Independent Accountant's Report

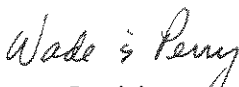

Board of Commissioners
Hico Water System, Inc.
Dubach, Louisiana

We have reviewed the accompanying financial statements of Hico Water System, Inc. ("System"), as of and for the year ended December 31, 2014, which collectively comprise the System's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Hico Water System, Inc.'s management.

Our review was conducted in accordance with *Statements on Standards for Accounting and Review Services* issued by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards* issued by the Comptroller General of the United States of America. A review consists principally of inquiries of System's personnel and analytical procedures applied to financial data. It is substantially less in scope than an audit in accordance with generally accepted auditing standards, the objective of which is the expression of an opinion regarding the financial statements taken as a whole. Accordingly, we do not express such an opinion.

Based on our review, we are not aware of any material modifications that should be made to the accompanying financial statements in order for them to be in conformity with accounting principles generally accepted in the United States of America.

In accordance with the *Louisiana Governmental Audit Guide* and the provisions of state law, we have issued a report dated June 5, 2015, on the results of our agreed-upon procedures.

INTRODUCTION

The Hico Water System, Inc. ("System") was organized in 1973 as a not for profit water system to provide water usage and service to the customers of the System in Lincoln parish. The System has five commissioners comprising the board who are appointed by the Board of Commissioners. The System serves approximately 488 active customers and employs four people. The System operates two facilities that operate two wells at each site with approximately 100 miles of water lines.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of Net Position and the statement of changes in Net Position) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charge to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) *grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment*. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

B. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and the fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Hico Water System, Inc.
Notes to the Financial Statements
As of and For the Year Ended December 31, 2014

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

The System reports the following major proprietary fund:

The Water fund is to account for the provision of water services to the customers of the System. All activities necessary to provide such services are accounted for in this fund, but not limited to, administration, operations, maintenance, financing, and related debt service and billing.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The government has elected not to follow subsequent private-sector guidance.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the governments enterprise operations. Elimination of those charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Operating expenses for enterprise funds and internal service funds include the costs of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the System's policy to use restricted resources first, then unrestricted resources as they are needed.

C. Deposits and Investments

The System's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. State law and the System's investment policy allow the System to invest in collateralized certificates of deposits, government backed securities, commercial paper, the state sponsored investment pool, and mutual funds consisting solely of government backed securities. Investments for the System are reported at fair value.

D. Restricted Assets

Certain proceeds of the System's revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the statement of Net Position because their use is limited by applicable bond covenants.

E. Capital assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are capitalized at historical cost or estimated cost (the extent to which fixed asset costs have been estimated and the methods of estimation should be disclosed) if historical cost is not available (or describe other method of valuation). Donated assets are recorded as capital assets at their estimated fair market value at the date of donation. The System does not maintain a threshold level for capitalizing capital assets.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

All capital assets, other than land, are depreciated using the straight-line method over the following useful lives:

<u>Description</u>	<u>Estimated Lives</u>
Land	N/A
Water lines and wells	50 years
Improvements	15 years
Building	20 years
Equipment	5-10 years

F. Compensated Absences

The System has the following policy relating to vacation and sick leave:

Employees of the System cannot accrue vacation or sick time. Therefore, no liability has been recorded.

G. Fund Equity

In the government wide statements, equity is classified as Net Position and displayed in three components:

- a. Net invested in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings and deferred inflows of resources that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position - Consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Constraints may be placed on the use, either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position - Net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in either of the other two categories of net position.

Proprietary fund equity is classified in the same manner as in the government-wide statements.

H. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues, expenditures, and expenses during the reporting period. Actual results could differ from the estimates.

2. CASH AND CASH EQUIVALENTS

At December 31, 2014, the System has cash and cash equivalents (book balances) totaling \$314,851 as follows:

Demand deposits	\$148,757
Interest-bearing demand deposits	166,094
Investments	<u>0</u>
Total	<u>\$314,851</u>

Hico Water System, Inc.
Notes to the Financial Statements
As of and For the Year Ended December 31, 2014

These deposits are stated at cost, which approximates market. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent. These securities are held in the name of the pledging fiscal agent bank in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2014, the System has \$317,717 in deposits (collected bank balances). These deposits are secured from risk by \$317,717 of federal deposit insurance and \$0 of pledged securities held by the custodial bank in the name of the fiscal agent bank. (GASB Category 3).

3. RECEIVABLES

The receivables of \$23,823 at December 31, 2014, consist solely of amounts due from customers.

4. CAPITAL ASSETS

Capital assets and depreciation activity as of and for the year ended December 31, 2014, for the primary government is as follows:

7. FLOW OF FUNDS: RESTRICTIONS ON USE - UTILITIES REVENUES

There shall also be set aside into a "Reserve Fund" an amount equal to 10% of the monthly payment each month over the life of the loan until there is an amount accumulated equal to one annual installment. This reserve is required to establish an emergency fund for maintenance and repairs and debt repayment should the need arise.

Funds will also be set aside into a "Short-lived Asset Fund" at the rate of \$1,254 per month in addition to that required for the debt service reserve until such time as a minimum balance of \$116,500 is achieved for the replacement of the short lived assets identified.

8. PRIOR PERIOD ADJUSTMENT

The Government-wide financial statements include prior period adjustments increasing net position of business-type activities by \$18,975. These were caused by adjustments to the balance sheet to correct the balance of customer deposits.

9. DATE OF MANAGEMENT REVIEW

Subsequent events have been evaluated through June 5, 2015, the date which the financial statements were available to be issued.

Independent Accountant's Report
on Applying Agreed-Upon Procedures

Board of Commissioners
Hico Water System, Inc.
Dubach, LA 71235

We have performed the procedures included in the *Louisiana Government Audit Guide* and enumerated below, which were agreed to by the management of the Hico Water System, Inc., and the Legislative Auditor, State of Louisiana, solely to assist the users in evaluating management's assertions about the System's compliance with certain laws and regulations during the year ended December 31, 2014 included in the accompanying *Louisiana Attestation Questionnaire*. This agreed-upon procedures engagement was performed in accordance with standards established by the American Institute of Certified Public Accountants and applicable standards of *Government Auditing Standards*. The sufficiency of these procedures is solely the responsibility of the specified users of the report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

Public Bid Law

1. Select all expenditures made during the year for material and supplies exceeding \$30,000, or public works exceeding \$150,000, and determine whether such purchases were made in accordance with LSA-RS 38:2211-2296 (the public bid law) or RS 39:1551-1775 (state procurement code), whichever is applicable.

There were no expenditures made during the year for material and supplies exceeding \$30,000 and all expenditures made for public works exceeding \$150,000 properly advertised and accepted in accordance with the provisions of RS 38:2211-2296.

Code of Ethics for Public Officials and Public Employees

2. Obtain from management a list of the immediate family members of each board member as defined by LSA-RS 42:1101-1124 (the code of ethics), and a list of outside business interests of all board members and employees, as well as their immediate families.

Management provided us with the required list including the noted information.

3. Obtain from management a listing of all employees paid during the period under examination.

Management provided us with the required list.

4. Determine whether any of those employees included in the listing obtained from management in agreed-upon procedure (3) were also included on the listing obtained from management in agreed-upon procedure (2) as immediate family members.

None of the employees included on the list of employees provided by management [agreed-upon procedure (3)] appeared on the list provided by management in agreed-upon procedures (2) that violated any laws.

Budgeting

5. Obtain a copy of the legally adopted budget and all amendments.

Management provided us with a copy of the original budget.

6. Trace the budget adoption and amendments to the minute book.

Management is not required to adopt a budget.

7. Compare the revenues and expenses of the final budget to actual revenues and expenses to determine if actual revenues failed to meet budgeted revenues by 5% or more or if actual expenses exceed budgeted amounts by 5% or more.

Not applicable.

Accounting and Reporting

8. Randomly select 6 disbursements made during the period under examination and:

(a) trace payments to supporting documentation as to proper amount and payee;

We examined supporting documentation for all six of the selected disbursements and found that payment was for the proper amount for five of the six disbursements.

(b) determine if payments were properly coded to the correct fund and general ledger account; and

Of the six selected disbursement, five of the six payments were properly coded to the correct fund and general ledger accounts.

(c) determine whether payments received approval from proper authorities.

Inspection of supporting documentation indicated approval from the Board for all of the six selected disbursements.

Meetings

9. Examine evidence indication that agendas for meetings recorded in the minute book were posted or advertised as required by LSA-RS 42:1 through 42:12 (the open meetings law).

We inquired of management whether agendas for meetings were posted at the meeting place at least 24 hours prior to the meeting. Management stated that agendas were posted and a copy is retained by the clerk.

Debt

10. Examine bank deposits for the period under examination and determine whether any such deposits appear to be proceeds of banks loans, bonds, or like indebtedness.

We inspected copies of all bank deposit slips and statements for the period under examination and noted no deposits which appeared to be proceeds of bank loans, bonds, or like indebtedness.

Advances and Bonuses

11. Examine payroll records and minutes for the year to determine whether any payments have been made to employees which may constitute bonuses, advance or gifts.

A reading of the minutes of the system for the year indicated approval for all monthly disbursements. We also inspected payroll records for the year and noted no instances which would indicate payments to employees which would constitute bonuses, advance or gifts.

Prior Comments and Recommendations

Our prior year report, dated May 29, 2014, did not include any comments or unresolved matters other than those noted on page 21.

We were not engaged to, and did not, perform an examination, the objective of which would be the expression of an opinion on management's assertions. Accordingly, we do not express such an opinion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

This report is intended solely for the use of management of the System and the Legislative Auditor, State of Louisiana, and should not be used by those who have not agreed to the procedures and taken responsibility for the sufficiency of the procedures for their purposes. Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

Management's Corrective Action Plan
For the Year Ended December 31, 2014

2014-1. Lack of segregation of duties

The System does not have an adequate segregation of duties regarding its accounting and reporting system to maintain a complete system of internal control.

Recommendation: We recommend the System implement a system of checks and balances. One employee should not have access to writing checks, posting to general ledger, prepare deposits and reconcile the bank account.

Corrective Action Plan: Management concurs with this recommendation and will implement procedures immediately to improve internal controls.

2014-2. Internal control over disbursements is inadequate

One disbursement for the assets acquired were posted to an expense account in lieu of capital asset account. One disbursement for payroll did not match the pay on a time sheet. Time sheet showed pay should have been \$500.93 and the actual check written was for \$500.00.

Recommendation: The System should maintain adequate supporting documentation for all disbursements and post to the appropriate account.

Corrective Action Plan: Management concurs with this recommendation and will implement procedures immediately to improve internal controls.
