P.O. BOX 5337 BOSSIER CITY, LOUISIANA 71171-5337

June 7, 2019

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council City of Bossier City, Louisiana:

In accordance with Section 4.06, paragraph (7) of the City of Bossier City Charter, I am pleased to submit the Comprehensive Annual Financial Report for the year ended December 31, 2018. The financial statements were prepared in conformity with U.S. generally accepted accounting principles (GAAP) and audited in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, by a firm of licensed certified public accountants. I believe this report presents comprehensive information about the City of Bossier City's (the City) financial and operating activities during 2018 that is useful to taxpayers, citizens, and other interested persons.

This report was prepared by the Accounting Division of the Finance Department and consists of management's representations concerning the finances of the City. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, management of the City has established an internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. We assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

In accordance with Section 3.10 of the City Charter, the City Council is required to provide for an annual independent audit of the accounts and financial transactions of the City by a firm of independent certified public accountants duly licensed to practice in the state of Louisiana. The accounting firm of Heard, McElroy & Vestal, LLC was selected by the City to conduct its annual audit. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended December 31, 2018 are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended December 31, 2018 are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council June 7, 2019

The independent audit of the financial statements of the City was part of a broader, federally mandated "Single Audit" designed to meet the special needs of federal grantor agencies. The standards governing single audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the audited government's internal controls and compliance with legal requirements, with special emphasis on internal controls and legal requirements involving the administration of federal awards. These reports are available in the City's separately issued Single Audit Report.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

#### Profile of the City of Bossier City

The City was incorporated in 1907. It is located on the east bank of the Red River in Northwest Louisiana, approximately 35 miles south of Arkansas and 20 miles east of Texas. The area dates back to the 1830s when it was the Elysian Groves Plantation of James and Mary Cane. Steamboat loads of cotton, corn, and sweet potatoes were shipped to markets in the south and east, from the plantation port known to many as "Canes Landing." The current area of the City is approximately 43 square miles.

The City has been organized under a mayor-council form of government since 1977, when the current City Charter was adopted by the voters. The charter provides for a seven-member council, with five members selected for four-year terms from separate districts of the City and two members elected at large by all the qualified electors of the City. The mayor is elected at large for a four-year term, is not a member of the council, but has veto power over council action.

The City provides a wide range of services including public safety, highways and streets, sanitation, water and sewer services, culture and recreational activities, general government functions, and others.

These financial statements present the City (the primary government) and its component units. The component units are included in the City's reporting entity because of the significance of their operational or financial relationships with the City. Included as discretely presented component units is the financial data for the Bossier City Court, Bossier City Marshal, the Metropolitan Planning Commission, and the Bossier Public Trust Financing Authority. They are reported separately within the City's financial statements to emphasize that they are legally separate from the City. Additional information on these legally separate entities can be found in the notes to the financial statements.

#### **Budgetary Control**

The annual budget serves as the foundation for the City's financial planning and control. Prior to September 15, the Mayor files with the Bossier City Clerk a proposed operating budget for the fiscal year commencing the following January. The operating budget includes proposed expenditures and related financing sources. The City Council conducts public hearings and proposes adoption of the various budget ordinances. Prior to December 15, the City Council adopts the final budgets controlling the financial operations of the City for the ensuing fiscal year.

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council June 7, 2019

Legal budgetary control for operating budgets is exercised at the department/object class. The ordinances provide lump-sum appropriation at the object level. The City Charter provides that expenditures may not legally exceed appropriations. Formal budgetary integration and encumbrance accounting are employed as management control devices during the year. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

#### **Local Economy**

The City is a dynamic growing area with a proud past and a future filled with the promise of continued growth. It is an area that continues to be defined by the Red River and major cultural features including Barksdale Air Force Base and four riverboat casinos. Some of the key factors in the development of the area include its central location among major southern cities and its importance as a transportation hub.

Barksdale Air Force Base is one of the largest military installations in the nation and by far the most significant employment generator in the area. Barksdale Air Force Base directly contributes almost 9,000 jobs and more than \$500 million in payroll to the local economy. Estimated total spending exceeded \$686 million in 2016. The City and Bossier Parish have continued to gain in population in recent decades with both growing at a faster pace than statewide rates for Louisiana. The City's current population is 70,322, which is 9,007 over the 2010 census count representing a 14.7% increase.

New construction from 1990 to 1994 was primarily retail and commercial in nature centered on the intersection of East Texas and Airline Drive. Pierre Bossier Mall, a regional mall, is located at this intersection and has been the draw for national retailers such as Office Depot, Chuck E. Cheese, Red Lobster, Logan's Roadhouse and many other local and regional retailers. More recent construction in the central portion of Bossier City includes numerous restaurants and hotels in close proximity to I-20.

The majority of the new construction from 1995 to the present has been along Benton Road and Airline Drive, north of Shed Road and along the I-220 corridor. The construction of a Kroger Marketplace Store and the new Dement Corner's Shopping Center, Home Depot, a Lowe's, a Wal-Mart Supercenter, Willis Knighton Medical Center, and the new Stirling Retail Center has resulted in a significant amount of commercial and retail growth along Benton Road and Airline Drive.

The City has seen the northern area of the city continually grow in both areas of residential development and new retail/commercial development. In August of 2014 the Sam's Wholesale Club along the Airline Drive corridor opened and in 2015 the new Kroger Marketplace store opened. Key economic indicators, such as retail sales and employment, are a good measure of economic trends. Retail sales remained steady for the Shreveport/Bossier area and gas industry. Efforts have been made to promote the area as a distribution center due to the location of I-20, I-49 and the Red River Port.

The Bossier riverfront has undergone significant changes over the last two decades. The area has seen the addition of Red River locks and dams stabilizing navigation channels, the Arthur Ray Teague Parkway extension, and riverboat casinos.

Bossier's Riverfront Development District is evolving into an entertainment area and is anchored by The Outlets at Louisiana Boardwalk lifestyle center adjacent to the Horseshoe Casino and Hotel, the top-grossing casino in Louisiana. It consists of entertainment, retail, hospitality, and restaurant elements. The approximate 56 acres of riverfront property is situated in the heart of the Bossier/Shreveport metropolitan area. The project includes a variety of live music, performance theaters, restaurants, a blend of retail specialty shops, a multiplex movie theater, and a hotel. It is not only a major attraction for the 14 million plus gaming tourist visitors annually, but

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council June 7, 2019

also to residents of the metropolitan area and surrounding region's growing population and was recently indicated as the top tourist attraction by the Shreveport Bossier Tourist Bureau, narrowly edging out the riverboat casinos. Louisiana Boardwalk is the first lifestyle center to open in the state of Louisiana offering outlet shopping, an entertainment district, and riverfront dining.

Also along the Riverfront District is the Bossier City CenturyLink Center. The arena, which was built in 2000, began a major \$6 million dollar renovation during 2018. The building was updated with new lighting, new seating and enhancements to the venue which will enhance the use of the building and its' marketability. The arena can house a variety of sporting and performance programs, as well as serve as a major assembly hall for the community. Since opening in late 2000, the Bossier City CenturyLink Center has grown in national prominence within the event and entertainment industry, consistently placing in the top 100 venues in the world for ticket sales, according to Pollstar Magazine, the leading industry tracking firm.

The City and the Bossier Parish Police Jury, combined, issued bonds totaling \$50 million for the development of the Cyber Innovation Center (CIC) and National Cyber Research Park. The State of Louisiana has appropriated \$57 million to facilitate the development of these facilities and related infrastructure to support this development. Sixty-four acres of property was acquired in close proximity to Barksdale Air Force Base and close to the Louisiana Optical Network Initiative (LONI) line, which will provide access to high-speed computer capability and also provide a connection to all the major universities in the United States of America. Construction began in January of 2008 and the Center opened in 2011.

The Cyber Innovation Facility supports the activities at Barksdale Air Force Base, including the Air Force Network Operations Center (AFNOC). The AFNOC makes Barksdale Air Force Base the traffic hub for all Air Force communication and the enterprise level organization in the Air Force for communications. Barksdale has been selected as the location for a larger unit, Global Strike Command. Global Strike Command began operations at Barksdale in September 2010 and employs about 900 people. The CIC has a distinguished list of academic research institutions serving as an academic advisory board. Currently, many of the major defense and technology companies have joined the CIC. The CIC became fully operational in May 2011.

In early 2014, both the City of Bossier and the State of Louisiana were proud to announce 800 new technology based jobs coming to the area, with a new anchor tenant to the Cyber Innovation Park of Computer Science Corporation (CSC), which in 2018 became the home to General Dynamics. Bossier City was selected from a site-selection process which the company considered 134 locations around the United States. In the fall of 2016, a new 30,000 square foot office building opened its doors for the Computer Science Corporation housing 800 employees. They also opened up a new operations call center building utilizing an existing bank building at 301 Benton Road that will house 300 employees.

The growth of the Cyber Innovation Park area in 2017 gained the new Louisiana Tech and Bossier Community College building to the park that now includes the Louisiana Tech Academic Success Center building, which opened in the fall of 2018. This building's programs will help bring to the area more college and career opportunities to the Shreveport-Bossier area. The workforce development collaborations will empower the area residents with in-demand, high-paying careers that have exceptional growth potential.

Bossier City, as a result of the location of Barksdale Air Force Base being centrally located in Bossier City, saw initial development centered around Barksdale Air Force Base. This offers many opportunities for businesses who are offering goods and services to the base, as it is ideally located in Northwest Louisiana. However, as the City and Base grew, growth continued in a southerly direction and a northerly direction as East/West growth is limited due to the location of the Base and the Red River. With the growth of the Cyber Innovation Park and business coming to this area, Bossier City has continued to see significant development around Barksdale Air

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council June 7, 2019

Force Base. The most significant amount of development is in the northern portion of the neighborhoods of Bossier Parish and along Airline Drive and Benton Road. The location of Barksdale Air Force Base in the area has historically benefited the residential market which in turn caused expansion in the commercial and retail markets.

Prior to the arrival of riverboat gambling, "Old Bossier" was typical of many downtown areas in that it was populated with older masonry buildings which were occupied by low density commercial and/or industrial users. With the arrival of the casinos, the Boardwalk entertainment district and the City of Bossier's revitalization effort for the downtown area, the City planned a significant project called the Downtown Re-Envisioning Project, which began in April 2016. This project involved a \$15 million public investment into the redevelopment of Barksdale Boulevard and the central area of the district.

Shreveport/Bossier is a regional leader in business, industry, health care, and education due, in part, to its geographic location and metropolitan population. People from east Texas, south Arkansas, and north Louisiana look to these cities for resources and necessities. Northwest Louisiana has also been established as a popular site for industry and distribution because of the Port of Shreveport/Bossier's location on the Red River Waterway, which is part of a transportation network including water, rail, air and interstate highways. During the 1985-1995 economic decline, local officials realized the importance of diversifying the economic base to lessen dependence on the oil market.

The downtown area contains multiple buildings, dating from the early to the mid 1900's. Most existing uses do not fully utilize the site, circulation, frontage, or access. While many of the buildings have an interesting character, mechanical, electrical and even some structural systems are deficient and require renovation to bring them into code and ADA compliance. The site's historic character, frontage and interesting buildings lend itself to a mixed-use development with public open areas accessible to a town square for tenants and the community.

In 2016, the City began the implementation of the Bossier City Downtown Re-Envisioning Project which is designed to develop and stimulate market driven projects that ensure development in various districts. The introduction of mixed uses could create a vibrant downtown district and feed other businesses in the area. Improved circulation, landscaping, user-friendly building entrances and attractive signage could make this area a destination for locals and potential businesses looking to relocate in Bossier City.

The project was completed in November 2017 and was renamed the "East Bank District". Its focus is on residential, public, and commercial uses which should represent a variety of uses that create an economic and community hub for the City of Bossier City. The area includes a mix of uses including offices, retail, medium to high density residential uses, houses of worship, meeting areas and parks/open spaces. This type of development reverts back to the more traditional central Main Street or square with a contemporary look, fronted by pathways, civic buildings, specialty retailers, family eateries, a community theater, and plaza with decorative landscaping.

Overall, the economy in the Bossier City area in 2018 was strong and continues to grow in both the availability and creation of good jobs for its citizens and availability to offer many quality of life and economic opportunities to the area. Growth brings opportunities as well as challenges and the City carefully analyzes each proposed residential development to assess the cost of City support to the project. We do not want the cost of development to be a financial burden to existing citizens. Annexed and other growth areas are entitled to the same services of existing residents and provided to them within a reasonable time. Growth generally provides sales tax resources which support our general fund requirements. We carefully consider the impact on traffic and flood plain and related storm water disposition is always a significant issue of concern as we grow. We are proud of the way our City is growing and that so many families consider Bossier City a great place to live, work, and raise a family.

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council June 7, 2019

#### **Long-Term Financial Planning**

In accordance with Section 6.09 of the City Charter, The Mayor submitted the year 2019 – 2023 Capital Improvement Program to the City Council in the first quarter of 2019. There are 102 projects that total approximately \$135 million in progress as of December 31, 2018. There are 136 projects from year 2018 through 2023, which total approximately \$177 million.

<b>Project</b>	Funding	Amount
Construction of W.O.B. Carriageway	W.O.B. Carriageway / 2018 LCDA Funds	52,000,000
Innovation Drive Extension	2017 Sales Tax Bond	15,000,000
NE WWTP Rehabilitation/Upgrade	2017 Revolving Loan	12,717,900
Shed Road (Benton to Airline)	2007 Capital Bond Issue	10,500,000
Greenacres PS Project	2014 Utility Bond	3,655,000
E. Texas Street Gravity Main Repairs	2017 Capital Contingency	2,333,000
HR14-C(42" Water Line from Shed Road to Airline)	Water Capital Improvements	2,293,400
Innovation Drive Water and Sewer	2017 Sales Tax Bond	2,142,940
Sewer Basin BC-14 (Priority 2)	2018 Capital Contingency	2,000,000
Sewer Basin BC-24	2020 Capital Contingency	1,934,900

The City's administration plans to continue the process of looking ahead financially for its operational and capital needs.

#### **Financial Policies**

The budget policy of the City can be found in the City Charter Ch. 6. Budgets, §§ 6.01 - 6.10.

The City Council may revise or amend the budget at its discretion during legally convened sessions. The City Charter provides that expenditures may not legally exceed appropriations. Formal budgetary integration and encumbrance accounting are employed as management control devices during the year.

The City Council shall consider and adopt the capital budget within the first sixty (60) days of each fiscal year. The capital budget shall contain a program of capital improvement projects for the current fiscal year and the succeeding four (4) years. It shall include estimates of the cost of each such improvement project and proposals as to the means of financing the same.

The Honorable Lorenz "Lo" Walker, Mayor, and Members of the City Council June 7, 2019

#### Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2017. The Certificate of Achievement is the highest form of recognition in governmental accounting and financial reporting, and its attainment represents a significant accomplishment by the City and its management. We are proud to have received this award each year for 37 years (beginning with our Comprehensive Annual Financial Report for the fiscal year ended December 31, 1981).

In order to be awarded a Certificate of Achievement for Excellence in Financial Reporting, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, the contents of which conform to program standards. Such reports must satisfy both GAAP and applicable legal requirements.

A Certificate of Achievement for Excellence in Financial Reporting is valid for a period of one year. We believe our current report continues to conform to Certificate of Achievement Program requirements, and we are submitting it to the GFOA to determine its eligibility for another certificate.

Sincere appreciation is expressed to the entire staff in the Finance Department and especially to the professional accounting staff whose dedicated and efficient services have made the timely preparation of this report possible. Thanks to the Mayor and City Council for your support of excellence in financial reporting and fiscal integrity.

Respectfully submitted,

Stacie Thewardey

June 7, 2019

The Honorable Members of the City Council and the Honorable Lorenz "Lo" Walker, Mayor City of Bossier City, Louisiana

#### **Independent Auditor's Report**

#### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Bossier City, Louisiana (the City) as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Bossier City Court (the Court) and the Bossier City Marshal (Marshal), which represent 86.4%, 86.5%, and 67.6%, respectively, of the assets, net position, and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it related to the amounts included for the Court and the Marshal, is based on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal

control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our audit opinions.

#### **Opinions**

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Bossier City, Louisiana as of December 31, 2018, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress, schedule of employer's share of net pension liability, schedule of employer's pension contributions, and budgetary comparison information listed as required supplementary information in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We and other auditors have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, combining and individual fund schedules, schedule of compensation, benefits, and other payments to elected officials, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund schedules and the schedule of compensation, benefits and other payments to elected officials are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing

standards generally accepted in the United States of America. In our opinion, this information is fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section and the statistical section have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated June 7, 2019 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Heard, MElray ! Vestal, LLC

Shreveport, Louisiana

We offer readers of the City of Bossier City's financial statements this narrative overview and analysis of the financial activities of the City of Bossier City for the fiscal year ended December 31, 2018. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

#### Financial Highlights

Key financial highlights for the 2018 fiscal year include the following:

- The assets and deferred outflows of the City of Bossier City exceeded its liabilities and deferred inflows at the close of the most recent fiscal year by \$542.2 million (net position). Of this amount, approximately \$54.2 million (unrestricted net position) may be used to meet the City's obligations to citizens and creditors.
- The total net position of the City of Bossier City increased by \$45.6 million for the year ended December 31, 2018. Net position of governmental activities increased by \$38.0 million and net position of business-type activities increased by \$7.6 million.
- As of the close of the current fiscal year, the City of Bossier City's governmental funds reported combined ending fund balance of \$250.9 million, an increase of \$71.2 million in comparison with the prior fiscal year. Of this amount, \$17.2 million was unassigned; \$0.6 million was assigned; \$47.8 million was committed for civic center operations and capital projects, \$167.0 million was restricted for debt service, capital projects, federal grants, public health and safety, and economic development and facility operations, and \$18.3 million was nonspendable in the form of prepaid assets, inventories, and permanent fund principal.
- At the end of the current fiscal year, unassigned fund balance for the General Fund was \$16.9 million or 31.4% of the total General Fund expenditures.

#### Overview of the Financial Statements

This Management's Discussion and Analysis (MD&A) is intended to serve as an introduction to the City of Bossier City's basic financial statements. The City of Bossier City's basic financial statements comprise three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements: The government-wide financial statements are designed to provide readers with a broad overview of the City of Bossier City's finances, in a manner similar to a private sector business.

The statement of net position presents information on all of the City of Bossier City's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City of Bossier City is improving or deteriorating.

The statement of activities presents information showing how the City of Bossier City's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned, but unused vacation leave).

The statement of net position and the statement of activities distinguish between functions of the City of Bossier City that are principally supported by taxes, intergovernmental revenues, and charges for services (governmental activities) and other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The City of Bossier City's governmental activities include general government, public safety, highways and streets, cultural and recreation, and Bossier City Court and Bossier City Marshal. The business-type activities of the City of Bossier City include water and sewerage, Emergency Medical Services (EMS), sanitation, and alternative fuel.

Fund Financial Statements: A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City of Bossier City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Bossier City can be divided into three categories: governmental fund, proprietary funds, and fiduciary funds.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources at the end of the fiscal year. Such information may be useful in evaluating the City of Bossier City's near-term financial requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the City of Bossier City's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Bossier City maintains 31 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balance for the General Fund, Riverboat Gaming Special Revenue Fund, Arena Special Revenue Fund, Riverboat Gaming Capital Projects Fund, 2018 LCDA Bond fund, and Public Health and Safety Permanent Fund, all of which are considered to be major funds. Data for the other 25 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The City of Bossier City adopts an annual appropriated budget for its General Fund and certain special revenue funds. Budgetary comparison schedules have been provided to demonstrate compliance with these budgets.

Proprietary funds – The City of Bossier City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements, only in more detail. The City of Bossier City uses enterprise funds to account for its water and sewerage, EMS, sanitation, and alternative fuel services. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Bossier City's various functions. The City of Bossier City uses internal service funds to account for its dental healthcare and workers' compensation benefits. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary fund financial statements provide separate information for the water and sewerage fund, which is considered to be a major fund of the City of Bossier City. Data for the other three enterprise funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor enterprise funds is provided in the form of combining statements elsewhere in this report.

The internal service fund is included in the proprietary fund financial statements and presented alongside the enterprise funds.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the City of Bossier City. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City of Bossier City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Notes to the basic financial statements: The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information – In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Bossier City's progress in funding its obligation to provide pension benefits to its employees and compliance with budgets for its major funds.

The combining statements referred to earlier in connection with nonmajor governmental funds, nonmajor proprietary funds, and internal service funds are presented immediately following the required supplementary information on pensions and budgetary comparisons.

#### Financial Analysis of Government-Wide Activities

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Bossier City, assets exceed liabilities by \$542.2 million at the close of the most recent fiscal year.

The largest portion of the City of Bossier City's net position totaling approximately \$424.3 million (78.2%) is net investment in capital assets.

There was 11.8% of net position, which represents resources that are subject to external restrictions on how they may be used. Restrictions for debt service account for \$7.8 million of the total of restricted net position. The remaining balance is moneys restricted for public health and safety, economic development and facility operations, federal grants, and capital projects. State law requires the proceeds from the sale of the Bossier Medical Center be held in perpetuity; however, the investment earnings may be spent each year for purposes of public health and safety. As of December 31, 2018, the nonexpendable portion was \$18.0 million.

The remaining balance of unrestricted net position of \$54.2 million is used to meet the City of Bossier City's ongoing obligations to citizens and creditors.

The City of Bossier City's net position increased by \$45.6 million during the current fiscal year. Key elements of this increase are as follows:

#### City of Bossier City's Changes in Net Position

#### **Governmental Activities**

Revenues for the City of Bossier City's governmental activities for the year ended December 31, 2018 were \$107.1 million, compared to \$97.8 million in 2017.

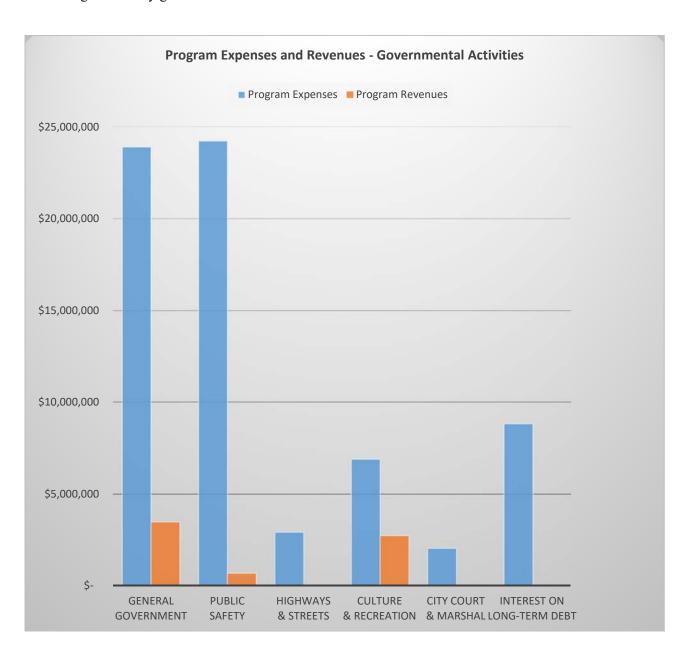

Program revenues for governmental activities increased by \$1.1 million in 2018. The increase is primarily attributable to an increase in capital grants.

Overall, general revenues increased by \$8.3 million. The increase is primarily attributable to an increase in sales taxes and miscellaneous general revenues.

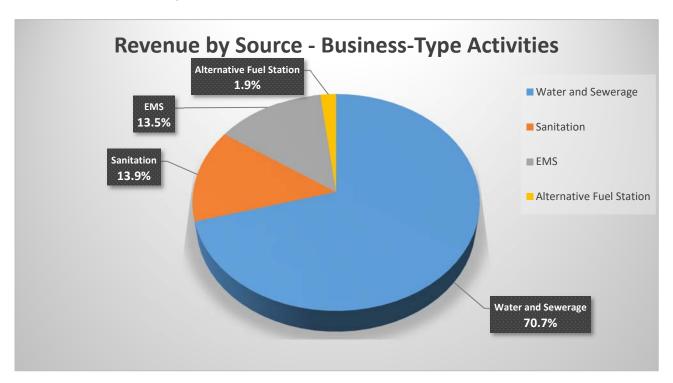

The cost of all governmental activities in 2018 was \$68.8 million, a decrease of \$17.3 million. This decrease is predominantly due to decrease in public safety function related to changes in the pension trust funds net pension asset.

The City of Bossier City's largest programs are public safety, general government, highways and streets, culture and recreation, and City Court and Marshal. The graph below shows the expenses and program revenues generated by governmental activities:

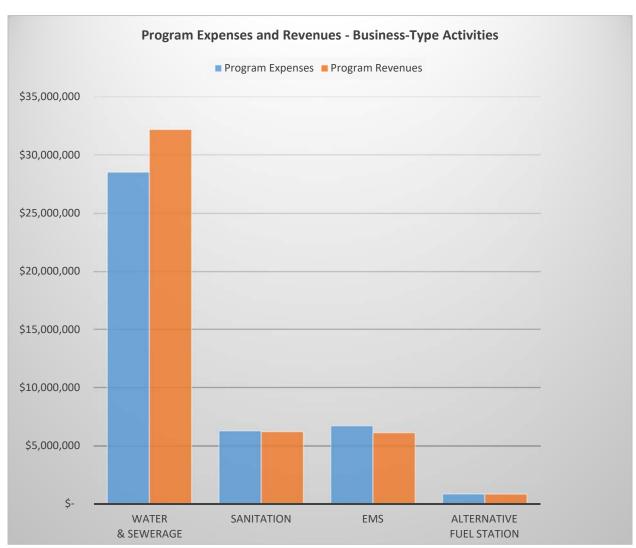

#### **Business-Type Activities**

Total revenues for the City of Bossier City's business-type activities were \$49.7 million in 2018, an increase of \$0.7 million. This increase is due to a \$1.1 million increase in charges for services and a decrease in miscellaneous revenues of \$0.4 million.

#### Expenses and Program Revenues – Business-Type Activities

The costs of these activities were \$42.4 million in 2018, an increase of \$2.8 million. The Water and Sewerage, EMS, Sanitation and Alternative Fuel Station funds had increases in expenses. Charges for services for the City's business-type activities were \$45.5 million in 2018, an increase of \$1.1 million. This increase is primarily due to a small increase in charges revenue for each of the business-type activities, with the largest increase being related to Water and Sewerage.

#### Financial Analysis of the City of Bossier City's Funds

#### Governmental Funds

As noted earlier, the City of Bossier City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

The focus of the City of Bossier City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Bossier City's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a city's net resources available for spending at the end of the fiscal year.

• As of the close of the current fiscal year, the City of Bossier City's governmental funds reported a combined ending fund balance of \$250.9 million, an increase of \$71.2 million in comparison with the prior fiscal year. Of this amount, \$17.2 million, or 6.9%, was unassigned fund balance, which is available for spending at the government's discretion. The remainder of the fund balance is not available for new spending and has been classified into the following categories:

Nonspendable	\$ 18,266,180
Restricted	167,041,037
Committed	47,778,222
Assigned	593,291

- The General Fund is the chief operating fund of the City of Bossier City. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$16.9 million. The total unassigned is available for spending at the City Council's discretion. The fund balance of the City of Bossier City's General Fund increased by \$6.2 million.
- The Riverboat Gaming Special Revenue Fund has a total fund balance of \$32.2 million, all of which is currently committed for economic development although the City Council may elect to redirect some or all of these funds in the future. Riverboat gaming revenues collected prior to 1999 were accumulated in this fund until a base amount of \$30 million was attained, as required by city ordinance. A net increase of \$568,780 occurred during the current fiscal year.
- The Arena Special Revenue Fund accounts for the operations of the Bossier City CenturyLink Arena (Arena). The Arena has a fund balance of \$330,852, which reflected a decrease of \$83,805 in 2018. Arena revenues decreased by approximately \$582,000 in 2018 compared to a decrease in expenses of approximately \$395,000. Transfers in decreased by approximately \$313,000 in 2018.
- The Riverboat Gaming Capital Projects Fund has a total fund balance of \$8.6 million. This fund balance is restricted by the City Council to be used for capital projects. A net increase of \$1.4 million occurred during the current fiscal year due to an increase in transfers as compared to 2017.

- The 2018 LCDA Bond Fund has a total fund balance of \$63.5 million, which is restricted for capital projects. This fund was created in 2018 to account for the proceeds and expenditure of the City's \$60 million of bonds issued in 2018. The bonds were issued for the purpose of funding various capital projects as the need arises.
- The Public Health and Safety Permanent Fund has a total fund balance of \$19.2 million, of which \$18.0 million is the nonspendable principal balance. The remaining \$1.2 million is restricted for public health and safety. The fund experienced a net increase in fund balance of \$295,312.
- Other Governmental Funds had a total fund balance of \$109.7 million, which reflected a decrease of \$0.8 million compared to 2017.

#### **General Fund Budgetary Highlights**

The budget policy of the City of Bossier City complies with state law, as amended, and as set forth in Louisiana Revised Statutes Title 39, Chapter 9, Louisiana Local Government Budget Act (LSA-R.S. 39:1031 et seq.).

The original budget for the General Fund of the City of Bossier City was adopted on November 7, 2017. For the year ended December 31, 2018, amendments made to the General Fund increased budgeted expenditures \$3.7 million.

Selected significant differences between the budget and the actual results of the General Fund are:

#### Revenues

- Sales taxes were \$8.8 million higher than the budget due to the fiduciary pension funds being fully funded. Monies previously allocated to the pension funds remained in the General Fund for the majority of 2018.
- Ad valorem taxes were \$0.9 million lower than the budget due to assessed values of property being lower than budgeted.
- Fines and penalties revenue was \$0.2 million lower than the budget due to a decline in violations.

#### **Expenditures**

- Fire department expenditures were lower than budget by \$0.3 million due to lower head count and related costs.
- Police department expenditures were less than budget by \$0.6 million due to lower head count and related costs.

#### **Capital Assets and Debt Administration**

Capital Assets: The City of Bossier City's investment in capital assets as of December 31, 2018 amounts to \$759.2 million (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, streets, drainage, furniture and equipment, and construction in progress. The table below shows the value at the end of the fiscal year.

#### City of Bossier City's Capital Assets

(Net of depreciation)

	Governmental Activities		Business-Type Activities		Total	
	2018	2017	2018	2017	2018	2017

Construction in progress	23,173,745	21,355,802	14,094,226	27,312,500	37,267,971	48,668,302
Total capital assets	459,636,766	454,504,022	299,595,858	284,290,925	759,232,624	738,794,947

Major capital asset events during the current fiscal year included the following:

- NEWWTP Upgrade Project
- CenturyLink Center Upgrade Project
- Shed Road Widening Project

Long-term debt: At the end of the current fiscal year, the City of Bossier City had total debt outstanding of \$491,239,497. The City of Bossier City has no general bonded debt outstanding. The following table summarizes bonds outstanding at December 31, 2018 and 2017:

#### City of Bossier City's Outstanding Debt

	Governmental	Activities	Business-Type Activities				
	2018	2017	2018	2017			
Revenue bonds	262,696,972	207,900,421	228,542,525	232,715,572			

There were no changes in the ratings of the City's bonds from Moody's or Standard and Poor's. Moody's Investors Service assigned an Aa2 rating to the City and Standard and Poor's Corporation rating assigned an AA–.

For additional information regarding capital assets and long-term debt, see Notes 5 and 6, respectively, in the notes to the basic financial statements.

#### **Economic Factors and Next Year's Budgets and Rates**

The following economic factors were considered when the budget for fiscal year 2019 was presented to the City Council:

The plan is designed to continue supporting the following broadly stated objectives: (1) to improve current level of services to our citizens; (2) to continue improving City facilities and infrastructure; (3) to provide continuous support of residential expansion and economic development; and (4) to maintain and improve the quality of life for our citizens.

For the year 2019, the City has budgeted a 2.8% decrease in sales tax dollars over 2018 actual. This decrease is due to a conservative approach to budgeting. Preliminary 2019 figures reflect a decrease in sales taxes of 2.8% for the first quarter. In 2018, the assessed value of property within the City increased by 1.8%. An increase of 4.6% in property tax dollars was budgeted for 2019 due to recent property development along Innovation Drive. Actual licenses and permits collected during 2018 were \$20,000 lower than 2017 and are budgeted 5.7% higher in 2019 as commercial and residential trends have risen.

#### **Requests for Information**

This financial report is designed to provide a general overview of the City of Bossier City's finances for all those with an interest in the City of Bossier City's finances. Questions concerning any of the information provided in this report, or requests for additional financial information, should be addressed to: Director of Finance of the City of Bossier City, 620 Benton Road, Bossier City, Louisiana 71111, or by calling 318-741-8525.

Reconciliation of the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances to the Statement of Activities

Year ended December 31, 2018

Net change in fund balances – total governmental funds  Amounts reported for governmental activities in the statement of activities are different because of the following:  Governmental funds report capital outlays as expenditures.  However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense:  Capital outlay (net of retirements of \$14,707)  Depreciation expense	\$	20,211,141 (15,078,397)	\$	71,215,859 5,132,744
Revenues reported in the statement of activities, which are not reported in governmental funds because they do not provide current financial resources. This adjustment is to recognize the net change in unavailable revenues, which includes property taxes and other miscellaneous revenues				(106,132)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. The detail of these differences in the treatment of long term and related items is as follows:  Bonds Issued		(60,000,000)		
Principal payments	_	8,735,000	_	(51,265,000)
The changes in other long-term assets and liabilities are reported in the statement of activities, but do not affect current financial resources of governmental funds. The changes are as follows:  Net pension liability  Net other postemployment benefit liability	_	15,957,073 123,794	_	16,080,867
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:  Change in deferred loss on refunding Change in bond premium and discount Premium on bonds issued Increase in compensated absences Decrease in claims Decrease in accrued interest	_	(670,183) 870,298 (4,401,849) (294,216) 202,000 11,134	_	(4,282,816)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue of the internal				
service funds is reported with governmental activities			_	1,214,136
Change in net position of governmental activities			\$	37,989,658

#### NOTES TO FINANCIAL STATEMENTS

#### **DECEMBER 31, 2018**

#### 1. Summary of Significant Accounting Policies

The City of Bossier City, Louisiana (the City) was incorporated in 1907 and operates under a City Charter dated July 1, 1977, which provides for a strong Mayor-Council form of government. The City provides the following services as authorized by its charter: public safety, highways and streets, sanitation, water and sewerage, culture and recreation, and general administrative services. Education and welfare are administered by other governmental entities.

The basic criterion for determining whether a governmental department, agency, institution, commission, public authority, or other governmental organization should be included in a primary governmental unit's reporting entity for basic financial statements is financial accountability. Financial accountability includes the appointment of a voting majority of the organization's governing body and the ability of the primary government to impose its will on the organization or if there is a financial benefit/burden relationship. In addition, an organization that is fiscally dependent on the primary government should be included in its reporting entity.

The financial statements present the City (the primary government) and its component units. The component units discussed below are included in the City's reporting entity because of the significance of their operational or financial relationships with the City.

#### **Discretely Presented Component Units**

The component unit columns in the basic financial statements include the financial data of the City's component units. They are reported in a separate column to emphasize that they are legally separate from the City.

# Metropolitan Planning Commission

The Metropolitan Planning Commission (Commission) is responsible for the orderly physical development of the City and the surrounding planning area. The Commission makes recommendations to the City Council and the Bossier Parish Police Jury. The Commission consists of nine members with four appointed by both the City and the Bossier Parish Police Jury, and one member is elected by joint action of the governing authorities. Although the Commission is legally separate, the City acts as its fiscal agent and has the ability to modify and approve its budget. The relationship between the City and the Commission is such that exclusion would cause the City's financial statements to be incomplete. The Commission serves the citizenry of the City and parish. The Commission does not issue separate financial statements. Condensed fund financial statements as of and for the fiscal year ended December 31, 2018 are as follows:

<b>Balance Sheet</b>						
Assets:						
Cash and equivalents	\$	78,804				
Investments		230,920

Fund balance, ending	\$	261,540				

# **Bossier City Court**

The Bossier City Court (City Court) was created by special legislative act. Its jurisdiction includes the incorporated area of the City. The City judge is elected and cannot be removed by City officials. The City Court is fiscally dependent on the City. The City has the ability to modify or approve its

budget, which comes from the General Fund. There are certain funds collected by the City Court, pursuant to state statute, which are under the control of the City Court. The City Court serves the citizenry of the City. The relationship between the City and City Court is such that exclusion would cause the City's financial statements to be incomplete. The financial statements of the City Court included in the accompanying financial statements are as of and for the fiscal year ended December 31, 2018.

#### **Bossier City Marshal**

The Bossier City Marshal (City Marshal) is an elected official. The City Marshal is fiscally dependent on the City. The City has the ability to modify or approve the budget, which comes from the General Fund. There are certain funds collected as court costs, pursuant to state statute, which are under the control of the City Marshal. The City Marshal serves the citizenry of the City. The relationship between the City and Marshal is such that exclusion would cause the City's financial statements to be incomplete. The financial statements of the City Marshal included in the accompanying financial statements are as of and for the fiscal year ended December 31, 2018.

#### Bossier Public Trust Financing Authority

The Bossier Public Trust Financing Authority was created by a trust indenture, pursuant to state enabling legislation, which made the City the beneficiary. There are five trustees appointed by the City Council for terms of five years. In accordance with the terms of the trust indenture, the City has no power to transact business for the trustees nor to control or direct the actions of the trustees. The City is entitled solely to the benefits of the trust, and at the termination of the trust, it shall receive the residual of the trust. The City cannot access the organization's funds at will, although, there is some ability to access them at the discretion of the Bossier Public Trust Financing Authority. The Bossier Public Trust Financing Authority serves the citizenry of the City. The relationship between the City and the Authority is such that exclusion would cause the City's financial statements to be incomplete. The financial statements of the Bossier Public Trust Financing Authority included in the accompanying financial statements are as of and for the fiscal year ended November 30, 2018.

Complete financial statements of the individual component units with separately issued financial statements may be obtained at the following addresses:

Bossier City Court P.O. Box 5337 Bossier City, LA 71171

Bossier City Marshal P.O. Box 5337 Bossier City, LA 71171

Bossier Public Trust Financing Authority 333 Texas Street Regions Bank Building, Floor 15 Shreveport, LA 71101

The Metropolitan Planning Commission does not issue separate financial statements and consists of only one governmental fund. Their financial statements are included in this report and these financial statements can be obtained from the Finance Department, P.O. Box 5337, Bossier City, LA 71171.

## Other Related Organizations

#### **Bossier Housing Authority**

The Bossier Housing Authority was created by state statute, and it is legally separate from the City. The Mayor appoints the five commissioners; however, the City cannot impose its will on the Bossier Housing Authority since it does not have the ability to modify or approve the budget or overrule or modify the decisions of the commissioners. The Bossier Housing Authority is fiscally independent, and there is no financial benefit or burden relationship with the City. Therefore, it is not included in the City's financial statements.

#### **Accounting Policies**

The accounting policies of the City conform to U.S. generally accepted accounting principles as applicable to governmental units. The accounting policies of the discretely presented component units are consistent with those of the City. The following is a summary of the more significant policies:

#### (a) Government-Wide and Fund Financial Statements

The government-wide financial statements (GWFS) (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the City. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of net position presents information on all of the City's assets and deferred outflows and liabilities and deferred inflows, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Depreciation expense is identified by function and is included in the direct expense of each function. Interest on general long-term debt is considered an indirect expense and is reported separately on the statement of activities. Program revenues include: (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate fund financial statements (FFS) are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the GWFS. Major individual governmental and proprietary funds are reported as separate columns in the FFS.

#### (b) Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The GWFS are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and pension trust fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met. Gaming revenues are based on gross receipts and, therefore, reported as general revenue.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Ad valorem taxes are considered "measurable" at the time of levy, whereas such items as beer taxes are considered "measurable" when in the hands of intermediary collecting agencies and are recognized as revenue at that time. Substantially all other nonintergovernmental revenues are susceptible to accrual and are recognized when earned or the underlying transaction occurs. Sales taxes are accrued in the individual funds to which they pertain. For intergovernmental revenues, the legal and contractual requirements of the numerous individual programs are used as guidance. Grants and similar items are recognized as revenues as soon as all eligibility requirements have been met. In reimbursement-type programs, moneys must be expended on the specific purpose or project before any amounts will be paid to the City; therefore, revenues are recognized based upon the expenditures recorded. In other programs in which moneys are virtually unrestricted as to the purpose of expenditure and are usually revocable only for failure to comply with prescribed compliance requirements, the resources are reflected as revenues at the time of receipt or earlier if susceptible to accrual criteria are met.

The accounts of the City are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund balance/net position, revenues, and expenditures/expenses. The various funds are summarized by type in the financial statements. The following fund types are used by the City:

#### **Governmental Funds**

Governmental funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related

liabilities (except those accounted for in proprietary funds) are accounted for through governmental funds. The City reports the following major governmental funds:

General Fund – The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

Riverboat Gaming Special Revenue Fund – This fund accounts for the moneys received from the riverboats prior to 1999 and the earnings on those moneys. City ordinance required the riverboat moneys be accumulated in this fund until a base amount of \$30 million was attained. The funds will be used for economic development as well as other uses as determined by City Council ordinance. Currently fund balance amounts are committed to economic development but this is subject to change.

Arena Special Revenue Fund – This fund accounts for the revenues received (including direct event, ancillary, advertising, luxury box, and other income) and operating expenses incurred in the operations of the City's CenturyLink Center Arena Fund (the Arena).

Riverboat Gaming Capital Projects Fund – This fund is used to account for expenditures associated with downtown development, major park improvements, and other major capital projects, and is funded by a percentage of gross gaming receipts and the initial payments made by four riverboat casinos and related interest earnings.

2018 LCDA Bond Capital Projects Fund – This fund accounts for the proceeds and expenditures of the 2018 bonds that were issued for the purpose of funding various capital projects as the need arises.

Public Health and Safety Permanent Fund – This fund was created to account for the proceeds from the sale of the Bossier Medical Center. The proceeds from the sale of \$18 million may not be spent. Earnings on the principal may only be spent for the purpose of public health and safety.

Additionally, the City reports the following governmental fund types:

Special Revenue Funds – Special revenue funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditures for specified purposes.

Debt Service Funds – The debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs. The debt service funds receive a portion of all ad valorem and sales taxes paid to the City.

Capital Project Funds – Capital project funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds and trust funds).

#### **Proprietary Funds**

Proprietary funds are used to account for the City's ongoing organizations and activities, which are similar to those often found in the private sector. All proprietary funds and the pension trust funds

are accounted for on a capital maintenance measurement focus; that is, the measurement focus is upon determination of the change in net position. The City reports the following major proprietary fund:

Department of Water and Sewerage Enterprise Fund – Operated as a self-sustaining utility of the City and is responsible for providing the residents of the City with water and sewerage treatment.

Additionally, the City reports the following proprietary fund types:

Enterprise Funds – Enterprise funds are used to account for activities in which established fees and charges are designed to recover its costs, including capital costs such as depreciation and debt service.

Internal Service Funds – Internal service funds are used to account for the financing of services provided by one department of the City to other departments on a cost-reimbursement basis. The City maintains one internal service fund for workmen's compensation and general insurance coverage.

#### Fiduciary Funds

Fiduciary funds are used to account for assets held by the City in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds.

Pension Trust Funds – The City maintains two retirement funds, which are accounted for and reported as fiduciary funds since economic resources are critical. These funds are the Firemen's Pension and Relief Fund (Firemen's Fund) and the Policemen's Pension and Relief Fund (Policemen's Fund).

Agency Funds – Agency funds are custodial in nature and do not present results of operations or have a measurement focus. The Consolidated Sales Tax Fund accounts for the collection and distribution of sales taxes levied by the Bossier Parish School Board and various municipalities within the parish. The Riverboat Gaming Agency Fund accounts for the receipt and distribution of funds received from the riverboats and paid to other local government agencies under the terms of the agreements with the riverboats. The Payroll Clearing Agency Fund accounts for the receipt and disbursement of payroll taxes, certain insurance premiums, and other similar amounts until they are paid to the proper recipient.

As a general rule, the effect of interfund activity has been eliminated from the GWFS. Exceptions to this general rule are charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned. Transactions that would be treated as revenues, expenditures, or expenses if they involved organizations external to the City, such as routine employer contributions from the General Fund to the pension trust funds, are accounted for as revenues and expenditures or expenses in the funds involved.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise and internal service funds are charges to customers for sales and services. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

#### (c) Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities column in the GWFS. Capital assets are recorded at historical cost or estimated historical cost for assets where actual historical cost is not available and depreciated over their estimated useful lives. Donated capital assets, donated works of art and similar items, and capital assets received in a service concession arrangement are recorded at their estimated acquisition value at the date of donation. The City maintains a threshold level for capitalization of assets except land and construction in progress. All land and construction in progress are capitalized, regardless of the amount. All other capital assets are capitalized utilizing a threshold of \$25,000 for land improvements; \$50,000 for buildings and building improvements; \$5,000 for furniture, equipment, and vehicles; and \$250,000 for infrastructure. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets are not reported in the governmental fund financial statements.

Estimated useful life is management's estimate of how long the asset is expected to meet service demands. Capital assets have not been assigned a salvage value because management feels that the salvage value is immaterial. Straight-line depreciation is calculated based on the following estimated useful lives:

Land improvements	20-30 years
Infrastructure	40 years
Buildings	40 years
Building improvements	40 years
Water reservoir and treatment plant	10-60 years
Transmission and distribution system	10-50 years
Furniture and equipment	5-10 years
Vehicles	5 years

#### (d) Long-Term Liabilities

In the GWFS, and proprietary fund types in the FFS, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund-type statement of net position. Bond premiums and discounts are deferred and amortized over the term of the related debt using the effective-interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the FFS, governmental fund types recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

#### (e) Investments

For all funds, investments are stated at fair value based on quoted market prices. The investments at December 31, 2018 were primarily U.S. government instrumentalities (see note 2 for the City's investment policy).

### (f) Prepaid Items

Prepaid items consist of items such as prepaid insurance and other prepaid expenditures. The cost is recorded as an asset at the time such items are purchased in both government-wide and fund financial statements. The nonspendable amount for prepaid expenditures in governmental fund types is equal to the amount of prepaid expenditures to indicate a portion of the fund balance is not available for expenditure.

#### (g) Inventories

Inventories are valued at cost (first-in, first-out). Inventories in the General Fund consist of expendable supplies held for consumption. The cost is recorded as an asset at the time individual inventory items are purchased and charged as an expenditure when used in both government-wide and fund financial statements. The nonspendable amount for inventories in governmental fund type is equal to the amount of inventories to indicate a portion of fund balance is not available for expenditure. Inventories in the enterprise funds consist of repair materials and spare parts.

#### (h) Refundable Deposits

The Department of Water and Sewerage of the City requires that its first time water and sewer customers or customers not in good standing place a deposit before service is rendered. If customers maintain the status of good standing for one year, the deposits are returned. These moneys are not restricted by law and are generally used by the Department of Water and Sewerage in meeting current operating cash requirements.

The Sales Tax Department requires deposits of certain establishments involved in special events and before being allowed to sell alcohol. The deposits are used to offset delinquent tax bills or are returned upon the respective activity ceasing.

Proceeds from ticket sales for Arena events sold in advance are reflected as a deposit until the event occurs and settlement with the event promoter is complete.

#### (i) Deferred Inflows/Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial element represents a consumption of net position that applies to a future period so will not be recognized as an outflow of resources (expense/expenditure) until then. The City has items that qualify for reporting in this category. It has deferred losses on refunding. A deferred loss on refunding results from the difference between the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the remaining life of the refunded debt or the life of the refunding. The City also has reported deferred outflows of resources related to its net pension liability and net OPEB liability.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial element represents an acquisition of net position that applies to a future period so will not be recognized as an inflow of resources (revenue) until then. The City has items that qualify for reporting in this category. The first is unavailable revenue, which arises under the modified accrual basis of accounting and is presented in the City's fund financial statements for the general fund. Unavailable revenues consist primarily of taxes not collected within 60 days after year-end. These amounts are deferred and recognized as an inflow of resources in the period they become available in the governmental fund financial statements and are recognized as revenue in the government-wide financial statements. The City also reported deferred inflows related to its net pension liability and net OPEB liability in the government-wide financial statements.

Certain licenses are collected in advance; therefore, the recognition of revenue is deferred until the following year. Memberships, rental fees for luxury boxes and advertising at the Arena are collected in advance. The revenue is recognized over the term of the agreements. In the GWFS, revenues that are not yet earned are deferred.

#### (j) Vacation and Sick Leave

City employees are granted vacation and sick leave in varying amounts. The maximum allowable accumulation of vacation and sick leave is up to 45 days and 100 days, respectively. In the event of termination, an employee is reimbursed for accumulated vacation days up to the maximum allowable accumulation. The City does not accrue vacation until matured in the governmental fund financial statements. The estimated liability for unused vacation for governmental funds is recorded in the GWFS. Accumulated vacation leave of proprietary funds is recorded as an expense and liability of those funds as it is earned by the employees.

#### (k) Pension Plans

The City and the State of Louisiana collectively have six pension plans, which cover substantially all employees who meet certain length of service requirements. See note 8 for details of these plans.

#### (1) Restricted Assets

Certain proceeds of the City's enterprise fund revenue bonds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

#### (m) Classifications of Fund Balance

Fund balances in the governmental funds classified as restricted are amounts that are restricted to specific purposes that are externally imposed by creditors, grantors, contributors, or laws or regulations of other governments. Committed fund balances are amounts that can only be used for specific purposes with constraints imposed by formal action (ordinance) of the City Council. Such committed amounts can only be used for other purposes if the City Council removes or changes the specified use by taking the same type of action taken to initially commit the amounts. Assigned fund balances are amounts that are constrained by the City's intent to be used for specific purposes but are neither restricted nor committed. Assigned fund balances are determined by the City's Director of Finance based on an ordinance or other City Council direction. The assigned fund balance currently reported in the general fund is related to encumbrances. Other assigned amounts are related to disaster relief. Nonspendable fund balance are amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact.

The City considers an expenditure to be made from the most restrictive resources/funds when more than one classification is available.

#### (n) Interfund Receivables and Payables

All outstanding balances between funds are reported as due to/from other funds. There is no activity between funds that is representative of lending/borrowing arrangements at the end of the fiscal year.

## (o) Property Taxes

Property taxes attach as an enforceable lien on property when the assessment is approved by the Louisiana Tax Commission. Taxes are normally levied in November of each year and are due on or before December 31. The City bills and collects its own property taxes. Historically, 95% of the taxes have been collected within 60 days after the due date.

The City currently levies the maximum tax allowed by state statutes and the Louisiana Constitution for general governmental services other than taxes for special purposes (such as the funds designated for the Fire and Police Departments) or the payment of long-term debt. The City is permitted to levy taxes up to 10% of the assessed property valuation for each specified purpose for the payment of principal and interest on long-term debt after approval by the voters of the City.

# (p) Grants from Other Governmental Agencies

Federal and state governmental agencies represent an important source of supplementary funding to finance housing, employment, construction programs, and other activities

beneficial to the community. These funds, primarily in the form of grants, are recorded in the General Fund, special revenue funds, capital projects funds, and enterprise funds. The grants normally specify the purpose for which the funds may be used and are subject to audit by the granting agency or its representative.

# (q) Cash and Cash Equivalents

For purposes of the statement of cash flows, the City considers each fund's equity investment in the pooled cash account and all highly liquid debt instruments (including restricted assets) with an original maturity of three months or less when purchased to be cash equivalents.

## (r) Self-Insurance Claims

The City is self-insured up to \$400,000 for non-civil service employees and \$750,000 for civil service employees for workmen's compensation coverage with an aggregate limit of \$1,000,000. Liability policies are maintained by the City with third-party insurance carriers for its automobile, general liability, and property damage exposures. These policies are subject to a \$3,000,000 per occurrence limit with a \$100,000 per occurrence retention for claims involving third parties. The City is self-insured up to \$50,000 for property claims and up to \$1,000,000 for automobile and general liability claims.

Self-insured claims are recorded in the City's internal service funds in accordance with GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues.

Incurred but not reported claims are recorded as liabilities in the Liability Insurance Fund. An estimate for these claims is provided by a third-party administrator based on historical experience.

#### 2. Cash and Investments

# **City of Bossier City (Primary Government)**

The City maintains a consolidated cash management pool that is available for use by all funds except the Pension Trust Funds. Each fund type's portion of the consolidated cash pool is displayed in the statement of net position as "cash and cash equivalents" or "investments."

#### (a) Deposits

#### Primary Government, Including Agency Funds and Excluding Pension Trust Funds

Deposits (including demand deposit accounts and certificates of deposits) at December 31, 2018 for the City are summarized as follows:

<b>Carrying Amount</b>	<b>Bank Balance</b>

\$26,320,703 \$28,895,994

Certificates of deposit with a maturity of three months or more are classified in the statement of net position as "investments" (\$-0-).

Custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned. The City's deposits with financial institutions have a carrying value of \$22,877,975 and a bank balance of \$25,386,232 excluding the Arena Special Revenue Fund (the Arena) and are held in the name of the City. At December 31, 2018, \$250,000 of the \$25,386,232 bank balance held in the name of the City was insured by FDIC insurance and \$25,136,232 was covered by securities pledged by the bank in the name of the City. The Arena's deposits with financial institutions have a carrying value of \$3,442,728 and a bank balance of \$3,509,762 and are held in the name of the Arena's management company, which is a private entity. At December 31, 2018, \$250,000 of the \$3,509,762 bank balance held in the name of the Arena's management company was insured by FDIC insurance. The remaining \$3,259,762 bank balance is exposed to custodial credit risk. Under Louisiana state law, all public funds are required to be covered by depository insurance or securities pledged by the bank; however, as the Arena's deposits are held in the name of a private entity, state and federal laws prohibit banks from collateralizing these deposits.

The carrying amount of deposits does not include a cash-on-hand balance of \$12,200, which is not on deposit with a financial institution. Cash on hand includes petty cash and cash received but not yet deposited at year-end.

Money market funds of \$96,864,970 with original maturities of three months or less are classified as cash equivalents in the statement of net position but are an investment type.

#### **Pension Trust Funds**

Deposits (including demand deposit accounts and certificates of deposits) as December 31, 2018 for the Fiduciary Funds are summarized as follows:

Carrying Amount	<b>Bank Balance</b>
\$1,556,407	\$1.167.990

Certificates of deposit with a maturity of three months or more are classified in the statement of net position as "investments" totaling \$5,402,955. There were no certificates of deposits with a maturity of three months or less.

The Pension Trust Funds' bank balance of deposits at December 31, 2018 is not exposed to any custodial credit risk as all deposits are covered by FDIC insurance or pledged securities.

Money market funds of \$1,617,974 with original maturities of three months or less are classified as cash equivalents in the statement of fiduciary net position but are an investment type.

## (b) Investments

#### **Primary Government**

The primary government's investments are made in accordance with Louisiana Revised Statute (LSA R.S.) 33:2955. The state-authorized investments are as follows:

U.S Treasury obligations

U.S. government agencies

U.S. government instrumentalities

Collateralized repurchase agreements

Collateralized certificates of deposit with Louisiana-domiciled institutions

Collateralized interest-bearing bank accounts

Mutual or trust funds that are registered with the Securities and Exchange Commission, which have underlying investments consisting of and limited to securities of the U.S. government or its agencies

Guaranteed investment contracts having one of the two highest short-term rating categories of either Standard and Poor's Corporation (S&P) or Moody's Investors Service (Moody's)

Investment grade (A-1/P-1) commercial paper of domestic U.S. corporations

Louisiana Asset Management Pool (LAMP)

Obligations of state agencies, counties, cities, and other political subdivisions of any state rated as to investment quality not less than A or its equivalent

Any other investments allowed by state statute for local governments

At December 31, 2018, investments for the primary government, including agency funds and excluding pension trust funds, were as follows:

		Investment Maturity in Years						
		Less Than						
	_	1 Year	_	1-3 Years		3-5 Years		Fair Value
U.S. government								
instrumentalities	\$	55,121,139	\$	107,100,377	\$	4,936,107	\$	167,157,623
Money market	_	96,864,970		-		-	_	96,864,970
Total investments	\$_	151,986,109	\$	107,100,377	\$_	4,936,107	\$_	264,022,593

The investments with original maturities of three months or more when purchased totaling \$55,102,991 are classified as "investments" in the statement of net position and \$18,148 are included in agency funds.

Interest Rate Risk: The City's investment policy does not include a policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: State law limits investments in guaranteed investment contracts to those having one of the two highest short-term rating categories of either S&P (AAA or AA) or Moody's (Aaa or Aa). State law also limits investments in commercial paper of domestic U.S. corporations with investment grade (A-1/P-1). The City's investment policy does not further limit its investment choices. The City's investment in money market funds is unrated. The investments in U.S. government instrumentalities have ratings of either AAA by S&P or Aaa by Moody's.

Concentration of Credit Risk: The City places no limit on the amount the City may invest in any one issuer. More than 5% of the City's investments are in U.S. Treasury Bills, Federal Home Loan Bank, Federated Money Market, and U.S. Treasury Notes. These investments are 34.66%, 6.52%, 6.91%, and 31.44%, respectively, of the City's total investments.

#### **Pension Trust Funds**

The Pension Trust Funds are composed of two funds: the Firemen's Fund and the Policemen's Fund.

The Firemen's Fund investments are made in accordance with LSA R.S. 11:3197. Such investments shall be only in interest-bearing bonds of the United States of America, the State of Louisiana, the City, or any other municipality of this state, any parish, any drainage or levee district, or any school board district, or the State Board of Highways, or may be deposited in savings accounts of banks, loan companies or associations, or any other agencies whose deposits are insured by the United States Government.

At December 31, 2018, the Pension Trust Funds' investments were all in U.S. government and government agency securities, asset and mortgage-backed securities, certificates of deposit, and municipal bonds. Maturities of the remaining investments were as follows:

Less than 1 year	13,029,946
1-5 years	42,766,165
5-10 years	17,020,436
Greater than ten years	27,986,444
	100,802,991

The investments with original maturities of three months or more when purchased totaling \$99,185,017 are classified as "investments" in the statement of plan net position. Investments with an original maturity of three months or less when purchased totaled \$1,617,974 and were classified as cash and cash equivalents in the statement of plan net position.

*Interest Rate Risk*: The Pension Trust Funds do not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk: The Pension Trust Funds' investments are restricted by state law. State law does not restrict investments by rating. The Pension Trust Funds do not have an investment policy that further restricts investment choices by minimum ratings. At December 31, 2018, the Policemen's Fund's investments were municipal and state bonds, government agency securities, and U.S. Treasury securities with Aa2, Aa3, and A3 ratings except certain municipal bonds that are rated AA-.

The Firemen's Fund investments as of December 31, 2018 were all in certificates of deposit, U.S. government and government agency securities, asset and mortgage-backed securities, and municipal bonds, the ratings of which are summarized in the table below. All issuers with whom investments are held are rated AA+ and/or Aaa or better except certain municipal bonds that are rated S&P AA or AA – or Moody's A1 or Aa2, and certain government and agency securities which are unrated. Investment ratings from S&P or from Moody's where an S&P rating is not available are as follows:

Unrated	9,477,244
S&P AAA	49,916,311
S&P AA	3,780,473
S&P AA ½	1,567,329
S&P AA/WD	28,297
	64,769,654

Concentration of Credit Risk: The Pension Trust Funds place no limit on the amount they may invest in any one issuer. At December 31, 2018, the Pension Trust Funds had the following concentrations of investment of more than 5% of total investments in any one issuer:

Fir	em	en	, .	$\mathbf{F}_{\mathbf{n}}$	ınd.

Louisiana Local Gov't Environment

Federal Farm Credit Bank	31%
Tennessee Valley Authority	16
Federal Home Loan Bank	21
Government National Mortgage Association	7
Policemen's Fund:	
	6%
Federal National Mortgage Association	0,0
Louisiana State Series A & B	15
United States Treasury Notes	66

Custodial Credit Risk: For an investment, custodial credit risk is the risk that, in the event of failure of the counterparty, the Pension Trust Funds will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. At December 31, 2018, the Pension Trust Funds did not have any investments that were exposed to custodial credit risk. All investments were insured, registered in the name of the Pension

5

Trust Funds, or held by a counterparty in the Pension Trust Funds' name. The Pension Trust Funds do not have a policy with respect to custodial credit risk for investments.

#### **Component Units**

City Court of Bossier City (Court)

Cash includes amounts in demand deposits and interest-bearing demand deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less when purchased. Under state law, the Court may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States of America, or under the laws of the United States of America.

At December 31, 2018, the Court, including its fiduciary funds, which are not part of this report, had cash, cash equivalents, and investments (book balances) totaling \$4,440,838. The portion attributable to fiduciary funds was \$911,839 in cash and cash equivalents and \$32,512 in investments.

These deposits with financial institutions are stated at cost, which approximates market value. At December 31, 2018, the carrying amount of the Court's deposits was \$4,395,321, and the collected bank balance was \$4,452,299. Under state law, these deposits (or the resulting bank balances) must be secured by federal deposit insurance or the pledge of securities owned by the fiscal agent bank. The market value of the pledged securities plus the federal deposit insurance must at all times equal the amount on deposit with the fiscal agent bank. These securities are held in the name of the Court in a holding or custodial bank that is mutually acceptable to both parties.

At December 31, 2018, the Court held certificates of deposit totaling \$45,517 that were classified as investments since their maturity was in excess of 90 days subsequent to their initial purchase. These certificates of deposits are carried at cost, which approximates market value, and are secured by federal deposit insurance and the pledge of securities owned by the fiscal agent bank. Investments are limited by LSA R.S. 33:2955.

Custodial Credit Risk: Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, the government will not be able to recover its deposits. At year-end, bank balances of \$4,452,299 were protected by \$295,517 of federal depository insurance. The remaining bank balance of \$4,156,782 was exposed to custodial credit risk as it consists of uninsured deposits protected with pledged securities held by the custodial banks in the name of the Court.

Interest Rate Risk: The Court's certificates of deposit have maturities of two years or less, which limits exposure to fair value losses arising from rising interest rates.

Credit Risk: The Court's investments comply with LSA R.S. 33:2955. Under state law, the Court may deposit funds with a fiscal agent organized under the laws of Louisiana, the laws of any other state in the union, or the laws of the United States. The Court may invest in U.S. bonds, treasury notes and bills, government-backed agency securities, or certificates and time

deposits of state banks organized under Louisiana law and national banks having principal offices in Louisiana.

Bossier City Marshal (Marshal)

Cash includes amounts in demand deposits and interest-bearing demand deposits. Cash equivalents include amounts in time deposits and those investments with original maturities of 90 days or less when purchased. Time deposits with original maturities in excess of 90 days are recorded as investments. Investments are stated at cost, which approximates market value.

The Marshal's investments comply with LSA R.S. 33:2955. Under state law, the Marshal may deposit funds in demand deposits, interest-bearing demand deposits, or time deposits with state banks organized under Louisiana law or any other state of the United States of America, or under the laws of the United States of America.

At December 31, 2018, the Marshal, including its fiduciary funds, which are not part of this report, had cash, cash equivalents, and investments (book balances) totaling \$676,805. The portion attributable to fiduciary funds was \$30,191 in cash and cash equivalents.

At December 31, 2018, the Marshal held certificates of deposit totaling \$256,711 that were classified as investments since their maturity was in excess of ninety days subsequent to their initial purchase. These certificates of deposit are carried at cost, which approximates market value, and are secured by federal deposit insurance. Investments are limited by Louisiana Revised Statute (R.S.) 33:2955.

Custodial credit risk is the risk that in the event of a failure of a depository financial institution, the government will not be able to recover its deposits. As of December 31, 2018, the Marshal's bank balance of \$682,254 was protected by \$403,898 of FDIC insurance and \$136,148 of NCUSIF insurance with the remaining \$142,208 protected and collateralized with pledged securities held by the custodial bank's trust department not in the Bossier Marshal's name.

## 3. Ad Valorem Property Taxes

The City levies taxes on real and business personal property located within its boundaries. Property taxes are levied by the City on property values assessed by the Bossier Parish and Caddo Parish Tax Assessors and approved by the State of Louisiana Tax Commission. Total assessed value was \$611,354,419 in 2018. Property taxes are recorded as receivables and revenues in the year for which they were levied. The General Fund property tax receivable at December 31, 2018 is shown net of an allowance for uncollectible taxes as of year-end of \$65,000. The distribution of the City's levy (tax rate per \$1,000 of assessed value) was as follows for 2018:

	<u> 2018 Levy</u>
General Fund – unrestricted	5.76
General Fund – restricted for Fire	
and Police Departments	17.60
-	23.36

# 3. Ad Valorem Property Taxes (Continued)

A revaluation of all property is required to be completed no less than every four years. A revaluation was completed for the tax roll as of January 1, 2016.

# 4. Receivables

Receivables as of year-end for the City's individual governmental and enterprise major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are outlined below:

		ustomers	Property Taxes	Other Taxes	Gaming Fees	Accrued Interest	Due from Other Governments	Other	Allowance for Uncollectible Accounts	Net Receivables
Governmental funds:										
General Fund	\$	-	4,378,211	3,741,745	87,823	72,607	150,425	97,895	(65,000)	8,463,706
Riverboat Gaming Special										
Revenue Fund		-	-	-	505,146	209,283	-	-	-	714,429
Arena Special Revenue										
Fund		540,986	-	-	-	-	-	-	-	540,986
Riverboat Gaming Capital										
Projects Fund		-	-	-	1,101,511	48,013	-	-	-	1,149,524
Public Health and Safety										
Permanent Fund		-	-	-	-	136,832	266,529	-	-	403,361
2018 LCDA Bond Fund		-	-	-	-	23,852	-	-	-	23,852
Nonmajor governmental										
funds				2,443,905	-	386,952		188,482		3,019,339
Total Governmental Funds	\$	540,986	4,378,211	6,185,650	1,694,480	877,539	416,954	286,377	(65,000)	14,315,197
Proprietary funds:										
Enterprise funds -										
Water and Sewerage	\$	3,066,957	-	-	-	204,911	-	3,383,979	(460,519)	6,195,328
Nonmajor enterprise funds	_	2,095,614		-	-	60,062		992,379	(374,256)	2,773,799
Total Enterprise Funds		5,162,571		<u> </u>	-	264,973		4,376,358	(834,775)	8,969,127
Internal service funds	_			<u> </u>		33,867		15,224		49,091
Total Propreitary Funds	\$	5,162,571		<u>-</u>	-	298,840	·	4,391,582	(834,775)	9,018,218

Unbilled service receivables of the Department of Water and Sewerage Fund, EMS Fund, and Public Service and Sanitation Fund are reflected in the accompanying financial statements at \$3,250,638, \$327,946, and \$611,410, respectively, at December 31, 2018.

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of unavailable revenue and unearned revenue reported in the governmental funds were as follows:

# 4. Receivables (Continued)

	Un	available	Unearned		
Delinquent property taxes receivable					
(General Fund)	\$	366,195	\$	-	
Other revenues not collected within 60 days					
(General Fund)		13,653		-	
Licenses collected in advance (General Fund)		-		67,410

Water and sewerage								
long-term liabilities		235,722,010	3,932,280		8,265,005		231,389,285	8,390,740
Other business-type activities:								
Net pension liability		7,906,938	283,366		_		8,190,304	_
Compensated absences		314,021	320,315		255,443		378,893	255,443
Other business-type		311,021	320,313		233,113		370,073	233,113
long-term liabilities		8,220,959	603,681		255,443		8,569,197	255,443
Total business-type					200,.10			
long-term liabilities	\$	243,942,969	\$ 4,535,961	\$	8,520,448	\$	239,958,482	\$ 8,646,183

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. The claims and judgments liability will be liquidated through the City's Liability Insurance Fund. These funds will finance the payment of these claims by charging other funds based on the origination of the claims. The General Fund normally bears approximately 80% of these costs. For the governmental activities, the balance of compensated absences is generally liquidated by the General Fund. The net other postemployment benefit obligation will also be liquidated by the General Fund. The net pension liability will be liquidated through contributions to the pension plans from the governmental fund in which the related salary was paid.

The following is a summary of bond transactions (all revenue bonds) for the year ended December 31, 2018:

Bonds payable, January 1, 2018	\$	440,615,993

In November 2010, the City entered into a Loan and Pledge Agreement with the Louisiana Department of Environmental Quality in connection with the authorization of the issuance of \$22,000,000 Utility Revenue Bonds Series 2010, for the purpose of constructing a waste system (the project). Under the Loan and Pledge Agreement, funds are drawn as expenditures on the project are incurred. As of December 31, 2018, all available funds had been drawn.

# 6. Long-Term Obligations (Continued)

In August 2014, the City entered into a Loan and Pledge Agreement with the Louisiana Department of Environmental Quality in connection with the authorization of the issuance of \$10,000,000 Utility Revenue Bonds Series 2014, for the purpose of funding various sewer projects. Under the Loan and Pledge Agreement, funds are drawn as expenditures on the project are incurred. During 2018, the City drew \$387,342 under the agreement. As of December 31, 2018, a total of \$9,391,320 had been drawn.

In June 2016, the City entered into a Loan and Pledge Agreement with the Louisiana Department of Environmental Quality in connection with the authorization of the issuance of \$10,000,000 Utility Revenue Bonds Series 2016, for the purpose of funding various sewer projects. Under the Loan and Pledge Agreement, funds are drawn as expenditures on the project are incurred. During 2018, the City drew \$1,630,285 under the agreement. As of December 31, 2018, a total of \$6,598,158 had been drawn.

In October 2017, the City entered into a Loan and Pledge Agreement with the Louisiana Department of Environmental Quality in connection with the authorization of the issuance of \$13,000,000 Utility Revenue Bonds Series 2017, for the purpose of funding various sewer projects. Under the Loan and Pledge Agreement, funds are drawn as expenditures on the project are incurred. During 2018, the City drew \$1,757,929 under the agreement. As of December 31, 2018, a total of \$1,852,779 had been drawn.

In December 2018, the City issued \$60,000,000 Louisiana Local Government Environmental Facilities and Community Development Authority Revenue Bonds for the purpose of providing funds to allow the City to fiancé the cost of additions, acquisitions, repairs and/or expansions needed to maintain City owned public improvements, and paying the costs of issuance of the bonds. The City paid \$888,675 in costs related to the issuance.

The annual requirements, excluding \$31,789,707 premium on bonds, and deferral on refundings of \$24,259,798, to amortize all debt outstanding as of December 31, 2018 are as follows:

	Governmenta	al Activities	Business-typ	Business-type Activities		
	Principal	Interest	Principal	Interest	Total	
Year(s) ending December	31:					
2019	10,550,000	10,463,024	8,253,000	9,205,031	38,471,056

# 6. Long-Term Obligations (Continued)

There are a number of limitations and restrictions contained in the various bond indentures. Management believes the City is in compliance with all significant limitations and restrictions.

Changes in the Department of Water and Sewerage components of net position restricted for debt service and unrestricted and invested in capital assets during the year ended December 31, 2018 were as follows:

Department of Water & Sewerage Fund: Restricted:		
Balance, beginning of year	\$	3,155,976
Transfer from unreserved position	ψ	6,540
Balance, end of year		3,162,516
Balance, end of year		3,102,310
Net investment in capital assets and unrestricted:		
Balance, beginning of year		104,100,178
Changes in net position		6,490,048
Transferred to restricted net position		(6,540)
Balance, end of year		110,583,686
Total net position	\$	113,746,202
Details of restricted assets at December 31, 2018 are as follows:		
Serial Bonds Debt Service Fund:		
Cash and cash equivalents	\$	6,342,841
Investments		4,345,457
Accrued interest receivable		204,911
		10,893,209
Water Capital Additions and Contingencies Fund:		
Cash and cash equivalents		586,862
Total restricted assets applicable to Water Division		586,862
Sewerage Division - Sewerage Capital Additions and Contingencies Fund:		
Cash and cash equivalents		283,686
Total restricted assets applicable to the Sewerage Division		283,686
Total Department of Water and Sewerage restricted assets	\$	11,763,757
•		·

State law allows a maximum of 10% of assessed valuation of bonded debt for any one purpose or 35% of the total assessed value for all purposes. The City assessed property value at December 31, 2018 is \$611,354,419. The maximum debt allowable for any one purpose and total debt allowable by state law as of December 31, 2018 is \$61,135,442 and \$213,974,047 respectively. Therefore, at December 31, 2018, the City has a debt margin of \$213,974,047 available for issuance pursuant to the 35% limitation.

#### 7. Sales Tax

The Consolidated Sales Tax Agency Fund accounts for the collection of a two-and-one-half-cent City sales and use tax and the distribution of this tax to other funds of the City. This fund also accounts for the collection and distribution of sales taxes levied by the Bossier Parish School Board, Bossier Parish Police Jury, Bossier Parish Sheriff, and various municipalities within the parish. For financial reporting purposes, sales taxes are recorded as revenue in the individual funds, which account for operations or projects for which the taxes were levied and as approved for expenditure by ordinance of the City Council.

The original one-cent sales tax is used initially to pay operating expenses incurred in the administration and collection of sales taxes. Scheduled payments are made on a monthly basis into the Sales Tax Bond and Interest Sinking Funds for debt service requirements. After these payments, the amount, if any, up to one-half of the total monthly sales tax revenues (net of collection expense) is payable to the General Fund for Fire and Police Department operations and maintenance. The remaining amount, if any, is payable to the Sales Tax Capital Improvement Fund.

A half-cent sales tax was approved by the voters in 1982. This revenue, net of expenses incurred in collecting the tax, is to be paid to the Firemen's and Policemen's Funds to liquidate the unfunded liabilities of the plans over 30 years. The remaining amount, if any, is payable to the General Fund for salaries of police, fire, and other city employees.

In 1987, a half-cent sales tax was approved by the voters. The additional revenue, net of expenses incurred in collecting the tax, is to be used for retirement of principal and payment of interest on sales tax bonds issued for the design and construction of a parkway adjacent to the Red River. During 2002, the voters approved a rededication of sales tax revenues, whereby any amounts in excess of debt service requirements are payable for the purpose of operating and maintaining fire, police, and other departments of the City and for previously authorized purposes, which would include payments to the Parkway Capital Projects Fund.

In 1991, an additional half-cent sales tax was approved by the voters for the purposes of constructing and operating two new fire stations and a training facility, operating and maintaining the city jail and municipal buildings, maintaining and upgrading streets and drainage, and for salaries for personnel other than firemen and policemen.

The cost associated with collecting and distributing the sales tax is funded by the City and the Bossier Parish School Board. The two entities fund the sales tax departmental expenditures on a pro rata basis. The various municipalities are charged a 1% commission on sales tax collected and distributed. The amounts recorded as sales tax revenue in the various funds are net of operating expenses of the sales tax department and include other miscellaneous revenues related to the operation of the department and the collection of the tax.

Sales and other taxes collected on behalf of others are as follows:

#### 8. Defined Benefit Pension Plans

Effective December 31, 2015, the City implemented Governmental Accounting Standards Board Statement No. 68, Accounting for Financial Reporting and Pensions – an amendment of GASB Statement No. 27, and Statement No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date – an amendment of GASB Statement No.68. These statements required the City to recognize its proportionate share of the net pension liability for the four defined benefit plans in which its employees participate.

## I. Cost-Sharing Multiple-Employer Retirement Systems

#### Plan Descriptions

The City participates in four state-administered cost-sharing multiple-employer retirement systems, which together cover substantially all of the City's full-time employees: Municipal Employees' Retirement System (MERS), Municipal Police Employees' Retirement System (MPERS), Firefighters' Retirement System (FRS) and Louisiana State Employees' Retirement System (LASERS) of the State of Louisiana. These systems are cost-sharing, multiple-employer defined benefit pension plans administered by separate boards of trustees. Article 10, Section 29 of the Louisiana Constitution of 1974 assigns the authority to establish and amend benefit provisions to the state legislature. The systems issue annual, publicly available financial reports that include financial statements and required supplementary information for the systems. Although separately administered by their respective boards of trustees, these systems are established and regulated by acts of the Louisiana Legislature with respect to membership and contribution requirements, plan benefits, and actuarial determination of funding requirements as provided by the state constitution. The City of Bossier City implemented Government Accounting Standards Board (GASB) Statement 68 on Accounting and Financial Reporting for Pensions and Statement 71 on Pension Transition for Contributions Made Subsequent to the Measurement Date - an Amendment of GASB 68. Additional disclosures with respect to GASB 68 to the City's participation in these systems are provided below. The reports for MERS, MPERS, FRS, and LASERS may be obtained at www.mersla.com, www.lampers.org, www.lafirefightersret.com and www.lasersonline.org respectively. The Municipal Employees' Retirement System (MERS) issues a publicly available financial report, which may be obtained by writing to that system at 9737 Office Park Boulevard, Baton Rouge, LA 70809. The financial report for the Municipal Police Employees' Retirement System (MPERS) may be obtained by writing to that system at 8401 United Plaza Boulevard Suite 270, Baton Rouge, LA 70809-7017. The financial report for the Firefighters' Retirement System (FRS) may be obtained by writing to that system at P.O. Box 94095, Capitol Station, Baton Rouge, LA 70804-9095. The financial report for LASERS may be obtained by writing to that system at 8401 United Plaza Blvd #100, Baton Rouge, LA 70809.

#### Plan Description- MERS

MERS was originally established by Act 356 of the 1954 regular session of the Legislature of the State of Louisiana and is composed of two distinct plans, Plan A and Plan B, with separate assets and benefit provisions. All employees of the City of Bossier City are members of Plan B. All permanent employees working at least 35 hours per week who are not covered by another pension plan and are paid wholly or in part from municipal funds and all elected municipal officials are eligible to participate in MERS.

#### Plan Description- MPERS

All full-time police department employees engaged in law enforcement are required to participate in MPERS providing he or she does not have to pay social security and providing he or she meets the statutory criteria. MPERS provides retirement benefits for municipal police officers. The projections of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through MPERS in accordance with benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date. Benefit provisions are authorized within Act 189 of 1973 and amended by LRS 11:2211-11:2233.

#### Plan Description-FRS

The Firefighters' Retirement System (FRS) is the administrator of a cost-sharing multiple-employer plan. Membership in the System is a condition of employment for any full-time firefighters who earn at least \$375 per month and are employed by any municipality, parish, or fire protection district of the State of Louisiana in addition to employees of the Firefighters' Retirement System. The System provides retirement benefits for their members. The projections of benefit payments in the calculation of the total pension liability includes all benefits to be provided to current active and inactive employees through the System in accordance with benefit terms and any additional legal agreements to provide benefits that are in force at the measurement date.

Benefit provisions are authorized within Act 434 of 1979 and amended by LRS 11:2251-11:2272. The following is a brief description of the plan and its benefits and is provided for general information purposes only. Participants should refer to the appropriate statutes for more complete information.

Any person who becomes an employee as defined in RS 11:2252 on and after January 1, 1980 shall become a member as a condition of employment.

No person who has attained age fifty or over shall become a member of the System, unless the person becomes a member by reason of a merger or unless the System received an application for membership before the applicant attained the age of fifty. No person who has not attained the age of eighteen years shall become a member of the System.

Any person who has retired from service under any retirement system or pension fund maintained basically for public officers and employees of the state, its agencies or political subdivisions, and who is receiving retirement benefits therefrom may become a member of this System, provided the person meets all other requirements for membership. Service credit from the retirement system or pension plan from which the member is retired shall not be used for reciprocal recognition of service with this System, or for any other purpose in order to attain eligibility or increase the amount of service credit in this System.

#### Plan Description- LASERS

The City of Bossier City has one Judge participating in LASERS. The System was established for the purpose of providing retirement allowances and other benefits as stated under the provisions of LRS 11:401, as amended, for eligible state officers, employees and their beneficiaries. The projection of benefit payments in the calculation of total pension liability includes all benefits to

be provided to current active and inactive employees through LASERS in accordance with benefit terms and any legal agreements in force at the measurement date.

#### **Benefits Provided**

#### Retirement Benefits- MERS (Plan B)

Any member of Plan B hired before January 1, 2013 may retire at any age with 30 years of creditable service or at age 60 with at least 10 years of creditable service. Any member of Plan B hired on or after January 1, 2013 may retire at age 67 with at least 7 years of creditable service, at age 62 with at least 10 years of creditable service, or at age 55 with at least 30 years of creditable service. Members hired on or after January 1, 2013 are also eligible to retire at any age with at least 25 years of creditable service, but their benefit will be actuarially reduced from the earliest age of which the member would be entitled to a vested deferred benefit under any of the previously-mentioned provisions, if the member had continued in service to that age. Members are entitled to a retirement benefit, payable monthly for life, equal to 2% of the member's final compensation (defined below) multiplied by the member's years of creditable service. However, under certain conditions as outlined in the statutes, the benefits are limited to specified amounts. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination.

Final compensation is the employee's average salary over the 36 consecutive or joined months that produce the highest average for a member whose first employment made him or her eligible for membership in the system on or before June 30, 2006. Final compensation is the employee's average salary over the 60 consecutive or joined months that produce the highest average for a member whose first employment made him or her eligible for membership in the system after June 30, 2006. Employees who terminate with at least the amount of creditable service stated above, and do not withdraw their employee contributions, may retire at the ages specified above and receive the benefit accrued to their date of termination.

#### Retirement Benefits- MPERS

Members of MPERS with membership beginning prior to January 1, 2013 are eligible for regular retirement after he or she has been a member of MPERS and has 25 years of creditable service at any age or has 20 years of creditable service and is age 50 or has 12 years of creditable service and is age 55. A member is eligible for early retirement after he or she has been a member of MPERS for 20 years of creditable service at any age with an actuarially reduced benefit. Members are entitled to a retirement benefit, payable monthly for life, equal to three and one-third percent (3.33%) of the member's final compensation (employee's average salary over the 36 consecutive or joined months that produce the highest average) multiplied by the member's years of creditable service.

Members of MPERS with membership beginning on or after January 1, 2013 are eligible for regular retirement, early retirement, disability and survivor benefits based on Hazardous Duty and Non-Hazardous Duty sub plans. Under the Hazardous Duty sub plan, a member is eligible for regular retirement after he or she has been a member of MPERS and has 25 years of creditable service at any age or has 12 years of creditable service at age 55. Under the Non-Hazardous Duty sub plan, a member is eligible for regular retirement after he or she has been a member of MPERS and has 30

years of creditable service at any age, 25 years of creditable service at age 55, or 10 years of creditable service at age 60. Under both sub plans, a member is eligible for early retirement after he or she has been a member of MPERS for 20 years of creditable service at any age, with an actuarially reduced benefit from age 55. Under the Hazardous and Non-Hazardous Duty sub plans, the benefit rates are three percent and two and a half percent, respectively, of average final compensation (average monthly earnings during the highest 60 consecutive months or joined months if service was interrupted) per number of years of creditable service not to exceed 100% of final salary.

In 1999, the State Legislature authorized MPERS to establish an Initial Benefit Option program. This is available to MPERS members who are eligible for regular retirement but have not participated in DROP. This program provides both a one-time single sum payment of up to 36 months of the regular monthly retirement benefit, plus a reduced monthly retirement benefit for life.

#### Retirement Benefits-FRS

Members of the FRS are eligible to retire at the age of 50 with at least 20 years of service, at the age of 55 with at least 12 years of service, or at any age with at least 25 years of service. Members are entitled to a retirement benefit, payable monthly for life, equal to three and one-third percent (3.33%) of the member's final compensation (employee's average salary over the 36 consecutive or joined months that produce the highest average) multiplied by the member's years of creditable service.

In 1999, the State Legislature authorized FRS to establish an Initial Benefit Option program. This is available to MPERS members who are eligible for regular retirement but have not participated in DROP. This program provides both a one-time single sum payment of up to 36 months of the regular monthly retirement benefit, plus a reduced monthly retirement benefit for life.

#### Retirement Benefits-LASERS

The age and years of creditable service required in order for a member to retire with full benefits are established by statute, and vary depending on the member's hire date, employer, and job classification. The majority of the members may either retire with full benefits at any age upon completing 30 years of creditable service or at age 60 upon completing five to ten years of creditable service depending on their plan. Members may also choose to retire with 20 years of service at any age, with an actuarially reduced benefit. The basic annual retirement benefit for members is equal to 2.5% to 3.5% of average compensation multiplied by the number of years of creditable service. For employees hired prior to July 1, 2006, average compensation is defined as the average compensation for the highest 36 consecutive months of employment. For employees hired after July 1, 2006, average compensation is defined as the average compensation for the highest 60 consecutive months of employment. Act 992 of the 2010 Louisiana Regular Legislative Session, changed the benefit structure for LASERS members hired on or after January 1, 2011.

This resulted in three new plans: regular, hazardous duty, and judges. The new regular plan includes regular members and those members who were formerly eligible to participate in specialty plans, excluding hazardous duty and judges. Regular members and judges are eligible to retire at age 60 after five years of creditable service, and may also retire at any age, with a reduced benefit, after 20 years of creditable service. Hazardous duty members are eligible to retire with twelve years

of creditable service at age 55, 25 years of creditable service at any age or with a reduced benefit after 20 years of creditable service. Average compensation will be based on the member's average annual earned compensation for the highest 60 consecutive months of employment for all three new plans. Members in the regular plan will receive a 2.5% accrual rate, hazardous duty plan a 3.33% accrual rate, and judges a 3.5% accrual rate. The extra 1.0% accrual rate for each year of service for court officers, the governor, lieutenant governor, legislators, House clerk, sergeants at arms, or Senate secretary, employed after January 1, 2011, was eliminated by Act 992. Specialty plan and regular members, hired prior to January 1, 2011, who are hazardous duty employees have the option to transition to the new hazardous duty plan. A member leaving employment before attaining minimum retirement age, but after completing certain minimum service requirements, becomes eligible for a benefit provided the member lives to the minimum service retirement age, and does not withdraw their accumulated contributions. The minimum service requirement is ten years of service.

# **Deferred Retirement Options**

In lieu of terminating employment and accepting a service retirement allowance, any member of MERS who is eligible to retire may elect to participate in the deferred retirement option plan (DROP) for up to three years and defer the receipt of benefits. A MERS member may participate in DROP only once. During participation in the plan, employer contributions are payable but employee contributions cease. The monthly retirement benefits that would be payable, had the person elected to cease employment, are credited to the MERS member's individual DROP account. Interest is earned when the member has completed DROP participation. Upon termination of employment prior to or at the end of the participation period, the member may receive a lump sum from the account or a true annuity based on the account balance. If employment is not terminated at the end of the three year DROP participation period, payments into the DROP account cease and the person resumes active contributing membership in MERS.

A member of MPERS is eligible to enter DROP when he or she is eligible for regular retirement based on the members' sub plan participation. At the entry date into DROP, employee and employer contributions cease. The amount deposited into the DROP account for MPERS members is equal to the benefit computed under the retirement plan elected by participant date of application. The duration of participation in the DROP is 36 months or less. Interest is earned when the MPERS member has completed DROP participation. Upon termination of employment prior to or at the end of the participation period, the MPERS member may receive a lump sum from the account or a true annuity based on the account balance.

A member of FRS may elect to participate in the deferred retirement option plan (DROP) for up to 36 months, after completing 20 years of creditable service and age 50 or 25 years at any age. Upon commencement of participation in the deferred retirement option plan, employer and employee contributions to the System cease. The monthly retirement benefit that would have been payable is paid into the deferred retirement option plan account. Upon termination of employment, a participant in the program shall receive, at his option, a lump-sum payment from the account or an annuity based on the deferred retirement option plan account balance in addition to his regular monthly benefit. If employment is not terminated at the end of the 36 months, the participant resumes regular contributions to the System. No payments may be made from the deferred retirement option plan account until the participant retires.

A member of LASERS is eligible to enter DROP when he or she is eligible for regular retirement

based on service requirements. The State Legislature authorized LASERS to establish a Deferred Retirement Option Plan (DROP). When members enter DROP, their status changes from active member to retiree even though they continue to work and draw their salary for a period of up to three years. The election is irrevocable once participation begins. During DROP participation, accumulated retirement benefits that would have been paid to each retiree are separately tracked. For members who entered DROP prior to January 1, 2004, interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero) will be credited to the retiree after participation ends. At that time, the member must choose among available alternatives for the distribution of benefits that have accumulated in the DROP account. Members who enter DROP on or after January 1, 2004, are required to participate in LASERS Self-Directed Plan (SDP) which is administered by a third party provider. The SDP allows DROP participants to choose from a menu of investment options for the allocation of their DROP balances. Participants may diversify their investments by choosing from an approved list of mutual funds with different holdings, management styles, and risk factors. Members eligible to retire and who do not choose to participate in DROP may elect to receive at the time of retirement an initial benefit option (IBO) in an amount up to 36 months of benefits, with an actuarial reduction of their future benefits. For members who selected the IBO option prior to January 1, 2004, such amount may be withdrawn or remain in the IBO account earning interest at a rate of one-half percent less than the System's realized return on its portfolio (not to be less than zero). Those members who select the IBO on or after January 1, 2004, are required to enter the SDP as described above.

#### Disability Benefits

A member of MERS Plan B is eligible to retire and receive a disability benefit if he or she has at least 10 years of creditable service, is not eligible for normal retirement and has been officially certified as disabled by the State Medical Disability Board. The monthly maximum retirement benefit under Plan B of MERS is the lesser of an amount equal to two percent of member's final compensation multiplied by years of service (not less than 30% of member's final compensation) or an amount equal to what the member's normal retirement benefit would be based on final compensation at time of disability, but assuming continuous service until member's earliest normal retirement age.

A member of MPERS is eligible to retire and receive a disability benefit if he or she has been certified as disabled by the State Medical Disability Board. If the disability incurred is job-related, there is no minimum creditable service requirement. If the disability is non-job-related, a minimum of 10 years of creditable service is required if the member was employed on or after July 1, 2008. Members of MPERS employed prior to July 1, 2008 must have a minimum of 5 years of creditable service to be eligible to retire with disability benefits if the disability incurred is non-job-related. The disability benefit received by a MPERS member is equal to three percent of his or her final average compensation multiplied by years of creditable service (not less than 40%, nor more than 60% of final average compensation). At the time the disabled MPERS member reaches normal retirement age, he or she will have the option to continue to receive the disability retirement benefit or to receive his or her vested retirement benefit.

A member of FRS disability benefit or any member who has been officially certified as totally disabled solely as the result of injuries sustained in the performance of his official duties, or for any cause, provided the member has at least five years of creditable service and provided that the disability was incurred while the member was an active contributing member, is entitled to disability benefits. Any member totally disabled from injury received in the line of duty is entitled

to compensation equal to 60% of average final compensation being received at the time of the disability. Any member with at least 5 years of creditable service and not eligible for retirement that is disabled or incapacitated because of continued illness or as a result of any injury received, even though not in the line of duty, may apply for retirement and receive a benefit equal to the greater of 75% of the retirement salary entitled under R.S. 11:2256 or 25% of the member's average salary. Any retired member or DROP participant who becomes disabled for any reason shall be permitted to apply for conversion of service retirement to a service connected disability retirement. The surviving spouse of a member who was on disability retirement at the time of death receives a benefit of \$200 per month. When the member takes disability retirement, he may in addition take an actuarially reduced benefit in which case the member's surviving spouse receives 50% of the disability benefit being paid immediately prior to the death of the disability retiree. The retirement system may reduce benefits paid to a disability retiree who is also receiving workers compensation payments.

A member of LASERS with ten or more years of credited service who becomes disabled may receive a maximum disability retirement benefit equivalent to the regular retirement formula without reduction by reason of age. Upon reaching age 60, the disability retiree may receive a regular retirement benefit by making application to the Board of Trustees. For injuries sustained in the line of duty, hazardous duty personnel in the Hazardous Duty Services Plan will receive a disability benefit equal to 75% of final average compensation.

#### Survivor's Benefit

The surviving spouse (defined as someone married to the deceased member for at least 12 months immediately preceding the member's death) of a MERS Plan B member (not eligible for retirement at the time of death) will receive a survivor benefit, provided that the member had 5 or more years of creditable service. The surviving spouse will be paid either a monthly benefit equal to 30% of member's final compensation, payable when surviving spouse attains the age of 60 or becomes disabled, or a monthly benefit equal to actuarial equivalent of the benefit described previously (not less than 15% of member's final compensation), payable upon the death of the member. A MERS Plan B member who is eligible for normal retirement at the time of death will be deemed to have retired and selected Option 2 benefits on behalf of the surviving spouse upon the date of death. Benefits will begin only upon proper application and are paid in lieu of any other survivor benefits.

Survivor benefits for MPERS members are payable to the surviving spouse or surviving minor child/children of a deceased active contributing member or a deceased disability retiree. Survivor benefits are not payable to survivors of retirees receiving benefits under the provisions of early or normal service retirement. The maximum benefit for a surviving spouse of a MPERS member is equal to the regular retirement formula, regardless of age, but not less than 40% or more than 60% of the deceased member's final average compensation. There is no requirement for minimum years of creditable service. If the MPERS member is killed in the line of duty, the surviving spouse shall receive a benefit equal to 100% of the deceased member's final average compensation, less any survivor benefits payable to a child or children. Each surviving minor child of the MPERS member will receive a benefit equal to 10% of deceased member's final average compensation or \$200 per month, whichever is greater. Benefits for a surviving child cease upon the child's attainment of age 18 or upon marriage, whichever occurs first. The benefit may continue after age 18 if the child meets certain educational or disability requirements. The surviving minor child may receive an increased benefit if there is no surviving spouse of the MPERS member.

Survivor benefits for FRS are payable to survivors of a deceased member who dies and is not eligible for retirement as follows. If any member is killed in the line of duty and leaves a surviving eligible spouse, the spouse is entitled to an annual benefit equal to two-thirds of the deceased member's final compensation. If any member dies from a cause not in the line of duty, the surviving spouse is entitled to an annual benefit equal to 3% of the deceased member's average final compensation multiplied by his total years of creditable service; however, in no event is the annual benefit less than 40% nor more than 60% of the deceased member's average final compensation. Children of the deceased member who are under the age of eighteen years are entitled to the greater of \$200 per month or 10% of average final compensation (not to exceed 100% of average final compensation) until reaching the age of eighteen or until the age of twenty-two if enrolled full-time in an institution of higher learning, unless the surviving child is physically handicapped or mentally retarded in which case the benefit is payable regardless of age. If a member who is eligible to retire dies before retiring, the designated beneficiary will be paid under the 2<sup>nd</sup> option above, survivor benefit equal to member's benefit.

Certain eligible LASERS surviving dependents receive benefits based on the deceased member's compensation and their relationship to the deceased. The deceased member who was in state service at the time of death must have a minimum of five years of service credit, at least two of which were earned immediately prior to death, or who had a minimum of twenty years of service credit regardless of when earned in order for a benefit to be paid to a minor or handicapped child. Benefits are payable to an unmarried child until age 18, or age 23 if the child remains a full-time student. The aforementioned minimum service credit requirement is ten years for a surviving spouse with no minor children, and benefits are to be paid for life to the spouse or qualified handicapped child.

#### Cost of Living Increases

MERS is authorized under state law to grant an annual cost of living adjustment to members who have been retired for at least one year. The adjustment cannot exceed 2% of the retiree's original benefit and may only be granted if sufficient funds are available. The cost of living increase must be paid from investment income in excess of normal requirements.

MPERS is authorized to provide annual cost of living adjustments to members who have been retired for at least one full fiscal year. The adjustment cannot exceed 3% in any given year. MPERS members who elect early retirement are not eligible for a cost of living adjustment until they reach regular retirement age.

The present value of future FRS and LASERS retirement benefits are based on benefits currently being paid by the System and include previously granted cost of living increases. The present values do not include provisions for potential future increases not yet authorized by the Board of Trustees as they were deemed not to be substantively automatic. As fully described in Title 11 of the Louisiana Revised Statutes, LASERS allows for the payment of permanent benefit increases, also known as cost-of-living adjustments (COLAs) that are funded through investment earnings when recommended by the Board of Trustees and approved.

#### Contributions

The MERS, MPERS, FRS, and LASERS employer contribution rates are established annually under LRS 11:101-11:104 by the Public Retirement Systems' Actuarial Committee (PRSAC),

taking into consideration the recommendation of the system's actuary. Each plan pays a separate actuarially determined employer contribution rate. For the year ending December 31, 2018 the employer contribution rate for MERS Plan B was 14.00%; MPERS was 32.25%; FRS was 26.50%; and LASERS was 40.10%. Employer contributions to MERS, MPERS, FRS, and LASERS were \$1,555,838; \$3,126,567; \$3,153,086; and \$13,950, respectively, for the year ended December 31, 2018. Employees participating in MERS are required to contribute 5.00%; employees participating in MPERS are required to contribute 10.00%; employees participating in the FRS are required to contribute 10.00%; employees participating in LASERS are required to contribute 11.50% and 13% for those hired after January 1, 2011.

Contributions received by a pension plan from non-employer contributing entities that are not in a special funding situation are recorded as revenue by the respective pension plan. MERS receives ad valorem taxes and state revenue sharing funds. MPERS receives insurance premium tax monies appropriated by the legislature each year based on an actuarial study. FRS receives insurance premium tax monies appropriated by the legislature each year based on an actuarial study. The City of Bossier City recognizes revenue in an amount equal to its proportionate share of the total contributions to the pension plan from these non-employer contributing entities. During the year ended December 31, 2018, the City of Bossier City recognized revenue as a result of support received from non-employer contributing entities of \$359,461 for its participation in MERS; \$640,081 for its participation in MPERS; and \$1,206,832 for its participation in the FRS.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At December 31, 2018, the City of Bossier City reported a liability for MERS, MPERS, FRS, and LASERS of \$12,109,231, \$27,421,779, \$26,746,536, and \$129,715, respectively, for its proportionate share of the net pension liability. The net pension liabilities were measured as of June 30, 2018 and the total pension liabilities used to calculate the net pension liability were determined by actuarial valuations as of that date. The City of Bossier City's proportion of the net pension liability for each retirement system was based on a projection of the City of Bossier City's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the City of Bossier City's proportion for MERS, MPERS, FRS, and LASERS was 14.316360%, 3.243622%, 4.649891%, and 0.00190%, respectively. This reflects an increase (decrease) for MERS, MPERS, FRS, and LASERS of 0.031724%, 0.071106%, 0.09977%, and (0.00007)%, respectively, from its proportion measured as of June 30, 2018.

For the year ended December 31, 2018, the City of Bossier City recognized pension expense, for which there were no forfeitures, as follows:

	-	Pension Expense		
MERS	\$	2,172,141		
MPERS		4,001,125		
FRS		4,314,417		
LASERS	-	5,688		
Total	\$	10,493,371		

At December 31, 2018, the City of Bossier reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows of Resources										
		MERS	_	MPERS		FRS		LASERS		Total
Difference between expected and actual experience	\$	32,443	\$	123,618	\$	-	\$	-	\$	156,061
Changes in assumptions		453,139		1,791,997		1,865,838		1,320		4,112,294
Net difference between projected and actual earnings on pension plan investments		1,968,157		1,314,539		1,739,189		1,682		5,023,567
Changes in proportion and differences between employer contributions and proportionate share of contributions		13,939		457,896		454,935		-		926,770
Employer contributions subsequent to measurement date		817,845	_	1,619,944		1,513,129		6,975		3,957,893
Total	\$	3,285,523	\$	5,307,994	\$	5,573,091	\$	9,977	\$_	14,176,585
	]	Deferred I	nfl	ows of Res	ou	rces				
		MERS		MPERS		FRS		LASERS		Total
Difference between expected and actual experience	\$	545,400	\$	1,401,309	\$	2,035,710	\$	1,455	\$	3,983,874
Changes in assumptions		-		-		4,238		-		4,238
Net difference between projected and actual earnings on pension plan investments		-		-		-		-		-
Changes in proportion and differences between employer contributions and proportionate share of contributions		754,309		483,789		1,565,880		-		2,803,978
Employer contributions subsequent to measurement date		-	_			-		-	_	-
Total	\$	1,299,709	\$	1,885,098	\$	3,605,828	\$	1,455	\$_	6,792,090

During the year ended December 31, 2018, employer contributions totaling \$817,845; \$1,619,944; \$1,513,129; and \$6.975 were made subsequent to the measurement date for MERS, MPERS, FRS, and LASERS respectively. These contributions are reported as deferred outflows of resources and will be recognized as a reduction of the net pension liability in the year ended December 31, 2018. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30,	_	MERS	MPERS	FRS	LASERS	Total
2019	\$	661,656 \$	1,539,557 \$	1,146,702 \$	3,683 \$	3,351,598
2020		266,797	824,551	129,421	1,509	1,222,278

2024	_		<u> </u>	87,058		87,058
Total	\$_	1,167,969 \$	1,802,952 \$	454,134 \$	1,547 \$	3,426,602

The net pension liability was measured as the portion of the present value of projected benefit payments to be provided through the pension plan to current active and inactive employees that is attributed to those employees' past periods of service, less the amount of the pension plan's fiduciary net position. The components of the net pension liability of MERS, MPERS, FRS, and LASERS employers as of June 30, 2018 are as follows:

		MERS Plan B	MPERS	FRS	LASERS		
Total pension liability	\$	245,867,981 \$	3,007,181,318 \$	\$ 2,279,256,967 \$	19,103,640,164		
Plan fiduciary net position	_	161,284,802	2,161,775,206	1,704,049,168	12,283,713,118		
Total net pension liability	\$_	84,583,179 \$	845,406,112 \$	\$ 575,207,799 \$	6,819,927,046		

The City of Bossier City's allocation is 14.316360% of the Total Net Pension Liability for MERS; 3.243622% of the Total Net Pension Liability for MPERS; 4.649891% of the Total Net Pension Liability for the FRS, and 0.00190% of the Total Net Pension Liability for LASERS.

# **Actuarial Assumptions**

The total pension liabilities for MERS, MPERS, FRS, and LASERS in the June 30, 2018 actuarial valuations were determined using the following actuarial assumptions:

	MERS	MPERS				
<b>Actuarial cost</b>	Entry Age Normal	Entry Age Normal C	1 Cost			
Expected remaining service lives	3 years	4 years				
Investment rate of return Inflation rate	7.275%, net of investment expense 2.600%	7.20%, net of investment expense				
innation rate	2.000/0	2.60%	Salary			
Projected salary increases	5.00% (2.6% inflation, 2.4% merit)	Years of Service	Growth Rate			
	,	1 - 2	9.75%			
		3 - 23	4.75%			
C4-61:		24 & over	4.25%			
Cost of living adjustments	None	Only those previous	y granted.			
Mortality	RP-2000 Employee Table for active members (set back 2 years for males and females); RP-2000 Healthy Annuitant Table for healthy annuitants (set forward 2 years for males and 1 year for females); RP-2000 Disabled Lives Mortality Tables for disabled annuitants (set back 5 years for males and 3 years for females)	Based on an experience study for the period July 1, 2009 - June 30 2014 and review of law enforcement mortality. This was compared to standard tables. Results indicated tables used we produce liability approximating generational mortality tables.				

	FRS	LASERS			
<b>Actuarial cost</b>	Entry Age Normal	Entry Age Normal Cost

Withtanty	standard tables. Results indicated				
	tables used would produce liability				
	approximating generational mortality				
	tables				

The MERS actuarial assumptions used were based on the results of an experience study for the period July 1, 2009 through June 30, 2014. The MPERS actuarial assumptions used were based on the results of an actuarial experience study for the period July 1, 2009 and June 30, 2014. The FRS mortality rate assumptions used were based on the results of an experience study for the period July 1, 2009 through June 30, 2014. The LASERS actuarial assumptions were based on the results of an experience study for the period July 1, 2008 through June 30, 2013.

The forecasted long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation and an adjustment for the effect of rebalancing/diversification. The resulting expected long-term rate of return for MERS is 7.0%, MPERS is 8.1%, FRS is 8.1%, and LASERS is 8.8% for the year ended June 30, 2018.

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation for MERS and MPERS as of June 30, 2018 are summarized in the following table:

			Long-Terr	n Expected
	Target A	Allocations	Real Rate	of Return
Asset Class	MERS	MPERS	MERS	MPERS
Equity	50%	52%	2.2%	3.5%
Fixed income	35%	22%	1.5%	0.5%
Alternatives	15%	20%	0.6%	1.1%
Other	0%	6%	0.0%	0.2%
Subtotal	100%	100%	4.3%	5.3%
Inflation Adjustment			2.7%	2.8%
Total			7.0%	8.1%

Best estimates of arithmetic real rates of return for each major asset class included in the target asset allocation for FRS and LASERS as of June 30, 2018 are summarized in the following table:

		Long-Term Expected					
	Target A	Allocations	Real Rat	e of Return			
Asset Class	FRS	LASERS	FRS	LASERS			
Equity	54%	55%	6.8%	9.6%			
Fixed income	26%	16%	1.8%	3.7%			
Alternatives	10%	15%	6.6%	7.7%			
Other	10%	14%	4.6%	4.5%			
Subtotal	100%	100%	5.3%	5.5%			
Inflation Adjustment			2.8%	3.3%			
Total			8.1%	8.8%			

#### **Discount Rates**

The discount rate used to measure the total pension liability was 7.275% for MERS, 7.20% for MPERS, 7.30% for FRS, and 7.65% for LASERS. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from participating employers will be made at the actuarially determined rates approved by PRSAC taking into consideration the recommendation of the actuary. Based on those assumptions, the net position of MERS, MPERS, FRS, and LASERS were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the Employer's Proportionate Share of the Net Pension Liability to Changes in the Discount Rates

The following table presents the City of Bossier City's proportionate share of the net pension liability using the discount rates of 7.275% for MERS, 7.20% for MPERS, 7.30% for FRS, and 7.65% for LASERS as well as what the City of Bossier City's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.275% for MERS, 6.20% for MPERS, 6.30% for FRS, and 6.65% for LASERS) or one percentage-point higher (8.275% for MERS, 8.20% for MPERS, 8.30% for FRS, and 8.65% for LASERS) than the current rate:

	Current					
	1% Decrease		Discount		1% Increase	
MERS	\$ 15,891,885	\$	12,109,231	\$	8,893,646	
MPERS	38,535,189		27,421,779		18,098,054	
FRS	39,029,519		26,746,536		16,424,603	
LASERS	163,709		129,715		100,438	
Total	\$ 93,620,302	\$	66,407,261	\$	43,516,741	

#### **Payables to the Pension Plans**

At December 31, 2018, payables to MERS, MPERS, FRS, and LASERS were \$-0-, \$-0-, \$-0-, and \$-0- respectively, for December 31, 2018 employee and employer legally-required contributions.

#### II. Single-Employer Public Employee Retirement Systems

The City administers two single-employer defined benefit pension plans: the Firemen's Pension and Relief Fund (Firemen's Fund) and the Policemen's Pension and Relief Fund (Policemen's Fund).

## **Summary of Significant Accounting Policies Basis of Accounting**

The two City-administered pension plans' financial statements are prepared using the accrual basis of accounting. Employer and plan members' contributions are recognized when due, pursuant to statutory requirements. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

#### **Method Used to Value Investments**

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates.

#### **Concentration of Investments**

The Firemen's Fund and Policemen's Fund investments are discussed in note 2(b). There are no investments in loans to or leases with parties related to the pension plans.

#### Measurement Date

For both Plans, the measurement date for the December 31, 2018 net pension liability is December 31, 2018. The measurement period for the pension expense was January 1, 2018 to December 31, 2018. The City's reporting period is January 1, 2018 to December 31, 2018. The Fund's Net Pension Liability was measured as of December 31, 2018. The Total Pension Liability used to calculate the Net Pension Liability was determined as of that date.

#### Separately Issued Report Availability

Each Plan issues publicly available financial reports which may be obtained by writing to the Director of Finance of the City of Bossier City, P.O. Box 5337, Bossier City, LA 71171.

#### Plan Description

#### Firemen's Fund

The Plan is the administrator of a single-employer public employee retirement system established and administered by the City to provide pension benefits to all employees of the City Fire Department not covered under the Firefighter's Retirement System of Louisiana (the State Plan). All firemen employed by the City on or after January 1, 1980 must join the State Plan. Since no new employees are allowed to enter the Plan, and all members of the Plan have retired or are in the Deferred Retirement Option Plan (DROP) program, the burden is on the City to provide pension benefits. The Plan is considered part of the City's financial reporting entity and is included in the City's financial reports as a pension trust fund. The Plan is governed by a board consisting of five voting members, who are all retired as there are no active members, and the finance director of Bossier City, who is a non-voting member.

#### Policemen's Fund

The Plan is the administrator of a single-employer public employee retirement system established and administered by the City to provide pension benefits to all employees of the City Police Department not covered under the Municipal Police Employee Retirement System of Louisiana (MPERS). All policemen employed by the City on or after September 9, 1977 must join MPERS. Since no new employees are allowed to enter the Plan, and all members of the Plan have retired or are in the Deferred Retirement Option Plan (DROP) program, the burden is on the City to provide pension benefits. The Plan is considered part of the City's financial reporting entity and is included in the City's financial reports as a pension trust fund. The Plan is governed by a board consisting of six voting members, who are all retired as there are no active members, and the comptroller of Bossier City, who is a non-voting member.

#### Plan Membership

#### Plan Membership – Firemen's Fund

As of December 31, 2018 the Plan's membership consisted of 78 retirees and beneficiaries currently receiving benefits. There were no active employees in 2018. There were no retirees or beneficiaries entitled to but not receiving benefits in 2018.

#### Plan Membership - Policemen's Fund

As of December 31, 2018 the Plan's membership consisted of 36 retirees and beneficiaries currently receiving benefits. There were no active employees in 2018. There were no retirees of beneficiaries entitled to but not receiving benefits in 2018.

#### **Benefits Provided**

#### Benefits Provided -Firemen's Fund

# (a) Pension Benefits

Employees with 20 years of service are eligible to receive monthly retirement benefits. These benefits are equal to two-thirds (2/3) of average final compensation, as defined. The beneficiary receives an additional amount equal to 1% of such salary for each year of service after the member has reached the age of 50 years and has served 20 years, provided that the maximum benefit shall not exceed 75% of the salary. Benefits can only be paid monthly, and employee and employer contributions are forfeited upon termination of an employee without the required length of service.

# (b) Deferred Retirement Option Plan

The Plan provides for a DROP. Under the DROP, any member who has at least 20 years of creditable service and who is eligible for a service retirement allowance may elect to defer receipt of these benefits for a period of three years. The monthly retirement benefits that would have been payable had the member elected to cease employment and receive a service retirement allowance will be paid into the DROP account. Upon termination of employment at the end of the specified period of participation, the monthly benefits that were being paid into the DROP account during the period of participation begin to be paid to the retiree. The participant may elect to receive a payment in the form of one lump sum or an annuity based upon the account balance. The Plan currently holds \$1,687,695 for DROP payments.

#### (c) Death and Disability Benefits

All participants are retired. Therefore, if a member should die from any cause, a monthly benefit shall be paid to the member's surviving spouse and children. The spouse, while remaining unmarried, shall receive 50% of the eligible benefits to which the deceased member would be entitled. Each surviving minor child under the age of 18 years shall receive 24% of said benefits until the age of 18 years or until married, whichever is sooner. If there is no widow, but there are children, each child receives 30% until age 18 years or until married, whichever is sooner. These amounts paid to the family of the deceased shall not exceed two-thirds (2/3) of the member's salary.

If a member becomes disabled by reason of serving the department, he/she shall receive monthly a sum, which, with the benefits from the Workmen's Compensation Act, shall be equal to 75% of the monthly salary of the active member holding the position corresponding to that held by the beneficiary at the time he/she became disabled. The benefits shall continue as long as the disability continues or until he/she becomes eligible for retirement on a service basis, whichever is sooner. If an active member with at least 10 years of service becomes disabled by reason of causes not

arising or developing directly from employment, with certain exceptions, he/she shall receive monthly a sum equal to one-third (1/3) of the monthly salary of the active member holding the position corresponding to that held by the beneficiary at the time he/she became disabled, plus an additional 2% of such salary for each year of active service rendered over 5 years. The maximum benefit shall not exceed two-thirds (2/3) of the monthly salary if the active member holding the position corresponding to that held by the beneficiary at the time he/she became disabled.

### Benefits Provided - Policemen's Fund

#### (a) Pension Benefits

Employees with 20 years of service or employees with 18 consecutive years of service and who have reached 65 years of age are eligible for monthly retirement benefits. These benefits shall be two-thirds (2/3) of average final compensation, as defined, but not less than \$100 per month. Benefits can only be paid monthly and employee and employer contributions are forfeited upon termination of an employee without the required length of service.

The Plan provides for a joint and survivor benefit option. This option gives the recipient the choice of reducing the amount of retirement drawn and increasing amounts paid to survivors upon death. This option is actuarially equivalent to the original service retirement benefit. Benefits paid regardless of option remains at two-thirds (2/3) of monthly salary, but not less than \$100 per month.

#### (b) Deferred Retirement Option Plan

The Plan provides for a DROP. Under the DROP, any member who has at least 20 years of creditable service and who is eligible for a service retirement allowance may elect to defer receipt of these benefits for a period of three years. The monthly retirement benefits that would have been payable had the member elected to cease employment and receive a service retirement allowance will be paid into the DROP account. Upon termination of employment at the end of the specified period of participation, the monthly benefits that were being paid into the DROP account during the period of participation may begin being paid to the retiree. The participant may elect to receive payment in the form of no more than two payments per year in increments of at least \$1,000 or an annuity based upon the account balance. The Plan currently holds \$429,439 for DROP payments.

#### (c) Death and Disability Benefits

All participants are retired. Therefore, if a member dies while receiving a pension and leaves a child or children under 18 years of age, a widow, or a dependent mother, these survivors shall be paid as follows: dependent mother, \$100 per month; widow, survivor benefits based upon the election of the participant; and each child under 18 years of age or who is attending college, \$150 per month, regardless of the number of children.

If a member became disabled while in the performance of his or her duties, he or she receives pension benefits as stated above for normal retirees.

#### **Contributions**

#### Contributions - Firemen's Fund

The Plan is funded from the following sources, as established and may be amended by city ordinance:

- 1. Proceeds from the City's portion of the State of Louisiana 2% Fire Insurance Tax Account.
- 2. The sale of condemned property owned and used by the Fire Department.
- 3. 5% of the salaries of all employees of the Fire Department who are eligible for participation in the Fund (all participants are now retired; therefore, no employee contributions).
- 4. A matching 5% of employees' salaries paid by the City of Bossier City General Fund (all participants are now retired; therefore, no current matching).
- 5. Reimbursements by the City of Bossier City General Fund for the operating deficit, if any.
- 6. Amounts from the sales tax levy sufficient to liquidate the unfunded liability over a period not to exceed 30 years.
- 7. Income from investments owned by the Fund.

# Contributions - Policemen's Fund

The Plan is funded from the following sources, as established and may be amended by city ordinance:

- 1. 20% of all amounts collected for City court fines.
- 2. 10% of all funds collected by the City for taxes, licenses, or permits for the sale of alcoholic beverages.
- 3. 6% of the salaries of all employees of the Police Department who are eligible for participation in the Fund (all participants are not retired; therefore, no employee contributions).
- 4. Income from investments owned by the Fund.
- 5. Reimbursement by the City of Bossier City General Fund for the operating deficit of the prior year, if any.
- 6. Amounts from the 1982 sales tax levy sufficient to liquidate the unfunded liability over a period not to exceed 30 years.

# **Actuarial Assumptions**

#### Actuarial Assumptions – Firemen's Fund

The total pension liability was determined by an actuarial valuation as of January 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Entry Age Normal

Inflation2.50%Projected salary increasesN/ACost of living adjustments2.75%Investment rate of return3.00%

Mortality RP 2014 Blue Collar Tables with generational

projection using Scale MP-2018

#### **Discount Rate**

The discount rate used to measure the total pension liability was 4.10%. The projection of cash flows used to determine the discount rate assumed that the City contribution would equal the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension investments was applied to all periods of benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed 2.5%). Best estimates of arithmetic real rates for each major asset class included in the pension plan's target asset allocations as of December 31, 2018 are 1.5% to 2.5% for fixed income and 0.0% for cash.

# Actuarial Assumptions - Policemen's Fund

The total pension liability was determined by an actuarial valuation as of January 1, 2019, using the following actuarial assumptions, applied to all periods included in the measurement:

Actuarial cost method Entry Age Normal

Inflation2.50%Projected salary increasesN/ACost of living adjustments2.75%Investment rate of return3.00%

Mortality RP 2014 Blue Collar Tables with generational

projection using Scale MP-2018

#### **Discount Rate**

The discount rate used to measure the total pension liability was 4.10%. The projection of cash flows used to determine the discount rate assumed that the City contribution would equal the actuarially determined contribution rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension investments was applied to all periods of benefit payments to determine the total pension liability.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed 2.5%). Best estimates of arithmetic real rates for each major asset class included in the pension plan's target asset allocations as of December 31, 2018 are 0.5% to 2.0% for fixed income and 0.0% for cash.

### **Changes in Net Pension Liability (Asset)**

# Changes in Net Pension Liability (Asset) - Firemen's Fund

	Total Pension <u>Liability (TPL)</u>	Plan Fiduciary Net Position	(Increase) Decrease Net Pension (Asset)
Balance at 12/31/17	76,203,439	76,397,230	(193,791)

#### Pension Expense, Deferred Inflows and Outflows of Resources

#### Pension Expense, Deferred Inflows and Outflows of Resources – Firemen's Fund

For the year ended December 31, 2018, the City recognized Pension Expense (Income) of \$(10,342,210). On December 31, 2018, the City reported Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions from the following sources:

	Deferred Outflows of <u>Resources</u>	20101100
Differences between projected and actual investment earnings	1,979,742	-

Since the Plan's measurement date is the same as the City's year end, there were no deferred outflows resulting from Employer contributions subsequent to the measurement date. Other amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions will be recognized in Pension Expense as follows:

### Year Ended December 31,

2019	494,935
2020	494,935
2021	494,935
2022	494,937
	<u>1,979,742</u>

#### Pension Expense, Deferred Inflows and Outflows of Resources – Policemen's Fund

For the year ended December 31, 2018, the City recognized Pension Expense (Income) of \$(4,633,568). On December 31, 2018, the City reported Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions from the following sources:

	Deferred Outflows of <u>Resources</u>	Inflows of
Net differences between projected and actual investment earnings	569,665	-

Since the Plan's measurement date is the same as the City's year end, there were no deferred outflows resulting from Employer contributions subsequent to the measurement date. Other amounts reported as Deferred Outflows of Resources and Deferred Inflows of Resources related to pensions will be recognized in Pension Expense as follows:

# Year Ended December 31,

# 9. Other Postemployment Benefits

## (a) General Information about the OPEB Plan

Plan description – The City of Bossier City (the City) provides certain continuing health care and life insurance benefits for its retired employees. The City of Bossier City's OPEB Plan (the OPEB Plan) is a single-employer defined benefit OPEB plan administered by the City. The authority to establish and/or amend the obligation of the employer, employees and retirees rests with the City. No assets are accumulated in a trust that meets the criteria in Governmental Accounting Standards Board (GASB) Codification Section P52 Postemployment Benefits Other Than Pensions—Reporting For Benefits Not Provided Through Trusts That Meet Specified Criteria—Defined Benefit.

Benefits Provided – Medical/dental benefits are provided through a comprehensive medical plan and are made available to employees upon actual retirement. The employees are covered by one of two retirement systems: the Municipal Employees' Retirement System of Louisiana and the Municipal Police Retirement System of Louisiana. Since the employee data did not specify the identity of the police employees, we have assumed retirement eligibility (D.R.O.P. entry) according to the Municipal Employees' Retirement System of Louisiana, as follows: 30 years of service at any age; or, age 60 and 10 years of service.

Employees covered by benefit terms – At December 31, 2018, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	127
Inactive employees entitled to but not yet receiving benefit payments	-
Active employees	537
	664

# 9. Postemployment Health Care and Life Insurance Benefits (Continued)

# (b) Total OPEB Liability

The City's total OPEB liability of \$2,181,385 was measured as of December 31, 2018 and was determined by an actuarial valuation as of that date.

Actuarial Assumptions and other inputs – The total OPEB liability in the December 31, 2018 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.5%

Salary increases 4.0%, including inflation

Discount rate 3.44% annually (Beginning of Year to Determine ADC)

4.10%, annually (As of End of Year Measurement Date)

Healthcare cost trend rates Flat 5.5% annually

The discount rate was based on the average of the Bond Buyers' 20 Year General Obligation municipal bond index as of December 31, 2018, the end of the applicable measurement period.

Mortality rates were based on the RP-2000 Table without projection with 50%/50% unisex blend.

The actuarial assumptions used in the December 31, 2018 valuation were based on the results of ongoing evaluations of the assumptions from January 1, 2009 to December 31, 2018.

# (c) Changes in the Total OPEB Liability

Balance at December 31, 2017	\$ 2,399,102
Changes for the year:	
Service cost	22,028
Interest	78,781
Differences between expected and actual experience	33,909
Changes in assumptions	(134,540)
Benefit payments and net transfers	 (217,895)
Net changes	(217,717)
Balance at December 31, 2018	\$ 2,181,385

Sensitivity of the total OPEB liability to changes in the discount rate – The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (3.10%) or 1-percentage-point higher (5.10%) than the current discount rate:

	1	.0% Decrease (3.10%)		rent Discount ate (4.10%)	1.0% Increase (5.10%)
Total OPEB liability	\$	2,384,528	\$	2,181,385	\$ 2,002,155

# 9. Postemployment Health Care and Life Insurance Benefits (Continued)

Sensitivity of the total OPEB liability to changes in the healthcare cost trend rates – The following presents the total OPEB liability of the City, as well as what the City's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1-percentage-point lower (4.5%) or 1-percentage-point higher (6.5%) than the current healthcare trend rates:

	1.0% Decrease	<b>Current Trend</b>	1.0% Increase
	(4.5%)	(5.5%)	(6.5%)
Total OPEB liability	\$ 1,995,994	\$ 2,181,385	\$ 2,391,203

# (d) OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended December 31, 2018, the City recognized OPEB expense of \$94,101. At December 31, 2018, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	De	eferred		Deferred		
	Outflows of			Inflows of		
	Resources			Resources		
Differences between expected and actual experience	\$	31,648	\$	-		
Changes in assumptions				(125,571)		
Total	\$	31,648	\$	(125,571)		

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

#### Year Ended December 31,

2019	(6,708)
2020	(6,708)
2021	(6,708)
2022	(6,708)
2023	(6,708)
Thereafter	(60,383)
	(93,923)

# 10. Lease Commitments

The City has commitments under several operating lease agreements for equipment, land, and a water supply reservoir. With the exception of the water supply reservoir, these lease agreements are cancelable by the City at any time. City management does feel, however, that such leases will generally be renewed or replaced each year. The City's lease agreement for the water supply reservoir calls for fixed annual payments of \$1,000 for the next 6 years.

Total rental expense for 2018 for all City operating leases was \$368,276.

# 11. Other Required Individual Fund Disclosures

# (a) Interfund Receivables and Payables

Interfund balances at December 31, 2018 were as follows:

	Due to Nonmajor			
	Governmen	tal		
Due From	Funds	_		
General Fund	\$ 84,655	5		

All balances resulted from the time lag between the dates that: (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

# (b) Transfers

Transfers for the year ended December 31, 2018 were as follows:

	Transfers out						
		Riverboat	Nonmajor	Nonmajor			
		ming Capital	Enterprise	Governmental			
Transfers In	Pr	ojects Fund	Activities	Activities	Total		
General Fund	\$	-	102,710	4,665,476	4,768,186		
CenturyLink Center Arena							
Special Revenue Fund		-	-	400,000	400,000		
Riverboat Gaming Capital							
Projects Fund		-	-	9,731,801	9,731,801		
Water and Sewerage							
Enterprise Fund		-	-	1,000,000	1,000,000		
Nonmajor governmental							
Activities		18,865,944	512,006	25,879,466	45,257,416		
	\$	18,865,944	614,716	41,676,743	61,157,403		

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) use unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

#### 12. Federal and State Financial Assistance

Federal and state governmental units represent an important source of supplementary funding to finance housing, employment, and construction programs, and other activities beneficial to the community. These funds, primarily in the form of grants, are recorded in the General and Special Revenue Funds. A grant receivable is recorded when the City has a right to reimbursement under the related grant. The grants normally specify the purpose for which the funds may be used and

#### 12. Federal and State Financial Assistance (Continued)

are audited annually under the single audit as mandated by the Single Audit Act of 1996 and Title 2 U.S. Code of Federal Regulations (CFR), Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).

Supplementary salary payments are made by the state to certain groups of employees. The City is not legally responsible for these salaries. Therefore, the basis for recognizing the revenue and expenditure payments is the actual contribution from the state. For 2018, the state paid supplemental salaries to the following groups of employees; Fire Department employees, \$765,288; EMS employees, \$283,052; Police Department employees, \$925,501; and City Marshal employees (a component unit), \$54,000.

#### 13. Commitments and Contingencies

#### (a) Construction Projects

There are certain infrastructure and other construction project commitments in progress at December 31, 2018, including the Northeast Wastewater Treatment Plant Upgrade, Wastewater Treatment Plant Water Main Project, Sewer Sub-Basin Rehabilitation, Storm Water Drainage, and various smaller projects.

There are also several transportation improvement projects under way, all funded from the 2007 and 2015 bonds, including the extension of the Parkway North Project both north and south, and the Shed Road (Benton Road to Airline) widening.

The City has contractual commitments of approximately \$0.9 million in its governmental activities and approximately \$12.4 million in its Water and Sewerage Fund related to these construction projects.

#### (b) Pension Funds

According to existing legislative acts of the State of Louisiana, the City is required to reimburse the Firemen's Fund and the Policemen's Fund for operating deficits that may occur in any fiscal year.

# (c) Insurance Fund

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters. The Liability Insurance Fund is used to account for self-insured activities involving workmen's compensation coverage and the self-insured retention for automobile, general liability, and property claims.

Payments are made from the operating funds to the Liability Insurance Fund, which is accounted for as an internal service fund. Payments are accounted for as revenues by the receiving fund and expenditures/expense by the paying funds. The City maintains stoploss coverage with an insurance company of \$400,000 per occurrence related to non-civil service employees and \$750,000 related to civil service employees for workmen's compensation coverage with an aggregate limit of \$1,000,000. Employee life insurance premiums are also paid from the Insurance Fund.

# 13. Commitments and Contingencies (Continued)

Liability policies are maintained by the City with third-party insurance carriers for its automobile, general liability, and property damage exposures. These policies are subject to a \$3,000,000 per occurrence limit with a \$100,000 per occurrence retention for claims involving third parties. The City maintained property insurance during 2018 on approximately \$339 million in city property, subject to a \$50,000 per occurrence retention for property claims. The maximum cumulative amount of self-insured retentions related to automobile and general liability claims is \$1,000,000.

There was no reduction in insurance coverage from coverage in the prior year. No claims exceeded the City's insurance coverage for each of the past five fiscal years.

A reconciliation of changes in the aggregate liabilities for claims for the self-insurance funds is as follows:

	Beginning of Fiscal Year Liability		Claims and Changes in Estimates	Benefit Payments and Claims	Ending of Fiscal Year Liability	
Liability Insurance Fund:						
2017	\$	2,038,134	873,360	981,050	1,930,444	
2018		1,930,444	232,786	539,914	1,623,316	
General liability claims (GWFS):						
2017	\$	1,095,000	202,500	50,000	1,247,500	
2018		1,247,500	(149,395)	52,605	1,045,500	

#### (d) Postretirement Benefits

As an established practice, the City provides for a portion of the healthcare costs and life insurance costs of all retirees that meet the minimum service requirements of the retirement plan (as described in note 9) in which the employee participates. The City participates in a health management organization (HMO). As a result, the cost of providing benefits to the eligible retirees consists of the portion of the monthly premiums paid for coverage applicable to the retirees. These costs are accounted for on a pay-as-you-go basis. At December 31, 2018, 180 retirees are currently eligible to receive or are receiving benefits under the plan.

#### (e) Litigation

The City is the defendant in a number of legal actions, most of which are partially covered by insurance. There are certain suits, including employee discrimination and civil rights violations suits, which are in the early stages of discovery and for which the availability of insurance coverage or estimates of the ultimate liability of the City cannot be determined. Resolution of some of these cases could involve liability to the City in excess of insurance limits if the courts find in favor of the various plaintiffs. The City evaluates the existing

# 13. Commitments and Contingencies (Continued)

litigation and accrues appropriate amounts as liabilities become probable and can be estimated. It is the policy of the City to pay uninsured judgments against the City on a current basis from the excess of revenues over expenditures.

#### (f) Grant Disallowances

The City participates in federally assisted grant programs, principally Community Development Block Grant, and various construction grants. These programs are subject to program compliance audits under the Single Audit Act. Such audits could lead to requests for reimbursement by the grantor agency for expenditures disallowed under terms of the grants. City management believes that the amount of disallowances, if any, which may arise from future audits will not be material.

#### (g) Revenues from the State of Louisiana

The General Fund receives various revenues from the State of Louisiana including beer tax, mowing, video poker, and traffic signalization revenues. The continuation of these revenues at these amounts is contingent on a variety of factors at the state level.

#### 14. New GASB Standards

In fiscal year 2018, the City adopted the following new statements of financial accounting standards issued by the Governmental Accounting Standards Board:

Statement No. 75 —Accounting and Financial Reporting for Postemployment Benefits Other than Pensions, issued by the Government Accounting Standards Board. This Statement addresses accounting and financial reporting of OPEB that is provided to the employees of state and local governmental employers and establishes standards for recognizing and measuring liabilities, deferred outflows of resources, deferred inflows of resources, and expense/expenditures. For defined benefit OPEB, this Statement identifies the methods and assumptions that are required to be used to project benefit payments, discount projected benefit payments to the actuarial present value, and attribute that present value to periods of employee service. Note disclosure and required supplementary information requirements about defined benefit OPEB also are addressed. This Statement replaces the requirements of Statements No. 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions, as amended, and No. 57, OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans, for OPEB.

The adoption of Statement No. 75 has no impact on the City's governmental fund financial statements, which continue to report expenditures on a pay-as-you-go basis. However, the adoption has resulted in the restatement of the City's 2017 government-wide financial statements to reflect the reporting of total OPEB liability in accordance with the provisions of the Statement. Net position as of January 1, 2018 was restated reflecting the cumulative retrospective effect of adoption.

# 14. New GASB Standards (Continued)

Statement No. 85 - Omnibus 2017, issued by the Government Accounting Standards Board. This Statement is to address practice issues that have been identified during implementation and application of certain GASB Statements. This Statement addresses a variety of topics including issues related to fair value measurement, and application, and postemployment benefits for both pensions and other postemployment benefits (OPEB).

The adoption of Statement No. 85 had no impact on the government-wide or the governmental fund financial statements, but provides for additional guidance, clarification and/or additional disclosures in the notes to the financial statements.

# 15. Prior Period Adjustment

The government-wide financial statements include a prior period adjustment increasing net position of the governmental activities by \$11,857,988, which was related to the implementation of GASB 75 and change in OPEB benefit terms for the year ended December 31, 2018. The pro forma amounts for fiscal year 2017 are not presented because the amounts are not readily determinable.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a full 10-year trend is compiled, the City will present information for those years which information is available under GASB 68. Information presented in this schedule has been determined as of the City's measurement date (December 31) of the net pension liability in accordance with GASB 68.

Required Supplementary Information

#### Schedule of Contributions-Firemen's Pension Fund

For the Years Ended December 31, 2013 through December 31, 2018

(Unaudited)

	Actuarially Determined	Contributions in Relation to the Actuarially Determined	Contribution Deficiency	Covered Member	Contributions as a % of Covered Member
Year	Contribution	Contribution	(Excess)	Payroll	Payroll
2018	1,083,620	1,083,620	_		_
2017	4,359,838	4,359,838	_	_	
2016	4,504,809	4,504,809			
2015	6,763,516	6,763,516	_		_
2014	6,593,111	6,593,111	_		_
2013	6,679,359	6,679,359			

#### **Notes to Schedule:**

The information presented in the required supplementary schedules was determined as part of the actuarial valuations at the dates indicated.

#### **Methods and Assumptions Used to Determine Contribution Rates:**

Actuarial cost method: Entry Age Normal

Amortization method: Level Percentage (Closed Basis)

Remaining Amortization Period 10 years (minimum)

Asset Valuation Method Fair Value
Inflation 2.50%
Investment Rate of Return 3.00%
Projected Salary Increases N/A
Cost of living adjustments 2.75%

Mortality Rate RP-2014 Blue Collar tables with

Generational Projection using Scale MP-2018.

This schedule is presented to illustrate the requirement to show information for 10 years. However, until a a full 10-year trend is compiled, the City will present information for those years which information is available under GASB 68. Information presented in this schedule has been determined as of the City's measurement date (December 31) of the net pension liability in accordance with GASB 68.

#### NOTES TO BUDGETARY COMPARISON SCHEDULES

#### **DECEMBER 31, 2018**

(Unaudited)

#### **Budget and Budgetary Accounting**

The City of Bossier City (the City) utilizes the following procedures in establishing the budgetary data reflected in the financial statements:

- (1) Prior to September 15, the Mayor submits to the City Council a proposed operating budget for the fiscal year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- (2) A public hearing is then conducted, after proper official journal notification, to obtain taxpayer comments.
- (3) Prior to December 15, the budget is legally enacted through passage of an ordinance.
- (4) The budget ordinance is structured such that revenues are budgeted by source, and appropriations are budgeted by department and by principal object of expenditure. The City Charter provides that expenditures may not legally exceed appropriations on a departmental basis after considering fund surpluses or deficits. The City Council may revise or amend the budget at its discretion during legally convened sessions. Management may amend the budget only below the department level. For the year ended December 31, 2018, nine amendments were made to the General Fund.
- (5) Comparison of budgeted and actual amounts, as shown in the accompanying financial statements, includes the General Fund and those special revenue funds, which are included in the annual operating budget (Civic Center, Hotel/Motel Taxes, Fire Improvements and Operations, Jail and Municipal Buildings, Streets and Drainage, and Arena). Annual operating budgets are not prepared for the State and Federal grant, Court Witness Fee, Public Safety Pension Reserve, and Riverboat Gaming Special Revenue Fund, but rather these funds are budgeted on a project basis. The capital budget ordinances, which encompass the capital projects funds, present cumulative as opposed to annual budget amounts, and thus, budget and actual comparisons are not reported in the accompanying financial statements for these funds. Budgetary control for the debt service funds is achieved through general bond indenture provisions.
- (6) All budgets are adopted on a basis substantially consistent with U.S. generally accepted accounting principles (GAAP), except that payments to the Firemen's and Policemen's Pension and Relief Funds are not budgeted in the General Fund and administrative expenditures allocated to the State and Federal Grant Special Revenue Fund are budgeted in the General Fund. Appropriations which are not expended lapse at year-end, except appropriations for capital improvements, which do not lapse until the purpose of the appropriation has been accomplished or abandoned.
- (7) The City is legally required to prepare annual operating budgets for the Department of Water and Sewerage, Sanitation, Emergency Medical Services, and Alternative Fuel operations. The City is not, however, required to present an actual-to-budget comparison for the enterprise funds. Budgets are not prepared for the internal services funds.

# Reconciliation of the Budgetary Basis and the GAAP Basis

Adjustments necessary to convert the expenditures at the end of the year on the budgetary basis to the GAAP basis are as follows:

	<u>G</u>	eneral Fund
Budgetary basis expenditures Administrative costs of State and Federal Grant Special Revenue Fund Sales taxes dedicated to Firemen's and Policemen's Pension and Relief Funds Payments to component units	\$	51,201,345 (129,261) 2,411,219 205,514
GAAP basis expenditures	\$	53,688,817

# Excess of Expenditures over Budget - Major Funds

For those funds for which a budget-to-actual comparison was made, actual expenditures on a budgetary basis exceeded budgeted expenditures on a line-item basis as follows:

<b>Fund</b>	<u>Budget</u>	Actual on a Budgetary Basis	Negative <u>Variance</u>
General Fund:			
Municipal building	1,853,019	1,897,230	(44,211)
City council	282,121	282,311	(190)
Payments to other gov't agencies	1,786,809	1,809,416	(22,607)
Civic Center Special Revenue Fund: Culture and Recreation:			, ,
Contract services	1,300	1,562	(262)

# NONMAJOR GOVERNMENTAL FUNDS

## **Special Revenue Funds**

**State and Federal Grant** – This fund accounts for the receipt and disbursement of funds received under the Community Development Block Grant and other grant programs

Court Witness Fee – This fund accounts for the proceeds of a special case charge on criminal matters. The revenues generated are dedicated to the payment of a special witness fee to law officers who are called to testify in City Court.

Civic Center – This fund accounts for the revenues received and operating expenses incurred in the operations of the City's Civic Center Complex.

**Hotel/Motel Taxes** – This fund accounts for the revenues received from taxes levied on the occupancy of hotel/motel rooms and related facilities. The revenues can only be used for riverboat/downtown development and the operations and maintenance of the Civic Center and multipurpose arena.

**Disaster Relief** – This fund accounts for the revenues reserved for and expenses incurred in the event of a disaster.

**Fire Improvements and Operations** – This fund accounts for the revenues received and operating expenses incurred in the construction and operations of two new fire stations and a new training facility.

**Jail and Municipal Buildings** – This fund accounts for the revenues received and the operating expenses incurred to operate and maintain the City Jail in accordance with Federally Mandated Standards and to operate and maintain City buildings.

Streets and Drainage – This fund accounts for the revenues received and the operating expenses incurred in maintaining and upgrading streets and drainage.

#### **Debt Service Funds**

Sales Tax Bond Sinking and Reserve Fund – Used to account for	r the accumulation of
resources for, and the payment of, long-term debt principal, interest	, and related costs of
the 1998, 2002, and 2003 bond series.	

**Parkway Sales Tax Bond Sinking and Reserve Fund** – Used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs of the 1997 and 2001 bond series.

**2007** Capital Projects Bond Issue Sinking and Reserve Fund – Used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs of the 2007 bond series.

**2017 LCDA Bond Issue Sinking and Reserve Fund** – Used to account for the accumulation of resources for, and the payment of, long-term debt principal, interest, and related costs of the 2017 bond series.

#### **Capital Projects Funds**

Sales Tax Capital Improvement Fund – This fund is used to account for expenditures associated with capital projects as presented and approved by Council Ordinance, and is funded by the excess one-half cent sales tax after payment of debt service sales tax revenue bond issues and interest earned.

Parkway Capital Projects Fund – This fund is used to account for miscellaneous capital expenditures, as budgeted by the City Council, and is funded by the excess one-half cent sales tax after payment of debt service on the Parkway Bond Issue and interest earned.

Oil and Gas Royalties Capital Projects Fund – This fund was established in 2011 to account for the proceeds received from oil and gas royalties on property owned by the City.

**2006 Sales Tax Bond Fund** – This fund was established in 2006 to account for the proceeds received from the Public Improvement Sales Tax Bonds and the expenditures of the bond moneys.

**Equipment Replacement Fund** – This fund was established to account for purchases and sales of various equipment not associated with bond issue-related expenditures.

**Land Acquisition Fund** – This fund is used to account for special land purchases and sales not associated with bond issue-related expenditures.

**Coleman Development Fund** – This fund is used to account for expenditures associated with capital projects as presented and approved by City Council ordinance and is funded by the Riverboat Gaming Capital Projects Fund.

#### Contents

	Table <u>Number</u>	Page <u>Number</u>
Debt Capacity		
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue debt in the future.		
Ratios of Outstanding Debt by Type	13	141
Direct and Overlapping Governmental Activities Debt	14	142
Legal Debt Margin Information	15	143
Pledged Revenue Coverage	16	144
Demographic and Economic Information		
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.		
Demographic and Economic Statistics	17	145
Principal Employers	18	146
Operating Information		
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.		
Full-Time Equivalent City Government Employees by Function	19	147
Operating Indicators by Function	20	148
Capital Asset Statistics by Function	21	149

#### Note:

Assessed values are established by the Bossier Parish Tax Assessor on January 1 of each year at approximately 10%–15% of assumed market value. A revaluation of all property is required to be completed no less than every four years. The last revaluation was completed for the roll of January 1, 2016.

- (2) Financial statements of applicable jurisdictions
- Bossier Parish debt outstanding represents the 2017 fiscal year balance as 2018 information was unavailable at the time of preparation of this table.

#### Note:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City. This process recognizes that, when considering the government's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident and, therefore, responsible for repaying the debt of each overlapping government.

(1) The percentage of overlapping debt applicable is estimated using taxable property values. Applicable percentages were estimated by determining the portion of the government's taxable assessed value that is within the City's boundaries and dividing it by the government's total taxable assessed value.

June 7, 2019

Honorable Mayor Lorenz "Lo" Walker and Members of the City Council City of Bossier City Bossier City, Louisiana

> Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Bossier City, Louisiana (the City), as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated June 7, 2019. Our report includes a reference to other auditors who audited the financial statements of the Bossier City Court and the Bossier City Marshal, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of City of Bossier City, Louisiana's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the organization's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Under Louisiana Revised Statute 24:513, this report is distributed by the Legislative Auditor as a public document.

#### CERTIFIED PUBLIC ACCOUNTANTS

333 Texas Street, Suite 1525 SHREVEPORT, LOUISIANA 71101 318-429-1525 Phone • 318-429-2070 Fax

June 7, 2019

Honorable Mayor Lorenz "Lo" Walker and Members of the City Council City of Bossier City Bossier City, Louisiana

> Independent Auditor's Report on Compliance for each Major Federal Program; Report on Internal Control over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

#### Report on Compliance for Each Major Federal Program

We have audited the City of Bossier City, Louisiana's (the City) compliance with the types of compliance requirements described in the OMB Compliance Supplement that could have a direct and material effect on each of the City's major federal programs for the year ended December 31, 2018. The City of Bossier City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

#### Management's Responsibility

Management is responsible for compliance with the requirements of federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

#### Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the City's compliance.

#### Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2018.

#### Report on Internal Control over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

#### Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Bossier City, Louisiana, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated June 7, 2019, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming an opinion on the basic financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements.

The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

#### FOR THE YEAR ENDED DECEMBER 31, 2018

#### 1. Basis of Presentation

The audit was performed pursuant to the Single Audit Act of 1996 and the Uniform Guidance. The Schedule of Expenditures of Federal Awards has been prepared on the modified accrual basis of accounting used by the City in preparation of the government wide financial statements that report these awards. The accounting policies of the City conform to accounting principles generally accepted in the United States of America as applicable to governmental units. The preparation of the Schedule of Expenditures of Federal Awards in conformity with accounting principles generally accepted in the United States of America requires management to make certain assumptions that affect the reported amounts of expenditures during the reporting period. Actual results could differ from those estimates.

#### 2. Disbursements

Disbursements reported in the Schedule of Expenditures of Federal Awards cannot be traced, in every case, directly to the disbursements reported in the City's Comprehensive Annual Financial Report (CAFR). However, the detailed information regarding the disbursements reflected in both issued reports can be traced to the City's detailed general ledger with adjustments for any year-end financial statement accruals and reversals.

#### 3. Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal award programs of the City that were received directly from federal agencies or passed through other entities and governmental agencies.

The City has prepared this Schedule of Expenditures of Federal Awards to comply with the provisions of the Uniform Guidance, *Audits of States, Local Governments and Non-Profit Organizations*. The Uniform Guidance stipulates that a Schedule of Expenditures of Federal Awards be prepared showing total expenditures of each federal award program as identified in the Catalog of Federal Domestic Assistance (CFDA) and for other federal financial awards that have not been assigned a catalog number.

#### 4. Subrecipient Payments

The City's following Community Development Block Grant had subrecipient payments in the amount of \$54,977 for 2018 to entities noted:

- a. 2017 VOA Lighthouse
- b. 2017 Gift of Dance Program
- c. 2017 Providence House
- d. 2017 Elderly Ombudsman Program
- e. 2017 Community Transportation Program
- f. 2017 Multi-Cultural Development Center
- g. 2018 Community Transportation Program

#### 5. Indirect Cost Rate

The City has elected to use the 10-percent de minimis cost rate allowed under the Uniform Guidance.

#### 6. <u>Subsequent Events</u>

The City is required to evaluate events or transactions that may occur after the schedule of expenditures of federal awards date for potential recognition or disclosure in the notes to the schedule of expenditures of federal awards. The City performed such an evaluation through June 7, 2019, the date which the schedule of expenditures of federal awards was available to be issued, and noted no events of transactions that occurred after the schedule of expenditures of federal awards date requiring recognition or disclosure.

#### **SCHEDULE OF FINDINGS AND QUESTIONED COSTS**

#### FOR THE YEAR ENDED DECEMBER 31, 2018

#### A. Summary of Audit Results

- 1. The auditor's report expresses an unmodified opinion on the basic financial statements of the City of Bossier City, Louisiana.
- 2. No material weaknesses or significant deficiencies relating to the audit of the basic financial statements are reported.
- 3. There are no findings of noncompliance relating to the basic financial statements of the City of Bossier City, Louisiana disclosed during the audit.
- 4. The auditor's report on compliance for major federal award programs of the City of Bossier City, Louisiana expresses an unmodified opinion.
- 5. There are no audit findings relative to major federal award programs of the City of Bossier City, Louisiana.
- 6. The programs tested as major programs included:

## Federal Program or Cluster CFDA No. Highway Planning and Construction Capitalization Grants for Clean Water State Revolving Funds 20.205 66.458

- 7. The threshold for distinguishing Types A and B programs was \$750,000.
- 8. The City of Bossier City does qualify as a low-risk auditee.

#### B. Findings – Financial Statement Audit

No findings to report.

#### C. Findings and Questioned Costs – Major Federal Award Programs Audit

No findings to report.

#### SCHEDULE OF PRIOR YEAR FINDINGS

#### FOR THE YEAR ENDED DECEMBER 31, 2018

No findings were reported in the prior year.

# CITY OF BOSSIER CITY, LOUISIANA STATEWIDE AGREED-UPON PROCEDURES REPORT

YEAR ENDED DECEMBER 31, 2018

## HEARD, MCELROY, & VESTAL

CERTIFIED PUBLIC ACCOUNTANTS

333 Texas Street, Suite 1525 SHREVEPORT, LOUISIANA 71101 318-429-1525 Phone • 318-429-2070 Fax

June 7, 2019

To the Honorable Mayor Lorenz Walker and the members of the City Council City of Bossier City, Louisiana

Louisiana Legislative Auditor Baton Rouge, Louisiana

#### INDEPENDENT ACCOUNTANT'S REPORT ON APPLYING AGREED-UPON PROCEDURES

We have performed the procedures enumerated below, which were agreed to by the City of Bossier City (City) and the Louisiana Legislative Auditor (LLA) on the control and compliance (C/C) areas identified in the LLA's Statewide Agreed-Upon Procedures (SAUPs) for the fiscal period January 01, 2018 through December 31, 2018. The City's management is responsible for those C/C areas identified in the SAUPs.

This agreed-upon procedures engagement was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and applicable standards of Government Auditing Standards, issued by the Comptroller General of the United States. The sufficiency of these procedures is solely the responsibility of the specified users of this report. Consequently, we make no representation regarding the sufficiency of the procedures described below either for the purpose for which this report has been requested or for any other purpose.

The procedures and associated findings are as follows:

#### Written Policies and Procedures

*Not applicable because of no exceptions in previous year.* 

#### **Board or Finance Committee**

Not applicable because of no exceptions in previous year.

#### Bank Reconciliations

3. Obtain a listing of client bank accounts for the fiscal period from management and management's representation that the listing is complete. Ask management to identify the entity's main operating account. Select the entity's main operating account and randomly select 4 additional accounts (or all accounts if less than 5). Randomly select one month from the fiscal period, obtain and inspect the corresponding bank statement and reconciliation for selected each account, and observe that:

- A list of bank accounts was obtained from management. Five accounts were selected for inspection.
- a) Bank reconciliations include evidence that they were prepared within 2 months of the related statement closing date (e.g., initialed and dated, electronically logged);
  - Bank reconciliations were prepared within 2 months of the statement closing date.
- b) Bank reconciliations include evidence that a member of management/board member who does not handle cash, post ledgers, or issue checks has reviewed each bank reconciliation (e.g., initialed and dated, electronically logged); and
  - Bank reconciliations were documented as reviewed monthly by the Finance Director who, as backup to the Comptroller, has access to bank transactions.
- c) Management has documentation reflecting that it has researched reconciling items that have been outstanding for more than 12 months from the statement closing date, if applicable.
  - None of the accounts selected had reconciling items greater than 12 months.

#### Collections

- 4. Obtain a listing of deposit sites for the fiscal period where deposits for cash/checks/money orders (cash) are prepared and management's representation that the listing is complete. Randomly select 5 deposit sites (or all deposit sites if less than 5).
  - A listing of deposit locations was obtained from management. Five deposit sites were selected for testing.
- 5. For each deposit site selected, obtain a listing of collection locations and management's representation that the listing is complete. Randomly select one collection location for each deposit site (i.e. 5 collection locations for 5 deposit sites), obtain and inspect written policies and procedures relating to employee job duties (if no written policies or procedures, inquire of employees about their job duties) at each collection location, and observe that job duties are properly segregated at each collection location such that:
  - A listing of collection locations and policies was obtained from management.
  - a) Employees that are responsible for cash collections do not share cash drawers/registers.
    - For all the locations selected employees did not share cash drawers/registers.
  - b) Each employee responsible for collecting cash is not responsible for preparing/making bank deposits, unless another employee/official is responsible for reconciling collection documentation (e.g. pre-numbered receipts) to the deposit.
    - All policies described adequate separation of duties regarding preparing/making bank deposits.

- c) Each employee responsible for collecting cash is not responsible for posting collection entries to the general ledger or subsidiary ledgers, unless another employee/official is responsible for reconciling ledger postings to each other and to the deposit.
  - All policies described adequate separation of duties regarding posting deposits to the general ledger.
- d) The employee(s) responsible for reconciling cash collections to the general ledger and/or subsidiary ledgers, by revenue source and/or agency fund additions are not responsible for collecting cash, unless another employee verifies the reconciliation.
  - All policies described adequate separation of duties regarding reconciling the deposit to the general ledger.
- 6. Inquire of management that all employees who have access to cash are covered by a bond or insurance policy for theft.
  - The City has an umbrella bond for all employees and several individual bonds for key employees, including the Comptroller.
- 7. Randomly select two deposit dates for each of the 5 bank accounts selected for procedure #3 under "Bank Reconciliations" above (select the next deposit date chronologically if no deposits were made on the dates randomly selected and randomly select a deposit if multiple deposits are made on the same day). Alternately, the practitioner may use a source document other than bank statements when selecting the deposit dates for testing, such as a cash collection log, daily revenue report, receipt book, etc. Obtain supporting documentation for each of the 10 deposits and:
  - A collection log was used to make deposit selections.
  - a) Observe that receipts are sequentially pre-numbered.
    - Receipts were sequentially pre-numbered for all deposits selected except for the Property Tax and Customer Service deposits. Property Tax and Customer Service departments both issue receipts generated from AS400 showing the customer payment and account balance.
  - b) Trace sequentially pre-numbered receipts, system reports, and other related collection documentation to the deposit slip.
    - The sequentially pre-numbered receipts, system reports, and other related collection documentation were traced to the deposit slip for all deposits except Property Tax and Customer Service. Both of these locations do not have pre-numbered receipts; however, a daily cash listing from AS400 was used to trace to the deposit slip without exception.
  - c) Trace the deposit slip total to the actual deposit per the bank statement.
    - All deposit slips agreed to the deposit per the bank statement without exception.

d) Observe that the deposit was made within one business day of receipt at the collection location (within one week if the depository is more than 10 miles from the collection location or the deposit is less than \$100).

Exception: All deposits were made within one business day of the receipt at collection location except for the Animal Control department. One deposit was made four business days after collection and another deposit was made two business days after collection.

Management's Response:

The exceptions are believed to be isolated incidents. All appropriate personnel have been informed of the importance and requirement of making next day deposits.

e) Trace the actual deposit per the bank statement to the general ledger.

All deposits per the bank statement were traced to the general ledger without exception.

Non-Payroll Disbursements – (excluding credit card purchases/payments, travel reimbursements, and petty cash purchases)

Not applicable because of no exceptions in previous year.

#### Credit Cards/Debit Cards/Fuel Cards/P-Cards

11. Obtain from management a listing of all active credit cards, bank debit cards, fuel cards, and P-cards (cards) for the fiscal period, including the card numbers and the names of the persons who maintained possession of the cards. Obtain management's representation that the listing is complete.

A listing of all active credit cards and fuel card was obtained from management.

- 12. Using the listing prepared by management, randomly select 5 cards (or all cards if less than 5) that were used during the fiscal period. Randomly select one monthly statement or combined statement for each card (for a debit card, randomly select one monthly bank statement), obtain supporting documentation, and:
  - a) Observe that there is evidence that the monthly statement or combined statement and supporting documentation (e.g., original receipts for credit/debit card purchases, exception reports for excessive fuel card usage) was reviewed and approved, in writing, by someone other than the authorized card holder.

All statements had documentation of review and approval without exception.

b) Observe that finance charges and late fees were not assessed on the selected statements.

All the cards tested did not have finance charges or late fees.

13. Using the monthly statements or combined statements selected under #12 above, excluding fuel cards, randomly select 10 transactions (or all transactions if less than 10) from each statement, and obtain supporting documentation for the transactions (i.e. each card should have 10 transactions subject to testing). For each transaction, observe that it is supported by (1) an original itemized receipt that identifies precisely what was purchased, (2) written documentation of the business/public purpose, and (3) documentation of the individuals participating in meals (for meal charges only).

For applicable cards selected, the entity produced original, itemized receipts with documentation of the purpose of the transaction. None of the transactions selected were for meals.

#### Travel and Travel-Related Expense Reimbursement

Not applicable because of no exceptions in previous year.

#### Contracts

Not applicable because of no exceptions in previous year.

#### Payroll and Personnel

Not applicable because of no exceptions in previous year.

#### Ethics

*Not applicable because of no exceptions in previous year.* 

#### Debt Service

*Not applicable because of no exceptions in previous year.* 

#### Other

Not applicable because of no exceptions in previous year.

We were not engaged to and did not conduct an examination or review, the objective of which would be the expression of an opinion or conclusion, respectively, on those C/C areas identified in the SAUPs. Accordingly, we do not express such an opinion or conclusion. Had we performed additional procedures, other matters might have come to our attention that would have been reported to you.

Statewide Agreed-Upon Procedures Page 6

The purpose of this report is solely to describe the scope of testing performed on those C/C areas identified in the SAUPs, and the result of that testing, and not to provide an opinion on control or compliance. Accordingly, this report is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the LLA as a public document.
