FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners,
Terrebonne Parish Recreation District No. 1,
Schriever, Louisiana.

We have audited the accompanying financial statements of the governmental activities and the General Fund of Terrebonne Parish Recreation District No. 1, State of Louisiana (the "District"), a component unit of Terrebonne Parish Consolidated Government, State of Louisiana, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of Terrebonne Parish Recreation District No. 1 as of December 31, 2019, and the respective changes in financial position and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that Management's Discussion and Analysis on pages 4 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The accompanying supplementary information, on page 37, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. This information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 7, 2020 on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Terrebonne Parish Recreation District No. 1

December 31, 2019

The Management's Discussion and Analysis of the Terrebonne Parish Recreation District No. 1's (the "District") financial performance presents a narrative overview and analysis of the District's financial activities for the year ended December 31, 2019. This document focuses on the current year's activities, resulting changes, and currently known facts. Please read this document in conjunction with the financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

The District's assets and deferred outflows of resources exceeded its liabilities and deferred inflows at the close of fiscal year 2019 by \$2,976,679 (net position), which represents a 9.69% increase from last fiscal year.

The District's revenue increased \$369,316 (45.14%) primarily due to the increase in ad valorem tax revenues due to redistricting which now adds parts of Coteau and Bayou Blue to the District.

The District's expenses increased by \$111,001 (13.65%) primarily due to increases in culture and recreation expenses.

Capital assets increased by \$636,907 (33.77%). This increase includes the purchase of property in the Coteau-Bayou Blue area, roof replacement at Andrew Price Gym, purchase of an equipment building at Oakshire Park and new flooring at Schriever Gym.

The District did not have any funds with deficit fund balances.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's financial statements. The District's annual report consists of three parts: (1) management's discussion and analysis (this section) (2) financial statements; and (3) various governmental compliance reports and schedules by certified public accountants and management.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

The financial statements include two kinds of statements that present different views of the District:

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private sector business. The statement of net position presents information on all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. The statement of activities presents information showing how the District's net position changed during each fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. The governmental activity of the District is culture and recreation.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. All of the funds of the District are governmental funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains an individual governmental fund. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund. The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget. The governmental fund financial statements can be found on pages 11 through 17 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)**Notes to the Financial Statements**

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found in Exhibit F of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of the District's financial position. As of December 31, 2019, assets exceeded liabilities and deferred inflow of resources by \$2,976,679 (net position). A large portion of the District's net position (84.76%) reflects its net investment in capital assets (e.g., land; buildings; improvements other than buildings; office furniture, fixtures and equipment; machinery and equipment). Consequently, these assets are not available for future spending.

Condensed Statements of Net Position

Total net position	<u>\$2,976,679</u>	<u>\$2,713,687</u>	<u>\$ 262,992</u>

Capital assets increased primarily due to the purchase of property in the Coteau-Bayou Blue area, roof replacement at Andrew Price Gym, purchase of an equipment building at Oakshire Park and new flooring at Schriever Gym. The increase in deferred inflows of resources reflects increases in the 2019 ad valorem tax assessments.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Continued)**Governmental Activities**

Governmental activities increased the District's net position by \$262,992. Key elements of this increase are as presented as follows:

Condensed Statements of Activities

	<u>December 31,</u>		<u>Dollar</u>	<u>Percent</u>
	<u>2019</u>	<u>2018</u>	<u>Change</u>	<u>Change</u>
Revenues:				
Program revenues:

Culture and recreation	886,797	785,564	101,233	12.89%
Total expenses	<u>924,451</u>	<u>813,450</u>	<u>111,001</u>	<u>13.65%</u>
Change in net position	262,992	4,677	258,315	5523.09%
Net position, beginning of year	<u>2,713,687</u>	<u>2,709,010</u>	<u>4,677</u>	<u>0.17%</u>
Net position, end of year	<u>\$2,976,679</u>	<u>\$2,713,687</u>	<u>\$262,992</u>	<u>9.69%</u>

The Statement of Activities provides answers to the nature and source of changes in net position. The District's tax revenues increased in the current year by \$368,273 or 53.15%. Miscellaneous revenue increased by \$5,302 in the current year primarily due to an increase in interest earned through the Louisiana Asset Management Pool (LAMP) account. Culture and recreation expenses increased primarily due to increases in personal services due to a change in the organizational structure and employee positions during the fiscal year, including temporary employees being hired as full-time.

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUND

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balances may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the District's governmental fund's ending fund balance is \$449,291, a decrease of \$373,363 in comparison with the prior year. The fund balance is unassigned and available for spending at the District's discretion.

General Fund Budgetary Highlights

The budget was amended once during the year. The primary reason for amending the budget was to align budgeted expenditures with actual. The major differences between the original General Fund budget and the final amended budget were as follows:

Revenues

- Summer camp fees, charges for services, were decreased due to the decreased summer camp attendance.
- Interest was increased due to increased interest earned through the LAMP account.

Expenditures

- Supplies and materials were decreased by \$18,710 to reflect a decrease in the amount of janitorial and operating supplies needed to maintain the buildings and grounds across the District.
- Capital outlay expenditures were increased by \$232,600 to reflect the purchase of the Coteau-Bayou Blue property and for the increase in the amount of capital expenditures needed at Gray, Oakshire, and Schriever Parks.

CAPITAL ASSETS AND DEBT ADMINISTRATION**Capital Assets**

The District's net investment in capital assets for its governmental activities as of December 31, 2019, amounts to \$2,522,899 (net of accumulated depreciation). This net investment in capital assets includes land; buildings; improvements other than buildings; office furniture, fixtures and equipment; machinery and equipment.

	<u>2019</u>	<u>2018</u>
Land	\$ 370,632	\$ 26,345
Construction in progress	3,000	99,240
Buildings and improvements	3,234,976	2,742,905
Office furniture, fixtures, and equipment	49,468	50,152
Machinery and equipment	<u>895,894</u>	<u>806,016</u>
Totals	<u>\$4,553,970</u>	<u>\$3,724,658</u>

The major capital asset events for the current year consisted of:

- Purchase of Coteau-Bayou Blue property
- Roof replacement at Andrew Price Gym
- Purchase of equipment building at Oakshire Park
- Purchase of new flooring at Schriever Gym

Additional information on the District's capital assets can be found in the Note 5, Exhibit F of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The Board of Directors considered the following factors and indicators when setting next year's budget, rates, and fees. These factors and indicators include:

- The ad valorem tax revenue budgeted represents the estimated amount of the November 2019 assessment, which the District will receive, for the most part, in January 2020.
- Increases in revenue include greater rental of facilities, summer camp aftercare programs, and increased interest from investing fund balance through the LAMP.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES (Continued)

- Additional operating costs are expected from the District's newly acquired property in the Coteau and Bayou Blue area.
- Items for further consideration in the current and upcoming five years include the purchase of industrial machinery to reduce operating rental costs, possible additions of more park locations, splash parks, exercise equipment, soccer fields, tennis courts, and continued improvements to existing facilities.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Board of Directors of the Terrebonne Parish Recreation District No. 1, P.O. Box 643 Schriever, LA 70395.

The accounting policies of Terrebonne Parish Recreation District No. 1 (the "District") conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The following is a summary of significant accounting policies:

a) Reporting Entity

The District is a component unit of the Terrebonne Parish Consolidated Government (the "Parish") and as such, these financial statements will be included in the comprehensive annual financial report (CAFR) of the Parish for the year ended December 31, 2019.

GASB Statement No. 14, *The Financial Reporting Entity*, GASB Statement No. 39, *Determining Whether Certain Organizations Are Component Units-an amendment of GASB Statement No. 14* and GASB No. 61, *The Financial Reporting Entity: Omnibus and Amendment of GASB Statement No. 14 and No. 34* established the criterion for determining which component units should be considered part of the District for financial reporting purposes. The basic criteria are as follows:

1. Legal status of the potential component unit including the right to incur its own debt, levy its own taxes and charges, expropriate property in its own name, sue and be sued, and the right to buy, sell and lease property in its own name.
2. Whether the governing authority appoints a majority of the board members of the potential component unit.
3. Fiscal interdependency between the District and the potential component unit.
4. Imposition of will by the District on the potential component unit.
5. Financial benefit/burden relationship between the District and the potential component unit.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

a) Reporting Entity (Continued)

The District has reviewed all of its activities and determined that there are no potential component units that should be included in its financial statements.

b) Basis of Presentation

The District's financial statements consist of the government-wide statements on all activities of the District and the governmental fund financial statements.

Government-wide Financial Statements

The government-wide financial statements include the Statement of Net Position and the Statement of Activities for all activities of the District. The government-wide presentation focuses primarily on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Governmental activities generally are financed through taxes, intergovernmental revenues and other non-exchange revenues.

Fund Financial Statements

The daily accounts and operations of the District are organized on the basis of a fund and account groups, each of which is considered a separate accounting entity. The operations of the fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows of resources, equity, revenues and expenditures. Government resources are allocated to and accounted for in the fund based upon the purpose for which they are to be spent and the means by which spending activities are controlled. The following is the governmental fund of the District:

General Fund - The General Fund is the general operating fund of the District. It is used to account for and report all financial resources not accounted for and reported in another fund.

c) Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

c) Measurement Focus and Basis of Accounting (Continued)

Government-wide Financial Statements

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized in the year for which they are levied.

Fund Financial Statements

All governmental funds are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current position. Governmental funds are maintained on the modified accrual basis of accounting.

Governmental fund revenues resulting from exchange transactions are recognized in the fiscal year in which the exchange takes place and meets the government's availability criteria (susceptible to accrual). Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year. Ad valorem taxes and the related state revenue sharing (intergovernmental revenue) are recognized as revenue in the period for which levied, thus the 2019 property taxes which are being levied to finance the 2020 budget will be recognized as revenue in 2020. The 2019 tax levy is recorded as unavailable revenue in the District's 2020 financial statements. Charges for services are recorded when earned since they are measurable and available. Miscellaneous revenues are recorded as revenues when received in cash by the District because they are generally not measurable until actually received.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. An exception to this general rule is principal and interest on general long-term debt which is recognized when due. Allocations of cost such as depreciation are not recognized in the governmental funds.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

d) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

e) Operating Budgetary Data

As required by the Louisiana Revised Statutes 39:1303, the Board of Commissioners (the Board) adopted a budget for the District's General Fund. The budgetary practices include public notice of the proposed budget, public inspection of the proposed budget and a public hearing on the budget prior to adoption. Any amendment involving the transfer of monies from one function to another or increases in expenditure must be approved by the Board. The District amended its budget once during the year so actual revenues would not be less than budgeted and actual expenditures would not be greater than budgeted.

All budgeted amounts that are not expended, or obligated through contracts, lapse at year-end.

The General Fund budget is adopted on a basis materially consistent with accounting principles generally accepted in the United States of America.

The General Fund budget presentation is included in the financial statements.

f) Accounts Receivable

The financial statements for the District contain no allowance for uncollectible accounts. Uncollectible amounts due for ad valorem taxes and other receivables are recognized as bad debts at the time information becomes available which would indicate the uncollectibility of the particular receivable. These amounts are not considered to be material in relation to the financial position or operations of the funds.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

g) Investments

Investments are stated at fair value as established by open market, except for the Louisiana Asset Management Pool (LAMP). LAMP is an external pool which is operated in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. Rule 2a7 allows SEC-registered mutual funds to use amortized cost rather than fair value to report net position to compute share prices if certain conditions are met.

Investments during the year consisted of LAMP and are reported as cash equivalents as of December 31, 2019.

h) Prepaid Insurance

The District has recorded prepaid insurance in its government-wide financial statements. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

i) Capital Assets

The accounting treatment over property, plant and equipment (capital assets) depends on whether the assets are reported in the government-wide or fund financial statements.

Government-wide Financial Statements

In the government-wide financial statements, fixed assets are accounted for as capital assets. Capital assets purchased or acquired with an original cost of \$500 or more are valued at historical cost, or estimated historical cost if actual is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation.

Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

i) Capital Assets (Continued)

Government-wide Financial Statements (Continued)

Depreciation of all exhaustible capital assets is recorded as an expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation. The range of estimated useful lives by type of asset is as follows:

Buildings	20 - 40 years
Improvements other than buildings	5 - 25 years
Machinery and equipment	5 - 25 years
Office furniture, fixtures, and equipment	5 years

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

j) Deferred Inflows of Resources

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources until that time. The governmental fund reports unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The District reports unavailable revenue when resources associated with imposed non exchange revenue transactions are received or reported as a receivable before (a) the period for which property taxes are levied; or (b) the period when resources are required to be used or when use is first permitted for all other imposed non exchange revenues in which the enabling legislation includes time requirements.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

k) Vacation and Sick Leave

The District provides annual leave for all full time permanent employees. Each employee will earn 80 hours of annual leave per year. These 80 hours will continue to be given to those qualifying employees throughout the entirety of their employment. Annual leave is earned at a rate of 1.539 hours per 40 hours worked. Failure to use leave results in its loss. Annual leave is not paid upon separation.

The District provides sick leave for all full time permanent employees. Each employee will earn 40 hours of sick leave per year. These 40 hours will continue to be given to those qualifying employees throughout the entirety of their employment. Sick leave is allocated at the beginning of each fiscal year. Once, the 40 hours of sick leave is exhausted no sick leave can be allocated until the next fiscal year. Sick leave hours shall not contribute to overtime compensation.

The liability for these compensated absences is recorded as a long-term obligation in the government-wide statements. In the fund financial statements, government funds report only compensated absence liability payable from expendable available financial resources.

l) Fund Equity

Government-wide Statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction or improvement of those assets, if any.
- b. Restricted net position - Consists of assets and deferred outflows of resources less liabilities and deferred inflow of resources (net position) with constraints placed on the use either by (1) external groups such as creditors, grantors, contributions or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I) Fund Equity (Continued)

Government-wide Statements (Continued)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, then unrestricted resources as they are needed.

Fund Financial Statements

Government fund equity is classified as fund balance. Fund balance is further classified as follows:

- a. Non-spendable - amounts that cannot be spent either because they are in non-spendable form or because they are legally or contractually required to maintain intact.
- b. Restricted - amounts that can be spent only for specific purposes because of constitutional provisions, charter requirements or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.
- c. Committed - amounts that can be used only for specific purposes determined by a formal action of the District's Board of Commissioners. Commitments may be established, modified, or rescinded only through resolutions approved by the District's Board of Commissioners.
- d. Assigned - amounts that do not meet the criteria to be classified as either restricted or committed but are intended to be used for specific purposes. Assignments may be established, modified, or rescinded by the President of the District's Board of Directors or his representative.
- e. Unassigned - all other spendable amounts.

For the classification of governmental fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available. The District's fund balance was classified as unassigned as of December 31, 2019.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) New GASB Statements

During the year ending December 31, 2019, the District implemented the following GASB Statements:

Statement No. 83, "*Certain Asset Retirement Obligations*" addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement. This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources. This Statement did not affect the District's financial statements.

Statement No. 84, "*Fiduciary Activities*" improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This Statement also provides for recognition of a liability to the beneficiaries in a fiduciary fund when an event has occurred that compels the government to disburse fiduciary resources. This Statement did not affect the District's financial statements.

Statement No. 88, "*Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*" improves the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. The Statement clarifies which liabilities governments should include when disclosing information related to debt. This Statement requires that additional essential information related to debt be disclosed in the notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses. For the notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt. This Statement did not affect the District's financial statements.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) New GASB Statements (Continued)

Statement No. 90, "*Majority Equity Interest*" improves the consistency and comparability of reporting government's majority equity interest in legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method. This Statement establishes that ownership of a majority equity interest in a legally separate organization results in the government being financially accountable for the legally separate organization and, therefore, the government should report that organization as a component unit. This Statement did not affect the District's financial statements.

The GASB has issued the following Statements which will become effective in future years as shown below:

Statement No. 87, "*Leases*" increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Earlier application is encouraged. Management has not yet determined the effect of this Statement on the financial statements.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) New GASB Statements (Continued)

Statement No. 89, "*Accounting for Interest Cost Incurred before the End of a Construction Period*" establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5 through 22 of Statement No. 62, "*Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA*" which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 91, "*Conduit Debt Obligation*" provides a single method of reporting conduit debt obligations by issuers and eliminate diversity in practice associated with (1) commitments extended by issuers, (2) arrangements associated with conduit debt obligations, and (3) related note disclosures. This Statement achieves those objectives by clarifying the existing definition of a conduit debt obligation; establishing that a conduit debt obligation is not a liability of the issuer; establishing standards for accounting and financial reporting of additional commitments and voluntary commitments extended by issuers and arrangements associated with conduit debt obligations; and improving required note disclosures. The requirements of this Statement are effective for reporting periods beginning after December 15, 2020. Management has not yet determined the effect of this Statement on the financial statements.

Statement No. 92, "*Omnibus 2020*" establishes accounting and financial reporting requirements for specific issues related to leases, intra-entity transfers of assets, postemployment benefits, government acquisitions, risk financing and insurance related activities of public entity risk pools, fair value measurements, and derivative instruments. The requirements of this Statement apply to all financial statements of all state and local governments at dates varying from upon issuance to fiscal periods beginning after June 15, 2020.

Note 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

m) New GASB Statements (Continued)

Statement No. 93, "*Replacement of Interbank Offered Rates*" some governments have entered into agreements in which variable payments made or received depend on an interbank offered rate (IBOR) most notably, the London Interbank Offered Rate (LIBOR). As a result of global reference rate reform, LIBOR is expected to cease to exist in its current form at the end of 2021, prompting governments to amend or replace financial instruments for the purpose of replacing LIBOR with other reference rates, by either changing the reference rate or adding or changing fallback provisions related to the reference rate.

Statement No. 53, "*Accounting and Financial Reporting for Derivative Instruments*", as amended, requires a government to terminate hedge accounting when it renegotiates or amends a critical term of a hedging derivative instrument, such as the reference rate of a hedging derivative instrument's variable payment. In addition, in accordance with Statement No. 87, "*Leases*", as amended, replacement of the rate on which variable payments depend in a lease contract would require a government to apply the provisions for lease modifications, including remeasurement of the lease liability or lease receivable.

The exceptions to the existing provisions for hedge accounting termination and lease modifications in this Statement will reduce the cost of the accounting and financial reporting ramifications of replacing IBORs with other reference rates. The reliability and relevance of reported information will be maintained by requiring that agreements that effectively maintain an existing hedging arrangement continue to be accounted for in the same manner as before the replacement of a reference rate. As a result, this Statement will preserve the consistency and comparability of reporting hedging derivative instruments and leases after governments amend or replace agreements to replace an IBOR. The requirements of this Statement will apply to reporting periods beginning after June 15, 2020, except for removal of LIBOR as an appropriate benchmark interest rate which is effective for reporting periods ending after December 31, 2021. Management has yet to determine the effect of this Statement on the financial statements.

Note 2 - DEPOSITS AND INVESTMENTS

Louisiana state law allows all political subdivisions to invest excess funds in obligations of the United States or any other federally insured investment, certificates of deposit of any bank domiciled or having a branch office in the state of Louisiana, guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations.

Bank Deposits

State law requires that deposits (cash and certificates of deposit) of all political subdivisions to be fully collateralized at all times. Acceptable collateralization includes FDIC insurance and the market value of securities purchased and pledged to the political subdivision. Obligations of the United States, the State of Louisiana and certain political subdivisions are allowed as security for deposits. Obligations furnished as security must be held by the political subdivision or with an unaffiliated bank or trust company for the account of the political subdivision.

The year-end balances of deposits are as follows:

	<u>Bank Balances</u>	<u>Reported Amounts</u>
Cash	<u>\$ 95,349</u>	<u>\$ 95,082</u>

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District has a written policy for custodial credit risk. As of December 31, 2019, the District's bank balance of \$95,349 was covered by federal deposit insurance, and not exposed to credit risk.

Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, agencies and instrumentalities; guaranteed investment contracts and investment grade (A-1/P-1) commercial paper of domestic corporations; repurchase agreements; and LAMP.

As a means of limiting its exposure to fair value losses arising from interest rates, the District's investment policy emphasized maintaining liquidity to match specific cash flows.

Note 2 - DEPOSITS AND INVESTMENTS (Continued)

Credit risk is defined as the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District's investment policy requires the application of the prudent-person rule. This policy states, investments shall be made with the judgment and care, under circumstances then prevailing, which persons of prudence, discretion and intelligence exercise in the management of their own affairs, not for speculation, but for investment, considering the probable safety of their capital as well as the probable income to be derived. Primary emphasis shall be placed upon the safety of principal, secondly to maintain liquidity to meet operating requirements and finally to obtain the most favorable rate of return. The District's investment policy limits investments to those discussed earlier in this note. LAMP has a Standard & Poor's Rating of AAAM.

For an investment, custodial credit risk is that risk that, in the event of failure of the counterparty, the District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. Investments in external investment pools are not exposed to custodial credit risk because of their natural diversification and the diversification required by the Securities and Exchange Commission.

LAMP, a local government investment pool, is administered by LAMP, Inc., a non-profit corporation organized under the laws of the State of Louisiana, which was formed by an initiative of the State Treasurer in 1993. While LAMP is not required to be a registered investment company under the Investment Company Act of 1940, its investment policies are similar to those established by Rule 2a7, which governs registered money market funds. The primary objective of LAMP is to provide a safe environment for the placement of public funds in short-term, high quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LSA-R.S. 33:2955. Accordingly, LAMP investments are restricted to securities issued, guaranteed, or backed by the U.S. Treasury, the U.S. Government, or one of its agencies, enterprises or instrumentalities, as well as repurchase agreements collateralized by those securities. The dollar weighted average portfolio maturity of LAMP assets is restricted to not more than 90 days, and consists of no securities with a maturity in excess of 397 days. The fair value of investments is determined on a weekly basis to monitor any variances between amortized cost and fair value. For purposes of determining participants' shares, investments are valued as amortized cost. The fair value of participants' position is the same as the value of the pool shares. LAMP is designed to be highly liquid to give its participants immediate access to their account balances. Investments in LAMP as of December 31, 2019, amounted to \$536,701 and are classified on the Statement of Net Position as "Cash and Cash Equivalents".

Note 2 - DEPOSITS AND INVESTMENTS (Continued)

A reconciliation of deposits and investments as shown on the Statement of Net Position for the District is as follows:

Cash on hand	\$	30
Bank deposits		95,082
Investment in LAMP		<u>536,701</u>
Total cash and cash equivalents		<u>\$631,813</u>

Note 3 - PROPERTY TAXES

Property taxes are levied each November 1 on the assessed value listed as of the prior January 1 for all real property, merchandise and movable property located in the Parish. Assessed values are established by the Terrebonne Parish Assessor's Office and the State Tax Commission at percentages of actual value as specified by Louisiana law. A statewide reevaluation of all property is required to be completed no less than every four years. The last statewide reevaluation was completed for the list of January 1, 2016. A special reassessment was completed for the list of January 1, 2019. Taxes are due and payable December 31 with interest being charged on payments after January 1. Taxes can be paid through the tax sale date, which is the last Wednesday in June. Properties for which the taxes have not been paid are sold for the amount of the taxes. The tax rate for the year ended December 31, 2019 was \$7.00 per \$1,000 of assessed valuation on property within Recreation District No. 1 for the purpose of constructing, maintaining and operating recreational facilities within the District. As indicated in Note 1c, taxes levied November 1, 2019 are for budgeted expenditures in 2020 and will be recognized as revenues in 2020.

Note 8 - LEASE COMMITMENTS

The District has a ten year operating lease for use of land for recreational purposes which terminates September 31, 2026, for annual rent of \$3,000. The parties may extend this lease for an additional 10 year term upon mutual written agreement for the same. Rent expense for the year ended December 31, 2019 was \$3,000.

Note 9 - RISK MANAGEMENT

The District is exposed to various risks of loss related to workers' compensation; torts; theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the District carries commercial insurance and also participates in the Parish's risk management program for general liability and workers' compensation. No settlements were made during the year that exceeded the District's insurance coverage. The District pays monthly premiums to the Parish for workers' compensation based on a fixed percentage of payroll. The District's premiums for general liability are based on various factors such as operations and maintenance budget, exposure and claims experience. The Parish handles all claims filed against the District related to workers' compensation and general liability. The District could have additional exposure for claims in excess of the Parish's insurance contracts as described below:

Coverage Policy	Limits
General Liability	\$10,000,000
Workers' Compensation	Statutory

Coverage for general liability claims in excess of the above stated limits are to be funded first by assets of the Parish's risk management internal service fund, \$3,523,651 as of December 31, 2018, then secondly by the District. Workers' compensation claims in excess of \$550,000 are covered under an insurance contract for claims aggregate up to limits are to be funded first by assets of the Parish's workers' compensation internal service fund. As of December 31, 2019, the District had no claims in excess of the above coverage limits.

Expenditures for premiums to the Parish for insurance coverage during the year ended December 31, 2019 totaled \$31,638.

Note 10 - COMPENSATION OF BOARD MEMBERS

The District did not pay per diem to any of its Board Members for the year ended December 31, 2019.

Note 11 - STATE OF LOUISIANA TAX ABATEMENTS

The District's ad valorem tax revenues were reduced by \$12,358 under agreements entered into with the State of Louisiana.

Note 12 - SUBSEQUENT EVENTS

Management evaluates events occurring subsequent to the date of financial statements in determining the accounting for and disclosure of transactions and events that effect the financial statements. SPECIAL REPORTS OF CERTIFIED PUBLIC ACCOUNTANTS

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL
STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Commissioners,
Terrebonne Parish Recreation District No. 1,
Schriever, Louisiana.

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and the General Fund of Terrebonne Parish Recreation District No. 1 (the "District"), a component unit of Terrebonne Parish Consolidated Government, as of and for the year ended December 31, 2019, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated May 7, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charges with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be a material weakness. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
