Independent Auditor's Report

WEST CARROLL PARISH ASSESSOR Oak Grove, Louisiana

I have audited the basic financial statements of the West Carroll Parish Assessor, a component unit of the West Carroll Parish Police Jury, as of December 31, 2004, and for the year then ended, as listed in the table of contents. These financial statements are the responsibility of the West Carroll Parish Assessor's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with U.S. generally accepted auditing standards and *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the basic financial statements referred to above present fairly, in all material respects, the financial position of the West Carroll Parish Assessor as of December 31, 2004, and the changes in its financial position for the year then ended in conformity with U.S. generally accepted accounting principles.

As described in Note 1 to the financial statements, the assessor has implemented a new financial reporting model, as required by the provisions of GASB Statement No. 34, *Basic Financial Statements—and Management's Discussion and Analysis---for State and Local Governments*, as of December 31, 2004.

Management's discussion and analysis, and supplementary information on pages 6 through 8 and 26 through 27, respectively are not a required part of the basic financial statements, but are supplementary information required by the Governmental Accounting Standards Board. I have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information and reviewing the source of selected information. However, I did not audit the information and express no opinion on it.

Oak Grove, Louisiana Independent Auditor's Report, December 31, 2004

My audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental information schedules listed in the table of contents are presented for the purpose of additional analysis and are not a required part of the basic financial statements of the West Carroll Parish Assessor. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in my opinion, is fairly presented in all material respects in relation to the basic financial statements taken as a whole.

In accordance with *Government Auditing Standards*, I have also issued a report dated February 4, 2005, on the West Carroll Parish Assessor's compliance with laws and regulations, and my consideration of the agency's internal control over financial reporting. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of my audit.

West Monroe, Louisiana

February 4, 2005

REQUIRED SUPPLEMENTARY INFORMATION PART I

Management's Discussion and Analysis December 31, 2004

As management of the West Carroll Parish Assessor, I offer readers of the West Carroll Parish Assessor's financial statements this narrative overview and analysis of the financial activities of the West Carroll Parish Assessor for the fiscal year ended December 31, 2004. Please read it in conjunction with the basic financial statements and the accompanying notes to the financial statements.

Overview of the Financial Statements

This Management Discussion and Analysis document introduces the Assessor's basic financial statements. The annual report consists of a series of financial statements. The Statement of Net Assets and the Statement of Activities (Government-wide Financial Statements) provide information about the financial activities as a whole and illustrate a longer-term view of the Assessor's finances. The Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Fund (Fund Financial Statements) tell how these services were financed in the short term as well as what remains for future spending. Fund Financial Statements also report the operations in more detail than the Government-Wide Financial Statements by providing information about the most significant funds. This report also contains other supplementary information in addition to the basic financial statements themselves. Comparative data for the prior year is only available on a limited basis. However, all applicable tables will present comparative data in fiscal year 2005.

Our auditor has provided assurance in her independent auditor's report that the Basic Financial Statements are fairly stated. The auditor, regarding the Required Supplemental Information and the Supplemental Information is providing varying degrees of assurance. A user of this report should read the independent auditor's report carefully to ascertain the level of assurance being provided for each of the other parts in the Financial Section.

The West Carroll Parish Assessor adopts an annual appropriated budget for the general fund. A budgetary comparison statement is provided to demonstrate compliance with this budget.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the West Carroll Parish Assessor's performance.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. At the close of the most recent fiscal year, assets of the West Carroll Parish Assessor exceeded liabilities by \$278,925. Approximately 1% of the West Carroll Parish Assessor's net assets reflects its investment in capital assets (e.g., equipment), less any related debt used to acquire those assets that is still outstanding. These assets are not available for future spending.

The balance in unrestricted net assets is affected by two factors: 1) resources expended, over time, by the West Carroll Parish Assessor to acquire capital assets from sources other than internally generated funds (i.e., debt), and 2) required depreciation on assets being included in the statement of net assets for the first time.

Since this is the first year of implementing the new reporting model, comparative information is not available for further government-wide financial analysis. In future years, when prior year information is available, a comparative analysis of government-wide data will be presented.

Financial Analysis of the Government's Funds

The West Carroll Parish Assessor uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the governmental funds is to provide information on near-term inflows, outflows, and balances of expendable resources. Such information is useful in assessing the financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of December 31, 2004, the general fund's governmental fund balances of \$279,011 showed a decrease of \$8,416 over December 31, 2003.

General Fund Budgetary Highlights

There were no amendments to the budget.

Capital Asset and Debt Administration

Capital assets. The West Carroll Parish Assessor's investment in capital assets for its governmental activities as of December 31, 2004, amounts to \$2,974 (net of accumulated depreciation). This investment includes furniture and equipment. There was an increase of \$1,592 in capital assets for the year.

Long-term debt. At the end of the fiscal year, West Carroll Parish Assessor had total outstanding debt of \$3,060, which consists of a capital lease and compensated absences. During the year, \$326 of debt was paid in accordance with the debt agreement.

Requests for Information

This financial report is designed to provide a general overview of the West Carroll Parish Assessor's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the West Carroll Parish Assessor, P.O. Box 610, Oak Grove, LA 71263.

| Net Assets at December 31, 2004 | \$278.925 |

Statement E

WEST CARROLL PARISH ASSESSOR Oak Grove, Louisiana GOVERNMENTAL FUNDS

Statement of Revenues, Expenditures, and Changes in Fund Balances

For the Year Ended December 31, 2004

| REVENUES | #2.500 |
|---|----------------|
| State grant | \$2,500 |
| Taxes - ad valorem | 193,611 |
| Intergovernmental revenues - state grants - | 10.104 |
| state revenue sharing | 19,194 |
| Federal refuge revenue sharing | 46 |
| Fees, charges, and commissions for services | 500 |
| Use of money and property - interest earnings | 2,038 |
| Other revenue | 1,220 |
| Total revenues | <u>219,109</u> |
| EXPENDITURES | |
| Current: | |
| General government - taxation: | |
| Personal services | 204,344 |
| Operating services | 20,470 |
| Materials and supplies | 1,673 |
| Travel and other charges | 372 |
| Debt service | 666 |
| Capital outlay | 1,592 |
| Total expenditures | 229,117 |
| EXCESS (Deficiency) OF REVENUES OVER EXPENDITURES | (10,008) |
| OTHER FINANCING SOURCES | |
| Proceeds from lease purchase | 1,392 |
| Gain on sale of assets | 200 |
| Total Other Financing Sources | 1,592 |
| EXCESS OF REVENUES AND OTHER SOURCES | |
| OVER EXPENDITURES | (8,416) |
| FUND BALANCES AT BEGINNING OF YEAR | 287,427 |
| FUND BALANCES AT END OF YEAR | \$279,011 |

Reconciliation of Governmental Funds Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities

For the Year Ended December 31, 2004

| Total net change in fund balances - governmental funds (Statement E) | (\$8,416) |
|--|-----------|
| Amounts reported for governmental activities in the Statement of Activities are different because: | |
| Capital outlays are reported in governmental funds as expenditures. However, in the statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays exceed depreciation for the period. | (426) |
| Governmental funds report increase in capital lease as an increase in financial resources and an increase in capital outlay for the asset obtained through the lease. In the Statement of Activities, long term debt is increased when the lease is entered into and decreased as lease payments are made. | (1,392) |
| Repayment of lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets | 326_ |
| Change in net assets of governmental activities (Statement B) | (\$9,908) |

Notes to the Financial Statements
As of and For the Year Ended December 31, 2004

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

As provided by Article VII, Section 24 of the Louisiana Constitution of 1974, the assessor is elected by the voters of the parish and serves a term of four years, beginning January 1 following the year in which elected. The assessor assesses all real and movable property in the parish, subject to ad valorem taxation, prepares tax rolls, and submits the rolls to the Louisiana Tax Commission and other governmental bodies as prescribed by law. The assessor is authorized to appoint as many deputies as necessary for the efficient operation of his office and to provide assistance to the taxpayers of the parish. The deputies are authorized to perform all functions of the office, but the assessor is officially and pecuniarily responsible for the actions of the deputies.

At December 31, 2004, there are 7,183 real, movable, and public service assessment listings totaling \$54,562,680. This represents an increase of 333 assessment listings. The total taxable valuation increased by \$2,468,770.

The accompanying financial statements of the West Carroll Parish Assessor have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

In June 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain of the significant changes in the Statement include the following:

For the first time the financial statements include:

A Management Discussion and Analysis (MD&A) section providing an analysis of the Assessor's overall financial position and results of operations.

Financial statements prepared using full accrual accounting for all of the Assessor's activities.

These and other changes are reflected in the accompanying financial statements (including notes to financial statements).

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

A. REPORTING ENTITY

As the governing authority of the parish, for reporting purposes, the West Carroll Parish Police Jury is the financial reporting entity for West Carroll Parish. The financial reporting entity consists of (a) the primary government (police jury), (b) organizations for which primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

Governmental Accounting Standards Board (GASB) Statement No. 14 established criteria for determining which component units should be considered part of the West Carroll Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is financial responsibility. The GASB has set forth criteria to be considered in determining financial accountability. This criteria includes:

- 1. Appointing a voting majority of an organization's governing body, and:
 - a. The ability of the police jury to impose its will on that organization and/or
 - b. The potential for the organization to provide specific financial benefits to or impose specific financial burdens on the police jury.
- 2. Organizations for which the police jury does not appoint a voting majority but are fiscally dependent on the police jury.
- 3. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Because the police jury maintains and operates the parish courthouse in which the assessor's office is located and provides partial funding for equipment, furniture and supplies of the assessor's office, the assessor was determined to be a component unit of the West Carroll Parish Police Jury, the financial reporting entity. The accompanying financial statements present information only on the funds maintained by the assessor and do not present information on the police jury, the general government services provided by that governmental unit, or the other governmental units that comprise the West Carroll Parish financial reporting entity.

B. BASIC FINANCIAL STATEMENTS - GOVERNMENT-WIDE STATEMENTS

The assessor's basic financial statements include both government-wide (reporting the assessor as a whole) and fund financial statements (reporting the assessor's major fund).

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

Both government-wide and fund financial statements categorize primary activities as either governmental or business type. All activities of the assessor are classified as governmental.

The Statement of Net Assets (Statement A) and the Statement of Activities (Statement B) display information about the reporting government as a whole. These statements include all the financial activities of the assessor.

In the Statement of Net Assets, governmental activities are presented on a consolidated basis and are presented on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term obligations. Net assets are reported in three parts; invested in capital assets, net of any related debt; restricted net assets; and unrestricted net assets. The assessor first uses restricted resources to finance qualifying activities.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues, expenses, gains, losses, assets and liabilities resulting from exchange or exchange-like transactions are recognized when the exchange occurs (regardless of when cash is received or disbursed). Revenues, expenses, gains, losses, assets and liabilities resulting from nonexchange transactions are recognized in accordance with the requirements of GASB Statement No. 33, Accounting and Financial Reporting for Nonexchange Transactions.

Program Revenues - Program revenues included in the Statement of Activities (Statement B) are derived directly from parties outside the assessor's taxpayers or citizenry. Program revenues reduce the cost of the function to be financed from the assessor's general revenues.

Allocation of Indirect Expenses - The assessor reports all direct expenses by function in the Statement of Activities (Statement B). Direct expenses are those that are clearly identifiable with a function. Indirect expenses of other functions are not allocated to those functions but are reported separately in the Statement of Activities. Depreciation expense, which can be specifically identified by function, is included in the direct expenses of each function.

C. BASIC FINANCIAL STATEMENTS - FUND FINANCIAL STATEMENTS

The financial transactions of the assessor are reported in individual funds in the fund financial statements. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Fund financial statements report detailed information about the assessor. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

A fund is a separate accounting entity with a self-balancing set of accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures. Funds are classified into three categories; governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types". Governmental funds are used to account for a government's general activities, where the focus of attention is on the providing of services to the public as opposed to proprietary funds where the focus of attention is on recovering the cost of providing services to the public or other agencies through service charges or user fees. The assessor's current operations require the use of only governmental funds. The governmental fund type used by the assessor is described as follows:

Governmental Fund Type

General Fund - The General Fund, as provided by Louisiana Revised Statute 13:781, is the principal fund of the assessor and is used to account for the operations of the assessor's office. The various fees and charges due to the assessor's office are accounted for in this fund. General operating expenditures are paid from this fund.

D. BASIS OF ACCOUNTING

Basis of accounting refers to the point at which revenues or expenditures/expenses are recognized in the accounts and reported in the financial statements. It relates to the timing of the measurement made regardless of the measurement focus applied.

1. Accrual:

The governmental type activities in the government-wide financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual:

The governmental fund financial statements are presented on the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

Governmental funds use the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (i.e., when they become both measurable and available). Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The assessor considers all revenues available if they are collected within 60 days after the fiscal year end. Expenditures are recorded when the related fund liability is incurred, except for interest and principal payments on general long-term debt which is recognized when due, and certain compensated absences and claims and judgments which are recognized when the obligations are expected to be liquidated with expendable available financial resources. The governmental funds use the following practices in recording revenues and expenditures:

Revenues

Ad valorem taxes are recorded in the year the taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due when the tax roll is filed with the recorder of mortgages and become delinquent on December 31. Ad valorem taxes are generally collected in November and December of the current year and January and February of the ensuing year.

Compensation from taxing bodies is recorded in the year the ad valorem taxes are assessed. Ad valorem taxes are assessed on a calendar year basis, become due on November 15 of each year, and become delinquent on December 31. The compensation is generally collected in December of the current year and January of the ensuing year.

Fees for preparing tax rolls are recorded in the year prepared.

Interest income on demand deposits is recorded monthly when the interest is earned and credited to the account.

Based on the above criteria, ad valorem taxes, compensation from taxing bodies, and fees for preparing tax rolls have been treated as susceptible to accrual.

Expenditures

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

E. CASH AND CASH EQUIVALENTS

Under state law, the assessor may deposit funds in demand deposits, interest bearing demand deposits, money market accounts, or time deposits with state banks organized under

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

Louisiana law and national banks having principal offices in Louisiana. At December 31, 2004, the assessor has cash and cash equivalents (book balances) totaling \$103,155.

| Demand deposits | \$36,346 |
|-----------------|-----------|
| Time deposits | 66,809 |
| Total | \$103,155 |

These deposits are stated at cost, which approximates market. Under state law, these deposits, or the resulting bank balances, must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. All deposits are fully secured by federal deposit insurance at December 31, 2004.

F. CAPITAL ASSETS

Capital assets are capitalized at historical cost or estimated cost if historical cost is not available Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The assessor maintains a threshold level of \$200 or more for capitalizing capital assets.

Capital assets are reported in the government-wide financial statements but not in the fund financial statements. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes by the assessor, no salvage value is taken into consideration for depreciation purposes. All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

| | Estimated |
|------------------------|--------------|
| <u>Description</u> | Lives |
| Furniture and fixtures | 5 - 10 years |
| Vehicles | 5 - 15 years |
| Equipment | 5 - 20 years |

G. ANNUAL AND SICK LEAVE

All employees are granted from 14 to 21 days of noncumulative vacation leave and 12 to 18 days of noncumulative sick leave each year, depending on length of service. At December 31, 2004, there are no accumulated and vested benefits relating to vacation that require accrual or disclosure.

At December 31, 2004, employees had accumulated and vested \$1,994 in sick leave benefits, which is included in general long-term obligations in the accompanying financial statements. The cost of leave privileges is recognized as a current year expenditure when leave is actually taken or when employees are paid for accrued sick leave upon separation of employment.

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

H. RISK MANAGEMENT

The assessor is exposed to various risk of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and injuries to employees. To handle such risk of loss, the assessor maintains commercial insurance policies covering his automobile, professional liability and surety bond coverage. No claims were paid on any of the policies during the past three years which exceeded the policies' coverage amounts. There were no significant reductions in insurance coverage during the year ended December 31, 2004.

2. RECEIVABLES

The following is a summary of receivables at December 31, 2004:

| Class of receivables: | |
|-----------------------|------------------|
| State grant | \$2,500 |
| Taxes - ad valorem | 174,240 |
| State revenue sharing | 12,796 |
| Total | <u>\$189,536</u> |

3. PRINCIPAL TAXPAYERS

The following are the principal taxpayers for the parish and their 2004 assessed valuation (amounts expressed in thousands):

| | 2004 Assessed Valuation | Per cent of Total Assessed Valuation |
|-------------------------------|-------------------------------|---|
| Trunkline Gas Company | \$13,801 | 25.29% |
| Entergy Louisiana, Inc. | 1,624 | 2.98% |
| Centennial Pipeline LLC | 1,536 | 2.82% |
| Bellsouth | 1,067 | 1.96% |
| Southern Natural Gas | 1,035 | 1.90% |
| Regions Bank | 1,030 | 1.89% |
| ANR Pipeline Company | 942 | 1.73% |
| Northeast Louisiana Power | 859 | 1.57% |
| Louisiana Machinery Co., Inc. | 772 | 1,41% |
| Ruffin Building Systems, Inc. | 644 | 1.18% |
| Total | \$23,310 | <u>42.72%</u> |

Oak Grove, Louisiana Notes to the Financial Statements (Continued)

4. CHANGES IN GENERAL FIXED ASSETS

A summary of changes in office furnishings and equipment follows:

| Balance, January 1, 2004 | \$32,950 |
|-------------------------------|----------|
| Additions | NONE |
| Increase in capital assets | 1,592 |
| Deletions | (21,294) |
| Balance, December 31, 2004 | 13,248 |
| Less accumulated depreciation | (10,274) |
| Net Capital Assets | \$2,974 |

5. PENSION PLAN

Substantially all employees of the West Carroll Parish Assessor's office are members of the Louisiana Assessor's Retirement System (system), a multiple-employer (cost-sharing), public employee retirement system (PERS), controlled and administered by a separate board of trustees.

All full-time employees who were employed on or after July 26, 1950 and are not drawing retirement benefits from any other public retirement system in Louisiana are required to participate in the system. Employees who retire at or after age 55 with at least 12 years of credited service or at or after age 50 with at least 30 years of credited service are entitled to a retirement benefit, payable monthly for life, equal to 3 per cent of their final-average salary for each year of credited service rendered on or before June 30, 1999, and 3.33 per cent of their final-average salary for each year of credited service rendered on or after July 1, 1999, not to exceed 100 per cent of their final-average salary. Final-average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least 12 years of service and do not withdraw their employee contributions may retire at or after age 55 and receive the benefit accrued to their date of termination. The system also provides death and disability benefits. Benefits are established by state statute.

The System issues an annual publicly available report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Louisiana Assessors' Retirement System, 3060 Valley Creek Road, Baton Rouge, Louisiana 70898, or by calling (225) 928-8886.

Plan members are required by state statute to contribute 8.00 per cent of their annual covered salary and the West Carroll Parish Assessor is required to contribute at an actuarially determined rate. The current rate is 14.50 per cent of annual covered payroll. Contributions to the system include one-fourth of one per cent (one per cent for Orleans Parish) of the taxes shown to be collectible by the tax rolls of each parish, plus revenue sharing funds appropriated by the legislature. The contribution requirements of plan members and the West Carroll Parish Assessor are established and may be amended by state statute. As provided by Louisiana Revised Statute 11:103, the employer contributions are determined by actuarial valuation and are

Oak Grove, Louisiana

Notes to the Financial Statements (Continued)

subject to change each year based on the results of the valuation for the prior fiscal year. The West Carroll Parish Assessor's contributions to the system for the years ending December 31, 2004, 2003, and 2002, were \$21,873, \$19,488, and \$13,055, respectively, equal to the required contributions for each year.

6. CHANGES IN GENERAL LONG-TERM OBLIGATIONS

The following is a summary of long-term obligation transactions (lease) for the year ended December 31, 2004:

| Balance at December 31, 2003 | NONE |
|------------------------------|---------|
| Additions | \$1,392 |
| Retirements | (326) |
| Balance at December 31, 2004 | \$1,066 |

The annual requirements to amortize all debt outstanding at December 31, 2004, including interest of \$932, are as follows:

| <u>Year</u> | <u>Amount</u> |
|-------------|---------------|
| 2005 | \$888 |
| 2006 | 888 |
| 2007 | 222 |
| TOTAL | \$1,998 |

7. LITIGATION AND CLAIMS

The West Carroll Parish Assessor is not involved in any litigation at December 31, 2004, nor is she aware of any unasserted claims.

8. RESTATEMENT OF BEGINNING FUND BALANCE

The beginning fund balance was restated due to deferred revenue-protested taxes that were not set up in prior year.

See accompanying note to budgetary comparison schedule.

West Carroll Parish Assessor Oak Grove, Louisiana

NOTE TO BUDGETARY COMPARISON SCHEDULE

The proposed budget for the General Fund, prepared on the modified accrual basis of accounting, is made available for public inspection at least fifteen days prior to the beginning of each fiscal year. The budget is then legally adopted by the assessor and amended during the year, as necessary. The budget is established and controlled by the assessor at the object level of expenditure. Appropriations lapse at year-end and must be reappropriated for the following year to be expended. All changes in the budget must be approved by the assessor.

Formal budgetary integration is employed as a management control device during the year. Budgeted amounts included in the accompanying financial statement include the original adopted budget amounts. There were no budget amendments for the year ended December 31, 2004.

REPORTS REQUIRED BY GOVERNMENT AUDITING STANDARDS PART III

Independent Auditor's Report Required by Government Auditing Standards

The following independent auditor's report on compliance and internal control over financial reporting is presented in compliance with the requirements of *Government Auditing Standards* issued by the Comptroller General of the United States and the *Louisiana Governmental Audit Guide*, issued by the Society of Louisiana Certified Public Accountants and the Louisiana Legislative Auditor.

Independent Auditor's Report on Compliance and Internal Control Over Financial Reporting

WEST CARROLL PARISH ASSESSOR Oak Grove, Louisiana

I have audited the basic financial statements of the West Carroll Parish Assessor, a component unit of the West Carroll Parish Police Jury, as of and for the year ended December 31, 2004 and have issued my report thereon dated February 4, 2005. I conducted my audit in accordance with U.S. generally accepted auditing standards and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Compliance

As part of obtaining reasonable assurance about whether the West Carroll Parish Assessor's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grants, noncompliance with which could have a direct and material effect on the determination of financial amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit and, accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance that are required to be reported under *Government Auditing Standards*.

Internal Control Over Financial Reporting

In planning and performing my audit, I considered the West Carroll Parish Assessor's internal control over financial reporting in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control over financial reporting. My consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses. A material weakness is a condition in which the design or operation of one or more of the internal control components does not reduce to a relatively low level the risk that misstatements in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. I noted no matters involving the internal control over financial reporting and its operation that I consider to be material weaknesses.

Oak Grove, Louisiana
Independent Auditor's Report on Compliance
And Internal Control Over Financial Reporting, etc.
December 31, 2004

This report is intended solely for the information and use of the West Carroll Assessor, management, and Legislative Auditor and is not intended to be and should not be used by anyone other than these specified parties. Although the intended use of these reports may be limited, under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
