## INDEPENDENT AUDITOR'S REPORT

To the Board of Commissioners  
Lincoln Parish Fire Protection District No. 1  
Ruston, Louisiana

### ***Report on the Financial Statements***

I have audited the accompanying financial statements of the governmental activities of the Lincoln Parish Fire Protection District No. 1, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements

### ***Opinions***

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities of the Lincoln Parish Fire Protection District No. 1, as of December 31, 2012, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Commissioners  
Lincoln Parish Fire Protection District No. 1  
Ruston, Louisiana

***Other Matters***

***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Budgetary Comparison Information on pages 3-5 and 19-22 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

***Other Reporting Required by Government Auditing Standards***

In accordance with *Government Auditing Standards*, I have also issued my report dated May 24, 2013 on my consideration of the District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of the testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lincoln Parish Fire Protection District No. 1's internal control over financial reporting and compliance.

**REQUIRED SUPPLEMENTAL INFORMATION (PART A)  
MANAGEMENT'S DISCUSSION AND ANALYSIS**

**LINCOLN PARISH FIRE PROTECTION DISTRICT  
MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)**

Our discussion and analysis of the Lincoln Parish Fire Protection District provides an overview of the District's activities for the year ended December 31, 2012 as compared to 2011. Please read it in conjunction with the District's financial statements.

**USING THIS ANNUAL REPORT**

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities of the Fire District as a whole.

**Reporting the District as a Whole  
The Statement of Net Position and the Statement of Activities**

These statements include all assets and liabilities using the accrual basis of accounting, which is similar to the accounting used by most private-sector entities. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report to the District's net position and changes in them. The District's net position (the differences between assets and liabilities) measure the District's financial position. The increases or decreases in the District's net position are an indicator of whether its financial position is improving or not.

**THE FIRE DISTRICT AS A WHOLE**

For the year ended December 31, 2012 and 2011, net position changed as follows:

	<u>2012</u>	<u>2011</u>
Beginning Net Position	\$3,108,502	\$ 3,033,321
Increase in Net Position	270,522	75,181
Ending Net Position	\$3,379,024	\$ 3,108,502

## **Debt**

The District had a total liability for compensated absences of \$16,911 at year end.

## **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES**

The Fire District has continued to hire additional firefighter/operators in the last several years. The District has also within the last two years completed two additional fire stations and renovated another. At year end, the District had completed the construction adding on to its main facility. It is the goal of the District to provide the best fire protection possible for the citizens of Lincoln Parish and will continue to improve its fire rating.

LINCOLN PARISH FIRE PROTECTION DISTRICT NO. 1  
RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Lincoln Parish Fire Protection District No. 1 (the District) of Ruston, Louisiana was created by resolution and adopted by the Police Jury on April 23, 1991. The governing body of the District consists of a seven member Board of Commissioners. Four of these commissioners are appointed by the municipalities of Downsville, Dubach, Simsboro, and the Town of Vienna. Three additional members are appointed by the Policy Jury.

The District complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Government Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent sections of this note.

Basis of Presentation

In June, 1999, the GASB unanimously approved statement No. 34, *Basic Financial Statements – and Management’s Discussion and Analysis – for State and Local Governments*. Certain of the significant changes in the presentation of its funds financial information include, for the first time a Management Discussion and Analysis (MD&A) section providing an analysis of the District’s overall financial position and results of operations and financial statements prepared using full accrual accounting for all fund activities. These and other changes are reflected in the accompanying financial statements including the notes to the financial statements.

Measurement Focus, Basis of Accounting and Financial Statement Presentation

*Government-Wide Financial Statements* – The governmental-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

*Governmental Fund Financial Statements* – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal year end

Principal revenue sources considered susceptible to accrual include ad valorem taxes, structure fees, sales tax, and interest on investments. Some revenue items that are considered measurable and available to finance operations during the year from an accounting perspective are not available for expenditure due to the District’s present appropriation system.

FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Presentation (Continued)

These revenues have been accrued in accordance with accounting principles generally accepted in the United States of America since they have been earned and are expected to be collected within sixty days of the end of the period. Other revenues are considered to be measurable and available only when cash is received by the District. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Modifications to the accrual basis of accounting include:

- Employees' vested annual leave is recorded as an expenditure when utilized. The amount of accumulated annual leave unpaid at December 31, 2012 has been reported only in the government-wide financial statements.
- Interest on general long-term obligations is recognized when paid.
- Debt service expenditures are recorded only when payment is due.

Fund Accounting

The financial activities of the District are recorded in individual funds, each of which is deemed to be a separate accounting entity. The District uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Governmental Funds

*General Fund* – This fund is established to account for resources devoted to financing the general services that the District performs. Fees and other revenues used to finance the fundamental operation of the District are included in this fund. The fund is charged with all costs of operating the District for which a separate fund has not been established.

*Debt Service* – This fund is established for the purpose of accumulating resources for the payment of interest and principal on long-term general obligation debt other than those payable from Enterprise Funds and Special Assessment Funds.

*Equipment Reserve Fund* – This fund is established to reserve funds for the replacement of equipment when necessary.

*Fire Training Center Fund* - This fund is established for the purpose of constructing and maintaining a building for training of firefighters.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS (CONTINUED)  
FOR THE YEAR ENDED DECEMBER 31, 2012

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgeting Procedures

The budgets for the funds are proposed by the Director and formally adopted by the Commissioners. The budget is prepared on a basis consistent with generally accepted accounting principles. Budgetary amendments involving the transfer of funds from one function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated require approval of the Commissioners. At year end, all appropriations lapse.

Cash and Cash Equivalents

Cash includes demand deposits and money market accounts. Under state law, the Lincoln Parish Fire Protection District No. 1 may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union or the laws of the United States. Further, the Lincoln Parish Fire Protection District No. 1 may invest in the time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

The District's policy is to include short-term interest bearing deposits having a maturity of three months or less as cash equivalents in the financial statements.

Valuation of Carrying Amounts and Deposits

Cash is reported at net book value – the year-end bank balance plus any deposits in transit and less any outstanding checks that have not cleared the bank as of that date.

Fund Equity

GASB Statement No. 54 establishes standards for five fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of resources reported in government funds. The nonspendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form – prepaid items or inventories; or (b) legally or contractually required to be maintained intact.

The spendable portion of the fund balance comprises the remaining four classifications: restricted, committed, assigned and unassigned.

*Restricted Fund Balance* – This classification reflects the constraints imposed on resources either (a) externally by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

*Committed Fund Balance* – These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions or ordinances of the commissioners – the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the police jurors remove the specified use by taking the same type of action imposing the commitment. This classification also includes contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Fund Equity (Continued)

*Assigned Fund Balance* – This classification reflects the amounts constrained by the District’s “intent” to be used for specific purposes, but are neither restricted nor committed. The commissioners and management have the authority to assign amounts to be used for specific purposes. Assigned fund balances include all remaining amounts (except negative balances) that are reported in governmental funds, other than the general fund, that are not classified as nonspendable and are neither restricted nor committed.

*Unassigned Fund Balance* – This fund balance is the residual classification for the general fund. It is also used to report negative fund balances in other governmental funds.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use externally restricted resources first, then unrestricted resources – committed, assigned and unassigned – in order as needed.

Receivables

All receivables are recorded at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. In the process of aggregating data for the statements of net position and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified.

Quasi-external transactions are accounted for as revenue and expenditures. Transactions that constitute reimbursements to a fund are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the fund that is reimbursed. All other interfund transactions that are not to be repaid are recorded as transfers.

Fixed Assets

Fixed assets of the District are stated at cost and are reported in the government-wide financial statements. Depreciation of all exhaustible fixed assets is charged as an expense against operations. Depreciation is computed using the straight-line method over the estimated useful lives of 5 years.

Compensated Absences

Employees accrue from 18 to 30 days of annual leave each year depending on years of service with the District. Firemen may receive up to one year’s sick leave per illness as prescribed under Louisiana law.

A provision of \$16,911 has been made for the compensated absences and vacation in these financial statements.

NOTE 2 – CASH AND CASH EQUIVALENTS

*Custodial Credit Risk – Deposits.* The custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District's policy to ensure there is no exposure to this risk is to require each financial institution to pledge its' own securities to cover any amount in excess of Federal Depository Insurance Coverage. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the District that the fiscal agent bank has failed to pay deposited funds upon demand. Accordingly, the District had no custodial credit risk related to its deposits at December 31, 2012. The District had cash and cash equivalents in demand deposits, totaling \$507,901 at December 31, 2012.

These deposits are stated at cost, which approximates market. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties. Cash and cash equivalents (bank balances other than these backed by the U.S. government) at December 31, 2012, are secured, as follows:

Bank Balances	\$ <u>507,901</u>

NOTE 4 – INVESTMENTS

*Custodial Credit Risk – Investments.* The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investments in United States government securities are held by the District's agent in the District's name. Therefore, the District had no custodial credit risk related to its investments at December 31, 2012.

Under state law, the District may invest funds in obligations of the United States, in federally-insured investments, or in time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. At December 31, 2012, the District had the following investments stated at cost, which approximates market:

United States Government Securities	<u>\$ 1,106,853</u>
-------------------------------------	---------------------

*Interest Rate Risk.* In accordance with its investments policy, the District manages its exposure to declines in fair market values by limiting investment portfolio to "money market investments," which are defined as creditworthy, highly liquid investments with maturities of one year or less. Although there may be certain circumstances in which longer-term securities are utilized, the general use of long-term securities shall be avoided.

*Credit Risk.* The District's investment policy limits investments to fully insured and/or fully-collateralized certificates of deposits and direct and indirect obligations of U.S. governments agencies.

*Concentration of Credit Risk.* The District's investment policy limits the District's investment instruments to: 1) certificates of deposit; 2) certain direct obligations of the U.S. Government; 3) bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by federal agencies and provided such obligations are backed by the full faith and credit of the United States of America; and 4) the Louisiana Asset Management Pool.

NOTE 5 – ACCOUNTS RECEIVABLE

The receivable of \$493,695 on December 31, 2012, are detailed as follows:

	<u>Total</u>
Structure Fees	\$ 447,031
Sales Tax	43,893
Other Receivables	<u>2,771</u>
Total	<u>\$ 493,695</u>

Based on prior experience, the uncollectible ad valorem taxes net of proceeds from the sheriff's sale of property is immaterial, thus no provision has been made for such loss.

NOTE 6 – DUE TO/FROM OTHER FUNDS

Individual fund balances due to/from other funds at December 31, 2012, are as follows:

<u>Fund</u>	<u>Due From Other Funds</u>	<u>Due To Other Funds</u>
Major Funds:		
General Fund	\$ 8,454	\$ 393,325
Debt Service Fund	-	84,454
Fire Training Center	274,537	-
Equipment Reserve Fund	<u>194,788</u>	<u>-</u>
Totals	<u>\$ 477,779</u>	<u>\$ 477,779</u>

These balances resulted from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded in the accounting system and payments between funds are made.

NOTE 7 - PENSION PLAN

Plan Description

The Firefighters' Retirement System is a defined benefit pension plan covering firefighters employed by any municipality, parish, or fire protection district of the State of Louisiana under the provisions of Louisiana Revised Statutes 11:2251 through 2269.

Under the Firefighters' Retirement System, a member is eligible for normal retirement if he has:

- 20 or more years of service and has attained age 50 or
- 12 years of service and has attained age 55 or
- 25 years of service at any age

Those employees meeting one of these requirements are entitled to annual pension benefits equal to 3 1/3% of their average final compensation based on the 36 consecutive months of highest pay multiplied by their total years of service, not to exceed 100%. Benefits vest upon rendering 12 years of service to the District. Employees may elect to receive their pension benefits in the form of joint and survivor annuity. The District has nine employees covered under this retirement system.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Firefighters Retirement System, 3100 Brentwood Drive, Baton Rouge, Louisiana 70809-1752, or by calling (225) 925-4060.

NOTE 7 - PENSION PLAN (continued)

Funding Policy

Under the plan, members are required by state statute to contribute 10% of their annual covered salary and the Fire Protection District #1 is required to contribute at an actuarially determined rate. The current rate is 24% of annual covered payroll which went into effect in July of 2012. The previous rate was 23.25%. The District's contributions to the System under for the years ending December 31, 2012, 2011, and 2010 were \$147,991, \$135,553, and \$112,761, respectively, equal to the required contributions for each year.

NOTE 8 - LEASE OBLIGATIONS

The Lincoln Parish Fire Protection District No. 1 has entered into twenty leases for real property on which to locate fire stations. The leases have various commencing dates beginning in April 1993, and running through April 1994. All leases run for twenty-five years following the commencing date with an option for the district to renew the lease for an additional twenty-five years thereafter. All leases are for \$1 per year. Leases shall expire on their own terms if a fire station, fire protection facility or similar structure is not constructed on the leased premises within twenty-four months from the date the agreement is executed by the lessor. Additionally, leases shall expire if the fire station, fire protection facility or other similar structure is not equipped with appropriate fire protection equipment or ceases to be used as a fire protection facility for the period of twenty-four consecutive months.

Because the leases are operating leases, no provision for the underlying property has been made in general fixed assets nor have the leases been reflected as general long-term debt. The following is a schedule of future minimum lease payments:

<u>Year Ending</u> <u>December 31,</u>	<u>Amount</u>

NOTE 10 - DEFERRED COMPENSATION PLAN

Employees of the Lincoln Parish Fire Protection District No. 1 may participate in a deferred compensation plan adopted under the provisions of Internal Revenue Code Section 457 (Deferred Compensation Plans with Respect to Service for State and Local Governments).

The deferred compensation plan is available to all employees of the Lincoln Parish Fire Protection District No. 1. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency. In accordance with the provisions of GASB Statement No. 32 and No. 34, plan balances and activities are not reflected in the financial statements of the Lincoln Parish Fire Protection District No. 1.

NOTE 11 - LITIGATION AND CLAIMS

According to the Parish District Attorney, the Lincoln Parish Fire Protection District No. 1 had no pending or threatened litigation as of December 31, 2012.

NOTE 12 - COMPENSATION FOR THE BOARD OF COMMISSIONERS

The members of the Board for the Fire Protection District No. 1 receive no compensation.

NOTE 13 - SUBSEQUENT EVENTS

Subsequent events have been evaluated through May 24, 2013, which the day the financial statements were available to be issued, and it has been determined that no significant events have occurred for disclosure.

NOTES TO BUDGETARY COMPARISON SCHEDULES  
FOR THE YEAR ENDED DECEMBER 31, 2012

The budgets for the funds are proposed by the Director and formally adopted by the Commissioners. The budget is prepared on a basis consistent with generally accepted accounting principles. Budgetary amendments involving the transfer of funds from one function to another or involving increases in expenditures resulting from revenues exceeding amounts estimated, require approval of the Commissioners. At year end, all appropriations lapse.

State law requires the District to amend its budgets when revenues plus projected revenues within a fund are expected to fall short from budgeted revenues by five percent or more and when expenditures and other uses of a fund are expected to exceed budgeted amounts by five percent or more.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER  
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS  
BASED ON AN AUDIT OF FINANCIAL STATEMENTS  
PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Commissioners  
Lincoln Parish Fire Protection District No. 1  
Ruston, Louisiana

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities of the Lincoln Parish Fire Protection District No. 1, as of and for the year ended December 31, 2012, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued my report thereon dated May 24, 2013.

***Internal Control Over Financial Reporting***

In planning and performing my audit of the financial statements, I considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, I do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the District's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Commissioners  
Lincoln Parish Fire Protection District No. 1  
Ruston, Louisiana

***Compliance and Other Matters***

As part of obtaining reasonable assurance about whether the Lincoln Parish Fire Protection District No. 1's financial statements are free from material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

***Purpose of this Report***

The purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

This report is intended for the use of management of the Lincoln Parish Fire Protection District No. 1 and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Internal Control and Compliance Material to the Financial Statements

**11-1 Incomplete Budgets**

Condition:

During the 2010 Louisiana Legislative regular session, requirements were added to the state budget law effective January 1, 2011, that required a budget message and a side-by-side detailed comparison of information for the current year, year-to-date actual receipts and revenues received and estimates of all receipts and revenues to be received the remainder of the year; estimated and actual revenues itemized by source; year-to-date actual expenditures and estimates of all expenditures to be made the remainder of the year itemized by agency, department, function, and character; and the percentage change for each item of information. These items were not in the 2011-2012 proposed budget as required.

Recommendation:

I recommend that when the District adopts its next year's budget that these items also be included with the budget report.

Action Taken:

The District is currently in compliance with the state budget law.
