### INDEPENDENT AUDITOR'S REPORT

Lincoln Parish Police Jury  
Ruston, Louisiana

I have audited the accompanying primary government financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Lincoln Parish Police Jury (which is the "Police Jury" as well as "the primary government"), as of and for the year ended December 31, 2010, which collectively comprise the basic financial statements of the Police Jury's primary government as listed in the table of contents. These financial statements are the responsibility of the Police Jury's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinions.

The financial statements do not include financial data for the Police Jury's legally separate component units. Accounting principles generally accepted in the United States of America require the financial data for those component units to be reported with the financial data of the Police Jury's primary government unless the Police Jury also issues financial statements for the financial reporting entity that include the financial data for its component units. The Police Jury has not issued such reporting entity financial statements. Because of this departure from accounting principles generally accepted in the United States of America, the assets, liabilities, net assets, revenues and expenses of the aggregate discretely presented component units would have been presented is indeterminable. In addition, the assets, liabilities, fund balances, revenues and expenditures of the aggregate remaining fund information would have increased by an amount that is also indeterminable.

In my opinion, because of the omission of the discretely presented component units, as discussed previously, the financial statements referred to previously do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the aggregate discretely presented component units of the Lincoln Parish Police Jury as of December 31, 2010, or the changes in financial position thereof for the year then ended.

In addition, in my opinion, except for the effects of omitting blended component units as discussed previously, the financial statements referred to above present fairly, in all material respects, the financial position of the aggregate remaining fund information for the Lincoln Parish Police Jury as of December 31, 2010, and the changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Further, in my opinion, the financial statements referred to previously present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Lincoln Parish Police Jury as of December 31, 2010, and the respective changes in financial position thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, I have also issued my report dated May 27, 2011, on my consideration of the Lincoln Parish Police Jury's internal control over financial reporting and my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of my audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 9 and 37 through 44 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge I obtained during our audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

My audit was conducted for the purpose of forming opinions on the primary government financial statements that collectively comprise the Lincoln Parish Police Jury's primary government financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the financial statements. The combining and individual nonmajor fund financial statements and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, I do not express an opinion or provide any assurance on them.

**REQUIRED SUPPLEMENTAL INFORMATION (PART A)**  
**MANAGEMENT'S DISCUSSION AND ANALYSIS**

**LINCOLN PARISH POLICE JURY  
RUSTON, LOUISIANA  
Management's Discussion and Analysis (MD&A)**

We offer the readers of the Lincoln Parish Police Jury's financial statements this narrative overview and analysis of the financial activities of the Lincoln Parish Police Jury for the fiscal year ended on December 31, 2010.

**FINANCIAL HIGHLIGHTS**

Our financial statements provide the following key financial highlights for the 2010 fiscal year:

- General Government Activities report total costs of \$16,603,141 and total revenues of \$16,615,628.
- Public Works accounted for the most significant portion of expenditures in General Government Activities.

The Management's Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements-and Management's Discussion and Analysis- for State and Local Governments issued June 1999. Certain comparative information between the current year and the prior year is required to be presented here. The MD&A is intended to serve as an introduction to the Police Jury's basic financial statements. Those basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains supplemental information.

Government-wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the Police Jury's finances in a format similar to that of a private sector entity.

The Statement of Net Assets presents information on all of the Police Jury's assets and liabilities, with the difference between the two reported as net assets. Increases or decreases presented on a comparative basis each year may prove useful as an indicator of whether the financial position of the Police Jury is improving or not.

The Statement of Activities presents information showing how the Police Jury's net assets changed during the reporting period. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The Statement of Net Assets and the Statement of Activities distinguish functions of the Police Jury that are principally supported by taxes, intergovernmental revenues, and charges for services (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The relationship between revenues and expenses represent the Police

Jury's operating results. However, the Police Jury's goal is to provide services to our citizens, not to generate profits as is the case with commercial entities. As a result, one must consider other non-financial factors, such as the condition of the Police Jury's roads and bridges, services provided such as solid waste disposal, rural garbage collection, recreation, library services and housing assistance in order to assess the overall health of the Police Jury.

In the Statement of Net Assets and the Statement of Activities, we divide the Police Jury into three kinds of activities:

**General Fund Activities** – Most of the Police Jury's basic services are reported here, including mandated cost for district courts and coroner's office, assistance to other governmental entities, courthouse and other parish building maintenance and general administration as well as road construction, solid waste disposal, library funds and the hospital proceeds fund. Property taxes, sales tax, severance taxes, franchise fees, licenses and fees, and state and federal grants finance most of these activities.

**Special Revenue Activities** – These activities include most public works including roads and bridges, solid waste collection and disposal as well as library services, criminal court activities, and public health and housing assistance. Funding for these activities are received from property taxes, state and federal grants, and fees charged for services.

**Capital Project Activities** – Expenditures in this area include, but are not limited to, enhancements, renovations, and maintenance of the Lincoln Parish Park, the North Louisiana Exhibition Center, the Lincoln Parish Courthouse and the Bridge Replacement and Road Improvements Funds. Funding is provided through a variety of sources such as admission fees, usage fees, operating transfers from other funds and donations.

**Fund Financial Statements:** A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Police Jury, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Police Jury's fund financial statements provide detailed information about the most significant funds—not the Police Jury as a whole.

**Governmental Funds** – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources at the end of the fiscal year. Such information may be useful in evaluating the Police Jury's near-term financing requirements. Because the focus of governmental funds is

narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements so that the reader may better understand the long-term impact of the Police Jury's short-term financing decisions. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

**Governmental Activities**

The cost of all governmental activities this year was \$16,603,141. The rest of these costs were paid by those who directly benefited from the programs or by other governments and organizations that subsidized certain programs with grants and contributions.

Table 3 presents the Police Jury's governmental activities as well as each program's cost for the last two years.

RUSTON, LOUISIANA  
Management's Discussion and Analysis (MD&A)**

**GENERAL FUND BUDGETARY HIGHLIGHTS**

The excess of revenue over expenditures in the General Fund was \$610,022. This enabled the Jury to transfer additional funds to a capital fund for renovations and maintenance of parish buildings. Severance taxes exceeded \$1 million dollars for the sixth year in a row.

Actual expenditures in the General Fund were less than the final budgeted amount by \$10,315 and the revenues showed a positive variance of \$41,590.

Certificates of indebtedness were issued in 2009 for the acquisition of the Old County Market building in the amount of \$1,500,000 at a rate of 4.35%. The building is adjacent to the Lincoln Parish Courthouse on Arizona Street.

More detailed information on regarding the Police Jury's debt is presented in the notes to the financial statements.

#### **OTHER POST-EMPLOYMENT BENEFITS**

In the year ended December 31, 2010, the Lincoln Parish Police Jury has complied with requirements of Government Accounting Standards Board Statement Number 45, *Accounting and Financial Reporting by Employers for Post Employment Benefits Other than Pensions*. This statement requires that employers disclose the *Annual Required Contribution* and *Net Post-employment Benefit Obligation* as determined by actuarial computations. The disclosure of these amounts is presented in more detail in the Notes to the Financial Statements.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS**

The primary funding source for the General Fund of the parish is taxation. Approximately 60.99% of revenue is provided by Ad Valorem and Sales Tax. The elected and appointed officials consider many factors when developing the parish's budget and authorizing millage rates. Input by the citizens of the parish is a vital part of this consideration. Severance taxes are difficult to project but there is pending legislation that could possibly increase the amount received without any cost to the citizens of the parish. Sales tax revenues showed a slight increase in 2010 despite the lingering effects of an economic downturn. The Lincoln Parish Police Jury will continue to strive for optimum use of parish resources.

#### **CONTACTING THE POLICE JURY'S FINANCIAL MANAGEMENT**

Our financial report is designed to provide our citizens, taxpayers, investors and creditors with a general overview of the Police Jury's finances and to show the Police Jury's accountability for the funds received by it. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Courtney Hall at the Lincoln Parish Police Jury office located on the third floor of the Lincoln Parish Courthouse, 100 West Texas Avenue, Ruston, LA or call (318) 513-6200 between the hours of 8AM and 5PM Monday through Friday.

LINCOLN PARISH POLICE JURY  
RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

INTRODUCTION

The Lincoln Parish Police Jury (the Jury) is the governing authority for Lincoln Parish and is a political subdivision of the State of Louisiana. The Police Jury is governed by 12 jurors representing the various districts within the parish. The jurors serve four-year terms that expire in January of 2012.

Louisiana Revised Statute 33:1236 gives the Police Jury various powers in regulating and directing the affairs of the parish and its inhabitants. The more notable of those are the power to make regulations for its own government; to regulate the construction and maintenance of roads, bridges, and drainage systems; to regulate the sale of alcoholic beverages; and to provide for the health and welfare of the poor, disadvantaged, and unemployed in the parish. Funding to accomplish these tasks is provided by ad valorem taxes, beer and alcoholic beverage permits, state revenue sharing, and various other state and federal grants.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Jury complies with accounting principles generally accepted in the United States of America (GAAP). GAAP includes all relevant Government Accounting Standards Board (GASB) pronouncements. In the government-wide financial statements, Financial Accounting Standards Board (FASB) pronouncements and Accounting Principles Board (APB) opinions issued on or before November 30, 1989 have been applied unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails. The accounting and reporting framework and the more significant accounting policies are discussed in subsequent sections of this note.

Basis of Presentation

The accompanying financial statements of the Lincoln Parish Police Jury have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

Reporting Entity

As the governing authority, for reporting purposes, the Lincoln Parish Police Jury is considered a separate financial reporting entity. The financial reporting entity consists of (a) the primary government, the Lincoln Parish Police Jury, (b) organizations for which the primary government is financially accountable, and (c) other organizations for which the nature and significance of their relationship with the Jury are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

GASB Statement 14 established criteria for determining which component units should be considered part of the Lincoln Parish Police Jury for financial reporting purposes. The basic criterion for including a potential component unit within the reporting entity is accountability.

LINCOLN PARISH POLICE JURY  
RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

The GASB has set forth criteria to be considered in determining financial accountability. These criteria include appointing a voting majority of an organization's governing body and (1) the ability of the Jury to impose its will on that organization or (2) the potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the Jury. Organizations for which the Jury does not appoint a voting majority but are fiscally dependent on the Jury. Organizations for which the reporting entity financial statements would be misleading if data of the organization is not included because of the nature or significance of the relationship.

Based on the previous criteria, the police jury has determined that the following component units are part of the reporting entity:

<u>Component Units</u>	<u>Criteria Used</u>
Lincoln Parish Tax Assessor	2
Lincoln Parish District Attorney	2
Lincoln Parish Sheriff	2
Lincoln Parish Detention Center	2
Humanitarian Enterprises of Lincoln Parish	2

The following have been determined to be related organizations:

Lincoln Health Systems	1&2
Lincoln General Hospital	1&2
Fire Protection District No. 1 of Lincoln Parish	1&2
Lincoln Parish Industrial Development Board	1&2
Mount Olive Waterworks District	1&2
Waterworks District No. 1 of Lincoln Parish	1&2
Waterworks District No. 2 of Lincoln Parish	1&2
Waterworks District No. 3 of Lincoln Parish	1&2
Lincoln Parish Communications District	1&2
Lincoln Parish Geographic Information System	1&2

Since the Jury is legally separate and fiscally independent of other state and local governments and has a separately elected governing body, it meets the definition of a primary government as defined by GASB Statement 14.

The Police Jury has chosen to issue financial statements of the primary government (police jury) only; therefore, none of the previously listed component units are included in the accompanying financial statements.

GASB Statement 14 provides for the issuance of primary government financial statements that are separate from those of the reporting entity. However, the primary government's (police jury) financial statements are not a substitute for the reporting entity's financial statements. The accompanying primary government financial statements have been prepared in conformity with generally accepted accounting principles as applied to government units. These financial statements are not intended to and do not report on the reporting entity but rather are intended to reflect only the financial statements of the primary government (police jury).

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reporting Entity (Continued)

Considered in the determination of component units of the reporting entity were the School Board and the various municipalities in the parish. It was determined that these governmental entities are not component units of the Lincoln Parish Police Jury reporting entity because they have separately elected governing bodies, are legally separate, and are fiscally independent of the Lincoln Parish Police Jury.

Measurement Focus, Basis of Accounting and Financial Statement Position

*Government-Wide Financial Statements* – The governmental-wide financial statements are reported using the economic resource measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

*Governmental Fund Financial Statements* – The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period; the Lincoln Parish Police Jury considers revenues to be available if they are collected within 60 days of the end of the current fiscal year end.

Principle revenue sources considered susceptible to accrual include federal grants, interest on investments, sales and income taxes, and lease payments receivable. Some revenue items that are considered measurable and available to finance operations during the year from an accounting perspective are not available for expenditure due to the Jury's present appropriation system. These revenues have been accrued in accordance with accounting principles generally accepted in the United States of America since they have been earned and are expected to be collected within sixty days of the end of the period. Other revenues are considered to be measurable and available only when cash is received by the Jury. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. Modifications to the accrual basis of accounting include:

- Employees' vested annual leave is recorded as an expenditure when utilized. The amount of accumulated annual leave unpaid at December 31, 2010 has been reported only in the governmental-wide financial statements.
- Interest on general long-term obligations is recognized when paid.
- Debt service expenditures are recorded only when payment is due.

Fund Accounting

The financial activities of the Jury are recorded in individual funds, each of which is deemed to be a separate accounting entity. The Jury uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting and Financial Statement Position (Continued)

Governmental Funds

Governmental funds account for the Police Jury's general governmental activities including the collection and disbursement of specific or legally restricted monies, the acquisition or construction of capital assets, and the servicing of general long-term debt. Governmental funds are divided into major and nonmajor funds. Major funds are funds that meet certain dollar tests of their assets, liabilities, revenues and expenditures/expenses. Major funds are larger, more significant funds. Nonmajor funds are the Governmental funds that do not meet the dollar tests for major funds. Governmental funds include:

**General Fund** – This fund accounts for all activities of the Jury not specifically required to be accounted for in other funds. Included are transactions for services such as general government, health services, public safety, regulatory services and social services.

**Special Revenue Funds** – Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes.

**Debt Service** – Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest and related costs.

**Capital Projects Funds** – Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities.

**Fiduciary Fund Types** – These funds account for assets held by the Police Jury as a trustee or agent for other units of government. This fund includes the following:

**Nonexpendable Trust Fund** – Nonexpendable Trust Funds are used to account for assets held by the government in a trustee capacity for others. The principal of the trust must be held intact and only the income earned may be used for the purpose specified in the hospital sale proposition, as approved by voters of Lincoln Parish.

**Agency Fund** – Agency Funds are used to account for assets held by the government as an agent for individuals, private organization, other governments, and/or other funds. Agency Funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Budgetary Practices

Budgetary practices of the Police Jury include public notice of the proposed budget, public inspection of the proposed budget and public hearings on the budget. Budgets are prepared in conformity with GAAP using the modified accrual basis of accounting. The secretary-treasurer is authorized to transfer budget amounts within a function by object classification; however, any revisions that alter the total expenditures of any function must be approved by the Lincoln Parish Police Jury. Appropriations lapse at year-end. Budgeted amounts shown in the accompanying financial statements include original adopted budget amounts and all subsequent amendments. The level of budgetary responsibility is by total appropriations; however, for report purposes, this level has been expanded to a functional basis.

Cash and Cash Equivalents

Cash includes demand deposits and money market accounts. Under state law, the Police Jury may deposit funds within a fiscal agent bank organized under the laws of the State of Louisiana, the laws of any other state in the Union or the laws of the United States. Further, the Police Jury may invest in the time deposits or certificates of deposit of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Investments

Under state law, the Police Jury may invest in United States treasury notes or certificates. These funds are classified as investments if their original maturities exceed 90 days; however, if the original maturities are 90 days or less, they are classified as cash equivalents. In accordance with the provisions of GASB Statement 31, investments are carried at fair market value or amortized cost, as further discussed in Notes 2 and 3.

Fund Equity

Equity is classified as net assets and displayed in three components:

- a. Invested in capital assets, net of related debt – Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction or improvement of those assets.
- b. Restricted net assets – Consists of net assets with constraints placed on their use either by (1) external groups, such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net assets – All other net assets that do not meet the definitions of “restricted” or “invested in capital assets, net of related debt.”

Receivables

All receivables are recorded at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Interfund Receivables and Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. In the process of aggregating data for the statements of net assets and the statement of activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified.

Fixed Assets

Fixed assets of the Jury are stated at cost and are reported in the government-wide financial statements. Depreciation of all exhaustible fixed assets are charged as an expense against operations. Depreciation is computed using the straight-line method over the estimated useful lives. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciable lives are from 5 years for equipment and vehicles, 40 years for buildings and 25 years for infrastructure assets.

Annual and Sick Leave

The following annual and sick leave policies are in effect:

Police Jury

Employees accrue from five to twenty days of annual and five to fifteen days sick leave each year depending on years of service with the Police Jury for a total of not more than 120 days. Similarly, employees are not paid for accrued sick leave upon resigning or retiring, but accrued sick leave may be applied against total employment years at retirement.

Library

Employees of the library earn from twelve to twenty days vacation leave each year depending on length of service and professional status. Vacation leave is not cumulative. Employees of the library earn twelve days sick leave each year, which can be accumulated up to twenty-four days for major medical purposes only. Sick leave lapses at termination of employment.

Third Judicial Criminal District Court

The employees of the district attorney's office, paid from the criminal court fund, accrue twelve days of annual leave and twelve days of sick leave each year. The leave must be used in the year earned. The employees of the district judge's office, paid from the criminal court fund, do not have a formal leave policy.

The Jury accrues costs incurred for annual leave. Accrued sick leave benefits are not accrued due to the policy of not paying benefits upon termination.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Sales and Use Tax

Lincoln Parish has a one-half percent parish-wide sales and use tax approved by the voters of the parish. The net proceeds of the tax (after costs of collections) are used for the purpose of acquiring, operating and maintaining parish-wide solid waste disposal facilities and equipment. After operational costs for the parish-wide solid waste disposal facilities and equipment are determined, the remainder of the proceeds is allocated and divided between the Police Jury and incorporated municipalities within the parish according to a prescribed formula.

Sales tax and use taxes are collected by the Lincoln-Ruston Sales Tax Division, an entity separate from the Police Jury, and the tax proceeds applicable to the Police Jury are transferred monthly.

Inventories

Inventories for all governmental funds are valued at cost. Reported inventories in these funds are equally offset by a fund balance reserve, which indicates they are unavailable for appropriation even though they are a component of reported assets. Inventories are accounted for as assets when purchased and recorded as expenditures as consumed.

NOTE 2 – CASH AND CASH EQUIVALENTS

*Custodial Credit Risk – Deposits.* The custodial credit risk is the risk that in the event of a bank failure, the Police Jury's deposits may not be returned to it. The Police Jury's policy to ensure there is no exposure to this risk is to require each financial institution to pledge its' own securities to cover any amount in excess of Federal Depository Insurance Coverage. Louisiana Revised Statute 39:1229 imposes a statutory requirement on the custodial bank to advertise and sell the pledged securities within 10 days of being notified by the Police Jury that the fiscal agent bank has failed to pay deposited funds upon demand. Accordingly, the Police Jury had no custodial credit risk related to its deposits at December 31, 2010. The Police Jury had cash and cash equivalents in demand deposits, totaling \$7,548,267 at December 31, 2010.

These deposits are stated at cost, which approximates market. NOTE 3 - INVESTMENTS

*Custodial Credit Risk – Investments.* The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The Police Jury's investments in United States government securities are held by the Police Jury's agent in the Police Jury's name. Therefore, the Police Jury had no custodial credit risk related to its investments at December 31, 2010.

Under state law, the Police Jury may invest funds in obligations of the United States, in federally-insured investments, or in time deposits with state banks organized under Louisiana law and national banks having their principal offices in Louisiana. At December 31, 2010, the Center had the following investments stated at cost, which approximates market:

Government Agency Bonds	\$ 19,177,535
Equities	10,563
Cash or Money Market Accounts	<u>1,830,825</u>
Total	<u>\$ 21,018,923</u>

*Interest Rate Risk.* In accordance with its investments policy, the Police Jury manages its exposure to declines in fair market values by limiting investment portfolios to "money market investments, which are defined as creditworthy, highly liquid investments with maturities of one year or less. Although there may be certain circumstances in which longer-term securities are utilized, the general use of long-term securities shall be avoided.

*Credit Risk.* The Police Jury's investment policy limits investments to fully insured and/or fully-collateralized certificates of deposits and direct and indirect obligations of U.S. government agencies.

*Concentration of Credit Risk.* The Police Jury's investment policy limits the Police Jury's investment instruments to: 1) certificates of deposit; 2) certain direct obligations of the U.S. Government; 3) bonds, debentures, notes, or other evidence of indebtedness issued or guaranteed by federal agencies and provided such obligations are backed by the full faith and credit of the United States of America; and 4) the Louisiana Asset Management Pool.

NOTE 6 – PENSION PLAN

Plan Description

Substantially all employees of the Lincoln Parish Police Jury are members of the Parochial Employees' Retirement System of Louisiana (System), a cost sharing, multiple-employer defined benefit pension plan administered by a separate board of trustees. The system is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the police jury are members of Plan A.

All permanent employees working at least 28 hours per week who are paid wholly or in part from parish funds and all elected parish officials are eligible to participate in the System. Under Plan A, employees who retire at or after age 60 with at least 10 years of creditable service, at or after age 55 with at least 25 years of creditable service, or at any age with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 3% of their final average salary for each year of creditable service. However, for those employees who were members of the supplemental plan only before January 1, 1980, the benefit is equal to 1% of final average salary plus \$24 for each year of supplemental-plan-only service earned before January 1, 1980, plus 3% of final-average salary for each year of service credited after the revision date. Under Plan B, employees who retire at or after age 62 with at least 10 years of creditable service or at or after age 55 with at least 30 years of creditable service are entitled to a retirement benefit, payable monthly for life, equal to 2% of their final average monthly salary in excess of \$100 for each year of creditable service. Furthermore, employees with at least 10 years of creditable service, but less than 30 years, may take early retirement benefits commencing at or after age 60, with the basic benefit reduced 3% for each year retirement precedes age 62, unless he has at least 30 years of creditable service. In any case, monthly retirement benefits paid under Plan B cannot exceed 100% of final average salary. Final average salary is the employee's average salary over the 36 consecutive or joined months that produce the highest average. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination. The System also provides death and disability benefits. Benefits are established or amended by state statute.

The System issues an annual publicly available financial report that includes financial statements and required supplementary information for the System. That report may be obtained by writing to the Parochial Employees' Retirement System, Post Office Box 14619, Baton Rouge, Louisiana 70898-4619, or by calling (225) 928-1361.

Funding Policy

Under Plan A, members are required by state statute to contribute 9.5% of their annual covered salary and the Lincoln Parish Police Jury is required to contribute at an actuarially determined rate. The current rate is 15.75% of annual covered payroll. Contributions to the System also include one-fourth of 1% (except Orleans and East Baton Rouge Parishes) of the taxes shown to be collectible by the tax rolls of each parish. These tax dollars are divided between Plan A and Plan B based proportionately on the salaries of the active members of each plan. The contribution requirements of plan members and the Lincoln Parish Police Jury are established and may be amended by state statute. As provided by R.S. 11:103, the employer contributions are determined by actuarial valuation and are subject to change each year based on the results of the valuation for the prior fiscal year.

NOTE 15 – DEFERRED COMPENSATION PLAN (continued)

The deferred compensation plan is available to all employees of the Lincoln Parish Police Jury. Under the plan, employees may elect to defer a portion of their salaries and avoid paying taxes on the deferred portion until the withdrawal date. The deferred compensation amount is not available for withdrawal by employees until termination, retirement, death, or unforeseeable emergency. In accordance with the provisions of GASB Statements No. 32 and No. 34, plan balances and activities are not reflected in the financial statements of the Lincoln Parish Police Jury or its political subdivisions.

NOTE 16 – POST EMPLOYMENT HEALTH CARE BENEFITS

*Plan Description.* The Lincoln Parish Police Jury's medical benefits are provided through a self-insured plan and are made available to employees upon actual retirement.

The employees are covered by the Parochial Employees' Retirement System of Louisiana, whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; age 60 and 10 years of service; or, age 65 and 7 years of service. For employees hired on and after January 1, 2007. Retirement eligibility (D.R.O.P. entry) provisions are as follows: age 55 and 30 years of service; age 62 and 10 years of service; or, age 67 and 7 years of service. Complete plan provisions are included in the official plan documents.

Dental insurance coverage is provided to retirees. The employer pays 90 to 95% of the cost of the dental insurance (depending on the plan) for the retiree and 50% for dependents. The actuaries have used the unblended rates provides. All of the assumptions used for the valuation of the medical benefits have been used for dental insurance except for the trend assumption; zero trend was used for dental insurance.

Life insurance coverage is available to retirees and the blended rate (active and retired) is \$0.65 per \$1,000 of insurance. The employer pays 100% of the cost of the retiree life insurance. Since GASB 45 requires the use of "unblended" rates, we have used the 94GAR mortality table described above to "unblend" the rates so as to reproduce the composite blended rate overall as the rate structure to calculate the actuarial valuation results for life insurance. All of the assumptions used for the valuation of the medical benefits have been used except for the trend assumption; zero trend was used for life insurance. Retiree insurance coverage amounts are reduced to 50% of the original level before retirement.

*Contribution Rates.* Employees do not contribute to their post employment benefits costs until they become retirees and begin receiving those benefits. The plan provisions and contribution rates are contained in the official plan documents.

*Fund Policy.* Until 2008, the Lincoln Parish Police Jury recognized the cost of providing post-employment medical and life benefits (Lincoln Parish Police Jury's portion of the retiree medical, dental, and life benefit premiums) as an expense when the benefit premiums were due and thus financed the cost of the post-employment benefits on a pay-as-you-go basis. In 2010, Lincoln Parish Police Jury's portion of health care funding cost for retired employees totaled \$172,218, the dental totaled \$6,921, and the life insurance totaled \$565.

NOTE 16 – POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

Effective with the Fiscal Year beginning January 1, 2008, Lincoln Parish Police Jury implemented Government Accounting Standards Board Statement Number 45, *Accounting and Financial Reporting by Employers for Post employment Benefits Other than Pensions* (GASB 45).

*Annual Required Contribution.* Lincoln Parish Police Jury's Annual Required Contribution (ARC) is an amount actuarially determined in accordance with GASB 45. The Annual Required Contribution (ARC) is the sum of the Normal Cost plus the contribution to amortize the Actuarial Accrued Liability (AAL). A level dollar, closed amortization period of 30 years (the maximum amortization period allowed by GASB 43/45) has been used for the post-employment benefits. The total ARC for the fiscal year beginning January 1, 2010 and 2009 is \$708,216 for medical, \$14,248 for dental, and \$5,101 for life, as set forth below:

	Medical	Dental	Life

NOTE 16 – POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

*Funded Status and Funding Progress.* In the fiscal year ending December 31, 2010, Lincoln Parish Police Jury made no contributions to its post employment benefits plan. The plan was not funded at all, has no assets, and hence has a funded ratio of zero. As of January 1, 2008, the first and most recent actuarial valuation, the Actuarial Accrued Liability (AAL) was \$6,876,002 (medical), \$154,920 (dental), and \$59,279 (life), which is defined as that portion, as determined by a particular actuarial cost method (Lincoln Parish Police Jury uses the Unit Credit Cost Method), of the actuarial present value of post employment plan benefits and expenses which is not provided by normal cost. Since the plan was not funded in fiscal year 2010 and 2009, the entire actuarial accrued liability of \$6,876,002 (medical), \$154,920 (dental), and \$59,279 (life) was unfunded.

	Medical	Dental	Life

Funded Ratio (Act. Val. Assets/AAL)	0%	0%	0%
Covered Payroll (active plan members)			
UAAL as a percentage of covered payroll	0%	0%	0%

*Actuarial Methods and Assumptions.* Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. The actuarial valuation for post employment benefits includes estimates and assumptions regarding (1) turnover rate; (2) retirement rate; (3) health care cost trend rate; (4) mortality rate; (5) discount rate (investment return assumption); and (6) the period to which the costs apply (past, current, or future years of service by employees). Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

The actuarial calculations are based on the types of benefits provided under the terms of the substantive plan (the plan as understood by Lincoln Parish Police Jury and its employee plan members) at the time of the valuation and on the pattern of sharing costs between Lincoln Parish Police Jury and its plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between Lincoln Parish Police Jury and plan members in the future. Consistent with the long-term perspective of actuarial calculations, the actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial liabilities and the actuarial value of assets.

RUSTON, LOUISIANA  
NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 16 – POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

*Actuarial Cost Method.* The ARC is determined using the Unit Credit Cost Method. The employer portion of the cost for retiree medical care in each future year is determined by projecting the current cost levels using the healthcare cost trend rate and discounting this projected amount to the valuation date using the other described pertinent actuarial assumptions, including the investment return assumption (discount rate), mortality, and turnover.

*Actuarial Value of Plan Assets.* Since this is the first actuarial valuation, there are not any assets. It is anticipated that in future valuations a smoothed market value consistent with Actuarial Standards Board ASOP 6, as provided in paragraph number 125 of GASB Statement 45.

*Turnover Rate.* An age-related turnover scale based on actual experience as described by administrative staff has been used. The rates, when applied to the active employee census, produce an annual turnover of approximately 5%. The rates for each age are below:

Age	Percent Turnover
18 - 25	8.0%
26 - 40	6.0%
41 - 54	5.0%
55+	4.0%

*Post employment Benefit Plan Eligibility Requirements.* It is assumed that entitlement to benefits will commence three years after satisfaction of the minimum retirement/D.R.O.P. entry eligibility requirements described above under "Plan Terms". Medical benefits are provided to employees upon actual retirement. Employees are covered by Parochial Employees' Retirement System of Louisiana, whose retirement eligibility (D.R.O.P. entry) provisions are as follows: 30 years of service at any age; age 55 and 25 years of service; age 60 and 10 years of service; or, age 65 and 7 years of service. For employees hired on and after January 1, 2007. Retirement eligibility (D.R.O.P. entry) provisions are as follows: age 55 and 30 years of service; age 62 and 10 years of service; or, age 67 and 7 years of service. Entitlement to benefits continue through Medicare to death.

*Investment Return Assumption (Discount Rate).* GASB Statement 45 states that the investment return assumption should be the estimated long-term investment yield on the investments that are expected to be used to finance the payment of benefits (that is, for a plan which is funded). Based on the assumption that the ARC will not be funded, a 4% annual investment return has been used in this valuation. This is a conservative estimate of the expected long term return of a balanced and conservative investment portfolio under professional management.

*Health Care Cost Trend Rate.* The expected rate of increase in medical cost is based on projections performed by the Office of the Actuary at the Centers for Medicare & Medicaid Services as published in National Health Care Expenditures Projections: 2003 to 2013, Table 3: National Health Expenditures, Aggregate and per Capita Amounts, Percent Distribution and Average Annual Percent Change by Source of Funds: Selected Calendar Years 1990-2013, released in January, 2004 by the Health Care Financing Administration ([www.cms.hhs.gov](http://www.cms.hhs.gov)). "State and Local" rates for 2008 through 2013 from this report were used, with rates beyond 2013 graduated down to an ultimate annual rate of 5.0% for 2016 and later.

NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 16 – POST EMPLOYMENT HEALTH CARE BENEFITS (continued)

Zero trend has been assumed for valuing life insurance.

*Mortality Rate.* The 1994 Group Annuity Reserving (94GAR) table, projected to 2002, based on a fixed blend of 50% of the unloaded male mortality rate and 50% of the unloaded female mortality rates, was used. This is the mortality table which the Internal Revenue Service requires to be used in determining the value of accrued benefits in defined benefit pension plans. Since GASB 45 requires the use of "unblended" rates, we have used the 94GAR mortality table described above to "unblend" the rates so as to reproduce the composite blended rate overall as the rate structure to calculate the actuarial valuation results for life insurance.

*Method of Determining Value of Benefits.* The "value of benefits" has been assumed to be the portion of the premium after retirement date expected to be paid by the employer for each retiree and has been used as the basis for calculating the actuarial present value of OPEB benefits to be paid. The employer pays 90 to 95% of the cost of the medical insurance (depending on the plan) for the retiree and 50% for dependents. The rates provided are "blended" rates. Since GASB 45 mandates that "unblended" rates be used, we have estimated the "unblended" rates for three broad groups: active, retired before Medicare eligibility, and retired after Medicare eligibility. It has been assumed that the retiree rate before Medicare eligibility is 130% of the blended rate and after Medicare, 80% of the blended rate.

NOTE 17 – BONDS PAYABLE

Certificates of indebtedness were issued in the amount of \$1,500,000 on September 16, 2009 for the purpose of acquiring the Old County Market Building and paying the costs incurred in connection with the issuance of the Certificates. The bonds carry a net interest rate of 4.35%. On March 1, 2001, General obligation bonds were issued in the amount of \$5,300,000 for the purpose of library renovations. The bonds are to be repaid by March 2021 by Ad Valorem taxes with the first interest only payment due March 1, 2002. Principal payments commenced on March 1, 2003. NOTES TO FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 2010

NOTE 19 – PRIOR PERIOD ADJUSTMENT FUND FINANCIAL STATEMENTS

The police jury wrote off old accounts payable in the Library Sinking fund during the year ended December 31, 2010. The adjustment resulted in a decrease of beginning net assets of \$64,002. Also, a state grant was received to reimburse the General Fund for cattle pens purchased in prior year. A grant receivable in the amount of \$53,610 should have been recognized in prior year to offset the cost of the purchase. The adjustment resulted in an increase of beginning net assets of \$53,610.

Also during the year, the police jury created the Geographic Information System District by transferring the GIS Mapping fund, IT Director fund and the GIS Project Reserve fund to the new District. Until the creation of the district, the funds were maintained in the Lincoln Parish Police Jury's financial statements. The removal of these funds resulted in a decrease of \$57,643.

The net of the three adjustments was an overall decrease of beginning net assets of \$68,035. Prior years are not presented on the statement of activities; therefore the adjustment for the cumulative effect of the prior period adjustment is presented as an adjustment to opening net assets on the statement of activities.

NOTE 20 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through May 27, 2011, which is the day the financial statements were available to be issued, and it has been determined that no significant events have occurred for disclosure.

LINCOLN PARISH POLICE JURY  
RUSTON, LOUISIANA  
NOTES TO BUDGETARY COMPARISON SCHEDULES  
FOR THE YEAR ENDED DECEMBER 31, 2010

Budgetary practices of the Police Jury include public notice of the proposed budget, public inspection of the proposed budget and public hearings on the budget. Budgets are prepared in conformity with GAAP using the modified accrual basis of accounting. The secretary-treasurer is authorized to transfer budget amounts within a function by object classification; however, any revisions that alter the total expenditures of any function must be approved by the Lincoln Parish Police Jury. Appropriations lapse at year-end. Budgeted amounts shown in the accompanying financial statements include original adopted budget amounts and all subsequent amendments. The level of budgetary responsibility is by total appropriations; however, for report purposes, this level has been expanded to a functional basis.

State law requires the Police Jury to amend its budgets when revenues plus projected revenues within a fund are expected to fall short from budgeted revenues by five percent or more and when expenditures and other uses of a fund are expected to exceed budgeted amounts by five percent or more.

Budget/Actual Unfavorable Variances

When comparing budget to actual revenue and expenditure amounts for the year ended December 31, 2010, the following governmental funds had variances greater than 5%:

	<u>Budget</u>	<u>Actual</u>	<u>Variances</u> <u>(Unfavorable)</u>

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING  
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF  
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH  
GOVERNMENT AUDITING STANDARDS**

Lincoln Parish Police Jury  
Ruston, Louisiana

I have audited the accompanying primary government financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Lincoln Parish Police Jury (which is the "Police Jury" as well as "the primary government"), as of and for the year ended December 31, 2010, which collectively comprise the basic financial statements of the Police Jury's primary government as listed in the table of contents and have issued my report thereon dated May 27, 2011. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States

**Internal Control Over Financial Reporting**

In planning and performing my audit, I considered the Lincoln Parish Police Jury's internal control over financial reporting as a basis for designing my auditing procedures for the purpose of expressing my opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Police Jury's internal control over financial reporting. Accordingly, I do not express an opinion on the effectiveness of the Police Jury's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

My consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. I did not identify any deficiencies in internal control over financial reporting that I consider to be material weaknesses, as defined above.

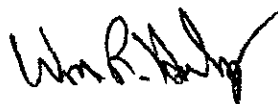

### Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Lincoln Parish Police Jury's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the Legislative Auditor, the Lincoln Parish Police Jury and federal awarding agencies and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

**REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD  
HAVE A DIRECT AND MATERIAL EFFECT ON EACH  
MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN  
ACCORDANCE WITH OMB CIRCULAR A-133**

Lincoln Parish Police Jury  
Ruston, Louisiana

**Compliance**

I have audited the Lincoln Parish Police Jury's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010. Lincoln Parish Police Jury's major federal programs are identified in the Summary of Auditor's Results section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of Lincoln Parish Police Jury's management. My responsibility is to express an opinion on Lincoln Parish Police Jury's compliance based on my audit.

I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Lincoln Parish Police Jury's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances. I believe that my audit provides a reasonable basis for my opinion. My audit does not provide a legal determination in Lincoln Parish Police Jury's compliance with those requirements.

In my opinion, the Lincoln Parish Police Jury complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2010.

**Internal Control Over Compliance**

Management of Lincoln Parish Police Jury is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts and grants applicable to federal programs.

In planning and performing my audit, I considered Lincoln Parish Police Jury's internal control over compliance with the requirements that could have a direct and material effect on a major federal program to determine the auditing procedures for the purpose of expressing my opinion on compliance and to test and report on internal control over compliance in accordance with *OMB Circular A-133*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Lincoln Parish Police Jury's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

My consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of management, the Lincoln Parish Police Jury, the Louisiana Legislative Auditor, federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.
