewalks and bridges; drains, drainage canals and sub-surface drainage; fire department stations and equipment; police department stations and equipment; garbage disposal and health and sanitation equipment and facilities; public buildings; public parks and recreational facilities and equipment; civil defense; and any other work of permanent public improvement, title to which shall be in the public.
2. Supplementing the revenues of the City General Fund, after providing for debt service on outstanding bonds, provided that such an amount cannot exceed 35% of the annual sales tax revenues.

Proceeds of the tax have been pledged and dedicated to the retirement of various Public Street and Drainage Bonds with outstanding principal and interest balances in the amount of \$107,485,000 and \$31,676,808, respectively, at October 31, 2019.

B. Proceeds of the 1985 1% sales and use tax levied by the City of Lafayette (2019 collections \$37,257,586) are dedicated to the following purposes:

1. Capital improvements (as more fully described in the tax proposition) for street and drainage improvements.
2. Supplementing the revenues of the City General Fund, after providing for debt service on outstanding bonds, provided that such an amount cannot exceed 35% of the annual sales tax revenues.

Proceeds of the tax have been pledged and dedicated to the retirement of Public Streets and Drainage Bonds with outstanding principal and interest balances in the amount of \$89,665,000 and \$38,639,569, respectively, at October 31, 2019.

Under the terms of the various bond indentures:

1. All proceeds of the tax are to be deposited daily into a Sales Tax Trust Fund.
2. Each month, there will be transferred from the Sales Tax Trust Fund an amount estimated to be required to pay for all reasonable and necessary costs and expenses of collecting and administering the tax during the next succeeding month.
3. On or before the 20th day of each month, there shall be transferred to a Sales Tax Bond Sinking Fund an amount equal to 1/6 of the interest falling due on the next interest payment date and 1/12 of the principal falling due on the next principal payment date.
4. On or before the 20th day of each month, there shall also be transferred to a Sales Tax Bond Reserve Fund a prescribed sum until such time as there is on deposit in that fund a sum equal to the highest combined principal and interest requirements in any succeeding fiscal year on the outstanding bonds.

Notes to the Basic Financial Statements (Continued)

5. Any funds remaining after the above transfers will be considered surplus and may be used for the purposes for which the tax was levied.
- C. Proceeds of the 1% sales and use tax levied by the City of Lafayette beginning October 1, 2006 on businesses located in the Lafayette I-10 Corridor District at Mile Marker 103 (2019 collections \$1,152,023) are dedicated for financing economic development projects in the District.

Lafayette Parish

Lafayette Parish is authorized by the voters of the parish to levy and collect a one percent (1%) sales and use tax on a parish-wide basis except for territory located within the boundaries of any incorporated municipality situated within the Parish. The sales tax ordinance provides that the net proceeds of the sales tax will be deposited in the General Fund of the Parish for general expenditures. Revenues from this tax totaled \$4,928,060 for the period ended October 31, 2019.

(28) Fair Value Measurements

Professional standards require the disclosure for fair value measurements of financial assets and liabilities and for fair value measurements of nonfinancial items that are recognized or disclosed at fair value in the financial statements on a recurring basis. The standards establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

The three levels of inputs used to measure fair value are as follows:

- a. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.
- b. Level 2 inputs are observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.
- c. Level 3 inputs are unobservable inputs for the asset or liability.

The following methods and assumptions were used by the Government in estimating fair values of financial instruments:

- a. The carrying amount reported in the statement of net position for the following approximates fair value due to the short maturities of these instruments: cash, accounts receivable, and accounts payable.
- b. The fair value for investment securities are based on quoted market prices at the reporting date multiplied by the quantity held. The carrying value equals fair value.

William G. Theriot	25,480
	<u>\$ 256,687</u>

(32) Tax Abatement

The Government is subject to tax abatements granted by the Department of Economic Development. This program has the stated purpose of increasing business activity and employment in the Parish and the State. Under the program, companies commit to expand or maintain facilities or employment in the Parish, establish a new business in the Parish, or relocate an existing business to the Parish. Agreements include an abatement of ad valorem taxes for a period of 10 years from the initial assessment date. As a result of these agreements, the Government's ad valorem revenues were reduced by each tax abatement program as follows:

Tax abatement program:	
Historic preservation	\$ 12,311
Industrial tax exemption	538,893
PILOT abatement	<u>1,129,953</u>
Total	<u>\$ 1,681,157</u>

(33) New Accounting Pronouncements

The Governmental Accounting Standards Board (GASB) has issued the following statements which were not required to be implemented by the Government during the current fiscal year.

- GASB Statement No. 84, "Fiduciary Activities." The requirements of this Statement are effective for fiscal years beginning after December 15, 2018.
- GASB Statement No. 87, "Leases." The requirements of this Statement are effective for fiscal years beginning after December 15, 2019.
- GASB Statement No. 89, "Accounting for Interest Cost Incurred before the End of a Construction Period." The requirements of this Statement are effective for fiscal years beginning after December 15, 2019.
- GASB Statement No. 90, "Majority Equity Interests an amendment of GASB Statements No. 14 and No. 61." The requirements of this Statement are effective for fiscal years beginning after December 15, 2018.

Notes to the Basic Financial Statements (Continued)

- GASB Statement No. 91, "Conduit Debt Obligations." The requirements of this Statement are effective for fiscal years beginning after December 15, 2020.
- GASB Statement No. 92, "Omnibus 2020." The requirements of this Statement are effective for fiscal years beginning after June 15, 2020.
- GASB Statement No. 93, "Replacement of Interbank Offered Rates." The requirements of this Statement are effective for fiscal years beginning after June 15, 2020.

The effect of implementation of these new pronouncements on the Government's financial statements has not yet been determined.

(34) Subsequent Events

- A. On March 22, 2020, the Governor declared a Public Health emergency in Proclamation Number 25 JBE 2020 in response to the threat posed by COVID-19. Effective March 23, 2020, all individuals within the State of Louisiana are under a general stay-at-home order and are directed to stay home unless performing an essential activity. As a result, economic uncertainties have arisen which may impact the ongoing operations of Lafayette City-Parish Consolidated Government; however, the extent and severity of the potential impact is unknown at this time.
- B. During the fiscal year, the Government's Mayor-President, Joel Robideaux, self-reported to the Louisiana Public Service Commission payments made by the Government's Utilities System division to their Communications System division for a power outage monitoring service that he believed to be not necessary and possibly in violation of the Local Government Fair Competition Act. Subsequent to the self-reporting, the Government conducted an internal review of transactions between the Utilities System and the Communications System and reported transactions to the Government's Council that were believed to be of concern during a December 2019 council meeting. During March 2020, the Government engaged an independent firm to conduct a forensic audit. As of the date of the report, the forensic audit was not completed and the effect on the financial statement could not be determined.

Notes to the Required Supplementary Information

(1) Budget and Budgetary Accounting

The budgets for the General, Special Revenue, and Debt Service funds for fiscal year 2019 were prepared on the modified accrual basis of accounting, consistent with generally accepted accounting principles (GAAP). The Capital Projects Funds' budgets were prepared on a project basis and, therefore, are not presented. No budget is presented for the Sewer Assessment Bonds Funds because no expenditures were anticipated for these funds.

The Government follows the procedures detailed below in adopting its budget.

- a. At least 90 days prior to the beginning of each fiscal year, the Mayor-President submits to the Council a proposed budget in the form required by the City-Parish Charter.
- b. A public hearing is conducted to obtain taxpayer comments and notice thereof is published in the official journal at least 10 days prior to such hearing. The notification includes the time and place of the public hearing in addition to a general summary of the proposed budget.
- c. Final adoption of the budget is required to be not later than the second-to-last regular meeting of the preceding fiscal year.
- d. The Mayor-President is authorized to transfer budgeted amounts within departments, except that no transfer can be made to or from any salary account, unless authorized by the City-Parish Council by ordinance. Any revisions which cause interdepartmental transfers or alter the total revenues or expenditures of any fund must likewise be approved by the City-Parish Council.
- e. Formal budgetary integration is employed as a management control device during the year for all funds. No payment can be made or obligated against any appropriation unless the Mayor-President or his designee first certifies that sufficient unencumbered funds are or will be available to meet the obligation when it becomes due and payable. In practice, this has generally been interpreted (due to the flexibility for intradepartmental transfer of line item appropriations) to mean control at the departmental/fund level.
- f. Those budgets presented in the budgetary comparison schedules are adopted on a basis consistent with generally accepted accounting principles as applied to governmental units.
- g. Under the Charter, all appropriations, except for capital outlays, lapse at the close of the fiscal year to the extent that they have not been expended or encumbered. Appropriations for capital outlays lapse after completion of the project or abandonment. A capital outlay appropriation is deemed abandoned if three years pass without any disbursement or encumbrance of the appropriation.
- h. All budgeted amounts presented reflect the original budget and the final budget (which have been adjusted for legally authorized revisions during the year).

Notes to the Required Supplementary Information

(2) Pension Plans

Changes of Assumptions – Changes of assumptions about future economic or demographic factors or of other inputs were recognized in pension expense using the straight-line amortization method over a closed period equal to the average of the expected remaining service lives of all employees that are provided with pensions through the pension plans. These assumptions include the rate of investment return, mortality of plan members, rate of salary increase, rates of retirement, rates of termination, rates of disability, and various other factors that have an impact on the cost of the plan.

(3) Other Postemployment Benefit Plans

Benefit Changes – There were no changes of benefit terms for the year ended October 31, 2019.

Changes of Assumptions – The discount rate decreased from 4.30% to 2.79% for the year ended October 31, 2019.

**Nonmajor  
Special Revenue Funds**

## **Nonmajor Governmental Funds**

### **Special Revenue Funds**

Special Revenue funds account for and report the proceeds of specific revenue sources that are legally restricted for specific purposes other than debt service or capital projects.

**Road and Bridge Maintenance** - this fund accounts for proceeds of ad valorem taxes assessed by the City and the Parish, State's Parish Transportation funds, state shared revenue, and any interest earned on these funds to cover the costs of maintaining and improving the roads and bridges in the City and the Parish.

**Parishwide Drainage Maintenance** - this fund accounts for proceeds of ad valorem taxes assessed by the Parish, state shared revenue, and interest earned on these funds to cover the costs of improving and maintaining drainage throughout Lafayette Parish.

**Adult Correctional Facility Maintenance** - this fund accounts for proceeds of ad valorem taxes, state shared revenue, and interest earned on these funds to cover the costs of operating and maintaining the Adult Correctional Facility in the Parish.

**Courthouse and Jail Maintenance** - this fund accounts for proceeds of ad valorem taxes assessed by the Parish, state shared revenue, and interest earned on these funds. These revenues are dedicated to the courthouse and jail in the Parish for operations and maintenance costs.

**Juvenile Detention Home Maintenance** - this fund accounts for ad valorem taxes assessed by the Parish, collection and disbursement of various federal and state grants, state shared revenue, charges for services, and any interest earned on these funds. Revenues are dedicated to covering the cost of operating, improving, and maintaining the Juvenile Detention Home.

**Combined Public Health** - this fund accounts for ad valorem taxes assessed by the Parish, collection and disbursement of those taxes to funds dedicated to operating and maintaining the Health Unit, Animal Shelter and Care Center, and Mosquito Abatement and Control.

**Health Unit Maintenance** – this fund is dedicated to operating and maintaining the Health Unit. Funding is provided by ad valorem taxes assessed by the Parish through the Combined Public Health millage.

**Mosquito Abatement and Control** – this fund is dedicated for the purpose of controlling mosquitoes and other arthropods. Funding is provided by ad valorem taxes assessed by the Parish through the Combined Public Health millage.

**Storm Water Management** – this fund accounts for proceeds of ad valorem taxes assessed by the Parish to cover the cost of improving and maintaining flood prone drainage areas.

## **Nonmajor Governmental Funds**

### **Debt Service Funds**

Debt Service Funds account for and report financial resources that are restricted or committed for payment of general long-term debt principal, interest, and paying agent fees.

**1961 Sales Tax Bonds Sinking Fund** - accounts for sales tax revenues dedicated for the payment of principle and interest requirements of all outstanding 1961 Public Improvement Sales Tax Bonds of the City of Lafayette. Also accounts for the portion of the bonds issued for the purpose of advance refunding for certain outstanding obligations of the City.

**1961 Sales Tax Bonds Reserve Fund** - this reserve fund accounts for a specified amount or balance that is required to be kept in case any pledged revenues are insufficient to pay debt service requirements for the 1961 City Sales Tax Bonds.

**1985 Sales Tax Bonds Sinking Fund** - accounts for sales tax revenues dedicated for the payment of principle and interest requirements of all outstanding 1985 Public Improvement Sales Tax Bonds of the City of Lafayette. Also accounts for the portion of the bonds issued for the purpose of advance refunding for certain outstanding obligations of the City.

**1985 Sales Tax Bonds Reserve Fund** - this reserve fund accounts for a specified amount or balance that is required to be kept in case any pledged revenues are insufficient to pay debt service requirements for the 1985 City Sales Tax Bonds.

**Sewer Assessment Bonds** - to account for the payment of principal and interest on bonds issued for the acquisition, development, and improvements to the City of Lafayette's sewers. Funding consists of special assessment taxes to the public who will benefit from the improvements.

**Contingencies Sinking Fund** - accounts for revenues from ad valorem taxes assessed by the Parish dedicated for the payment of principle and interest requirements for the Lafayette Parish General Obligation Bonds.

**Certificates of Indebtedness, Series 2011 Sinking Fund** - accounts for excess annual revenue dedicated for the payment of principle and interest requirements of the 2011 City Certificate of Indebtedness.

**Limited Tax Series 2012 Refund Bond Sinking Fund** - this fund is used to account for the payment of principal, interest, and related charges for the 2012 Bond Series. Funding consists of proceeds from ad valorem taxes assessed by the City.

**Nonmajor  
Capital Projects Funds**

## **Nonmajor Governmental Funds**

### **Capital Projects Funds**

Capital Projects Funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds.

**1961 City Sales Tax Bond Construction Funds** - these funds are to account for the proceeds from bond issues used to finance capital improvement projects within the City of Lafayette. These bond issues are secured and payable from a pledge and dedication of the proceeds of the 1961 City sales and use tax.

**City Combined Bond Construction Fund** – this fund is to account for the proceeds from bond issues used to finance capital improvement projects within the City of Lafayette. These bond issues are secured and payable from a pledge and dedication of the proceeds of either the 1961 City sales and use tax or the 1985 City sales and use tax.

**Parish General Obligation Bond Construction Funds** - these funds are to account for the proceeds from bond issues to finance capital infrastructure improvement projects within Lafayette Parish.

**Nonmajor  
Enterprise Funds**

## **Nonmajor Enterprise Funds**

Enterprise funds account for operations: (a) that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

**Environmental Services Disposal Fund** - this fund is to account for the revenues, expenses, and fixed assets associated with the operations of the Environmental Quality Division which consists of compost disposal, solid waste disposal and other environmental issues in Lafayette Parish.

**CNG Service Station Fund** - this fund is to account for the revenues and expenses associated with the operation and maintenance of the Compressed Natural Gas (CNG) service station which services both public and private vehicles.

## **Internal Service Funds**

## **Internal Service Funds**

Internal Service funds account for the financing of goods or services provided by one department or agency to other department or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis.

**Central Vehicle Maintenance Fund** – this fund manages, maintains, and repairs LCG fleet vehicles consisting predominately of City buses, public safety vehicles, and various heavy equipment.

**Central Printing Fund** - this fund is to account for revenues received for performing printing and binding services for departments and outside entities.

**Self-Insurance Fund** - this fund is also called the Risk Management Fund. This fund is used to account for self-insurance activities involving property damage, worker's compensation, and general liability claims.

**Group Hospitalization Fund** - this fund is used to account for self-insurance activities involving medical care claims and payment of insurance premiums by LCG's employees, retirees, and dependents.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL  
CONTROL OVER FINANCIAL REPORTING AND  
ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL  
STATEMENTS PERFORMED IN ACCORDANCE  
WITH *GOVERNMENT AUDITING STANDARDS*

WWW.KCSRCPAS.COM

\* A Professional Accounting Corporation

To the Lafayette City-Parish  
Council of Lafayette, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Lafayette City-Parish Consolidated Government, (the Government) as of and for the year ended October 31, 2019, and the related notes to the financial statements, which collectively comprise the Government's basic financial statements and have issued our report thereon dated April 24, 2020. Our report includes a reference to other auditors who audited the financial statements of Cajundome Commission, City Court of Lafayette, Lafayette Regional Airport, Lafayette Parish Waterworks District North, Lafayette Parish Waterworks South, Lafayette Parish Bayou Vermilion District, and Lafayette Parish Communication District, as described in our report on the Government's financial statements. This report does not include the results of the other auditor's testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

### Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Government's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Government's internal control. Accordingly, we do not express an opinion on the effectiveness of the Government's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control described in the schedule of findings and questioned costs as items 2019-001 and 2019-002 that we consider to be material weaknesses.

### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Government's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### **The Government's Responses to Findings**

The Government's responses to the findings identified in our audit are described in the schedule of findings and questioned costs. The Government's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

## INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

WWW.KCSRCPAS.COM

To the Lafayette City-Parish  
Council of Lafayette, Louisiana

### Report on Compliance for Each Major Federal Program

We have audited Lafayette City-Parish Consolidated Government's (the Government) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Government's major federal programs for the year ended October 31, 2019. The Government's major federal programs are identified in the summary of auditor's results section on the accompanying schedule of findings and questioned costs. The Government's basic financial statements include the operations of Lafayette Regional Airport, which expended \$11,147,319 in federal awards which is not included in the Government's schedule of expenditures of federal awards for the year ended October 31, 2019. Our audit, described below, did not include the operations of Lafayette Regional Airport because the component unit engaged other auditors to perform an audit of compliance.

#### *Management's Responsibility*

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### *Auditor's Responsibility*

Our responsibility is to express an opinion on compliance for each of the Government's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Government's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Government's compliance.

### ***Basis for Adverse Opinion on HOME Investment Partnership Program***

As described in the accompanying schedule of findings and questioned costs, the Government did not comply with the requirements regarding CFDA 14.239 HOME Investment Partnership Program as described in finding number 2019-005 for program income. Compliance with such requirements is necessary, in our opinion, for the Government to comply with the requirements applicable to that program.

### ***Adverse Opinion on HOME Investment Partnership Program***

In our opinion, because of the significance of the matter discussed in the Basis for Adverse Opinion paragraph, the Government did not comply, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on HOME Investment Partnership Program for the year ended October 31, 2019.

### ***Unmodified Opinion on Each of the Other Major Federal Programs***

In our opinion, the Government complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended October 31, 2019.

### ***Other Matters***

The results of our auditing procedures disclosed other instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2019-003 and 2019-004. Our opinion on each major federal program is not modified with respect to these matters.

The Government's responses to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The Government's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

### **Report on Internal Control over Compliance**

Management of the Government is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Government's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Government's internal control over compliance.

*A deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose. However, this report is a matter of public record and its distribution is not limited.

Notes to the Schedule of Expenditures of Federal Awards  
For the Year Ended October 31, 2019

(1) Basis of Presentation

The accompanying schedule of expenditures of federal awards (Schedule) includes the federal award activity of Lafayette City-Parish Consolidated Government (Government) under programs of the federal government for the year ended October 31, 2019. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of Government, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Government.

(2) Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported in accordance with accounting principles generally accepted in the United States of America as applied to governmental units, which is described in Note 1 to the Government's basic financial statements for the year ended October 31, 2019. Such expenditures are recognized following the cost principle contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement.

(3) Indirect Cost Rate

The Government has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

(4) Long-term Community Recovery Program – Build Affordable Housing (CFDA 14.228)

The Government received a CDBG grant during fiscal year 2012 through the State of Louisiana Office of Community Development – Disaster Recovery Unit (OCD-DR). The grant was issued to a subrecipient that earned down-payment income from the sale of homes, mortgage payment income, and mortgage sales revenue that totaled \$379,524 of program income during fiscal years 2014 through 2016. OCD-DR approved a grant award in this amount and eligible expenditures from fiscal years 2015 through 2017 were submitted and approved by the grantor. These amounts are not included in the current year schedule of expenditures of federal awards. The omission of the eligible expenditures in the fiscal year of occurrence would not have impacted the testing performed or the programs identified as major federal programs in those fiscal years.

Schedule of Findings and Questioned Costs  
For the Year Ended October 31, 2019

**Part I. Summary of Auditor's Results:**

1. The auditor's report expresses an unmodified opinion on the financial statements of the Government.
2. There were no significant deficiencies in internal control disclosed during the audit of the financial statements. There were two material weaknesses reported.
3. No instances of noncompliance material to the financial statements of the Government, which would be required to be reported in accordance with *Government Auditing Standards*, were disclosed during the audit.
4. There were no significant deficiencies or material weaknesses in internal control over major federal award programs reported during the audit.
5. The auditor's report on compliance for HOME Investment Partnership Program (14.239) expresses an adverse opinion; the report on the remaining major programs is unmodified.
6. Audit findings that are required to be reported in accordance with 2 CFR section 200.516(a) are reported in this schedule.
7. The following programs were considered to be major programs: Federal Transit Cluster (20.500, 20.507, and 20.526), Home Investment Partnership Program (14.239), CDBG – Entitlement Grants Cluster (14.218), and Disaster Grants (97.036).
8. The threshold used to distinguish between Type A and Type B programs as described in 2 CFR section 200.518(b)(1) was \$750,000.
9. The Government did not qualify as a low-risk auditee.

**Part II. Findings which are required to be reported in accordance with generally accepted Governmental Auditing Standards:**

**Compliance Findings –**

There were no compliance findings reported for the year ended October 31, 2019.

Schedule of Findings and Questioned Costs (Continued)  
For the Year Ended October 31, 2019

Internal Control Findings –

**2019-001 Controls Over Fuel Cards**

Fiscal year finding initially occurred: 2019

Criteria

The Government should have a control policy in place in order to effectively manage fuel cards issued to government owned vehicles and the related personal identification numbers (PINs) issued to employees.

Condition

The Government has active fuel cards assigned to assets that have been disposed, assets that do not appear in the government's records, unidentified assets labeled as miscellaneous, and assets that have not been used in excess of 120 days. Additionally, the Government has vehicles/equipment that require fuel usage that do not have an active fuel card assigned. The Government has active PINs for former employees, names that are not in the employee master file, and employees with minimal usage.

Cause

The Government does not have a policies and procedures to ensure active fuel cards are assigned to all vehicles within the Government's fleet. Additionally, there are no procedures to ensure active PINs are only assigned to current employees that require consistent use of the government fleet to perform their daily duties.

Effect

Inadequate policies and procedures for active fuel cards and PINs will not allow the Government to detect misuse or fraud in a timely manner.

Recommendation

Management should develop policies and procedures to ensure fuel cards are issued to assets when purchased and cancelled when no longer in use. Management should ensure PINs are assigned to employees based on their job description and their need for the use of the fleet to perform their assigned duties. Management should carefully review and track the fuel usage reports by asset to identify any unusual or unexpected trends.

Views of Responsible Officials and Planned Corrective Action

Management agrees with this finding. An in-depth analysis of all fuel cards and PINs issued was begun in January and is expected to be completed soon. Any errors found in this finding and from the analysis will be corrected. Additionally, management has begun a full review of fuel card procedures and policies and appropriate changes will be made to both. The estimated timeframe of completion is between 4-6 months and will be overseen by the Public Works Director Chad Nepveaux.

Schedule of Findings and Questioned Costs (Continued)  
For the Year Ended October 31, 2019

**2019-002 Contracting for LUSFiber Services**

Fiscal year finding initially occurred: 2017

Criteria

The Government should have policies and procedures to ensure contract terms and pricing for communication services provided by the Government's Communications System to internal departments are consistently applied and comply with the Fair Competition Act.

Condition

The Government has contracts for communication services to internal departments that have inconsistent terms. The contract terms can range from 12 months to 72 months with varying pricing at each 12-month increment.

Cause

The Government does not have procedures for management to effectively review new and existing contracts with internal departments for communication services.

Effect

The Government has internal departments that are being charged rates based on contract terms that may not be appropriate to perform their specific functions at rates that could be either lower or higher than necessary. This inconsistent contracting practice could be considered noncompliance with the Fair Competition Act.

Recommendation

Management should consider implementing a policy that would identify the terms that will be utilized by all internal departments when contracting for communication services. Additionally, management should develop procedures to ensure contract terms and pricing for communication services being offered to internal departments are consistently applied and are in accordance with the guidelines of the Fair Competition Act.

Views of Responsible Officials and Planned Corrective Action

In order to ensure consistency in affiliate contact pricing, standardized rates were identified for each service offering. These rates are structured to include variables such as bandwidth needs and contract term length. As an additional layer of transparency, LUSFiber intends to engage a third-party consultant to evaluate service offerings and recommend fair market pricing. LUSFiber will use these evaluations as a primary basis for rate adjustment for compliance with identified industry best practices. The estimated timeframe of completion is between 3-6 months and will be overseen by Interim LUSFiber Director Kayla Brooks.

Compliance Findings -

**2019-003 Written Policies for Federal Programs**

Fiscal year finding initially occurred: 2019

Federal Transit Formula Grants (20.500, 20.507, 20.526); HOME Investment Partnership Program (14.239); CDBG – Entitlement Grants Cluster (14.218); Disaster Grants (97.036):

Criteria

In accordance with 2 CFR 300.302(b)(7), the Government is required to have written procedures for determining the allowability of costs in accordance with Subpart E – Cost Principles.

Condition

The Government was unable to provide documentation of written procedures for determining the allowability of cost.

Cause

The Government did not review the administrative requirements to ensure compliance with the financial management section of the Uniform Guidance.

Effect

The Government did not comply with 2 CFR 200.203(b)(7).

Context

The Government did not have written procedures for determining the allowability of costs of federal expenditures in accordance with 2 CFR 200.203(b)(7).

Recommendation

Management should review the administrative requirements for federal programs to ensure compliance with all federal award requirements.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Schedule of Findings and Questioned Costs (Continued)  
For the Year Ended October 31, 2019

Views of Responsible Officials and Planned Corrective Action

Management will review the administrative requirements for federal programs to ensure compliance with all federal award requirements. Prior to funding, all proposed activities will be reviewed for compliance with the appropriate federal requirements. Additionally, written procedures for determining allowability of costs of federal expenditures has since been compiled following notice of the finding. The response to this finding was implemented prior to the completion of the audit by Community Development Director Hollis Conway.

U.S. Department of Housing and Urban Development:

Compliance Findings -

**2019-004 Revolving Loan Program**

CDBG – Entitlement Grants Cluster (14.218):

Fiscal year finding initially occurred: 2019

Criteria

In accordance with 24 CFR 570.489(f)(1), the Government is permitted to establish a revolving loan program to fund future loans or provide for other allowed activities. However, a revolving loan program should be a separate fund with a set of accounts that are independent of other program accounts.

Condition

The Government is operating a revolving loan program with CDBG funds that are combined with the activities of a HOME loan program.

Cause

The Government did not maintain a revolving loan program with accounts separate from another program.

Effect

The Government's general ledger accounts contain the activity of more than one federal program.

Context

The Government is operating a CDBG revolving loan program and is recording the activities of another federal program in the same general ledger accounts.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Schedule of Findings and Questioned Costs (Continued)  
For the Year Ended October 31, 2019

Recommendation

Management should create a separate fund and accounts to record only the activities of the CDBG revolving loan program.

Views of Responsible Officials and Planned Corrective Action

Management shall create a separate fund and accounts to record only the activities of the CDBG revolving loan program. Currently, two funds are used to report CDBG and HOME program income. The current HUD Housing Loan Program Fund shall be renamed the HUD CDBG Loan Program Fund. The current NHS Loan Fund shall be renamed the HUD HOME Loan Program Fund. Five CDBG and HOME receivables shall be transferred between the two funds so that each source of receivables will be reported in the proper CDBG or HOME fund. The estimated timeframe of completion is between 60 days of the audit ending date and will be overseen by Community Development Director Hollis Conway.

U.S. Department of Housing and Urban Development:

Compliance Findings -

**2019-005 Program Income**

HOME Investment Partnership Program (14.239) M-13-MC-22-0202, M-14-MC-22-0202, M-15-MC-22-0202, M-16-MC-22-0202, M-18-MC-22-0202:

Fiscal year finding initially occurred: 2019

Criteria

Program income must be deposited in the Government's HOME Investment Trust Fund local account. In accordance with 24 CFR 92.502(a) and 92.502(c)(3), program income must be reported in HUD's computerized disbursement and information system (IDIS) and HOME funds in the local account of the HOME Investment Trust Fund must be disbursed before requests are made for HOME funds in the United States Treasury account.

Condition

The Government did not disburse the funds in their local account prior to requesting funds from the United States Treasury account.

Cause

Management was not properly following the applicable federal guidelines.

LAFAYETTE CITY-PARISH CONSOLIDATED GOVERNMENT  
Lafayette, Louisiana

Schedule of Findings and Questioned Costs (Continued)  
For the Year Ended October 31, 2019

Effect

The Government collected approximately \$387,262 in program income related to their HOME loan program throughout the fiscal year that was not disbursed prior to requesting funds of approximately \$173,275 from the grantor.

Context

The Government was not reducing the amount of their reimbursement request by the amount of available funds from program income in their local account.

Recommendation

Management should ensure the funds in their local HOME Investment Trust Fund account are disbursed prior to requesting additional funds from the grantor.

Views of Responsible Officials and Planned Corrective Action

Management has established processes and procedures to properly report all program income when collected. Additionally, program income will be properly disbursed prior to requesting funds from the grantor. The estimated timeframe of completion is between 60 days of the audit ending date and will be overseen by Community Development Director Hollis Conway.

## Compliance Findings:

### #2019-003 Written Policies for Federal Programs

**Finding:** In accordance with 2 CFR 300.302(b)(7), the Government is required to have written procedures for determining the allowability of costs in accordance with Subpart E – Cost Principles.

**Management Response:** Management will review the administrative requirements for federal programs to ensure compliance with all federal award requirements. Prior to funding, all proposed activities will be reviewed for compliance with the appropriate federal requirements. Additionally, written procedures for determining allowability of costs of federal expenditures has since been compiled following notice of the finding. The response to this finding was implemented prior to the completion of the audit by Community Development Director Hollis Conway.

### #2019-004 Revolving Loan Program

**Finding:** In accordance with 24 CFR 570.489(f)(1), the Government is permitted to establish a revolving loan program to fund future loans or provide for other allowed activities. However, a revolving loan program should be a separate fund with a set of accounts that are independent of other program accounts.

**2018-005 Transit Revenue Decline**

Federal Transit Formula Grants (20.507): LA-90-X469

Condition

The Government's transit department was unable to substantiate a significant decrease in bus fare revenues collected during the current year.

Recommendation

Management should establish procedures to ensure the completeness of bus fares collected and to monitor the daily collections by route in order to detect and correct any deviations. Management should also develop a contingency plan that addresses equipment malfunctions.

Current Status: Resolved

## INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

To the Lafayette City-Parish Council  
of Lafayette, Louisiana  
and the Louisiana Legislative Auditor

We have performed the procedures enumerated below, which were agreed to by Lafayette City-Parish Consolidated Government (Entity) and the Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period November 1, 2018 through October 31, 2019. The entity's management is responsible for those C/C areas identified in the SAUPs.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

### *Written Policies and Procedures*

---

1. We obtained and inspected the entity's written policies and procedures and observed that they address each of the following categories and subcategories (if applicable to public funds and the entity's operations):
  - a) **Budgeting**, including preparing, adopting, monitoring, and amending the budget.
  - b) **Purchasing**, including (1) how purchases are initiated; (2) how vendors are added to the vendor list; (3) the preparation and approval process of purchase requisitions and purchase orders; (4) controls to ensure compliance with the public bid law; and (5) documentation required to be maintained for all bids and price quotes.
  - c) **Disbursements**, including processing, reviewing, and approving.

- d) ***Receipts/Collections***, including receiving, recording, and preparing deposits. Also, policies and procedures should include management's actions to determine the completeness of all collections for each type of revenue or agency fund additions (e.g. periodic confirmation with outside parties, reconciliation to utility billing after cutoff procedures, reconciliation of traffic ticket number sequences, agency fund forfeiture monies confirmation).
- e) ***Payroll/Personnel***, including (1) payroll processing, and (2) reviewing and approving time and attendance records, including leave and overtime worked.
- f) ***Contracting***, including (1) types of services requiring written contracts, (2) standard terms and conditions, (3) legal review, (4) approval process, and (5) monitoring process.
- g) ***Credit Cards (and debit cards, fuel cards, P-Cards, if applicable)***, including (1) how cards are to be controlled, (2) allowable business uses, (3) documentation requirements, (4) required approvers of statements, and (5) monitoring card usage (e.g., determining the reasonableness of fuel card purchases).
- h) ***Travel and expense reimbursement***, including (1) allowable expenses, (2) dollar thresholds by category of expense, (3) documentation requirements, and (4) required approvers.
- i) ***Ethics***, including (1) the prohibitions as defined in Louisiana Revised Statute 42:1111-1121, (2) actions to be taken if an ethics violation takes place, (3) system to monitor possible ethics violations, and (4) requirement that all employees, including elected officials, annually attest through signature verification that they have read the entity's ethics policy.
- j) ***Debt Service***, including (1) debt issuance approval, (2) continuing disclosure/EMMA reporting requirements, (3) debt reserve requirements, and (4) debt service requirements.

***Board (or Finance Committee, if applicable)***

---

(The following procedures were not performed since there were no exceptions in the prior year)

- 2. We obtained and inspected the board/finance committee minutes for the fiscal period, as well as the board's enabling legislation, charter, bylaws, or equivalent document in effect during the fiscal period, and:
  - a) Observed that the board/finance committee met with a quorum at least monthly, or on a frequency in accordance with the board's enabling legislation, charter, bylaws, or other equivalent document.
  - b) For those entities reporting on the governmental accounting model, observed that the minutes referenced or included monthly budget-to-actual comparisons on the General Fund and major special revenue funds, as well as monthly financial statements (or budget-to-actual comparisons, if budgeted) for major proprietary funds.
  - c) For governmental entities, obtained the prior year audit report and observed the unrestricted fund balance in the General Fund. If the General Fund had a negative ending unrestricted fund balance in the prior year audit report, observe that the minutes for at least one meeting during the fiscal period referenced or included a formal plan to eliminate the negative fund balance in the General Fund.

### ***Bank Reconciliations***

---

(The following procedures were not performed since there were no exceptions in the prior year)

3. Obtain a listing of client bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select four additional accounts (or all accounts if less than five). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for the selected accounts, and observe that:
  - a) Bank reconciliations include evidence that they were prepared within two months of the related statement closing date (e.g., initialed and dated, electronically logged);
  - b) Bank reconciliations include evidence that a member of management or a board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
  - c) Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date.

### ***Collections***

---

4. We obtained a listing of deposit sites for the fiscal period where deposits for cash/check/money order (cash) are prepared and management's representation that the listing is complete. We randomly selected five sites (or all deposit sites if less than five).
5. For each deposit site selected, we obtained a listing of collection locations and management's representation that the listing is complete. We randomly selected one location for each deposit site (i.e. five collection locations for five deposit sites), obtained and inspected written policies and procedures relating to employee job duties (if no written policies and procedures, inquired of employees about their job duties) at each location, and observed that job duties are properly segregated at each location such that:
  - a) Employees that are responsible for cash collections do not share cash drawers/registers.
  - b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.
  - c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
  - d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not responsible for collecting cash, unless another employee verifies the reconciliation.
6. We inquired of management that all employees who have access to cash are covered by a bond or insurance policy for theft.

7. We obtained a listing of client bank accounts for the fiscal period from management and management's representation that the listing is complete. We asked management to identify the entity's main operating account. We selected the entity's main operating account and randomly select four additional accounts. We randomly selected two deposit dates for each five bank accounts selected. We obtained supporting documentation for each of the ten deposits and:
  - a) Observed that receipts are sequentially pre-numbered.
  - b) Traced sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
  - c) Traced the deposit slip total to the actual deposit per the bank statement.
  - d) Observed that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than ten miles from the collection location or the deposit is less than \$100).
  - e) Traced the actual deposit per the bank statement to the general ledger.

***Non-Payroll Disbursements – General (excluding card purchases/payments, travel reimbursements, and petty cash purchases)***

---

(The following procedures were not performed since there were no exceptions in the prior year.)

8. Obtain a listing of locations that process payments for the fiscal period and management's representation that the listing is complete. Randomly select five locations (or all locations if less than five).
9. For each location selected under #8 above, obtain a listing of those employees involved with non-payroll purchasing and payment functions. Obtain written policies and procedures relating to employee job duties (if the agency has no written policies and procedures, inquire of employees about their job duties), and observe that job duties are properly segregated such that:
  - a) At least two employees are involved in initiating a purchase request, approving a purchase, and placing an order/making the purchase.
  - b) At least two employees are involved in processing and approving payments to vendors.
  - c) The employee responsible for processing payments is prohibited from adding/modifying vendor files, unless another employee is responsible for periodically reviewing changes to vendor files.
  - d) Either the employee/official responsible for signing checks mails the payment or gives the signed checks to an employee to mail who is not responsible for processing payments.
10. For each location selected under #8 above, obtain the entity's non-payroll disbursement transaction population (excluding cards and travel reimbursements) and obtain management's representation that the population is complete. Randomly select five disbursements for each location, obtain supporting documentation for each transaction and:
  - a) Observe that the disbursement matched the related original invoice/billing statement.
  - b) Observe that the disbursement documentation included evidence (e.g., initial/date, electronic logging) of segregation of duties tested under #9, as applicable.

***Credit Cards/Debit Cards/Fuel Cards/P-Cards***

---

11. We obtained from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards), for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. We obtained management's representation that the listing is complete.
12. Using the listing prepared by management, we randomly selected five cards (or all cards if less than five) that were used during the fiscal period. We randomly selected one monthly statement or combined statement for each card (for a debit card, randomly selected one monthly bank statement), obtained supporting documentation, and:
  - a) Observed that there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing, by someone other than the authorized card holder.
  - b) Observed that finance charges and/or late fees were not assessed on the selected statements.
13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, we randomly selected ten transactions (or all transactions if less than ten) from each statement, and obtained supporting documentation for the transactions (i.e. each card should have ten transactions subject to testing). For each transaction, we observed that the transaction is supported by (1) an itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only).

***Travel and Expense Reimbursement (excluding card transactions)***

---

14. We obtained from management a listing of all travel and travel-related expense reimbursements, during the fiscal period and management's representation that the listing is complete. We randomly selected five reimbursements, obtained the related expense reimbursement forms/prepaid expense documentation of each selected reimbursement, as well as the supporting documentation. For each of the five reimbursements selected:
  - a) If reimbursed using a per diem, agreed the reimbursement rate to those rates established either by the State of Louisiana or the U.S. General Services Administration.
  - b) If reimbursed using actual costs, observed that the reimbursement is supported by an original itemized receipt that identifies precisely what was purchased.
  - c) Observed that each reimbursement is supported by documentation of the business/public purpose (for meal charges, observed that the documentation includes the names of those individuals participating) and other documentation required by written policy (procedure #1h).
  - d) Observed that each reimbursement was reviewed and approved, in writing, by someone other than the person receiving reimbursement.

### ***Contracts***

**(The following procedures were not performed since there were no exceptions in the prior year)**

15. We obtained a listing of all agreements/contracts for professional services, materials and supplies, leases, and construction activities that were initiated or renewed during the fiscal period. *Alternately, we obtained the general ledger and sorted/filtered for contract payments.* We obtained management's representation that the listing or general ledger is complete. We randomly selected five contracts (or all contracts if less than five) from the listing, and:
  - a) Observed that the contract was bid in accordance with the Louisiana Public Bid Law (e.g., solicited quotes or bids, advertised), if required by law.
  - b) Observed that the contract was approved by the governing body/board, if required by policy or law (e.g., Lawson Act, Home Rule Charter).
  - c) If the contract was amended (e.g. change order), observed that the original contract terms provided for such an amendment.
  - d) Randomly selected one payment from the fiscal period for each of the five contracts, obtained the supporting invoice, agree the invoice to the contract terms, and observe that the invoice and related payment agreed to the terms and conditions of the contract.

### ***Payroll and Personnel***

**(The following procedures were not performed since there were no exceptions in the prior year.)**

16. Obtain a listing of employees/elected officials employed during the fiscal period and management's representation that the listing is complete. Randomly select five employees/officials, obtain related paid salaries and personnel files, and agree paid salaries to authorized salaries/pay rates in the personnel files.
17. Randomly select one pay period during the fiscal period. For the five employees/officials selected under #16 above, obtain attendance records and leave documentation for the pay period, and:
  - a) Observe that all selected employees/officials documented their daily attendance and leave (e.g., vacation, sick, compensatory). (Note: Generally, an elected official is not eligible to earn leave and does not document his/her attendance and leave. However, if the elected official is earning leave according to policy and/or contract, the official should document his/her daily attendance and leave.)
  - b) Observe that supervisors approved the attendance and leave of the selected employees/officials.
  - c) Observe that any leave accrued or taken during the pay period is reflected in the entity's cumulative leave records.
18. Obtain a listing of those employees/officials that received termination payments during the fiscal period and management's representation that the list is complete. Randomly select two employees/officials, obtain related documentation of the hours and pay rates used in management's termination payment calculations, agree the hours to the employee/officials' cumulative leave records, and agree the pay rates to the employee/officials' authorized pay rates in the employee/officials' personnel files.
19. Obtain management's representation that employer and employee portions of payroll taxes, retirement contributions, health insurance premiums, and workers' compensation premiums have been paid, and associated forms have been filed, by required deadlines.

***Ethics (excluding nonprofits)***

---

20. Using the five randomly selected employees/officials from procedure #16 under “Payroll and Personnel” above, obtain ethics compliance documentation from management, and:
  - a) Observe that the documentation demonstrates each employee/official completed one hour of ethics training during the fiscal period.
  - b) Observe that the documentation demonstrates each employee/official attested through signature verification that he or she has read the entity’s ethics policy during the fiscal period.

***Debt Service (excluding nonprofits)***

---

**(The following procedures were not performed since there were no exceptions in the prior year)**

21. We obtained a listing of bonds/notes issued during the fiscal period and management’s representation that the listing is complete. If bonds/notes were issued, we selected all bonds/notes on the listing, obtained supporting documentation, and observed that State Bond Commission approval was obtained for each bond/note issued.
22. We obtained a listing of bonds/notes outstanding at the end of the fiscal period and management’s representation that the listing is complete. We randomly selected one bond/note, inspected debt covenants, obtained supporting documentation for the reserve balance and payments, and agreed actual reserve balances and payments to those required by debt covenants.

***Other***

---

**(The following procedures were not performed since there were no exceptions in the prior year.)**

23. Obtain a listing of misappropriations of public funds and assets during the fiscal period and management’s representation that the listing is complete. Select all misappropriations on the listing, obtain supporting documentation, and observe that the entity reported the misappropriation(s) to the legislative auditor and the district attorney of the parish in which the entity is domiciled.
24. Observe that the entity has posted on its premises and website, the notice required by R.S. 24:523.1 concerning the reporting of misappropriation, fraud, waste, or abuse of public funds.

**Exceptions:**

---

No exceptions were found as a result of applying the procedures listed above except for the following:

**Written Policies:**

1. The entity’s written policies and procedures for receipts/collections does not address actions to determine the completeness of all collections for the following locations: Fire Department, Heymann Center, and Parks & Recreation.

***Management’s response:*** While the Government does have procedures in place to determine the completeness of all collections, some departments have not included these procedures in detail in their current written policy. LCG will continue to review the written policies and procedures on receipts/collections and will update the policies to incorporate the preferred language.

### **Cash Collections:**

2. The cash drawer is being shared by more than one person at one of the five locations selected for testing. The employees that are responsible for collecting cash at the entity's Compositing Facility share a cash drawer.

*Management's response:* LCG is reviewing the cash handling procedures of all affected cash handling locations/deposit sites. LCG will make the appropriate changes to the locations where cash drawers are being shared by more than one person where feasible. Currently, it is not feasible to have more than one cash drawer at the Compositing Facility due to the minimal amount of cash collections daily.

3. The entity did not deposit three of the ten deposits selected for testing within one day of receipt. The entity's LUS receipts bank account accounted for two of the deposits and a Risk Management deposit into the entity's consolidated cash account accounted for the remaining exception.

*Management's response:* Procedural changes will be made and enforced so that deposits are made in a timely manner. Moving forward, Risk Management will forward all checks to the Accounting Department for deposit within one business day of receipt. Deposits are picked up daily from both LUS collections sites at varying times each day. Deposits which are not complete at the time of the pick-up are secured in a locked vault with limited access at the site.

### **Credit Cards/Debit Cards/Fuel Cards/P-Cards:**

4. The entity's fuel card activity is forwarded to each respective supervisor via email; however, there is no written or electronic documentation indicating the activity for fuel cards was reviewed or approved by each respective supervisor.

*Management's response:* LCG is reviewing the notification system for fuel activity. Changes will be made in both how notifications are done and documenting the review and approval of fuel card activity.

### **Travel and Expense Reimbursement:**

5. The entity's policy does not follow the State of Louisiana or GSA rates for travel and expense reimbursement; therefore, per diem reimbursements do not agree to those rates.

*Management Response:* LCG has a very detailed, conservative, and strictly enforced travel and expense reimbursement policy. Travel requests and expense report are reviewed thoroughly before any payments are made. LCG uses meal per diem rates established by a national standardized index based on location of travel. Lodging is based on the actual cost of the standard room with no upgrades. Mileage rates are based on the mileage rate promulgated by the Internal Revenue Service. Airfare is based on the actual cost of tourist class or standard airfare with no upgrades. All expenses incurred must have a defined business purpose and must be verifiable and quantifiable by a detailed receipt.

**Ethics:**

6. The entity did not have documentation that four of the five employees selected for testing attested through signature verification that he or she has read the entity's ethics policy during the fiscal year.

*Management Response:* LCG has developed a process for each employee to attest through signature verification that he or she has read the entity's ethics policy. The four employees tested did attest through signature verification that he or she had read the entity's ethics policy; however, this was done by the employees by the end of the calendar year instead of by the end of the fiscal year. This procedure will be modified moving forward so that all employees will attest through signature verification that he or she has read the entity's ethics policy during the fiscal year.

7. The entity did not have documentation that one of the five employees selected for testing had completed the one hour of ethics training during the fiscal year.

*Management Response:* The one employee who did not complete the one hour of ethics training during the fiscal year did complete the ethics training before the year end. According to the Louisiana Board of Ethics, the training must be completed on or before December 31 of the calendar year.

We were not engaged to and did not perform, an audit, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the Lafayette City-Parish Consolidated Government and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
